Dear Secretary of State

Botley West Solar Farm: EN010147

I am once again disappointed that the Applicant's late submissions have been accepted causing further delay in the decision for Botley West and requesting yet another response from Interested Parties.

I am a supporter of the Stop Botley West campaign and fully endorse the comprehensive SBW submission of 16 July [\[C2-161\]](#). I am concerned that despite these new proposals the Application is still irretrievably flawed. Too many questions remain unanswered and the Applicant seeks to defer too many important decisions until after any development consent is granted when they will be beyond public scrutiny and challenge.

It seems to me that in allowing the applicant additional time and then accepting late submissions, both of which require further submissions from interested parties, the process is being tipped in favour of the applicant. In my view, any reduction in the number of objections to this application, submitted at each stage, should be seen as the process wearing down the people affected by the proposals, rather than an acceptance of issues being addressed.

I respectfully request the Secretary of State to refuse outright the grant of a DCO for this Application.

Yours faithfully,

David Frank Wilson
Interested Party Rep [REDACTED]
