Dear Melissa,

At the last Enso Helios hearing there was mention of the cumulative impact in relation to the other 2 solar farms already in the area but little mention of the cumulative impact in relation to the battery storage either approved or proposed within Camblesforth,

I feel that it is crucial that this is given due regard considering the health and safety implications for residents and the potential environmental impacts.

I would like to submit a recent article for the inspector to review as it summarises these aspects very clearly.

[yorkshirebylines.co.uk/region/the-yorkshire-village-sinking-under-renewable-energy-projects/](https://yorkshirebylines.co.uk/region/the-yorkshire-village-sinking-under-renewable-energy-projects/)

Please can it be ensured that this is passed on to the inspector.

Kind regards,

Lesley Marson
