

I am advising Mr and Mrs Cooke freehold owners of [REDACTED] on their case against the BW solar farm application.

The applicants have omitted the Cookes property from the accompanied visit itineray and so I request on their behalf the Exmaination Inspectors to come to [REDACTED] to see for themselves the impact on the Cookes property and the land over which they have restrictive covenants currently included in the draft DCO and the CA powers that could grant to the applicant or any unknown third party the Applicant could sell to or involve at a later date.

I have no doubt that this venue could be scheduled in after their visit to Goose Eye Farm and College Farm after the minibus has driven down the farm track from Purwell Farm [REDACTED]

Please confirm that this can be done and the Cookes will be there to meet the bus at an agreed time.

Thank you.

Harry St John
