Dear Ms Alldis

## **Planning Act 2008 (as amended)**

### **Proposed application by Total Energies and Corio Generation for an Order Granting Development Consent for the Outer Dowsing Offshore Wind (Generating Station)**

Thank you for sending your draft Statement of Community Consultation (SoCC) to us for review. Our comments are below.

#### **Figure 1**

It is not clear what the figures/data on the axis of Figure 1 represent.

#### **Part 4**

You may wish to include to the Planning Inspectorate's (PINS) [Advice Note Three](#) which details the Environmental Impact Assessment/scoping process, and the consultation bodies PINS notify. This may also help consultees familiarise themselves with PINS' website.

#### **Part 5**

You may wish to include a reference/links to [PINS Advice Note Eight](#) series which gives an overview of Planning Act 2008 process.

## **Part 7**

A link or reference to PINS' [Advice Note 8.1](#) would be beneficial here. It may also be of benefit to provide a list of the Local Planning Authorities you are collaborating with. You may also wish to consider using social media as a line of communication.

## **General**

[Advice Note 14 – Compiling the Consultation Report](#) contains information on how the SoCC process should be addressed in the Consultation Report. You may wish to consider this advice at this early stage to help inform the Consultation Report at a later date.

I hope this advice is useful. Please do not hesitate to contact the Case Team if you have any queries.

Yours sincerely

Edwin Mawdsley
