Summary of the Proposed Development

9. The Application is for development consent to construct, operate, maintain and decommission a solar photovoltaic (PV) electricity generating facility with a capacity of 840 megawatts (MW) and export connection to the National Grid. The Proposed Development will accommodate ground mounted PV generating stations (incorporating solar arrays); grid connection infrastructure cable route corridors; accesses and environmental mitigation and enhancement measures.

10. Botley West Solar Farm (the "Proposed Development") extends from an area of land in the north, situated between the A4260 and the Dorn River Valley near Tackley and Wootton (Northern Site Area), through a central section, situated broadly between Bladon and Cassington (Central Site Area), and connecting to a section further south near to Farmoor Reservoir and north of Cumnor (Southern Site Area), where the Proposed Development will connect to the National Grid transmission network. A map showing the location of the Proposed Development can be viewed on the Planning Inspectorate's National Infrastructure Planning website at the following link: https://infrastructure.planninginspectorate.gov.uk/wp-content/ipc/uploads/projects/EN010147/EN010147-000636-EN010147_APP_8.2%20-%20Location%20Plan.pdf

11. Development consent is required to the extent that development is or forms part of a Nationally Significant Infrastructure Project (NSIP) pursuant to sections 14(1)(a) and 15(1) and 15(2) of the Planning Act 2008, as an onshore generating station in England with a capacity greater than 50 MW. It is for this reason that the Proposed Development falls within the remit of the Secretary of State's decision-making powers.

12. The DCO, if granted, would authorise the compulsory acquisition of land, interests in land and rights over land, and the powers to use land permanently and temporarily. The DCO would also authorise alterations to the layout of streets, the construction of accesses to the Proposed Development, the temporary stopping up or management of the public rights of way, street works, removal of hedgerows and the application and disapplication of legislation.

Application form and accompanying documents

13. The Application form and its accompanying documents (including maps and plans, the Environmental Statement, Non-Technical Summary and the draft Order (the "Application Documents")), can be viewed and downloaded free of charge in the Documents section on the Botley West Solar Farm page of the Planning Inspectorate's website: <https://national-infrastructure-consenting.planninginspectorate.gov.uk/projects/EN010147/documents>.

14. An electronic copy of the Application Documents can be supplied free of charge on a USB memory stick. To request a USB, please email info@botleywest.co.uk, write to **FREEPOST BWSF** (free of charge; no need for a stamp) or telephone **0808 175 3085** (free of charge).

15. The full suite of Application Documents can be made available in hard copy format on a request. Given the size and format of the Application documents, a full suite of documents may cost up to £5,000. For any bespoke document requests, please contact the Applicant using the contact details at the bottom of the notice, who will provide the cost. Copies of individual documents are also available on request and a reasonable copying charge may apply.

16. If you require alternative methods for inspection of the Application Documents (for example in large print, audio or braille formats), please contact the Applicant by telephone **0808 175 3085** or email info@botleywest.co.uk.
