# 1 Introduction

## 1.1. Purpose of this document

- 1.1.1. This purpose of this document is to set out the current position of engagement between RWE Renewables UK Solar and Storage Ltd (the Applicant) and statutory undertakers that have assets or interests that would potentially be affected by Tween Bridge Solar Farm (the Scheme), as identified by the Book of Reference [~~Document Reference 4.1 Revision 2~~REP1-008]. This document will be updated during Examination of the Development Consent Order (DCO) application, particularly to track the parties' negotiation of protective provisions and related agreements, as relevant.
- 1.1.2. In respect of each relevant statutory undertaker, Table 2-1 of this document summarises the status of negotiations between the parties.
- 1.1.3. The Applicant's engagement with statutory undertakers follows the Applicant's pre-application statutory consultation as set out in the **Consultation Report [APP-022]**. This included notifying all relevant statutory undertakers and persons with an interest in the land under Section 42(a) and Section 42(d) of the Planning Act 2008 respectively. The Applicant sought to engage with statutory undertakers in response to feedback received to that consultation. Additionally, throughout the development of the Scheme prior to DCO application, the Applicant sought to engage with statutory undertakers identified through diligent inquiry as land interests. The activities undertaken as part of diligent inquiry are reported in the **Statement of Reasons [APP-019]**.
- 1.1.4. The approach taken by the Applicant to existing statutory undertaker apparatus is to avoid any conflict between the Scheme and that existing apparatus. The effect of that approach is that there is not presently expected to be any requirement to divert existing statutory undertaker apparatus as part of the Scheme. Powers are included within the **draft DCO [Document Reference 3.1 Revision 43]** which would enable the Applicant to carry out diversions where required, but it is not currently expected that those powers will need to be relied on.

## 2 Summary of current position with statutory undertakers

2.1.1. Table 2-1 provides a summary of the position between the Applicant and each relevant statutory undertaker in relation to each individual asset affected.

2.1.2. The table includes traffic light model to indicate the progress of engagement between each statutory undertaker and the Applicant:

- **Green** – There are no outstanding issues in dispute between the parties.
- **Amber** – There are outstanding issues between the parties and engagement is ongoing.
- **Red** – There are outstanding issues between the parties and engagement is not ongoing.
