Applicant intends to make some substantial new submissions

I agree with the statement below

- This work should have been completed months ago during the Examination stage, and it seems wrong that the Applicant can ignore the advice given in the SoS's "refusal to extend" letter that clearly states: "The deadline of 23:59 on 9 June 2026 for response to the RFI therefore remains."

Please may I respectful request that the SoS should not accept submissions of new material from the Applicant on 16 July.
