You don't often get email from [REDACTED]

1/ The initial seed-corn money in the scheme was/is RUSSIAN money. When mentioned to the promoters of the scheme, recourse to the Law was frequently threatened BUT (and as far as I'm aware) NEVER fulfilled.

2/ The Solar Panels are made (by [REDACTED] in China - this was openly admitted by Blenheim

Does the UK really want a scheme dependent on RUSSIA and CHINA? Are such "friends" really welcomed at the heart of the UK Government, and one of its Key Departments?

Whilst suggesting that the whole basis of the Scheme is wrong, time-lines have been altered, it seems, to allow the Scheme to be rushed through for consideration when many important aspects are SUBSTANTIALLY INCOMPLETE.

It is MADNESS on all counts.

Sincerely,

Andrew Macaulay
