

With reference to fields 1.17 and 1.18. I have the following comments:-

- 1) There is a very healthy population of Great Crested Newts in the field adjoining 1.17 and solar panels in 1.17 will obviously severely effect this habitat.
- 2) The hamlet of Shipton Slade has listed buildings and solar panels next door will obviously effect that.
- 3) The Oxford Host Authorities have put through a proposal to get fields 1.17 and 1.18 removed.
- 4) I believe the examiners have flagged up to the developers the severe impact that the panels in this area but as of yet the developers have not responded or given a reason why they should be removed.
- 5) There is a very well used footpath where walkers from Woodstock can complete a very pleasant 'circuit' but this will be ruined by the panels.
- 6) Surrounding the dwellings at Shipton Slade has made all the residents there fell trapped.
