Subject: TILLBRIDGE SOLAR PROJECT - IP NO. 20049933 - SECRETARY OF STATE LETTER DATED 7th AUGUST 2025 FROM THE DEPARTMENT FOR ENERGY SECURITY AND NET ZERO
Date: 29 August 2025 20:17:25
Importance: High

Dear Sirs – Good evening

EN010142 - 001332

Application by Tillbridge Solar Limited (“the Applicant”) for an Order granting Development Consent for the proposed Tillbridge Solar Project (“the Proposed Development”)

Letter from the Secretary of State dated 7 August 2025 from the Department for Energy Security and Net Zero.

Responses to the Secretary of State Consultation 1

As an Interested Party who has participated both in writing and attendance at Open Floor Hearings throughout the Consultation / Examination process I further wish to record the importance of the enormity of the developer being held to account on statements and information they have given throughout the examination process. To this end I request that provision for such action should be an essential requirement to be made within the DCO and to have outside local authorities as consultees before the developer(s) can go ahead with the development and including throughout the development process.

I have read the comments made by Lincolnshire County Council in response to the Secretary of State’s consultation C1-004 dated August 12th 2025 and agree with and wholly support Lincolnshire County Council being a consultee in respect of the Tillbridge Solar Development.

I shall be grateful if you will kindly acknowledge receipt of this submission.

Thank you.

P A Mitchell
