Sirs,

I have lost count of the number of emails and letters I have sent in protest at not only this, but other proposals for solar 'farms' in our area. Combined, this would make this part of Lincolnshire home to the third largest solar 'farm' in the world. We, the residents, do not want this.

I don't want to go over, yet again the effect these inefficient structures would have on the environment, our beautiful countryside, food production, mental health, house prices.....

Solar panels belong on rooftops, not across our countryside. We moved to Lincolnshire for its rural nature, not to be surrounded by black glass.

Please take notice of us, as we feel we are not being listened to.

Cheryl Felix,
