Dear Secretary of State for Energy

I am pleased that you are the current Secretary of State for Energy. On reading your profile I am hoping you will give the green light to PVDP's application for the Botley west solar farm. In my opinion we need another source of energy, and PVDP have bent over backwards to satisfy everyone's needs and desires. It is on the right sort of ground as far as agriculture is concerned, and it has taken far too long for the go-ahead to be given, which is not good for anyone in the future who plans to put together a similar project.
