3. Virtual Site Inspection

The Applicant has prepared a separate **Virtual Site Inspection Submission Note [EN010141/DR/8.45]** to accompany the digital survey video submissions made at Deadline 4.

Despite the Applicant's efforts to reduce file sizes, including through adjustments to the playback speeds, the video files for the 360-degree walkovers are large file sizes.

Unfortunately, limitations within the Planning Inspectorate's systems means that they are not able to process file sizes that exceed 1 GB in size, and therefore the Applicant has had to split the video files into files of less than 1 GB size.

Whilst this does not affect the underlying content of the videos, the Applicant fully acknowledges that this makes the digital survey files difficult to engage with, and requires the viewer to load multiple files to follow a single survey route.

The Applicant has therefore prepared an alternative means to view the full videos as single video files, which are available on the Applicant's website at: www.eastparkenergy.co.uk

It should be noted that whilst the full versions of the video files hosted on the Applicant's website present the exact same content as those submitted to the Examination, they should not be relied upon as part of the Examination. The definitive version that Interested Parties should rely upon and reference in any submissions to the Planning Inspectorate are those that are hosted in the Examination Library.

4. Draft Development Consent Order

The Applicant is making positive progress with the Host Authorities on the draft Development Consent Order and will submit an updated version at Deadline 5.

5. Statements of Common Ground

The Applicant has now reached agreement on all matters covered by the Statements of Common Ground with the following stakeholders:

- Natural England;
- Historic England (signed);
- Environment Agency;
- National Highways; and
- Cambridgeshire Fire and Rescue Service (signed).

The Applicant expects to receive signed copies of the Statements of Common Ground with Natural England, the Environment Agency, and National Highways prior to the close of examination.

The Applicant has updated Section 4.0 of the **Statement of Commonality [EN010141/DR/8.21]** to provide an update on progress with the Host Authorities and

National Grid Electricity Transmission. The Applicant and Host Authorities will submit updated Statements of Common Ground at Deadline 5.

6. Update with respect to land and compulsory acquisition

The Applicant is making positive progress in relation to the voluntary acquisition of land and rights and will provide an update at Deadline 5.

7. Assessment of Warren House

The Applicant noted in its response at reference HDC-D2-02 in the **Applicant Response to Deadline 2 Submissions - Host Authorities and Statutory Environmental Bodies [REP3-073]** submission that it was in the process of capturing additional photography to support the assessment of impacts at Warren House, as requested by Huntingdonshire District Council. The Applicant has now undertaken this photography and prepared a photomontage at Years 0 and Year 10, which is available in the submitted **Technical Note on Warren House [EN010141/DR/8.61]**.

Please do not hesitate to contact the undersigned representative of the Applicant if you have any questions or require any further information regarding this submission.

Yours sincerely,

DCO Project Manager on behalf of BSSL Cambsbed 1 Limited
