### **THE PLANNING ACT 2008 AND THE INFRASTRUCTURE PLANNING (ENVIRONMENTAL IMPACT ASSESSMENT) REGULATIONS 2017**

#### **NOTICE OF A DECISION ON AN APPLICATION FOR AN ORDER GRANTING DEVELOPMENT CONSENT FOR EIA DEVELOPMENT**

The Secretary of State for Energy Security and Net Zero (“the Secretary of State”) gives notice under regulation 31(2) of the Infrastructure Planning (Environmental Impact Assessment) Regulations 2017 that a determination has been made on an application made by National Grid Electricity Transmission plc (“the Applicant”) for development consent under the Planning Act 2008 (“the 2008 Act”) for development that constitutes “Environmental Impact Assessment development” as defined in the 2017 Regulations.

The application is for the construction, operation, maintenance and decommissioning of a solar photovoltaic power generating station (“the Proposed Development”).

The Proposed Development comprises ground mounted solar panels, inverters, transformers and switchgear, with a rated output of over 50 megawatts. Associated development includes battery energy storage, substation, and connection to the National Electricity Transmission System with the connection agreement allowing a 190-megawatt connection at the Drax substation. The Proposed Development has an area of approximately 475 hectares of agricultural land in North Yorkshire.

The Secretary of State has decided, following consideration of the report of the Examining Authority who conducted an examination into the application, that development consent should be granted for the Proposed Development.

The statement of reasons for deciding to make an Order granting development consent, which has been prepared by the Secretary of State under section 116 of the 2008 Act and regulation 31(2) of the Infrastructure Planning (Environmental Impact Assessment) Regulations 2017, containing the content of the decision, the requirements imposed in connection with the development, the main reasons and considerations on which the decision is based including relevant information about the participation of the public, a description of the main features to avoid, reduce and offset any major adverse effects of the development, is published on the Planning Inspectorate’s website:
