# 1 Heritage Asset Concordance Tables

## 1.1 Introduction

- 1.1.1 These heritage asset concordance tables have been prepared in response to Question Q1.6.5 in the Examining Authority's First Written Questions and Request for Information **[PD-008]**. This was a request directed at the Applicant to provide a table that showed the 'scoped-in' heritage assets with the information arranged under site areas and field numbers.
- 1.1.2 Two separate tables have been prepared in response to this request. Table 1.1 shows those heritage assets that were 'scoped-in' for detailed assessment (of impacts and effects) as set out in ES Appendix 7.5: Settings Assessment (Rev 1) **[REP2-014]**. The table provides the asset name, also the National Heritage List for England (NHLE) number (as appropriate), the Botley West heritage gazetteer reference number (as appropriate, prefixed BW) and information regarding the asset type – scheduled monument, listed building etc.
- 1.1.3 Table 1.2 provides information regarding the known or potential buried archaeological remains on a field-by-field basis. The information includes the field number (as indicated on Figure 2 in ES Appendix 7.1: Historic Environment Desk-based Assessment **[APP-131]**, the Botley West heritage gazetteer reference number (pre-fixed BW), information gained from the review of aerial photographs (ES Appendix 7.2: Assessment of Airborne Remote Sensing and Satellite Imagery for Archaeology **[APP-132]**) and information gained from the geophysical survey (ES Appendix 7.3: Geophysical Survey Report **[APP-133 – APP-140]**). An additional column has been provided for the inclusion of information gained from the programme of archaeological trial trenching – this will be included within a revised version of this document once the results of the programme of trial trenching are available.

Field No.	BW Ref. No and Description	Air Photo and LiDAR Review	Geophysical Survey	Trial Trenching
<b>Northern Site Area</b>				
1.1	Nothing recorded.	Nothing recorded.	Possible small ring-ditch in northern part of the field (1.1a). Linear features - former field boundaries.	
1.2	Nothing recorded.	Nothing recorded.	Nothing recorded other than a small spread of ferrous material.	
1.3	Nothing recorded.	Nothing recorded.	Linear features - former field boundaries.	
1.4	Nothing recorded.	Nothing recorded.	Linear features - former field boundaries. One small area of former extraction.	
1.5	BW0718: Banjo enclosure near parish boundary.	APS_53 – parallel ditches in same location as banjo enclosure BW0718.	Banjo enclosure in north-west corner of field (1.5a - not same location as BW0718). Parallel ditches recorded on aerial photos (APS_53) were present.  Small square enclosure or structure in eastern part of field (1.5b).	
1.6	BW0719: Greek Iron Age bronze coins and a <i>sceatta</i> BW0787: Roman coins BW0788: Roman bronze coin BW0789: Roman coins  All of the above have an OS grid reference which places them at a grid intersection point. This means that the recorded location is not precise.	APS_54 – curvilinear earthworks and possible small enclosure in south west, LiDAR suggests area of former extraction.	Small ring ditch adjacent to eastern boundary. Linear features - former field boundaries (1.6a).  Extensive area of former extraction in south west, also some smaller areas.  Possible enclosing wall around cottage in south west corner (1.6b - outside Project Site).	
1.7	Nothing recorded.	Nothing recorded.	Linear features - former field boundaries.  A few small areas of former extraction adjacent to the eastern boundary.	

Field No.	BW Ref. No and Description	Air Photo and LiDAR Review	Geophysical Survey	Trial Trenching
1.8	Nothing recorded.	APS_51 – former field boundaries.	Former field boundaries recorded on aerial photos (APS_51) were present, plus some additional ones also likely to be former field boundaries.	
1.9	Nothing recorded.	APS_51 – former field boundaries.	Former field boundaries recorded on aerial photos (APS_51) were present, plus some additional ones also likely to be former field boundaries.	
1.10	Nothing recorded.	Nothing recorded.	Linear feature - former field boundary.	
1.11	BW0757: Prehistoric flint implements BW0790: Roman coins BW1327: Partial curvilinear enclosure	APS_50 – possible enclosure in north east corner of field (probably the one recorded as BW1327). APS_47 – linear features and evidence of extraction in southern part of field.	Enclosure in north east corner is very clear – internal features (pits) and entrance to the east (1.11a).  Linear features - former field boundaries.  Areas of former extraction adjacent to the northern boundary on both the west and east sides.  More areas of former extraction at southern end of the field, also features (1.11b) probably associated with the Roman site at Sansom's Platt which is immediately to the south.	
1.12	BW0791: Roman coins	Nothing recorded.	Linear features and small enclosures (1.12a – 1.12c), probably associated with the Roman site at Sansom's Platt which is immediately to the east.	
1.13	BW0759: Prehistoric flint implements BW0799: Roman pits with pottery BW0804: Roman coins BW0805: Possible Roman building BW0806: Roman artefacts	APS-47 – linear features and APS_46 possible small building (could be same as BW0805).	Linear features and small enclosures (1.13a – 1.13c, probably associated with the Roman site at Sansom's Platt which is immediately to the east.  The possible small building noted in the aerial photograph review (APS-46) is present (1.13d).	
1.14	Nothing recorded.	APS_45 – former field boundaries.	Group of small regular enclosures in north west corner (1.14a), probably

			<p>associated with the Roman site at Sansom's Platt which is immediately to the north west.</p> <p>Former field boundaries recorded on aerial photos (APS_45) were present, plus some additional ones also likely to be former field boundaries.</p>	
1.15	Nothing recorded.	Nothing recorded.	Linear features that seem to represent agricultural practices or drainage, also a couple of former field boundaries. One possible small square building in northern part of field (1.15a).	
1.16	Nothing recorded.	Nothing recorded.	Linear features that seem to represent agricultural practices or drainage.	
1.17	Nothing recorded.	APS_43 – former field boundaries.	<p>Enclosed settlement and associated field system and potential further settlement in northern part of field (1.17a – 1.17d).</p> <p>Linear features that seem to represent agricultural practices or drainage, also a couple of former field boundaries.</p>	
1.18	Nothing recorded.	Nothing recorded.	Linear features that seem to represent agricultural practices or drainage, also a couple of former field boundaries. Possible field system in north western part of field (1.18a) associated with the activity recorded in Field 1.17 to the west.	
<b>Central Site Area</b>				
2.1	BW0882: a historic trackway crosses this field	Possible area of former extraction in northern part of field (APS_42)	Small circular enclosure or round-house with associated features in central southern part of field (2.1a), also possible archaeological feature adjacent to southern boundary in western part of field, maybe part of same feature recorded in Field 2.3 to the south	

Field No.	BW Ref. No and Description	Air Photo and LiDAR Review	Geophysical Survey	Trial Trenching
			(APS_41). There are linear features that seem to represent former field boundaries, also evidence of agricultural practices or drainage.	
2.2	BW0882: a historic trackway forms the eastern boundary of this field	Small ring-ditch adjacent to northern boundary (APS_41). Area of possible pits in northern part of field (APS_40).	The small ring-ditch adjacent to northern boundary (APS_41) was present (2.3a), also a potential oval enclosure to the south (2.3b).  Linear features that seem to represent former field boundaries, also evidence of agricultural practices or drainage.	
2.3	BW0882: a historic trackway forms the western boundary of this field	Nothing recorded.	Linear features that seem to represent former field boundaries, also evidence of agricultural practices or drainage. Large area of former extraction adjacent to the eastern boundary.	
2.4	BW0882: a historic trackway forms the western boundary of this field	Nothing recorded.	Area of former extraction adjacent to the eastern boundary	
2.5	BW0882: a historic trackway forms the eastern boundary of this field	Nothing recorded.	Linear features that seem to represent agricultural practices or drainage, also a former field boundary.	
2.6	BW0882: a historic trackway forms the western boundary of this field.	Nothing recorded.	Linear features that seem to represent agricultural practices or drainage.	
2.7	BW0882: a historic trackway forms the western boundary of this field.	Nothing recorded.	Nothing recorded.	
2.8	BW0882: a historic trackway forms the western boundary of this field.	Nothing recorded.	Nothing recorded.	
2.9	Nothing recorded.	Nothing recorded.	Large regular enclosure in eastern part of field (2.9a), eastern side is part of a linear feature which extends to the north and south (2.9c). There is a gap in this ditch which represents the entrance to the enclosure.	

Field No.	BW Ref. No and Description	Air Photo and LiDAR Review	Geophysical Survey	Trial Trenching
			<p>Possible archaeological features east of here, adjacent to the eastern field boundary (2.9b).</p> <p>There are also linear features that seem to represent agricultural practices or drainage.</p>	
2.10	Nothing recorded.	Nothing recorded.	<p>The linear feature recorded in Field 2.9 to the north continues across the field (2.10a). It forms the eastern boundary of a concentration of small enclosures and/or round-houses with associated features (2.10b and 2.10c).</p> <p>There is a single small enclosure or round-house (2.10d) to the east of this ditch.</p> <p>There are also linear features that seem to represent agricultural practices or drainage.</p>	
2.11	Nothing recorded.	Nothing recorded.	Nothing recorded.	
2.12	Nothing recorded.	Nothing recorded.	<p>The linear feature recorded in Fields 2.9 and 2.10 to the north continues into this field (2.12e). It forms the western boundary of a concentration of small enclosures and/or round-houses with associated features, linked to the main linear feature by a short length of a similar linear feature (2.12c and 2.12d).</p> <p>In the north eastern part of the field is another concentration of features that may be walls or some form of structural material, with an associated spread of material that may be archaeological in origin (2.12a).</p> <p>There are also linear features that seem to represent agricultural practices or drainage.</p>	

Field No.	BW Ref. No and Description	Air Photo and LiDAR Review	Geophysical Survey	Trial Trenching
2.13	Nothing recorded.	Nothing recorded.	<p>The features recorded in the north eastern part of Field 1.13 extend across into the north western part of this field (2.13a). Again, these seem to be walls or structural elements.</p> <p>There are also linear features that seem to represent agricultural practices or drainage.</p>	
2.14	Nothing recorded.	Nothing recorded.	<p>There is a possible square enclosure in the southern part of the field, although the signal is quite poor (2.14a).</p> <p>Also an area of former extraction in the north west part of the field.</p>	
2.15	Nothing recorded.	Nothing recorded.	<p>There are linear features in the southern part of the field that seem to represent agricultural practices or drainage.</p> <p>A large feature crossing the field on a north west / south east alignment could be a palaeochannel.</p>	
2.16	Nothing recorded.	APS_39 – former field boundaries.	<p>Some of the former field boundaries recorded on aerial photographs (APS_39) are present, but not all of them.</p> <p>In the north-west part of the field is a group of regular square or rectangular enclosures (2.16a and 2.16b), possibly associated with the features recorded in Field 2.9 to the west.</p>	
2.17	Nothing recorded.	APS_39 – former field boundaries.	<p>Some of the former field boundaries recorded on aerial photographs (APS_39) are present.</p> <p>There is a possible square enclosure in the south western edge of the field, although the signal is quite poor (2.17b).</p> <p>There are linear features in the south eastern part of the field that seem to</p>

			represent agricultural practices or drainage.	
2.18	Nothing recorded.	Nothing recorded.	Possible former field boundary in the southern part of the field, linking to a similar feature in Field 2.19 to the east.	
2.19	Nothing recorded.	Nothing recorded.	Possible former field boundary in the central part of the field, linking to a similar feature in Field 2.18 to the west.  There are also linear features that seem to represent agricultural practices or drainage.	
2.20	Nothing recorded.	APS_36 – former field boundaries.	Possible former field boundaries, but do not match with APS_36. Possible archaeology in north west corner (2.20a and 2.20b) and again just further to the south (2.20c).  There are also linear features that seem to represent agricultural practices or drainage.	
2.21	Nothing recorded.	Nothing recorded.	There are linear features that seem to represent agricultural practices or drainage.	
2.23	Nothing recorded.	Nothing recorded.	Possible former field boundaries in central part of field.	
2.24	BW0882: a historic trackway forms the south western boundary of this field.	Nothing recorded.	Nothing recorded.	
2.25	BW0882: a historic trackway forms the south western boundary of this field.	Nothing recorded.	There are linear features that seem to represent agricultural practices or drainage.	
2.26	BW0882: a historic trackway forms the south western boundary of this field.	Nothing recorded.	Nothing recorded.	
2.27	Nothing recorded.	Nothing recorded.	Ring-ditch or round-house in western edge of field (2.27a), with a small

			square enclosure or building just to the south (2.27b).	
2.28	Nothing recorded.	Nothing recorded.	Features in the northern part of the field appear to be drainage-related.	
2.29	Nothing recorded.	Nothing recorded.	Nothing recorded.	
2.30	Nothing recorded.	Nothing recorded.	Two short linear features, possibly former field boundaries.	
2.31	Nothing recorded.	Nothing recorded.	Not surveyed – no development.	No trial trenches.
2.32	Nothing recorded.	Nothing recorded.	Not surveyed – no development.	No trial trenches.
2.33	Nothing recorded.	Nothing recorded.	Not surveyed – no development.	No trial trenches.
2.34	Nothing recorded.	Nothing recorded.	Not surveyed – no development.	No trial trenches.
2.35	Nothing recorded.	Nothing recorded.	Not surveyed – no development.	No trial trenches.
2.36	Nothing recorded.	Nothing recorded.	Not surveyed – no development.	No trial trenches.
2.37	Nothing recorded.	Nothing recorded.	Possible small enclosures in north east corner (2.37a – 2.37c). There are linear features that seem to represent agricultural practices or drainage.	
2.38	Nothing recorded.	Nothing recorded.	There are linear features that seem to represent agricultural practices or drainage.	
2.38.1	Nothing recorded.	Nothing recorded.	There are linear features that seem to represent agricultural practices or drainage.	
2.39	Nothing recorded.	Nothing recorded.	There are linear features that seem to represent agricultural practices or drainage.	

Field No.	BW Ref. No and Description	Air Photo and LiDAR Review	Geophysical Survey	Trial Trenching
2.40	Nothing recorded.	Nothing recorded.	There are linear features that seem to represent agricultural practices or drainage.	
2.41	Nothing recorded.	Nothing recorded.	There are linear features that seem to represent agricultural practices or drainage.	
2.41.1	Nothing recorded.	Nothing recorded.	Nothing recorded.	
2.42	Nothing recorded.	Nothing recorded.	Nothing recorded.	
2.42.1	Nothing recorded.	Nothing recorded.	Possible small enclosures in central part of the field (2.42.1a and 2.42.1b). There are linear features that seem to represent agricultural practices or drainage.	
2.43	Nothing recorded.	Nothing recorded.	Nothing recorded.	
2.43.1	Nothing recorded.	Nothing recorded.	Nothing recorded.	
2.43.2	Nothing recorded.	Nothing recorded.	Nothing recorded.	
2.43.3	Nothing recorded.	Nothing recorded.	Nothing recorded.	
2.43.4	Nothing recorded.	Nothing recorded.	Possible small enclosures in north eastern part of the field (2.43.4a). There are linear features that seem to represent agricultural practices or drainage.	
2.44	Nothing recorded.	Nothing recorded.	There are linear features that seem to represent agricultural practices or drainage.	
2.44.1	Nothing recorded.	Nothing recorded.	There are linear features that seem to represent agricultural practices or drainage.	

Field No.	BW Ref. No and Description	Air Photo and LiDAR Review	Geophysical Survey	Trial Trenching
2.45	Nothing recorded.	Nothing recorded.	<p>There is a cluster of small enclosures and associated features in the western part of the field (2.45a – 2.45c).</p> <p>There are linear features that seem to represent agricultural practices or drainage.</p>	
2.53	Nothing recorded.	Nothing recorded.	<p>There is a group of regular enclosures and associated features in the western part of the field (2.53a and 2.53b).</p> <p>There are linear features that seem to represent agricultural practices or drainage.</p>	
2.54	Nothing recorded.	Nothing recorded.	<p>There is a group of potential enclosures and associated features in the eastern part of the field (2.54a – 2.54d), possibly a double ditch round-house or double ring ditch close to the southern boundary (2.54e).</p> <p>There are linear features that seem to represent agricultural practices or drainage.</p>	
2.55	Nothing recorded.	Nothing recorded.	<p>There are linear features that seem to represent agricultural practices or drainage.</p>	
255.1	Nothing recorded.	Nothing recorded.	<p>There are linear features that seem to represent agricultural practices or drainage.</p>	
2.56	Nothing recorded.	Nothing recorded.	<p>There are linear features that seem to represent agricultural practices or drainage.</p>	
2.57	Nothing recorded.	Nothing recorded.	<p>There are linear features that seem to represent agricultural practices or drainage.</p>	

Field No.	BW Ref. No and Description	Air Photo and LiDAR Review	Geophysical Survey	Trial Trenching
2.58	Nothing recorded.	Nothing recorded.	There are linear features that seem to represent agricultural practices or drainage.	
2.59	Nothing recorded.	Nothing recorded.	There is a linear feature in the central part of the field (2.59a), with a possible small enclosure to the east (2.59b). There are linear features that seem to represent agricultural practices or drainage.	
2.60	Nothing recorded.	Nothing recorded.	There are linear features that seem to represent agricultural practices or drainage.	
2.61	Nothing recorded.	Nothing recorded.	One short and slightly sinuous linear feature.	
2.62	BW0743: Prehistoric or Roman pit cluster.	In the central part of the field is a circular enclosure with a square or trapezoid enclosure set within it. There are possible pit groups to the north and west. To the east and south east are short linear features, also an elongated enclosure and possibly another circular enclosure similar in size to the one mentioned above. There are also two areas of probable former extraction.	The circular enclosure with internal square or trapezoid enclosure is recorded, and seems to contain at least one pit (2.62a). The elongated enclosure to the south east is also present, but not the other circular enclosure (2.62b). The two main areas of likely former extraction are both present, along with other smaller areas. There are linear features that seem to represent agricultural practices or drainage.	
2.63	Nothing recorded.	Nothing recorded.	There are linear features that seem to represent agricultural practices or drainage.	
2.64	Nothing recorded.	Nothing recorded.	There are linear features that seem to represent agricultural practices or drainage.	

Field No.	BW Ref. No and Description	Air Photo and LiDAR Review	Geophysical Survey	Trial Trenching
2.65	Nothing recorded.	Nothing recorded.	There are linear features that seem to represent agricultural practices or drainage. There is also a palaeochannel of possibly a linear area of former extraction.	
2.66	Nothing recorded.	Nothing recorded.	There are linear features that seem to represent agricultural practices or drainage.	
2.67	Nothing recorded.	Nothing recorded.	Not surveyed – no development.	
2.68	Nothing recorded.	Nothing recorded.	Not surveyed – no development.	
2.69	Nothing recorded.	Nothing recorded.	There is one linear feature likely to represent a former field boundary. There are linear features that seem to represent agricultural practices or drainage.	
2.70	Nothing recorded.	Two ring-ditches or roundhouses in western part of field (APS_28) with cluster of pits to the west (APS_27), also small area of former extraction. Possible linear bank in eastern part of field.	One of the small ring- ditches or roundhouses in western part of field (APS_28) is present (2.70a). There are linear features that seem to represent agricultural practices or drainage.	
2.71	Nothing recorded.	Cluster of pits in western edge of field (APS_27), also small building (APS_25). Possible linear bank to the east (APS_24), continuation of feature recorded in Field 2.70 to the north.	The small building in the western edge of the field (APS_25) is present, and seems to be surrounded by a spread of building material (2.71a). There is an area of former extraction just to the east. There are linear features that seem to represent agricultural practices or drainage.	
2.72	Nothing recorded.	Nothing recorded.	Not surveyed – no development.	
2.73	Nothing recorded.	Nothing recorded.	Not surveyed – no development.	

Field No.	BW Ref. No and Description	Air Photo and LiDAR Review	Geophysical Survey	Trial Trenching
2.74	Nothing recorded.	Nothing recorded.	There are linear features that seem to represent agricultural practices or drainage.	
2.75	Nothing recorded.	Nothing recorded.	There are linear features that seem to represent agricultural practices or drainage.	
2.76	Nothing recorded.	Nothing recorded.	There are linear features that seem to represent agricultural practices or drainage.	
2.77	Nothing recorded.	Nothing recorded.	There are linear features that seem to represent drainage.	
2.78	Nothing recorded.	Nothing recorded.	<p>There is a clear building here that appears in plan form to be a Romano-Celtic temple with an entrance on the north west side, overlooking the valley of the River Evenlode (2.78a).</p> <p>The building is set within a square or rectangular enclosure (?temenos) (2.78b) and there is also another possible structure to the south east, also within the square or rectangular enclosure (2.78c.).</p> <p>There are other linear features outside the enclosure that are co-aligned with it and may be part of a contemporary field system.</p>	
2.79	BW0855: Anglo-Saxon settlement identified here during extraction (Purwell Farm).	Nothing recorded.	Heavily disturbed – it is likely that all of this field has been subject to extraction.	
2.80	Nothing recorded.	Nothing recorded.	There are linear features in the northern part of the field that seem to represent agricultural practices or drainage.	
2.81	Nothing recorded.	Nothing recorded.	There are linear features in the several parts of the field that seem to represent agricultural practices or drainage.	

Field No.	BW Ref. No and Description	Air Photo and LiDAR Review	Geophysical Survey	Trial Trenching
