Subject: Late submissions from PVDP re Botley West

Categories: SoS Consultation 2 Response

For the attention of the Secretary of State

It appears that PVDP intend to make some substantial new submissions around 16 July with newly updated Masterplans and updated assessments, despite their deadline to do this having passed.

Surely this is unacceptable?

PVDP have been consistently evasive, laggardly and misleading in their approach to this Application, not to mention their contravention of official guidelines. In short, they have shown themselves to be decidedly untrustworthy. Surely, an infrastructure project of *national* significance should not be entrusted to them?

Yours faithfully,

Nigel Pearce
