Dear Secretary of State

Botley West Solar Farm: EN010147

I am disappointed that the Applicant's late submissions have been accepted causing further delay in the decision for Botley West and requesting yet another response from Interested Parties.

I am a supporter of the Stop Botley West campaign and fully endorse the comprehensive SBW submission of 16 July [\[C2-161\]](#). I am concerned that despite these new proposals the Application is still irretrievably flawed. Too many questions remain unanswered and the Applicant seeks to defer too many important decisions until after any development consent is granted when they will be beyond public scrutiny and challenge.

The applicants have continually shown disregard for residents genuine concerns. As a professional working in the heritage sector, I questioned the consultants at a public meeting on some of the claims made in their submission on heritage issues. It was clear they had no idea what I was talking about and cared less.

The process for dealing with the application has been made clear throughout. To change a fundamental element at the last minute seems undemocratic.

I respectfully request the Secretary of State to refuse outright the grant of a DCO for this Application.

Regards

Kathryn Davies
