Hi
Our household is
Mark Smithson
Katharine Smithson
Libby Smithson age [REDACTED]
Jed Smithson age [REDACTED]

[REDACTED]
[REDACTED]
Bladon
[REDACTED]

So during this process which I have been trying to follow as best I can the latest episode of lack of information and mis information concerns me on several counts.

If we don't understand what is actually going to happen here how can the inspectorate understand the proposals.

I have concluded that I must be missing something!

So many technical issues that just aren't answered.

Are you considering some kind of outline permission which just cannot be correct.

I moved here from Kidlington 20 years ago because of the open countryside feel and I made as many thorough checks as was possible to ensure it would basically stay that way.

I travelled around the country and have seen so many suitable locations for Solar panels it seems so bizarre that they will be here.

But all that said are you able to tell me accurately the exact nature of this development because if not what kind of decision is going to be made?

Please ensure all issues and information is accurate and fully understood not least how exactly will it be future proofed, funded, and connected to the grid.

Many Thanks

Mark Smithson
Katharine Smithson
Libby Smithson
Jed Smithson.
