Dear Secretary of State

Botley West Solar Farm: EN010147

I am a supporter of the Stop Botley West campaign and fully endorse the comprehensive SBW submission of 16 July [[C2-161](#)]. The new proposals leave the Application still irretrievably flawed, with far too many questions remaining unanswered, and important decisions kicked down the road until after any development consent is granted. I fear they will then be beyond public scrutiny and challenge.

It is hard to believe that these latest submissions have been accepted.

I respectfully request the Secretary of State to refuse outright the grant of a DCO for this Application.
