Dear Sir or Madam,

RE: Tillbridge Solar Project DCO Application by Tillbridge Solar Limited ("the Application")

Deadline 4 Response

The Applicant has submitted amended Outline Design Principles and Scheme Description documents to Deadline 3. These were in part to respond to comments from the Canal & River Trust ("the Trust") raised in our Relevant Representation.

The amended Outline Design Principles and Scheme Description documents now capture drilling depth specifications that mirror the wording used in the consented Gate Burton and Cottam Solar Projects and as included within the draft documents for the West Burton Solar Project. Whilst the wording is slightly different from that used for the other projects, we consider that factually the revised wording doesn't alter its meaning but does improve its understanding.

The above comments are given without prejudice to other matters or comments that may be raised by the Trust at a later stage of the examination process. Please do not hesitate to contact me with any queries you may have.

Yours faithfully,
