Subject: Support for our MP's questions to the Secretary of State for Energy Security & Net Zero

You don't often get email from [REDACTED] [Learn why this is important](#)

I am writing to register my complete support for all the relevant questions asked by our excellent MP on 5 November

It should be obvious to anyone attending the public hearings and those reading their minutes that the applicants have no plans or intentions to carry out the installation of a vast array of the Solar panels without causing immense harm to the West Oxon countryside, the sites of Blenheim Palace etc, and the long suffering inhabitants of the intended site.

Their proposals should be closely scrutinised and the whole project severely scaled back to avoid irreversible damage to agricultural land, the buildings of special historic significance and the local population.

As an inhabitant of Long Hanborough for [REDACTED] years I look forward to a positive decision which reflects the overwhelming negative factors in this matter.

Terry GLOSSOP
