Accuracy of the Book of Reference, Land Plans and Points of Clarification,

Dear Inspectors,

My husband and I are not clear about the applicant's entries concerning Compulsory Land Acquisition in the Book of Reference regarding us as the owners of our property, [REDACTED]
[REDACTED]

One of the entries, page 261 position 8-19, and then page 546, pos 8-19, refers to restrictive covenants contained in a conveyance dated 11 November 1971 on the title ON136007

The covenant mentioned was for the owners of [REDACTED] to give access to water that used to run down the pipe from the well located within [REDACTED] grounds to a livestock drinking point, located North-East of the property [outside the [REDACTED] boundaries]. The well has not been in operation for decades, the track has not been used, and the livestock drinking shack has degraded and collapsed.

Another entry, page 269, position 8-29, and then page 691, pos 8-29, refers to the permanent acquisition of the public highway and the verge in Hanborough, concerning a half-width of subsoil of the public highway. Our drive and bridge underneath, and a pedestrian access at the other end of the property cross that verge.

It is not clear from these entries or the plan 8, land parcel 8-19, what the applicants' intentions/needs are.

The applicants have not engaged with us or even contacted us regarding this matter. We wish to see some clarity on the above entries and would like to understand how these CAs will affect us.

Best wishes

Dr Lidia Arciszewska
