Dear Sirs

The Applicant has consistently shown inadequate preparation and contempt for official process. This continues in the vagueness and casuistry concerning essential details such as connecting to the National Grid. It gives one little to no confidence in the Applicant's future intentions and there is justifiable concern about the execution of works and any modifications that the Applicant may introduce if the work goes ahead.

The Applicant has repeatedly demonstrated ill-preparedness and manipulative tactics bordering on arrogance.

This does not bode well for the quality of the long term delivery and management of the project and the land itself.

Yours faithfully

Katharine Spackman
