Subject: Botley West Solar

[You don't often get email from [REDACTED]. Learn why this is important at [REDACTED]]

I am a resident of Church Hanborough, one of the villages that will be negatively impacted by Botley West Solar.

I am in favour of renewable energy however the enormous scale and inappropriate location of BWS causes me concern.

It appears to be for the financial gain of the Blenheim Estate and Photovolt Development Partners at the expense of productive farmland, wildlife and the quality of life of local residents.

I encourage the minister to consider alternative locations for such solar power stations, preferably on brown field sites and the roofs of commercial properties.

James Fleetwood
