1.	Network Rail (“NR”)		RR-272	REP2-033	N/A	Part 1 and 2	N/A	55,56,57, 59 and 61.	Yes but the rights can coexist, the concern of NR is that the dDCO contains the powers to extinguish their rights if they are incompatible with those sought by the Applicant.	<p>The Applicant has continued to liaise with the legal representatives of NR however, progress has been slow and there remains no agreement. NR is still in the process of confirming their affected rights which are outlined in [REP2- 033]. The Applicant has been clear that it is only rights of access which may be affected and that as these can co-exist there is no need to extinguish the same.</p> <p>The Applicant understands from the latest correspondence from NR (dated 22 May 2025) that they require their standard protective provisions on the face of the DCO. While the Applicant disagrees that this is necessary (see Summary Statement of Outstanding Matters [submitted at deadline 9]) in the interests of closing out this matter it has included protective provisions for NR in the version of the dDCO submitted at deadline 9. The proposed protective provisions are based on the NR standard</p>
