5 June 2025

Dear Mr Raywood,

Dogger Bank D Offshore Wind Farm

Notice of Duty to Notify Secretary of State of proposed application in accordance with section 46 of the Planning Act 2008 (as amended) (the Act)

We are writing to notify you, in accordance with section 46 'Duty to notify Secretary of State' of the Act that SSE Renewables and Equinor, acting through Doggerbank Offshore Wind Farm Project 4 Projco Limited (company number 13587611) of No.1 Forbury Place, 43 Forbury Road, Reading, United Kingdom, RG1 3JH (**the Applicant**) intend to apply to the Secretary of State under section 37 of the Act for a Development Consent Order (**DCO**) to construct, operate, maintain and decommission an offshore wind farm known as the Dogger Bank D Offshore Wind Farm (**the Project**).

As the proposed generating capacity exceeds 100 megawatts (MW), the Project is classified as a Nationally Significant Infrastructure Project under section 15(3) of the Act and therefore requires development consent.

The Applicant expects to submit the DCO application for the Project in 2026. The DCO application will include full details of the Project and will be accompanied by an Environmental Statement (**ES**), prepared in accordance with section 37(3) of the Act and the Infrastructure Planning (Environmental Impact Assessment (EIA)) Regulations 2017 (the EIA Regulations).

The Project

The offshore wind turbines will be located in the Dogger Bank area of the southern North Sea, covering a total area of 262km² and is situated approximately 210km off the Yorkshire coast. Electricity generated from the Project will be transmitted to shore via offshore export cables, making landfall southeast of Skipsea in East Riding of Yorkshire. From there, underground onshore high voltage direct current (HVDC) cables will connect to a converter station, with high voltage alternating current (HVAC) cables continuing to the proposed National Grid Birkhill Wood Substation. Note that Birkhill Wood Substation is being developed separately by National Grid Electricity Transmission (NGET) and does not form part of the Project proposals.

Project Infrastructure

The Project will include both permanent and temporary infrastructure across the offshore and onshore development areas. This will include, but is not limited to:

- Offshore infrastructure such as offshore wind turbines and associated foundation structures, offshore platform(s) and associated foundation structures, inter-array cables and offshore export cables;
- Landfall infrastructure including a transition joint bay and associated underground link box to connect the offshore and onshore export cables;
- Onshore infrastructure including underground HVDC cables (up to 500kV), HVAC cables (400kV), jointing bays, link boxes, a converter station, energy storage and balancing infrastructure, and a connection to the national grid; and
- Environmental areas for biodiversity net gain, enhancement and/or mitigation, with permanent access for operation and maintenance of those areas.

Statutory Consultation

The Applicant will begin consultation with consultation bodies identified under section 42 of the Act on **Tuesday 10 June 2025**. The consultation will close at **23:59** on **Tuesday 5 August 2025**. In accordance with section 45(2) of the Act, everyone consulted will have at least 28 days from the day after they receive the consultation documents to submit their comments.

The statutory consultation includes:

- Consultation with prescribed bodies, relevant local authorities, and those with an interest in the land affected by the Project (under section 42);
- Consultation with the local community in the vicinity of the Project (under section 47); and
- General public consultation on the Project (under section 48).

In accordance with section 46 of the Act, we enclose the following documents for your attention:

- A notice publicised in accordance with section 48 of the Act;
- Example covering letter sent to consultees under section 42 of the Act and/or regulation 13 of the EIA Regulations;
- Example covering letter sent to land interests consulted under section 42 of the Act;

The following materials (the **Consultation Materials**) will be provided to consultees as part of the Applicant's duty to consult under section 42 of the Act:

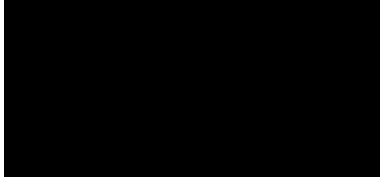

- Statutory Consultation brochure;
- Statutory Consultation Feedback Form;
- Plans showing the offshore and onshore boundaries of the Project;
- Preliminary Environmental Information Report (PEIR);
- Non-Technical Summary (NTS) of the PEIR;
- Guide to the PEIR;
- Draft information for the Habitats Regulations Assessment; and
- Draft information for the Marine Conservation Zone Assessment.

The Consultation Materials, including the PEIR, will be available free of charge on the Project website at <https://doggerbankd.com/consultation> starting from **Tuesday 10 June 2025**.

Hard copies can be requested and details of how to request them, including any associated charges, are provided in the enclosed Section 48 Notice.

If you have any questions regarding this consultation, the Project or the Consultation Materials, please contact us using the details below.

Yours sincerely,

Consent Team Leader
Dogger Bank D Offshore Wind Farm

9 June 2025

Dear [SALUTATION],

Statutory Consultation under section 42 of the Planning Act 2008 (the Act) and Regulation 13 of the Infrastructure Planning (Environmental Impact Assessment) Regulations 2017 (the EIA Regulations)

We are writing to consult with you regarding the proposed application for the Dogger Bank D Offshore Wind Farm (the Project). You have either been identified as a prescribed consultee for the purposes of section 42 of the Act 2008 and/or Regulation 13 of the EIA Regulations or because we believe it is appropriate to seek your views as a non-statutory consultee.

Statutory Consultation

The Project is currently in the pre-application stage of the Development Consent Order (DCO) application process. As part of that process, the Applicant is required to carry out a statutory consultation on preliminary environmental information for the Project prior to submission.

The Applicant has prepared a Preliminary Environmental Information Report (PEIR) which presents the preliminary findings of the Environmental Impact Assessment (EIA) undertaken to date and forms the basis of this statutory consultation.

The PEIR is provided to help consultees understand the likely environmental effects of the Project to inform responses to the consultation. A non-technical summary of the PEIR has also been prepared.

The Applicant invites consultees to consider the information provided for consultation and welcomes responses. In accordance with section 45(2) of the Act, consultees will have at least 28 days from the day after they receive the consultation documents to submit their comments.

The statutory consultation will begin on **Tuesday 10 June 2025** and will close at **23.59** on **Tuesday 5 August 2025**.

Background

SSE Renewables and Equinor, acting through Doggerbank Offshore Wind Farm Project 4 Projco Limited (**the Applicant**), are developing the Project, a proposed offshore wind located in the North Sea. The Project has the potential to export up to 1.5 gigawatts (GW) of renewable electricity and is expected to support the UK's Net Zero targets.

As the proposed generating capacity exceeds 100 megawatts (MW), the Project is classified as a Nationally Significant Infrastructure Project (NSIP) under sections 14(1)(a) 15(3) of the Act and therefore requires development consent. As a result, an application for development consent will be

prepared in accordance with section 37 of the Act. The Applicant expects to submit the DCO application in 2026.

The DCO application will include full details of the Project and will be accompanied by an Environmental Statement (ES) prepared in accordance with section 37(3) of the Act and the 2017 Regulations. If the DCO application is accepted, the Planning Inspectorate will then process and examine the application, before making a recommendation to the Secretary of State for Energy Security and Net Zero (**the Secretary of State**). The final decision on the DCO application will be made by the Secretary of State.

The requirements for applications for a DCO are set out in the Act, and subsequent guidance has been issued by the UK Government and the Planning Inspectorate. The relevant information can be found here: <https://infrastructure.planninginspectorate.gov.uk>.

The Project

The offshore wind turbines will be located in the Dogger Bank area of the southern North Sea, covering a total area of 262km² situated approximately 210km off the Yorkshire coast. Electricity generated from the Project will be transmitted to shore via offshore export cables, making landfall southeast of Skipsea in East Riding of Yorkshire. From there, underground onshore high voltage direct current (HVDC) cables will connect to a converter station, with high voltage alternating current (HVAC) cables continuing to the proposed National Grid Birkhill Wood Substation. The Applicant notes that Birkhill Wood Substation is being developed separately by National Grid Electricity Transmission and therefore does not form part of the Project proposals.

Project Infrastructure

The Project will comprise both permanent and temporary infrastructure across the offshore and onshore development areas. This will include, but is not limited to:

- Offshore infrastructure such as offshore wind turbines and platforms including associated foundation structures, inter-array cables and offshore export cables;
- Landfall infrastructure including a transition joint bay and associated underground link box to connect the offshore and onshore export cables;
- Onshore infrastructure including underground export cables, jointing bays, link boxes, a converter station and co-located energy storage and balancing infrastructure;
- Areas for environmental mitigation and/or enhancement; and
- Ancillary infrastructure.

Consultation Materials

The Applicant has published materials to support this consultation (the **Consultation Materials**). These include but are not limited to:

- Statutory Consultation brochure;
- Statutory Consultation Feedback Form;
- Plans showing the offshore and onshore boundaries of the Project;
- Preliminary Environmental Information Report (PEIR);
- Non-Technical Summary (NTS) of the PEIR;
- Guide to the PEIR;
- Report to Inform Appropriate Assessment; and
- Stage 1 Marine Conservation Zone Assessment.

The Consultation Materials, including the PEIR, will be available free of charge on the Project website at <https://doggerbankd.com/consultation> from **Tuesday 10 June 2025**. The Document Register (Appendix 1.3), also available on the website, can be referred to for a reference of all the Consultation Materials.

Hard copies can be requested and details of how to request them, including any associated charges, are provided in the enclosed Section 48 Notice.

Responding to this Statutory Consultation

The Applicant welcomes your comments on the Consultation Materials. You can submit your comments in any of the following ways:

- **By email:** send your comments to contact@doggerbankd.com
- **By post:** return a completed feedback form or write to us at:
FREEPOST DOGGER BANK D
(Please note: registered post cannot be sent to a Freepost address)
- **Online:** complete the feedback form at www.doggerbankd.com

When responding, please include your name and contact details (a postal or email address) for future correspondence. **The deadline for submitting consultation responses is 23:59 on Tuesday 5 August 2025.**

All responses will be carefully considered as we refine the Project proposals, and a summary of the feedback and how it has been taken into account will be set out in the Consultation Report submitted with the DCO application. **Please note that any responses you provide may be published.** Your personal details will be kept secure and will only be used in relation to the pre-application consultation, the DCO application process, and the ongoing development and assessment of the Project. We will not publish your personal details nor share your personal information with third parties unless we are legally required to do so.

Continued Engagement

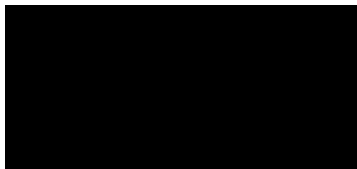

The Applicant welcomes continued engagement on any matters related to the Project that interest you outside of this consultation. The planning process encourages developers and consultees to work together to resolve as many issues as possible before the DCO application is submitted.

This consultation, along with our wider engagement, is an important part of that process. We encourage you to take this opportunity to share your views. Details of all in-person and virtual events can be found in the Statutory Consultation Brochure and the Section 48 Notice.

Contacting the Project team

You can contact us on 0800 254 5029 or email contact@doggerbankd.com. We welcome your comments and look forward to considering your feedback.

Yours sincerely,

Consent Team Leader

Reference: Dogger Bank D Offshore Wind Farm (EN010144) Statutory Consultation

9 June 2025

Dear [insert landowner name],

Statutory Consultation under section 44 of the Planning Act 2008 (the Act) and Regulation 13 of the Infrastructure Planning (Environmental Impact Assessment (EIA)) Regulations 2017 (the EIA Regulations)

We are writing to consult with you regarding the proposed application for the Dogger Bank D Offshore Wind Farm (**the Project**). You have been identified as a prescribed consultee for the Project.

SSE Renewables and Equinor, acting through Doggerbank Offshore Wind Farm Project 4 Projco Limited (the Applicant), are developing the Project, a proposed offshore wind farm in the North Sea. The Project has the potential to export up to 1.5 gigawatts (GW) of renewable electricity and is expected to support the UK's Net Zero targets.

As the proposed generating capacity exceeds 100 megawatts (MW), the Project is classified as a Nationally Significant Infrastructure Project (NSIP) under sections 14(1)(a) and 15(3) of the Act and therefore requires development consent. As a result, an application for development consent will be prepared in accordance with section 37 of the Act. The Applicant expects to submit the Development Consent Order (DCO) application in 2026. The DCO application will include full details of the Project and will be accompanied by an Environmental Statement (ES) prepared in accordance with section 37(3) of the Act and the EIA Regulations. If the DCO application is accepted, the Planning Inspectorate will then process and examine the application, before making a recommendation to the Secretary of State for Energy Security and Net Zero (the Secretary of State). The final decision on the DCO application will be made by the Secretary of State.

The requirements for applications for a DCO are set out in the Act, and subsequent guidance has been issued by the UK Government and the Planning Inspectorate. The relevant information can be found here: <https://infrastructure.planninginspectorate.gov.uk>.

Your Interest in the Land

You are receiving this letter because you have been identified as someone who must be consulted under section 42(1)(d) and section 44 of the Act. That means that either:

- You have an interest in land within the proposed application boundary for the Project; or
- You may have an interest in land that could be affected by the construction or operation of the Project, and which may give rise to a potential compensation claim under Section 44(4) of the Act, even if that land is outside the application boundary.

Please refer to the Book of Maps provided with the consultation materials, which show the current proposed onshore development area. While this information is accurate at the time of consultation, the identification of land interests is an ongoing process and may be updated as the Project design develops throughout the pre-application stage. The purpose of this consultation is to gather your views on the Project and its potential impacts which will be considered prior to submission of the DCO application.

The Project

The offshore wind turbines will be located in the Dogger Bank area of the southern North Sea, covering a total area of 262km² situated approximately 210km off the Yorkshire coast. Electricity generated from the Project will be transmitted to shore via offshore export cables, making landfall southeast of Skipsea in East Riding of Yorkshire. From there, underground onshore high voltage direct current (HVDC) cables will connect to a converter station, with high voltage alternating current (HVAC) cables continuing to the proposed National Grid Birkhill Wood Substation. The Applicant notes that Birkhill Wood Substation is being developed separately by National Grid Electricity Transmission and therefore does not form part of the Project proposals.

Project Infrastructure

The Project will comprise both permanent and temporary infrastructure across the offshore and onshore development areas. This will include, but is not limited to:

- Offshore infrastructure such as offshore wind turbines and platforms including associated foundation structures, inter-array cables and offshore export cables;
- Landfall infrastructure including a transition joint bay and associated underground link box to connect the offshore and onshore export cables;
- Onshore infrastructure including underground export cables, jointing bays, link boxes, a converter station and co-located energy storage and balancing infrastructure;
- Areas for environmental mitigation and/or enhancement; and
- Ancillary infrastructure.

Statutory Consultation

The Project is currently in the pre-application stage of the DCO application process. As part of that process, the Applicant is required to carry out a statutory consultation on the preliminary environmental information for the Project before submission.

The Applicant has prepared a Preliminary Environmental Information Report (PEIR) which presents the preliminary findings of the Environmental Impact Assessment (EIA) undertaken to date and forms the basis of this statutory consultation.

The PEIR is provided to help consultees understand the likely environmental effects of the Project and to inform responses to the consultation. A non-technical summary of the PEIR has also been prepared.

The Applicant invites consultees to consider the information provided for consultation. In accordance with section 45(2) of the Act, everyone consulted will have at least 28 days from the day after they receive the consultation documents to submit their comments.

The statutory consultation will begin on **Tuesday 10 June 2025** and will close at **23.59** on **Tuesday 5 August 2025**.

Consultation Materials

The Applicant has published the following materials to support this consultation (the **Consultation Materials**):

- Statutory Consultation brochure;
- Statutory Consultation Feedback Form;

- Plans showing the offshore and onshore boundaries of the Project;
- Preliminary Environmental Information Report (PEIR);
- Non-Technical Summary (NTS) of the PEIR; and
- Guide to the PEIR;

The Consultation Materials, including the PEIR, will be available free of charge on the Project website at <https://doggerbankd.com/consultation> from **Tuesday 10 June 2025**. The Document Register (Appendix 1.3), also available on the website, can be referred to for a reference of all the Consultation Materials.

Hard copies can be requested and details of how to request them, including any associated charges, are provided in the enclosed Section 48 Notice.

Responding to this Statutory Consultation

The Applicant welcomes your comments on the Consultation Materials. You can submit your comments in any of the following ways:

- **By email:** send your comments to contact@doggerbankd.com
- **By post:** return a completed feedback form or write to us at:
FREEPOST DOGGER BANK D
(Please note: registered post cannot be sent to a Freepost address)
- **Online:** complete the feedback form at www.doggerbankd.com

When responding, please include your name and contact details (a postal or email address) for future correspondence. **The deadline for submitting consultation responses is 23:59 on Tuesday 5 August 2025.**

All responses will be carefully considered as we refine the Project, and a summary of the feedback and how it has been taken into account will be set out in the Consultation Report submitted with the DCO application. **Please note that any responses you provide may be published.** Your personal details will be kept secure and will only be used in relation to the pre-application consultation, the DCO application process, and the ongoing development and assessment of the Project. We will not publish your personal details nor share your personal information with third parties unless we are legally required to do so.

Continued Engagement

The Applicant welcomes continued engagement on any matters related to the Project that interest you outside of this consultation. The planning process encourages developers and consultees to work together to resolve as many issues as possible before the DCO application is submitted.

This consultation, along with our wider engagement, is an important part of that process. We encourage you to take this opportunity to share your views.

Consultation Events

The Applicant is holding a series of in-person consultation events which offer stakeholders and consultees the opportunity to meet the Project team, learn about the proposals, ask questions and provide feedback. Consultation Materials will be available to view and take away at each event. The details of these events are below.

Venue	Date	Time
Skipsea Village Hall Bridlington Road, Skipsea, YO25 8TJ	Tuesday 24 June	3pm to 6.30pm

Venue	Date	Time
Leven Sports Hall North Street, Leven, HU17 5NF	Wednesday 25 June	2pm to 7pm
Cottingham Civic Hall Market Green, Cottingham, HU16 5QG	Thursday 26 June	10am to 2pm
Walkington Village Hall 17 E End, Walkington, HU17 8RX	Thursday 26 June	3pm to 6pm
Toll Gavel Church Hall 27 Toll Gavel, Beverley, HU17 9AA	Friday 27 June	10am to 2pm
Beverley Memorial Hall 73-75 Lairgate, Beverley, HU17 8HN	Saturday 28 June	10am to 2pm

For those who prefer to engage online or cannot attend an in-person event, we will hold two webinars, which will include an overview presentation about the Project, followed by a Q&A session, with various Project team members available to answer questions. You can register by email or by calling 0800 254 5029.

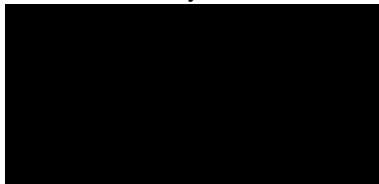

Webinar 1 Thursday 3 July, between 6pm to 7pm
Webinar 2 Tuesday 8 July, between 12pm to 1pm

Contacting the Project team

You can contact us on 0800 254 5029 or email contact@doggerbankd.com.

We welcome your comments and look forward to considering your feedback.

Yours faithfully,

Consent Team Leader
Dogger Bank D Offshore Wind Farm

Enc. Section 48 Notice

The Application

Notice is hereby given that SSE Renewables and Equinor acting through Doggerbank Offshore Wind Farm Project 4 Projco Limited of No.1 Forbury Place, 43 Forbury Road, Reading, United Kingdom, RG1 3JH (the “Applicant”), are proposing to submit an application to the Secretary of State for Energy Security and Net Zero under Section 37 of the Planning Act 2008 for development consent (the “Application”) for the Project.

Dogger Bank Wind Farm is the world’s largest offshore wind farm in construction, located in the North Sea. The first three phases of Dogger Bank Wind Farm, Dogger Bank A, B and C, are underway. The Project is a proposed fourth phase which seeks to maximise the capacity of the eastern portion of the original Dogger Bank C area. The Project has the potential to export up to 1.5GW of energy and is expected to support the UK’s Net Zero targets.

The Project is a development for which development consent is required under Section 31 of the Planning Act 2008. As the Project is an offshore generating station with a proposed capacity of more than 100MW it is classified as a nationally significant infrastructure project under Sections 14(1)(a) and 15(3) of the Planning Act 2008.

The Application will seek powers for the Applicant to construct, operate and maintain and decommission the Project. It will also cover:

- The temporary and permanent compulsory acquisition of land and/or rights which are required for the Project and/or are required to facilitate or are incidental to the Project;
- Overriding easements and other rights over or affecting the land for the Project;
- The application and/or disapplication of legislation relevant to the Project including legislation relating to compulsory acquisition; and
- Such ancillary, incidental and consequential provisions, permits and consents as are necessary and convenient including deemed marine licences.

About the Project

The Project will comprise both permanent and temporary infrastructure for the generation and transmission of electricity from up to 113 wind turbines in the array area located in the Dogger Bank, North Sea. Electricity generated from the Project will be transmitted to shore via offshore export cables, making landfall southeast of Skipsea in East Riding of Yorkshire. From there, underground onshore high voltage direct current (HVDC) cables will connect to a converter station, with high voltage alternating current (HVAC) cables continuing to the proposed National Grid Birkhill Wood Substation. Note that Birkhill Wood Substation is being developed separately by National Grid Electricity Transmission and does not form part of the Project proposals.

Project infrastructure will comprise, but is not limited to:

- Offshore infrastructure including offshore wind turbines and associated foundation structures, offshore platform(s) and associated foundation structures, inter-array cables and offshore export cables;
- Landfall infrastructure such as a transition joint bay and associated underground link box to connect the offshore and onshore export cables;
- Onshore infrastructure including underground HVDC cables (up to 500kV), HVAC cables (400kV), jointing bays, link boxes, a converter station, energy storage and balancing infrastructure, and a connection to the national grid substation; and
- Environmental areas for biodiversity net gain, enhancement and/or mitigation, with permanent access for operation and maintenance of those areas.

Environmental Impact Assessment

The Applicant has notified the Secretary of State in writing under Regulation 8(1)(b) of The Infrastructure Planning (Environmental Impact Assessment) Regulations 2017 (the “EIA Regulations”) that they intend to provide an Environmental Statement (ES) in respect of the Project. The Project is an “EIA development” for the purposes of the EIA Regulations and an ES will form part of the Application.

The Project is consulting on its preliminary assessment of the environmental effects that are compiled in a Preliminary Environmental Information Report (PEIR) and is accompanied by a Non-Technical Summary (NTS) of the PEIR.

Consultation materials

The Applicant has published a number of materials to support this consultation (“the Consultation Materials”). These include, but are not limited to:

- The PEIR which sets out the current environmental baseline, assesses the potential environmental impacts of and to the project, and proposes mitigations for potential likely significant effects;
- A NTS of the PEIR; and
- Plans of the onshore development area, provided in various formats.

Other consultation information

The Applicant has also published other consultation information including the following:

- Statement of Community Consultation (“SoCC”), which sets out how the Applicant will consult local communities during the statutory consultation;
- Statutory Consultation Brochure, which outlines the Project’s proposals, consultation activities and summarises the PEIR;
- Statutory Consultation Poster, which explains how people can take part in the consultation, attend an event and provide feedback; and
- Consultation newsletter, a newsletter which summarises key information about the Project sent to those who have registered an interest in the Project via the Project website.

The consultation materials, PEIR, SoCC and other consultation information can also be accessed via the Project website at: <https://doggerbankd.com/consultation>.

All consultation materials will be available on the Project website from 10 June 2025. Printed copies of the consultation brochure, plans, feedback form (with a FREEPOST envelope) and the PEIR NTS can be requested using the contact details below. One copy of each is available free of charge. Consultation materials are also be provided in large print, alternative formats and different languages upon request. In accordance with this notice, a reasonable copying charge may apply for requests for a full paper copy of the PEIR. Alternatively, if you prefer a USB with the documents, we can send one free of charge. For any queries relating to accessing consultation materials please email contact@doggerbankd.com or call 0800 254 5029.

This notice and its contents form part of the consultation process required by the Act, and we would like your feedback. Your comments are important in helping us refine our proposals. The consultation starts on 10 June 2025 and the deadline for submitting responses to the consultation is 23:59 on 5 August 2025.

Upcoming consultation events and webinars

You can also view consultation materials at the consultation events where you can speak with members of the Project team. Consultation events and webinars will be held at the following venues, times and dates:

Date	Time	Venue
Tuesday 24 June 2025	3pm to 6:30pm	Skipsea Village Hall, Bridlington Road, Skipsea, YO25 8TJ
Wednesday 25 June 2025	2pm to 7pm	Leven Sports Hall, North Street, Leven, HU17 5NF
Thursday 26 June 2025	10am to 2pm	Cottingham Civic Hall, Market Green, Cottingham, HU16 5QG
	3pm to 6pm	Walkington Village Hall, 17 East End, Walkington, HU17 8RX
Friday 27 June 2025	10am to 2pm	Toll Gavel Church Hall, 27 Toll Gavel, Beverley, HU17 9AA
Saturday 28 June 2025	10am to 2pm	Beverley Memorial Hall, 73-75 Lairgate, Beverley, HU17 8HN
Thursday 3 July 2025	6pm to 7pm	Visit www.doggerbankd.com or email contact@doggerbankd.com to register and receive your webinar access link.
Tuesday 8 July 2025	12pm to 1pm	

Deposit locations

Printed copies of the consultation materials will be available from 10 June 2025 to 5 August 2025 in the following locations. Opening hours are subject to change, please check before you visit. Each deposit location has computer facilities available for public use which will allow access to the PEIR and other consultation documents on the Applicant’s website.

Location	Opening Times
Beverley Customer Service Centre, Champney Treasure House, Champney Road, Beverley, HU17 8HE	Mon to Weds: 9.30am to 4.30pm, Fri: 9.30am to 4.30pm Thurs, Sat and Sun: Closed
Bridlington North Library, Marton Gate, Bridlington, YO16 6YD	Tues: 9.30am to 5.00pm, Thurs: 9.30am to 7.00pm Fri: 9.30am to 2.00pm, Sat: 9.30am to 1.00pm Mon, Weds and Sun: Closed
Cottingham Library and Customer Service Centre, Market Green, Cottingham, HU16 5QG	Mon and Tues: 9.30am to 4.30pm, Thurs: 9.30am to 6.30pm Fri: 9.30am to 1.00pm, Sat: 9.30am to 12.30pm Weds and Sun: Closed
Driffeld Centre, Cross Hill, Driffeld, YO25 6RQ	Mon: 9.30am to 6.30pm, Tues to Fri: 9.30am to 4.30pm Sat: 9.30am to 12.30pm, Sun: Closed
Hornsea Library and Customer Services, Broadway, Hornsea, HU18 1PZ	Mon: 9.30am to 4.30pm, Tues: 12.30pm to 6.30pm Thurs: 9.30am to 1.30pm, Fri: 9.30am to 4.30pm Sat: 9.30am to 12.30pm, Weds and Sun: Closed
Leven Library, 74 East Street, Leven, HU17 5NG	Weds: 10.30am to 12.30pm, 3.30pm to 7.00pm Mon, Tues, Thurs, Fri, Sat and Sun: Closed
Market Weighton Wicstun Centre, 14 Beverley Road, Market Weighton, YO43 3JP	Mon and Fri: 9.30am to 4.30pm, Weds: 9.30am to 6.30pm Sat: 9.30am to 12.30pm, Tues, Thurs and Sun: Closed

Responding to this notice

A feedback form will be available on the Project website and at consultation events, deposit locations, or can be provided on request. Anyone can comment on the proposals for the Project or respond to this notice. The consultation brochure and feedback form outline specific topics where feedback is requested, but consultees are welcome to give feedback on any aspect of the Project.

Responding to this notice

There are several ways to submit feedback:

- Return a completed feedback form (paper or online version)
- By email contact@doggerbankd.com
- In writing, at no cost, to FREEPOST DOGGER BANK D.

Please be advised it is not possible to send registered post to a freepost address.

Consultation responses received will be reviewed and taken into consideration by the Applicant and any appointed agent of the Applicant. Copies of consultation responses will be made available in due course to the Secretary of State, the Planning Inspectorate, and other relevant statutory authorities as part of a Consultation Report to be submitted with the Application for development consent and will therefore be made publicly available. Please see our data privacy notice on the website: <https://www.doggerbankd.com/privacy/>

Please note that all comments must be received by the Applicant by **23:59 on 5 August 2025**.
