I am concerned about the number of trees that will be lost due to this scheme. Trees lost mean less natural habitat for wild life. There is already a reduction in the types of birds in this vicinity. There has been increased risk of flooding in Yarnton, with some houses having been flooded and run off from the panels will not help. The loss of good quality farming land is another concern. The loss of this land is needed to feed the growing population in these dangerous times Sent from my iPad
