8.7 Schedule of Changes to the draft DCO

Planning Act 2008
Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009

Document Reference: 8.7

Deadline 8 October 2026

Revision 8

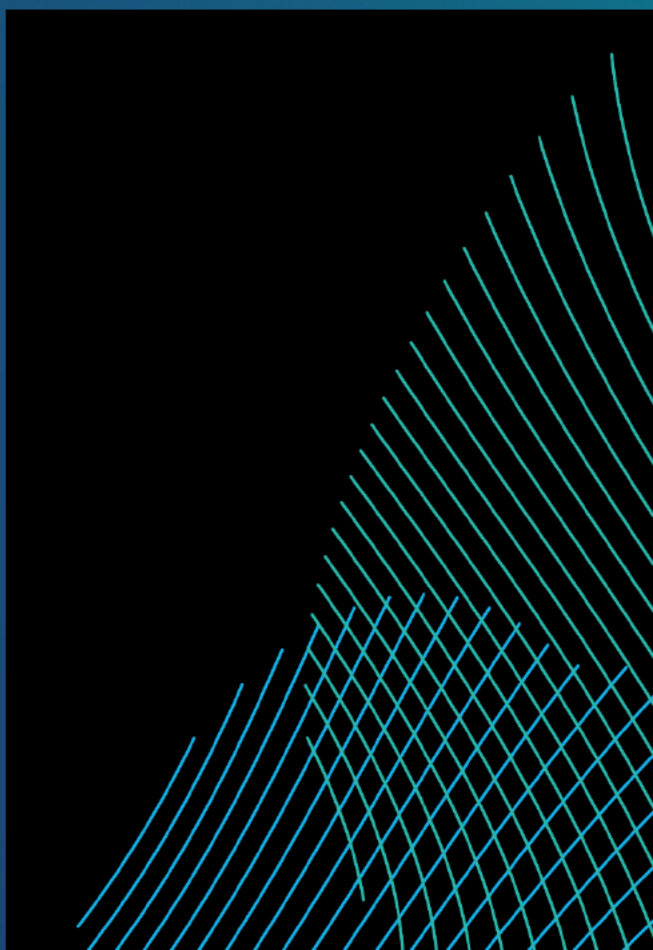

Table of Contents:

1 Introduction....3
2 Applicant's Schedule of Changes to draft DCO....4

1 Introduction

1.1 This document sets out RWE Renewables UK Solar and Storage Limited's (the Applicant's) schedule of changes to the draft Development Consent Order. It includes changes made during the pre-examination phase.

2 Applicant's Schedule of Changes to draft DCO

Provision	Change made to the draft DCO	Explanation for change
Deadline 1 (5 May 2006) Changes made in Draft Development Consent Order [Document Reference 3.1 Revision 3]		
Article 2(1) Interpretation	"apparatus" has the same meaning as in Part 3 (street works in England and Wales) of the 1991 Act except that, unless otherwise provided, it further includes pipelines (and parts of them), aerial markers, cathodic protection test posts, field boundary markers, transformer rectifier kiosks, electricity cables ~~(but excluding the electrical cables as defined in this article)~~, telecommunications equipment and electricity cabinets;	Words deleted as not considered appropriate to exclude electricity cables from the definition, since it will, for example, be necessary to lay electrical cables in streets under article 11.
Article 2(1) Interpretation	"commence" means beginning to carry out a material operation, as defined in section 155 (when development begins) of the 2008 Act, comprised in or carried out for the purposes of the authorised development other than the permitted preliminary works (except where stated to the contrary) and "commencement"	Typographical error corrected.

Provision	Change made to the draft DCO	Explanation for change
	and "commenced" are to be construed accordingly;	
Article 2(1) Interpretation	"NGET" means National Grid Electricity Transmission Plc (company number 2366977) whose registered office is at 1 to 3 Strand, London WC2N 5EH or any successor as a licence holder within the meaning of Part 1 of the 1989 Act	Amendment made to future-proof the provisions of the Order. This definition is widely precedented as per article 2(1) of The Springwell Solar Farm Order 2026 and article 2(1) of The Fenwick Solar Farm Order 2026.
Article 2(1) Interpretation	"NGET substation" means a 400kV ~~the~~ substation to be designed, constructed, ~~owned~~ and operated by NGET connecting the electricity generated by the authorised development to the National Electricity Transmission System and which does not form part of the authorised development;	Amendment made to clarify the function of this substation and its relationship to the Scheme.
Article 2(1) Interpretation	"Order land" means the land which is within the Order limits ~~shown on the land plans~~ and is described in the book of reference;	Deletion made to ensure that this definition aligns with of the definition of the "Order limits"
Article 2(1) Interpretation	"Order limits" means the limits shown on the land plans and works plans within which the authorised development may be carried out;	Addition made to aid readability.

SCHEDULE OF CHANGES TO THE DRAFT DCO

Provision	Change made to the draft DCO	Explanation for change
Article 2(1) Interpretation	Deletion of definitions of management plans.	These definitions have been moved to the beginning of Schedule 2 as the terms are only used in that schedule.
Article 2(1) Interpretation	~~"relevant highway authority" means in any provision of this Order the highway authority for any area of land to which that provisions relates;~~	Definition considered unnecessary and reference to "relevant" accordingly removed throughout the Order. The term "highway authority" is defined in article 2 by reference to the Highways Act 1980. Section 1 of the Highways Act 1980 confirms the identity of the highway authority in any given context. Accordingly, this is sufficient to clarify the identify the identity of the highway authority for the purposes of this Order.
Article 2(1) Interpretation	"works plans" means the plans of that name identified in the table at Schedule 121 (documents and plans to be certified) and which are~~is~~ certified by the Secretary of State as the works plans for the purposes of this Order.	Typographical error corrected.

SCHEDULE OF CHANGES TO THE DRAFT DCO

Provision	Change made to the draft DCO	Explanation for change
Article 2(3) Interpretation	In this Order, reference to the purposes of the authorised development, or in connection with the authorised development, includes the construction, maintenance, operation and decommissioning of the authorised development.	Amendment made to clarify interpretation of the phrase "in connection with the authorised development".
Article 4(2) (Operation of generating station)	Except as set out in this Order, ~~T~~this article does not relieve the undertaker of any requirement to obtain any permit or licence under any other legislation that may be required from time to time to authorise the operation of an electricity generating station.	Amendment made to ensure that this power does not conflict with Article 9 (Application and modification of statutory provisions).
Article 6(1) (Maintenance of drainage works)	Subject to the provisions of Schedule 14 (protective provisions), n~~N~~othing in this Order, or the construction, maintenance, operation or decommissioning of the authorised development under it, affects any responsibility for the maintenance of any works connected with the drainage of land, whether that responsibility is imposed or allocated by or under any enactment, or otherwise, unless otherwise agreed in writing	Amendment made to ensure that the Order powers are appropriately controlled by the protective provisions set out in Schedule 14.

Provision	Change made to the draft DCO	Explanation for change
	between the undertaker and the person having such responsibility.	
Article 8(1)(a) (Consent to transfer benefit of the Order)	transfer to another person ("the transferee") any or all of the benefit of the provisions of this Order (including any part of the authorised development) and such related statutory rights as may be agreed between the undertaker and the transferee; or~~and~~	Drafting error corrected.
Article 8(3)(vi) (Consent to transfer benefit of the Order)	~~the transfer or grant is made to Northern Powergrid Holding Company (company registration number 03476201) whose registered office is at Lloyds Court, 78 Grey Street, Newcastle Upon Tyne, NE1 6AF for the purposes of undertaking Works Nos. 4A, 4B, 4C, 4D, 4E, 4F, 4G and 4H and any part of Work No. 2 comprising electrical cables connecting Works Nos. 4A, 4B, 4C, 4D, 4E, 4F and 4G to Work No. 4H and connecting Work No. 4H to the NGET substation.~~	Drafting error corrected. The benefit of these works is not intended to transfer to Northern Powergrid.
Article 9(1) (Application and modification of statutory provisions)	The following provisions do not apply in relation to the construction of any work or the carrying out of any operation required for the purposes of, or in connection with, the	Amendment made to align with Article 2(3) Interpretation.

Provision	Change made to the draft DCO	Explanation for change
	~~construction, operation, maintenance or decommissioning of any part of the~~ authorised development—	
Article 9(1)(h) (Application and modification of statutory provisions)	the legislation listed in Schedule 3 (legislation to be disapplied) in so far as the provisions still in force are incompatible with the powers contained within this Order and do not have a materially adverse impact on the operation or maintenance of the Stainforth and Keadby Canal; and	Amendment made at the request of Canal and River Trust, as per their relevant representation **[RR-003]**.
Article 10(1) (Defence to proceedings in respect of statutory nuisance)	Where proceedings are brought under section 82(1) (summary proceedings by a person aggrieved by statutory nuisance) of the Environmental Protection Act 1990( ) in relation to a nuisance falling within paragraph (d) or (g) of	Omission corrected to align with position in **Statement of Statutory Nuisance [APP-029]**.
Article 10(1) (Defence to proceedings in respect of statutory nuisance)	section 79(1) ~~(noise emitted from premises so as to be prejudicial to health or a nuisance~~ statutory nuisances and inspections therefor) of that Act no order may be made, and no fine may be imposed, under section 82(2) of that Act if—	Drafting error corrected.

Provision	Change made to the draft DCO	Explanation for change
Article 10(1)(a)(i) (Defence to proceedings in respect of statutory nuisance)	relates to premises used by the undertaker for the purposes of or in connection with ~~the construction, maintenance or decommissioning of~~ the authorised development and that the nuisance is attributable to the purposes ~~construction, maintenance or decommissioning~~ of the authorised development in accordance with a notice served under section 60 (control of noise on construction site), or a consent given under	Amendments made to align with Article 2(3) Interpretation. This amendment has been made throughout the draft DCO as follows • Article 10(1)(a)(ii), (3) (Defence to proceedings in respect of statutory nuisance) • Article 17(1) Use of private roads) • Article 18(1), (2) (Traffic regulation measures) • Article 19(1) (Discharge of water) • Article 20(12) (Protective works to buildings) • Article 39(1)(b) (Application of landlord and tenant law) • Article 41(1)(a), (c), (4), (5) (Felling or lopping of trees and removal of hedgerows) • Schedule 1 – Authorised works

Provision	Change made to the draft DCO	Explanation for change
		• Schedule 3(1) – Legislation to be disapplied • Schedule 8 – Land in which only new rights etc. may be acquired
Article 10(1)(a)(i) (Defence to proceedings in respect of statutory nuisance)	section 61 (prior consent for work on construction site) ~~or section 65 (noise exceeding registered level)~~ of the Control of Pollution Act 1974; or	The Applicant has deleted this reference as this legislation has been repealed.
Article 12(1) (Application of the 1991 Act)	Works executed under this Order in relation to a highway which consists of or includes a carriageway are to be treated for the purposes of Part 3 (street works in England and Wales) of the 1991 Act as major highway works if— (a) they are of a description mentioned in any of paragraphs (a), (c) to (e), (g) and (h) of section 86(3) (highway authorities, highways and related works) of that Act; or they are works which, had they been executed by the highway authority, might	This amendment provides that works carried out under the powers of the Order which match the description of "major highway works" in the 1991 Act will be treated as major highways works for the purposes of the New Roads and Street Works Act 1991. The effect of this is to clarify that the provisions for sharing the burden of dealing with apparatus in the street (under sections 84 and 85 of the 1991 Act), which would normally apply only to major works carried out by the highway authority, will apply in respect of the works

Provision	Change made to the draft DCO	Explanation for change
	have been carried out in exercise of the powers conferred by section 64 (dual carriageways and roundabouts) of the 1980 Act or section 184 (vehicle crossings over footways and verges) of that Act.	authorised by the Order irrespective of who in fact carries them out. Paragraph (1) applies to works "executed" under the Order rather than works constructed or maintained for clarity, and such drafting is precedented (see, for example, article 9 of the M54 to M6 Link Road Development Consent Order 2022 and article 9 of The A122 (Lower Thames Crossing) Development Consent Order 2025).

Article 12(2) (Application of the 1991 Act)	In Part 3 (street works in England and Wales) of the 1991 Act, in relation to works which are major highway works by virtue of paragraph (1), references to the highway authority concerned are to be construed as references to the undertaker.	This addition relates to "major highway works" which are defined at section 86 of the 1991 Act. The definition includes, at sub-sections 86(3)(b) and (f), works undertaken under powers conferred by sections 64 and 184 the Highways Act 1980. As that would not be relevant in this context (where the works will be undertaken under the powers of the Order), these sub-sections are omitted from paragraph (1)(a). Works equivalent to works undertaken under those sections of the Highways Act 1980, but carried out under powers conferred by the Order, are included through paragraph (1)(b). The effect is that any works which would be "major highway works" under the 1991 Act if carried out by a highway authority in relation to one of its streets are also "major highway works" if carried out under the powers of the Order regardless of who carries them out.

SCHEDULE OF CHANGES TO THE DRAFT DCO

Provision	Change made to the draft DCO	Explanation for change
Article 12(3) (Application of the 1991 Act)	The provisions of the 1991 Act mentioned in paragraph (4) (which, together with other provisions of that Act, apply in relation to the carrying out of street works) ~~under that Act~~ and any regulations made or code of practice issued or approved under those provisions apply (with all necessary modifications) in relation to—	Amendment made to improve clarity of drafting.
Article 12(4) (Application of the 1991 Act)	The provisions of the 1991 Act are— a. subject to paragraph (5), section 54 (advance notice of certain works); b. subject to paragraph (5), section 55 (notice of starting date of works); c. section 57 (notice of emergency works); d. section 59 (general duty of street authority to co-ordinate works); e. section 60 (general duty of undertakers to co-operate); f. section 68 (facilities to be afforded to street authority);	Paragraphs (3) to (5) of Article 12 apply certain provisions of the New Roads and Street Works Act 1991. The Applicant has amended the list of provisions in this paragraph 4. The Applicant considers it would be beneficial to include section 59 (general duty of street authority to co-ordinate works) as it mirrors the general duties of the undertaker in section 60 and goes towards the general aim of the article to simplify the implementation of the works by providing for a single process in respect of streets which are temporarily closed, altered, diverted or restricted and those which are not. This list is precedented in

Provision	Change made to the draft DCO	Explanation for change
	g. section 69 (works likely to affect other apparatus in the street); h. section 76 (liability for cost of temporary traffic regulation); i. section 77 (liability for cost of use of alternative route; and j. all provisions of that Act that apply for the purposes of the provisions referred to in sub-paragraphs (a) to (k).	article 9(5) of The A122 (Lower Thames Crossing) Development Consent Order 2025.
Article 12(6) (Application of the 1991 Act)	The following provisions of the 1991 Act (including any equivalent or modified provision in any permit scheme) do not apply in relation to any works executed under the powers conferred by this Order—	Amendment made to improve clarity of drafting.
Article 12(6)(i) (Application of the 1991 Act)	schedule 3A~~(h)~~ (restriction on works following substantial street works	Drafting error corrected.
Article 13(1) (Power to alter layout, etc., of streets)	The undertaker may for the purposes of, or in connection with, the authorised development alter the layout of ~~and~~ or carry out any works in,	Amendment made to improve clarity of drafting.

Provision	Change made to the draft DCO	Explanation for change
	the streets specified in columns (1) and (2) of the table in Schedule 5 (alteration of streets) in the manner specified in relation to that street in column (3).	
Article 13(3) (Power to alter layout, etc., of streets)	The undertaker must restore any street that has been temporarily altered under this article ~~Order~~ to the reasonable satisfaction of the street authority.	Drafting error corrected.
Article 15(2) (Temporary closure or restriction of streets and public rights of way)	Without prejudice to the ~~generality of~~ specific powers conferred by paragraph (1) and subject to paragraph (5), the undertaker, during and for the purposes of ~~constructing, maintaining or decommissioning~~ the authorised development, may temporarily close, alter, divert, prohibit the use of, authorise the use of or restrict the use of any street or public right of way and may for any reasonable time—	Drafting error corrected.
Article 15(8) (Temporary closure or restriction of streets and public rights of way)	The undertaker, for the purposes of, or in connection with, the authorised development, may temporarily close, prohibit the use of, authorise the use of , alter or divert any public right of way which is added to the definitive	This addition enables the temporary closure, prohibition of the use, restriction of use, alteration or diversion, of any public rights of way added to the definitive map and statement (within the meaning of the

Provision	Change made to the draft DCO	Explanation for change
	map and statement (within the meaning of the Wildlife and Countryside Act 1981) on or after [insert date].	Wildlife and Countryside Act 1981) on or after the date of the close of the examination into the application for the Order. The power is appropriately limited because it only applies to public rights of way that are within the Order limits and to new public rights of way within the Order limits that were not identified in the definitive map and statement throughout the application or Examination process. The wording aligns with made DCO precedent as per article 11(9) of East Yorkshire Solar Farm Order 2025 and article 12(9) of Fenwick Solar Farm Order 2026.
Article 16(1)(b) (Access to works)	with the approval of the ~~relevant~~ highway authority, form and lay out such other means of access or improve existing means of access, at such locations within the Order limits	This change is also repeated at Article 16(2) (Access to works) and relates to the deletion of the definition of 'relevant highway authority' in Article 2.
Article 16(1)(b) (Access to works)	as the undertaker reasonably requires ~~for the purposes of the authorised development~~	Phrase deleted as the caveat "for the purposes of the authorised development" is already included at Article 16(1).

Provision	Change made to the draft DCO	Explanation for change
Article 18 (Agreements with street authorities) deleted	~~1. (1) A street authority and the undertaker may enter into agreements with respect to—~~ ~~(a) the strengthening, improvement, repair or reconstruction of any street under the powers conferred by this Order;~~ ~~(b) any closure, prohibition, restriction, alteration or diversion of a street authorised by this Order;~~ ~~(c) the undertaking in the street of any of the works referred to in article 11 (street works) article 13 (power to alter layout, etc., of streets) and article 14(1) (construction and maintenance of altered streets); or~~ ~~(d) the adoption by a street authority which is the highway authority of works—~~ ~~i. undertaken on a street which is existing public maintainable highway; or~~ ~~ii. which the undertaker and highway authority agree to be adopted as public maintainable highway.~~	The Applicant considers the inclusion of this article to be unnecessary. The Applicant and street authorities are already able to enter into agreements under the Highways Act 1980. The inclusion of this article is therefore unnecessary and could in fact imply that the ability to enter into agreements should be constructed more narrowly than it would be if reliance was placed on the Highways Act 1980 instead. This would not be a logical outcome.

Provision	Change made to the draft DCO	Explanation for change
	~~If such an agreement provides that the street authority must undertake works on behalf of the undertaker the agreement may, without prejudice to the generality of paragraph (1)~~ ~~(e) make provision for the street authority to carry out any function under this Order which relates to the street in question;~~ ~~(f) specify a reasonable time for the completion of the works; and~~ ~~(g) contain such terms as to payment and otherwise as the parties consider appropriate.~~	
Article 19(3), (4)(a) (Discharge of water)	The undertaker must not discharge any water into any watercourse, public sewer or drain except with the consent of the person to whom it belongs, whose consent may be given subject to terms and conditions as that person may reasonably impose but must not be unreasonably withheld or delayed. The undertaker must not make any opening into any public sewer or drain except—	Additional drafting considered beneficial to ensure consent is not withheld or delated unreasonably, which could impede the timely delivery of this nationally significant infrastructure project.

Provision	Change made to the draft DCO	Explanation for change
	in accordance with plans approved by the person to whom the sewer or drain belongs, but such approval must not be unreasonably withheld or delayed; and	
Article 19(10) (Discharge of water)	The Environment Agency is deemed to have granted consent under paragraph (3) where the watercourse, public sewer or drain belongs to the Environment Agency and an environmental permit under regulation 12(1)(b) (requirement for an environmental permit) of the 2016 Regulations has been granted in respect of the discharge.	Drafting has been added to state that the Environment Agency is deemed to have granted consent under paragraph 3 where the watercourse, public sewer or drain belongs to the Environment Agency and an Environmental Permit has been granted for the discharge, rather than having to obtain the additional landowner consent. This has been added to streamline this process where an Environmental Permit is required. This is precedented in Article 19 The London Luton Airport Expansion Development Consent Order 2025.
Article 19(11) (Discharge of water)	A sewerage undertaker is deemed to have granted consent to the discharge of trade effluent into a public sewer under paragraph (3) where the public sewer belongs to the sewerage undertaker and consent under	This drafting provides that a sewerage undertaker is deemed to have granted consent under paragraph (3) where the watercourse, public sewer or drain belongs to the sewerage undertaker and consent

Provision	Change made to the draft DCO	Explanation for change
	section 118 (consent required for discharge of trade effluent into public sewer) of the Water Industry Act 1991 has been granted in respect of the discharge.	under section 118 of the Water Industry Act 1991 has been granted in respect of the discharge, rather than having to obtain additional landowner consent. Again, this is designed to streamline the process when a trade effluent consent is required. This is precedented in Article 19 The London Luton Airport Expansion Development Consent Order 2025.
Article 20(1)(a) (Protective works to buildings)	at any time before or during the construction or decommissioning of any part of the authorised development in the vicinity of the building; or	This article has been extended to the decommissioning stage to reflect the protections provided to surrounding buildings during the constriction stage.
Article 20(8) (Protective works to buildings)	within the period of five years beginning with the date of final commissioning for that part of the authorised development in the vicinity of the building it appears that the protective works are inadequate to protect the building or structure against damage caused by the construction or use of that part of the authorised development,	Amendment made to define with greater precision of the period of time during which this provision would apply.

Provision	Change made to the draft DCO	Explanation for change
Article 20(9) (Protective works to buildings)	~~Subject to article 36(double recovery),~~ N~~n~~othing in this article relieves the undertaker from any liability to pay compensation under section 10(2) (compensation for injurious affection) of the 1965 Act.	References to the article relevant to double recovery are now omitted to avoid the implication that, where not specifically referred to, clauses are not subject to that provision. The same change has also made to: • Article 29(4) (Power to override easements and other rights) • Article 32(9) (Temporary use of land for constructing the authorised development) • Schedule 14, Part 8, paragraph 135 (PPs for the protection of railway interests)
Article 22(1)(a) (Compulsory acquisition of land)	acquire compulsorily so much of the Order land as is required for the authorised development or to facilitate ~~it~~, or as is incidental, to it; and	Typographical errors rectified.
Article 22(1)(b) (Compulsory acquisition of land)	use any land so acquired for the purpose authorised by this Order or for any other purposes in connection with or ancillary to the undertaking.	Drafting added to caveat the use of any land which is compulsorily acquired. This is precedented in article 20(1)(b) of The Cottam Solar Project Order 2024 and

Provision	Change made to the draft DCO	Explanation for change
		article 21(1)(b) of The Fenwick Solar Farm Order 2026.
Article 24(1) (Time limit for exercise of authority to acquire land compulsorily)	After the end of the period of eight ~~five~~ years beginning on the day on which this Order ~~is made~~ comes into force (and subject to article 30 (modification of Part 1 of the Compulsory Purchase Act 1965) and article 27 (Application of the 1981 Act)—	This update is a result of the Scheme now being allocated to the Gate 2 Phase 2 delivery pipeline following the rationalisation of the grid connection queue by the National Energy System Operator (NESO) as part of NESO's ongoing grid connection reforms. NESO's expectation is that projects in Phase 2 will be offered connection dates between 2031 and 2035, although this will be confirmed in the Applicant's Gate 2 Offer, which is due to be issued by January 2027. In these circumstances, the Applicant considers it appropriate to set the time limit for exercise of the authority to acquire land compulsorily at eight years following the making of the Order. On the assumption that the Order is made in 2027, an eight-year period extending to 2035 would therefore embrace the latest year by which

Provision	Change made to the draft DCO	Explanation for change
		the Scheme is expected to be connected to the National Electricity Transmission System, thus ensuring that the interests in land necessary to deliver the Scheme can be acquired up to that period. Notwithstanding this power, the Applicant confirms that option agreements are already in place for all of the solar land parcels within the Order Limits and negotiations are underway to secure voluntary easements for cable land.
Article 24(3) (Time limit for exercise of authority to acquire land compulsorily)	~~The applicable period for the purposes of section 4 of the 1965 Act (time limit for giving of notice to treat) and section 5A of the 1981 Act (time limit for general vesting declaration) (as modified by this Order) is the period of five years, beginning on the day on which this Order is made.~~	Deleted as this is a duplication of amendments made to existing legislation via articles 30(2) and 27(7) (Application of the 1981 Act) and article 30(2)(b) (Modification of Part 1 of the Compulsory Purchase Act 1965).
Article 25(2) (Compulsory acquisition of rights and	Subject to the provisions of this article, article 26~~7~~ (private rights) and article 34~~5~~ (statutory undertakers), in the case of the Order land specified in column (1) of the table in Schedule	For completeness and to more clearly reflect drafting intention, the Applicant has added reference to the creation of rights in Article 25(2) to ensure that the power to

Provision	Change made to the draft DCO	Explanation for change
imposition of restrictive covenants)	8 (land in which only new rights etc. may be acquired) the undertaker's powers of compulsory acquisition under article 22(1) and the creation of rights under paragraph (1) are limited to the acquisition of such new rights and the imposition of restrictive covenants for the purpose specified in relation to that land in column (2) of the table in that Schedule.	acquire new rights over land under Article 25(1) is limited to the purposes specified in relation to that land in column 2 of Schedule 8.
Article 26(1) (Private Rights)	(a) from the date of acquisition of the land, or of the right, or of the benefit of the restrictive covenant by the undertaker, whether compulsorily, by agreement ~~or through the grant of a lease of the land~~; ~~or~~ (b) on the date of entry on the land by the undertaker under section 11(1) (power of entry) of the 1965 Act; or through the grant of a lease of the land.	Drafting amended to provide clearer separation between the trigger events for the purposes of Article 26 (namely the acquisition of land and the grant of a lease of land).
Article 27(3) (Application of the 1981 Act)	In section 1(1) (application of the Act), omit the words "in themselves".	Amendment made to align position with the Order powers.

SCHEDULE OF CHANGES TO THE DRAFT DCO

Provision	Change made to the draft DCO	Explanation for change
Article 27(7) (Application of the 1981 Act)	In section 5B(1) (extension of time limit during challenge) for "section 23 of the Acquisition of Land Act 1981 (application to High Court in respect of compulsory purchase order) the applicable period for the purposes of section 5A,", substitute "section 118 (legal challenges relating to applications for orders granting development consent) of the 2008 Act~~"~~, the eight year period mentioned in article 24 (time limit for exercise of authority to acquire land compulsorily) of the Tween Bridge Solar Farm Order 202[ ]".	Amendments made to clarify the relevant substitution to section 5B(1) (extension of time limit during challenge) of the Compulsory Purchase (Vesting Declarations) Act 1981.
Article 28(4) (Acquisition of subsoil only)	Paragraphs (2) and (3) do not apply where the undertaker acquires a cellar, vault, arch or other construction forming part of a ~~house,~~ building ~~or manufactory~~.	Deletion of "house," and "or manufactory" given the definition of building within Article 2 (Interpretation) already embraces those terms.
Article 29(2)(a) (Power to override easements and other rights)	the erection, construction, ~~or~~ maintenance or decommissioning of any part of the authorised development;	Provision extended to decommissioning phase to match the powers which apply to the construction phase.

SCHEDULE OF CHANGES TO THE DRAFT DCO

Provision	Change made to the draft DCO	Explanation for change
Article 29(4) (Power to override easements and other rights)	~~Subject to article 36 (no double recovery), w~~Where an interest, right or restriction to which this article applies is interfered with or breached under ~~is overridden by~~ paragraph (1), unless otherwise agreed, compensation—	Amendment made to clarify drafting and to allow for agreement between the Applicant and the right holder.
Article 30(2)(b) (Modification of Part 1 of the Compulsory Purchase Act 1965)	for "the applicable period for the purposes of section 4" substitute "the eight year period mentioned in article 24 (time limit for exercise of authority to acquire land compulsorily) of the Tween Bridge Solar Farm Order 202[ ]".	Amendments made to align the time limit for giving notice to treat under section 4 of the Compulsory Purchase Act 1965 with the time limit in Article 24. The Applicant notes that 4(2)(b) of the Compulsory Purchase Act 1965 does permit longer periods to be specified for this section and this amendment is intended to provide clarity.
Article 30(4) (Modification of Part 1 of the Compulsory Purchase Act 1965)	In section 22(2) (expiry of time limit for exercise of compulsory purchase power not to affect acquisition of interests omitted from purchase), for "section 4 of this Act" substitute "article 24 (time limit for exercise of authority to acquire land compulsorily) of the Tween Bridge Solar Farm Order 202[ ]".	Section 22(2) of the Compulsory Purchase Act 1965 cross-references section 4 of the Compulsory Purchase Act 1965 so this amendment is made to align the position with the amend made in article 30(2)(b) of the **draft Development Consent Order [Document reference 3.1, revision 3]** as set out above.

Provision	Change made to the draft DCO	Explanation for change
Article 30(5)(b) (Modification of Part 1 of the Compulsory Purchase Act 1965)	after paragraph 29 insert— **1.**"PART 4 **2.**INTERPRETATION **3.30.** In this Schedule, references to entering on and taking possession of land do not include doing so under article 20~~1~~ (protective works to buildings), article 21 (authority to survey and investigate the land), article 32~~3~~ (temporary use of land for constructing the authorised development) or article 33~~4~~ (temporary use of land for maintaining the authorised development) of the Tween Bridge Solar Farm Order 202[X]."	Provision amended to exclude article 21 from being taken to mean the Applicant has entered on and taken possession of land. This means that article 21 does not trigger certain processes which are intended to compensate the owner for loss of land. For example, the process enabling an owner to require an undertaker to purchase the whole of its property (if the undertaker has entered and taken possession of part only). This is appropriate as the articles cited are all of a temporary nature.
Article 31(Rights under or over streets)	The undertaker may enter on, appropriate and use so much of the subsoil of or airspace over any street within the Order limits as may be required for the purposes of the authorised development and may use the subsoil under or airspace over for those purposes or any other	Amendment made to clarify drafting.

Provision	Change made to the draft DCO	Explanation for change
	purpose ancillary to the authorised development.	
Article 32(6)(b) – (d) (Temporary use of land for constructing the authorised development)	b) remove any fencing or boundary treatments installed by the undertaker to replace or enhance existing fencing or boundary treatments; c) remove any measures installed over or around statutory undertakers' apparatus to protect that apparatus from the authorised development; d) remove or reposition any apparatus installed for or belonging to statutory undertakers or necessary mitigation works;	The Applicant has supplemented the list of works that it would not be required to remove when giving up temporary possession of land and ensure there would be no requirement to remove works that are a betterment of pre-existing features or were installed for the protection and benefit of statutory undertakers. These provisions are all precedented, see article 27(5)(d) of the Gate Burton Energy Park Order 2024 and article 35(5)(d) and (e) of The A122 (Lower Thames Crossing) Development Consent Order 2025).
Article 32(7) (Temporary use of land for constructing the authorised development)	The undertaker must pay compensation to the owners and occupiers of land which temporary possession is taken under this article for any loss or damage arising from the exercise in relation to the land of the provisions of ~~any power conferred by~~ this article.	Amendment made to simplify drafting.

Provision	Change made to the draft DCO	Explanation for change
2. Article 35(1)(c)-(d) (Statutory undertakers)	c) construct the authorised development in such a way as to cross underneath or over apparatus belonging to statutory undertakers and other like bodies within the Order land; and d) construct over existing apparatus belonging to statutory undertakers any necessary track or roadway (whether temporary or permanent) together with the right to maintain or remove the same, and install such service media under or over the existing apparatus needed in connection with the authorised development.	This amendment would enable the Applicant to construct the Scheme so as to cross under or over statutory undertakers' apparatus and to construct any necessary track or roadway, together with the right to maintain or remove the same, and to install service media under or over existing apparatus. Such works are contemplated in connection with the Scheme. This drafting is precedented and can be found at article 31(c) and (d) of the Thorpe Marsh Gas Replacement Pipeline Order 2016.
Article 35(2) (Statutory undertakers)	Paragraph (1)(b) has no effect in relation to apparatus in respect of which the following provisions apply— a) Part 3 (street works in England and Wales) of the 1991 Act; and	This provision operates in favour of the statutory undertakers. It restricts the undertaker's power to extinguish rights or move apparatus belonging to other statutory undertakers that are located in streets. It applies alternative statutory provisions more appropriate to balancing the interests of the various affected parties

Provision	Change made to the draft DCO	Explanation for change
	b) article 36 (apparatus and rights of statutory undertakers in stopped up streets).	where the apparatus in question is in a street. This provision is precedented, see article 37(2) of The A122 (Lower Thames Crossing) Development Consent Order 2025).
Article 35(3) (Statutory undertakers)	Subject to paragraph (4), where the power in paragraph (1)(b) is exercised in relation to any Order land in respect of which the undertaker takes temporary possession under article 32 (temporary use of land for carrying out the authorised development), the undertaker may only extinguish rights or restrictive covenants in respect of apparatus belonging to statutory undertakers removed or decommissioned where— a) the undertaker, in agreement with the statutory undertaker, gives a notice to the landowner of the rights or restrictive covenants proposed to be extinguished; and	These provision operates in favour of the statutory undertakers. It provides that, where temporary possession of land is taken, the undertaker may extinguish rights and restrictive covenants relating to apparatus removed or decommissioned, provided it has, in agreement with the statutory undertaker, given notice to the landowners. This is intended to allow the undertaker, if appropriate and with the agreement of the statutory undertaker, to remove redundant apparatus, and to ensure the relevant land is only burdened with interests that are required. This provision is precedented, see article 37(3) of The A122 (Lower Thames Crossing) Development Consent Order 2025).

Provision	Change made to the draft DCO	Explanation for change
	b) that notice has been provided prior to giving up temporary possession under article 32.	
Article 35(4) (Statutory undertakers)	The extinguishment of a right or restrictive covenant under paragraph (3) does not— a) relieve the need for the undertaker to comply with, or otherwise affect the application of, article 32(6) of this Order; or b) give rise to any cause of action relating to the presence on or in the land of any foundations and the undertaker is not required to remove foundations when giving up temporary possession.	This provision ensures that there are no unintended consequences of the amendments to this article. This provision is precedented, see article 37(4) of The A122 (Lower Thames Crossing) Development Consent Order 2025).
Article 37 (Acquisition of wayleaves, easements and other rights)	Schedule 10 (acquisition of wayleaves, easements and other rights) has effect.	Amendment made to give effect to the new Schedule 10 (see further below).

Provision	Change made to the draft DCO	Explanation for change
Article 41(1) (Felling or lopping of trees and removal of hedgerows)	Subject to paragraph (2) and article 42 (trees subject to tree perseveration orders), the undertaker may fell, ~~or~~ lop or prune any tree or shrub within or overhanging land within the Order limits ~~near any part of the authorised development~~ or cut back its roots, if it reasonably believes it to be necessary to do so to prevent the tree or shrub from—	Amendment made to extend range of operations authorised in relation to trees to ensure the Applicant is not inadvertently prevented from undertaking works which might produce a better ecological outcome. The amendment also clarifies the geographical scope of the power.
Article 41(5)(a), (b) (Felling or lopping of trees and removal of hedgerows)	a) remove the length of hedgerows specified in column (2) of the table in Schedule 11~~0~~, Part 1 (removal of hedgerows) and shown on the trees and hedgerows to be removed or managed plan; and remove the length of important hedgerows specified in column (2) of the table in Schedule 11~~0~~, Part 2 (removal of important hedgerows) and shown on the trees and hedgerows to be removed or managed plan.	Amendment made to improve clarity of drafting and change schedule reference.
Article 41(6) (Felling or lopping of trees and removal of hedgerows)	The undertaker may not pursuant to paragraphs (1) and (4) fell, ~~or~~ lop, or prune a tree or remove hedgerows within the extent of the	Amendment made to be consistent with Article 41(1).

Provision	Change made to the draft DCO	Explanation for change
	publicly maintainable highway without the prior consent of the highway authority.	
Article 42(1) (Trees subject to tree preservation orders)	(1) Subject to paragraph (2), the undertaker may fell~~, or~~ lop or prune any tree that is subject to a tree preservation order within or overhanging land within the Order limits or cut back its roots, if it reasonably believes it to be necessary to do so in order to prevent the tree from obstructing or interfering with the ~~construction, maintenance, operation or decommissioning~~ purposes of the authorised development or any apparatus used in connection with the authorised development.	Amendment made to be consistent with drafting of Article 2(3) and Article 41(6).
Article 43(2) (Certification of plans and documents, etc.)	Where any plan or document set out in Schedule 12 is required to be amended to reflect the terms of the Secretary of State's decision to make the Order, that plan or document in the form amended to the Secretary of State's satisfaction is the version of the plan or document required to be certified under paragraph (1).	This amendment ensures there is no confusion as to which version of a document should be certified.

SCHEDULE OF CHANGES TO THE DRAFT DCO

Provision	Change made to the draft DCO	Explanation for change
Article 44(2) (Arbitration)	The parties must use reasonable endeavours to settle any difference to which paragraph (1) applies through negotiations undertaken in good faith by senior representatives of the parties.	This amendment sets out explicitly the manner in which arbitration must be carried out.
Article 48(5)(b) (Planning Permission)	"planning permission" means planning permission granted under the 1990 Act including planning permission deemed to be granted under article 3 (permitted development) ~~and Classes F, G, I, J, K, L, M and N of Part 8 (Transport related development~~) of and Schedule 2 to the Town and Country Planning (General Permitted Development) (England) Order 2015(1).	This corrects an error as these classes of Schedule 2 to the Town and Country Planning (General Permitted Development) (England) Order 2015 are not relevant to the Scheme.
Article 49(1)(b) (Requirements, appeals, etc.)	any refusal must be accompanied by a statement of the reasons for refusal.	This amendment specifies that reasons for any refusal in respect of the discharge of a

(1) S.I. 2915/596

Provision	Change made to the draft DCO	Explanation for change
		Requirement (or other matter) must be provided.
Article 49(3) (Requirements, appeals, etc.)	Save for applications made pursuant to Part 2 (procedure for discharge of requirements) of Schedule 2 (requirements) and where stated to the contrary if, within ten weeks (or such longer period as may be agreed between the undertaker and the relevant consenting authority in writing) after the application or request has been submitted to a consenting authority it has not notified the undertaker of its refusal and the grounds of refusal, it is deemed to have approved the application or request.	Paragraph (3) sets out that applications for consent submitted by the undertaker will be deemed to be granted where no notice is given of their refusal by the consenting authority within ten weeks of the submission of the application (unless a longer period has been agreed between the parties). This is intended to ensure the delivery of the Scheme, in respect of which there is a Critical National Priority, is not delayed unreasonably. This is precedented in article 43(4) of the Gate Burton Energy Park Order 2024.
Article 49(4) (Requirements, appeals, etc.)	Where any application is made as described in paragraph (1), the undertaker must include a statement in such application that refers to the timeframe for consideration of the application and the consequences of failure to meet that timeframe as prescribed by paragraph (3).	This amendment specifies that the undertaker is required to notify the consenting authority of the effect of Article 49(3) when it submits the relevant application, by way of procedural safeguard. This is precedented in article

Provision	Change made to the draft DCO	Explanation for change
		43(5) of the Gate Burton Energy Park Order 2024.
Article 49(3) (Requirements, appeals, etc.)	~~The procedure set out in Part 2 of Schedule 2 has effect in relation to any other consent, agreement or approval required under this Order where such consent, agreement or approval is granted subject to any condition to which the undertaker objects or is refused or is withheld.~~	This has been deleted because, as drafted, it is liable to conflict with the protective provisions where alternative approval processes are provided for.
SCHEDULE 1 AUTHORISED DEVELOPMENT 1(1)	"mounting structure" means a frame or rack made of galvanised steel or other material designed to support the solar modules and mounted on piles driven into the ground, piles inserted into a pre-drilled hole, a pillar attaching to a steel ground screw, or pillars fixed to a concrete foundation;	Amendment made to clarify definition. This definition is widely precedented as per Schedule 1, paragraph 1 of The Springwell Solar Farm Order 2026 and Schedule 1, paragraph 1 of The Gate Burton Energy Park Order 2024.
1(1)	"permissive paths" means new access tracks, within the Order limits, made available for use by pedestrians only with the consent of the owner of the land over which it runs, and which	Drafting amended to provide a more comprehensive definition of the term "permissive paths".

Provision	Change made to the draft DCO	Explanation for change
	may be withdrawn or modified by the landowner at any time ~~provided restricted public access within the Order limits~~;

Work No. 5A, 5B, 5C and 5D	being the ~~battery energy storage system (~~BESS~~)~~ compounds, including—	Deletion as term is already defined.
SCHEDULE 2 PART 1 REQUIREMENTS	"outline battery safety management plan" means the plan of that name identified in the table at Schedule 12 (documents and plans to be certified) and which is certified by the Secretary of State as the outline battery safety management plan for the purposes of this Order; "outline construction environmental management plan" means the document of that name identified in the table at Schedule 12 (documents and plans to be certified) and which is certified by the Secretary of State as the outline construction environmental	Definitions moved from article 2 to Schedule 2, as this is where the terms are referenced.

	management plan for the purposes of this Order; "outline construction traffic management plan" means the document of that name identified in the table at Schedule 12 (documents and plans to be certified) and which is certified by the Secretary of State as the outline construction traffic management plan for the purposes of this Order; "outline decommissioning environmental mitigation plan" means the document of that name identified in the table at Schedule 12 (documents and plans to be certified) and which is certified by the Secretary of State as the outline decommissioning environmental mitigation plan for the purposes of this Order; "outline ecological construction management plan" means the document of that name identified in the table at Schedule 12 (documents and plans to be certified) and which is certified by the Secretary of State as the outline ecological construction management plan for the purposes of this Order;	

	"outline operational environmental management plan" means the document of that name identified in the table at Schedule 12 (documents and plans to be certified) and which is certified by the Secretary of State as the outline operational environmental management plan for the purposes of this Order; "outline landscape ecological management plan" means the document of that name identified in the table at Schedule 12 (documents and plans to be certified) and which is certified by the Secretary of State as the outline landscape ecological management plan for the purposes of this Order; "outline soil management plan" means the document of that name identified in the table at Schedule 12 (documents and plans to be certified) and which is certified by the Secretary of State as the outline soil management plan for the purposes of this Order; and "outline supply chain, employment and skills plan" means the document of that name	

Provision	Change made to the draft DCO	Explanation for change
	identified in the table at Schedule 12 (documents and plans to be certified) and which is certified by the Secretary of State as the outline supply chain, employment and skills plan for the purposes of this Order.	
Requirement 2	~~**Commencement of the authorised development**~~ **Time limits** The authorised development must—~~not be commenced after~~ begin no later than the expiration of five years beginning ~~from~~ with the date this Order comes into force.	The Applicant has renamed Requirement 2 to "Time limits" to more accurately reflect the purpose of the requirement. The drafting of this requirement reflects the precedent in Requirement 4 (time limits) in Schedule 2 to The London Luton Airport Expansion Development Consent Order 2025, Requirement 3 (time limit and notifications) of Schedule 2 to The Gatwick Airport (Northern Runway Project) Development Consent Order 2025, and Requirement 2 (time limits) of Schedule 11 to The Able Marine Energy Park Development Consent Order 2014).
Requirement 5(1) (Approved details and amendments to them)	With respect to the plans and documents certified under article 43 (certification of plans and documents, etc.) and any plans, details or schemes which have been approved pursuant	Typographical error corrected.

Provision	Change made to the draft DCO	Explanation for change
	to any requirement (together the "approved documents, plans, details or schemes"), the undertaker may submit to the relevant planning authority or both relevant planning authorities (as applicable) for approval any amendments to any of the approved documents, plans, details or schemes and, following approval by the relevant planning authority or both relevant planning authorities (as applicable) , and the relevant approved documents, plans, details or schemes ~~is~~ are to be taken to include the amendments as so approved pursuant to this paragraph.	
Requirement 7	**3. ~~Fire~~ Battery safety management plan**	Drafting amended for clarity.
R7(1) (Battery safety management plan)	No part of Work Nos. 5A, 5B, 5C or 5D may commence until a battery ~~fire~~ safety management plan ("B~~F~~SMP") for that work has been submitted to and approved by the relevant planning authority or both relevant planning authorities (as applicable) following consultation by the undertaker on that B~~F~~SMP	The Environment Agency has been added as a consultee in respect of this requirement at their request **[RR-009]**.

Provision	Change made to the draft DCO	Explanation for change
	with the South Yorkshire Fire and Rescue or the Humberside Fire and Rescue Service (as applicable) and the Environment Agency (in respect of its functions).	
R7(4) (Battery safety management plan)	The B~~F~~SMP for the relevant work must be implemented as approved and maintained throughout the construction, operation and decommissioning of Work Nos. 5A, 5B, 5C and 5D.	The Applicant has added wording to clarify the retention period of this requirement.
R8(1) (Landscape and ecology management plan)	No phase of the authorised development may commence until a written landscape and ecology management plan for that phase has been submitted to and approved by the relevant planning authority or both relevant planning authorities (as applicable) following consultation by the undertaker on that landscape and ecology management plan with the Environment Agency (in respect of its functions), Natural England (in respect of its functions) and National Highways (in respect of its highway functions).	The Environment Agency, Natural England and National Highways have been added as consultees to this requirement at the EA and Natural England's request via Relevant Representations **[RR-009], [RR-023]** and further to discussions with NH as reflected in NH's **Statement of Common Ground [Document Reference 9.10, Revision 1]**.

Provision	Change made to the draft DCO	Explanation for change
R8(3)(b) (Landscape and ecology management plan)	how the landscaping and ecological measures for the relevant phase will be managed and maintained during the operational life of the authorised development to the date on which the decommissioning environmental management ~~and restoration~~ plan relevant to that phase is implemented pursuant to requirement 19 (decommissioning and restoration); and	Drafting error corrected.
R9(1) (Fencing and other means of enclosure)	No phase of the authorised development may commence until written details of all proposed temporary fences, walls or other means of enclosure, including those set out in the outline construction environmental management plan, for that phase have been submitted to and approved by the relevant planning authority or both relevant planning authorities (as applicable) following consultation by the undertaker with National Highways (in respect of its highway functions).	National Highway's requested approval powers in this requirement in their **relevant representation [RR-022].** The Applicant considers that the local planning authority is the appropriate consent granting body in respect of this requirement within the **draft Development Consent Order [Document Reference 3.1 Revision 3]**. The Applicant has instead added National Highways as a consultee to this requirement.

Provision	Change made to the draft DCO	Explanation for change
R11(1) (Surface and foul water drainage)	No phase of the authorised development may commence until details of the surface water drainage strategy and (if any) foul water drainage system (including means of pollution control) for that phase have been submitted to and approved by the relevant planning authority or both relevant planning authorities (as applicable), such approval to be in consultation with the relevant internal drainage board, the relevant lead local flood authority, the Environment Agency, Yorkshire Water (in respect of its water undertaker functions), ~~and~~ Severn Trent Water (in respect of its sewerage undertaker functions) and National Highways (in respect of its highway functions).	National Highway's requested approval powers in this requirement in their **relevant representation [RR-022].** The Applicant considers that the local planning authority is the appropriate consent granting body in respect of this requirement within the **draft Development Consent Order [Document Reference 3.1 Revision 3]**. The Applicant has instead added National Highways as a consultee to this requirement.
R11(2) (Surface and foul water drainage)	Any strategy approved pursuant to paragraph (1) must be implemented as approved and maintained throughout the construction and operation of the authorised development.	The Applicant has added wording to clarify the retention period of this requirement.
R12(4) (Archaeology)	For the purposes of this paragraph "outline archaeological mitigation strategy" means the document comprising Appendix 8.6 of the	Typographical error corrected.

SCHEDULE 10 ACQUISITION OF WAYLEAVES, EASEMENTS AND OTHER RIGHTS	New schedule inserted.	This Schedule makes provision for the undertaker to act on behalf of statutory undertakers in acquiring wayleaves, easements or other rights for the diversion or relocation of electricity, gas, water, sewerage or telecommunication apparatus. It relates to article 37 (Acquisition of wayleaves, easements and other rights). The drafting itself draws upon the drafting of equivalent powers which benefit electricity, gas, water, sewerage and telecoms undertakers under the Electricity Act 1989, the Gas Act 1986, the Water Industry Act 1991 and the Communications Act 2003. These existing statutory powers have been adapted only insofar as necessary to enable the undertaker to act on behalf of such statutory undertakers in seeking wayleaves through a compulsory process should they be needed in future. Save for the fact that all consideration or compensation due to land owners is

Provision	Change made to the draft DCO	Explanation for change
		required to be payable by the undertaker (rather than the relevant statutory undertaker), the processes involved are otherwise unchanged, and continue to reflect the statutory requirements and safeguards on the use of such powers. Experience has shown that statutory undertakers can be reluctant to exercise their own powers to acquire easements or wayleaves even where this would facilitate the undertaker's delivery of a project, due to the time, expense and compensation involved. The proposed Article 37 and Schedule 10 would provide an option which may be beneficial in some circumstances to both the undertaker and the relevant statutory undertaker, and may only be exercised where the relevant statutory undertaker gives their consent to the undertaker. It would facilitate the timely and efficient implementation of the Scheme, and the diversion or relocation of utilities where required, both of which are in the public interest.

Provision	Change made to the draft DCO	Explanation for change
		This drafting is based on Article 44 of and Schedule 18 to the Sizewell C (Nuclear Generating Station) Order 2022 and an equivalent, similar Schedule has been included in Schedule 10 to the recently made Tillbridge Solar Order 2025 and is supported by the recently published Nuclear Regulatory Review 2025 produced by a Taskforce led by John Fingleton.
SCHEDULE 12 – DOCUMENTS AND PLANS TO BE CERTIFIED	Information in columns 3 (revision number) and 4 (date) have been updated.	Updates made to reflect the latest versions of documents and plans submitted into examination.
SCHEDULE 14, PROTECTIVE PROVISIONS – Part 1	PROTECTION FOR ELECTRICITY, GAS, WATER AND SEWERAGE UNDERTAKERS	Typographical error corrected
Paragraph 5 (Acquisition of land)	Regardless of any provision in this Order or anything shown on the land plans ~~and Crown land plans~~, the undertaker must not acquire any apparatus otherwise than by agreement~~:~~	The Applicant confirms there is no Crown land affected by the Scheme and therefore no Crown land plans have been submitted with this application.
Paragraph 6(b) – (Removal of apparatus)	in the event that the utility undertaker cannot acquire all necessary land interests or rights which the utility undertaker may reasonably	Additional drafting makes clear that the undertaker should utilise Schedule 10 which makes provision for the undertaker to act

Provision	Change made to the draft DCO	Explanation for change
	require for the relocation and construction of alternative apparatus pursuant to paragraph 6(3)(a), the undertaker shall seek to utilise the process for acquiring an easement under paragraph 2 of Schedule 10 of this Order so that it can obtain its powers of compulsory purchase powers for the acquisition of any such land or land rights unless otherwise agreed by arbitration under article 44 (arbitration) (and, for those purposes, paragraph 2 of Schedule 10 shall be construed so that it may authorise the acquisition of any land or rights in respect of the installation of an electric line in connection with the authorised development (whether or not it comprises alternative apparatus provided always that it constitutes apparatus) in specified land (as defined in Schedule 10).	on behalf of statutory undertakers in acquiring wayleaves, easements or other rights for the diversion or relocation of electricity, gas, water, sewerage or telecommunication apparatus. It relates to article 37 (Acquisition of wayleaves, easements and other rights).
Part 2, Part 3	Headings added to each paragraph	These have been added to ease readability.
Part 3, paragraph 19 (Interpretation)	"drainage work" means any ordinary watercourse including any land that provides or is expected to provide flood storage capacity for any watercourse and any bank,	Amended for clarity of drafting.

Provision	Change made to the draft DCO	Explanation for change
	wall, embankment or other structure, or any appliance, constructed or used for land drainage, flood defence, sea defence or tidal monitoring excluding the existing flood defence;	
Part 3, paragraph 20 (Specified works)	Before ~~beginning to~~ commencing construction of any specified work, the undertaker must submit to the drainage authority plans of the specified work and such further particulars available to it as the drainage authority may within 28 days of the submission of the plans reasonably require.	Drafting amended to make use of defined terms.
Part 3, paragraph 20 (Maintenance of specified works)	Subject to sub-paragraph (5) the undertaker must from the commencement of the construction of any specified work, until the date falling 12 months from the date of completion of the specified work, maintain in good repair and condition and free from obstruction any drainage work that is situated within the limits of deviation on land held by the undertaker for the purposes of or in connection with the specified work, whether or not the	Amendment provides a specified period of time for which the undertaker is responsible for maintaining the specified works.

SCHEDULE OF CHANGES TO THE DRAFT DCO

Provision	Change made to the draft DCO	Explanation for change
	drainage work is constructed under the powers conferred by this Order or is already in existence.	
Part 3, paragraph 26 (Indemnity)	Nothing in sub-paragraph (1) imposes any liability on the undertaker with respect to any damage or loss to the extent that it is attributable to the act, neglect or default of the drainage authority, its officers, servants, contractors or agents.	Amended to exclude liability of the undertaker for third-party actions or omissions.
Part 5	Updates made throughout protective provisions for the protection of the Environment Agency	Changes agreed with Environment Agency and protective provisions in the draft DCO are now agreed between both parties.
Throughout	Replacement of "stopping-up" with "closure"	The phrase "stopped-up" has been replaced with "closed" to reflect recent drafting approaches.
Throughout	Cross-references updated throughout	Amendments have resulted in the need for changes throughout to cross-referencing of articles.
Deadline 2 (19 May 2006) Changes made in Draft Development Consent Order [Document Reference 3.1 Revision 4]

			3 of the access and rights of way plans.	
	Parish of Thorne	Footpath Thorne – 19	Temporarily ~~close,~~ prohibit the use of, restrict the use of, alter or divert the footpath in the area shaded green between the points marked PROW1-B and PROW1-C on Sheet 3 of the access and rights of way plans.	

Provision	Change made to the draft DCO	Explanation for change
SCHEDULE 12 – DOCUMENTS AND PLANS TO BE CERTIFIED	Information in columns 3 (revision number) and 4 (date) have been updated.	Updates made to reflect the latest versions of documents and plans submitted into examination.
Throughout	Cross-references updated throughout	Amendments have resulted in the need for changes throughout to cross-referencing of articles.
Changes required as a result of Change Request Application submitted on 4 June 2026		
Article 22(3)	(3) The power to compulsorily acquire land conferred under paragraph (1) does not apply to any part of the Order land shown on the land plans as plot numbers 1/A, 1/B, 1/C, 1/D, 1/E, 2/A, 2/B, 3/A, 3/B, 3/C, 3/D and 3/E.	Reference to plot 2/B has been added to article 22(3). Plot 2/B comprises land forming part of the Thorne & Hatfield Moors Special Protection Area, Thorne Moor Special Area of Conservation, Thorne, Crowle and Goole Moors Site of Special Scientific Interest (SSSI) and Hatfield Chase Ditches SSSI. Plot 2/B was previously part of plot 2/A. However, a new plot has been created in order to clarify that no compulsory acquisition, temporary possession or works powers would be exercised in respect of plot 2/B. This distinguishes plot 2/B from plot 2/A, because in the case of plot 2/A, the land is not subject to compulsory acquisition or

Provision	Change made to the draft DCO	Explanation for change
		temporary possession but is identified for use in connection with habitat enhancement measures (Work No. 3).
SCHEDULE 12 – DOCUMENTS AND PLANS TO BE CERTIFIED	Information in columns 3 (revision number) and 4 (date) have been updated.	Updates made to reflect the latest versions of documents and plans submitted into examination with the Change Request.
Deadline 3 (30 June 2006) Changes made in Draft Development Consent Order [Document Reference 3.1 Revision 6]		
Article 2	"the landscape and visual mitigation strategy" means the document comprising Figure 6.5 of the environmental statement with document reference number 6.5.6.4;"	Change made as a result of an update made in response to the Examining Authority's Written Questions Q5.2.1 [PD-010] to amend the definition of permissive paths to refer to the plan within which those paths are identified.
Article 2	""National Highways" means National Highways Limited (company number 09346363), of Three Snowhill, Snow Hill, Queensway, Birmingham B4 6GA;	Definition added at the request of National Highways in their Written Representation [REP1-067].
Article 22(3)	The power to compulsorily acquire land conferred under paragraph (1) does not apply to any part of the Order land shown on the land plans as plot numbers 1/A, 1/B, 1/C, 1/D, 1/E,	Change made in response to National Highways' Responses to ExQ1 [REP2-014], Q4.0.9.

Provision	Change made to the draft DCO	Explanation for change
	2/A, 2/B, 3/A, 3/B, 3/C, 3/D~~, and~~ 3/E, 10/21 and 11/25.	
SCHEDULE 1 – AUTHORISED DEVELOPMENT paragraph 1(1)	"permissive paths means new access tracks, within the Order limits following the indicative routes shown on the landscape and visual mitigation strategy, made available for use by pedestrians only with the consent of the owner of the land over which it runs, and which may be withdrawn or modified by the landowner at any time	Change made in response to the Examining Authority's Written Questions Q5.2.1 [PD-010].
SCHEDULE 2 – REQUIREMENTS paragraph (1)	~~"the landscape and visual mitigation strategy" means the document comprising Figure 6.4 of the environmental statement with document reference number 6.4.6.4;~~	Definition moved to Article 2 (Interpretation) to account for the definition being used within Schedule 1.
SCHEDULE 2 – REQUIREMENTS Requirement 14 paragraph (4)	(4) For the purposes of paragraph (1), the term "commence" does not include any remedial works in respect of contamination.	Change made in response to a request made by the Environment Agency in paragraph 3.1 of their Relevant Representation [RR-009] and during Issue Specific Hearing 2. This change was also picked up under Action 2 in the Written Summary of Oral Submissions at Issue

Provision	Change made to the draft DCO	Explanation for change
		Specific Hearing 2 [Document Reference 8.16 Revision 1].
SCHEDULE 2 – REQUIREMENTS Requirement 22	(1) In relation to any provision of this Schedule requiring details to be submitted to the relevant planning authority for approval following consultation by the undertaker with another party, the undertaker must provide such other party with not less than 28~~1 business~~ days for any response to the consultation and thereafter the details submitted to the relevant planning authority for approval must be accompanied by a summary report. ~~setting out the consultation undertaken by the undertaker to inform the details submitted including copies of any representations made by a consultee about the details proposed to be submitted to the relevant planning authority by the undertaker and the undertaker's response to those representations.~~ (2) For the purposes of paragraph (1) "summary report" means a report setting out—	Change made as a result of Action 6 from Issue Specific Hearing 2 as recorded in Written Summary of Oral Submissions at Issue Specific Hearing 2 [Document Reference 8.16 Revision 1].

Provision	Change made to the draft DCO	Explanation for change
	(a) the consultation undertaken by the undertaker to inform the details submitted for approval under a requirement of this Schedule; (b) copies of any representations made by the consultee about the details proposed to be submitted for approval; and (c) how the undertaker has had regard to those representations in finalising the details submitted for approval.	
SCHEDULE 2 PART 2 – PROCEDURE FOR DISCHARGE OF REQUIREMENTS paragraph 1	(3) Subject to sub-paragraphs (4) and (5),~~i~~in the event that the relevant planning authority does not determine an application within the period set out in sub-paragraph (1), the relevant planning authority is deemed to have granted all parts of the application (without any condition or qualification) at the end of that period. (4) Any application made to the discharging authority pursuant to sub-paragraph (1) must include a statement to confirm whether it is likely that the subject matter of the application will give rise to any materially new or materially	Change made in response to the Examining Authority's Written Questions Q5.2.12 [PD-010] and as suggested by the Examining Authority during Issue Specific Hearing 2 and recorded in paragraph 4.61 in Written Summary of Oral Submissions at Issue Specific Hearing 2 [Document Reference 8.16 Revision 1].

Provision	Change made to the draft DCO	Explanation for change
	different environmental effects compared to those in the environmental statement and, if it will, then the application must be accompanied by information setting out what those effects are. (5) Sub-paragraph (3) does not apply where an application is accompanied by a statement pursuant to sub-paragraph (4) that the subject matter of such application is likely to give rise to materially new or materially different environmental effects compared to those in the environmental statement.	
SCHEDULE 4 – STREETS SUBJECT TO STREET WORKS	Reference to "access and rights of way plans" in Column (3) Description of the street works, has been updated to "street works, access and public rights of way plans".	Correcting an error.

	may be inspected free of charge during working hours at City of Doncaster Council, Civic Office, Waterdale, Doncaster, DN1 3BU and North Lincolnshire Council, Scunthorpe Central, Carlton Street, Scunthorpe, North Lincolnshire, DN15 6TX~~[ADDRESSES]~~.	
Throughout	Cross-references updated throughout.	Amendments have resulted in the need for changes throughout to cross-referencing of articles.
Deadline 4 (21 July 2006) Changes made in Draft Development Consent Order [Document Reference 3.1 Revision 7]		
CONTENTS PART 3 STREETS	12. Application of permit scheme	Added to contents page to account for the addition of new article 12 (Application of permit scheme).
Article 2(1)	"permit scheme" means the Traffic Management (Doncaster Borough Council) Permit Scheme Order 2019, or any subsequent Permit Scheme Order made by the City of Doncaster Council to vary or replace that Order under Part 3 (permit schemes) of the Traffic Management Act 2004, as applicable for the location of the relevant works.	Definition added in accordance with new article 12 (Application of permit scheme).

SCHEDULE OF CHANGES TO THE DRAFT DCO

Provision	Change made to the draft DCO	Explanation for change
Article 11	(3) Except to the extent that they do not apply by virtue of article 13(6) of this Order or are disapplied or modified by the permit scheme, w~~W~~here the undertaker is not the street authority, the provisions of sections 54 (notice of certain works) to 106 (index of defined expressions) of the 1991 Act apply to any street works carried out under paragraph (1).	These amendments are necessary to reflect the inclusion of article 12 and are required to give proper effect to the CDC permit scheme.
Article 12	Application of permit scheme 12.—(1) The permit scheme applies with the modifications set out in this article to street works carried out under the powers conferred by article 11 (street works), article 14 (power to alter layout, etc., of streets) and article 17 (access to works) of this Order. (2) For the purposes of this Order— (a) a permit may not be refused or granted subject to conditions which relate to the imposition of moratoria; (b) a permit may not be granted subject to conditions where compliance with those conditions would constitute a breach of this	Further to discussions with City of Doncaster Council (**CDC**) in relation to the **Draft DCO [Document Reference 3.1. Revision 7],** the Applicant has inserted a new article 12 to provide for the CDC permit scheme to apply to any works or operations under the Order which relate to streets within CDC's administrative area. The drafting is closely modelled on article 9 (application of permit scheme) of the Fenwick Solar Farm Order 2026 subject to two notable points of difference: 1. The Fenwick Order provides (at article 9(1)) that the CDC permit scheme applies to works under article 8 (street works),

Provision	Change made to the draft DCO	Explanation for change
	Order or where the undertaker would be unable to comply with those conditions through the exercise of the powers conferred by this Order; (c) a permit may not be refused where the proposed reason for refusal is the inability to impose a condition where that condition would not comply with sub-paragraph (b); (d) a permit may not be refused on grounds relating to the proposed location of any part of the authorised development; and (e) where a provisional advance authorisation has been granted to the undertaker in advance of the grant of a permit in relation to the construction of the authorised development, the highway authority may not grant a permit for any other works in the location during the time period to which that provisional advance authorisation relates save that nothing will restrict the ability of the highway authority to grant a permit for immediate works.	article 10 (power to alter layout, etc., of streets), article 11 (construction and maintenance of altered streets) and article 15 (access to works). By contrast, article 12(1) of the Draft DCO provides that the CDC permit scheme will apply to works under article 11 (street works), article 14 (power to alter layout, etc., of streets) and article 17 (access to works). In other words, the same provisions as Fenwick are applied except for article 15 (construction and maintenance of altered streets). This is because article 15 does not of itself confer powers to carry out works, instead, it sets out the maintenance regime which will apply to works undertaken pursuant to article 14 (which is, as noted, duly referenced in article 12). The Applicant considers that this is the correct approach. 2. Article 12(2)(d) of the Draft DCO does not feature in the Fenwick Order. This provides that a permit may not be refused on grounds relating to the proposed location of any part of the authorised development.

Provision	Change made to the draft DCO	Explanation for change
	(3) Irrespective of anything which is stated to the contrary within the permit scheme, where the undertaker submits an application for a permit in relation to works to streets carried out under article 11 (street works), or article 14 (power to alter etc. layout of streets) or article 16 (access to works) of this Order subject to proposed conditions and the highway authority wishes for different conditions to be imposed on the permit, the highway authority must seek to reach agreement with the undertaker on the conditions subject to which the permit is to be granted and provide alternative permit conditions, as appropriate, to the undertaker within 10 working days following the date on which the application for the permit is made by the undertaker and must not refuse an application for a permit before the end of the period which is five working days following the date on which the alternative permit conditions are provided to the undertaker. (4) Where the undertaker confirms its agreement to the alternative permit conditions	The Applicant considers this to be appropriate because the CDC permit scheme provides that "*The Permit Authority may refuse to issue a Permit due to the proposed location of the activity*" (paragraph 7.1.2). Such refusals would not be appropriate in circumstances where the proposed location of works contemplated by Part 3 of the Draft DCO are specifically described in the Schedules to the Draft DCO, shown on the relevant plans and drawings accompanying the Application, are subject to the ongoing examination process and would (if the DCO is granted in the terms sought by the Applicant) be approved by the Secretary of State.

Provision	Change made to the draft DCO	Explanation for change
	provided by the relevant highway authority pursuant to paragraph (3) before the expiry of five working days following the date on which any such alternative permit conditions are provided to the undertaker, the relevant highway authority must grant the permit subject to those conditions. (5) Any alternative permit conditions provided by the highway authority in accordance with paragraph (3) must comply with paragraph (2). (6) Without restricting the undertaker's recourse to any alternative appeal mechanism which may be available under the permit scheme or otherwise, the undertaker may appeal any decision to refuse to grant a permit or to grant a permit subject to conditions pursuant to the permit scheme in accordance with the mechanism set out in Schedule 2 Part 2 (Procedure for discharge of requirements) of this Order in the same way as if it were a requirement. (7) In this article "immediate works" means emergency works as that term is defined in	

Provision	Change made to the draft DCO	Explanation for change
	section 52 (emergency works) of the 1991 Act and urgent works as that term is defined in regulation 3(1) of the Street Works (Registers, Notices, Directions and Designations) (England) Regulations 2007 . (8) In this article "moratoria" means restrictions imposed under section 58 (restrictions on works following substantial road works) or section 58A (restrictions on works following substantial street works) of the 1991 Act (as modified by the permit scheme).	
Article 13	(3) The provisions of the 1991 Act mentioned in paragraph (4), or any equivalent or modified provision in the permit scheme (which, together with other provisions of that Act, apply in relation to the carrying out of street works), and any regulations made or code of practice issued or approved under those provisions apply (with all necessary modifications) in relation to— ~~(a) the carrying out of works under article 11 (street works); and~~	These amendments are necessary as a result of the inclusion of article 12 and are required to give proper effect to the CDC permit scheme. They also ensure that the Order provides a clear and coherent framework governing the interaction between the permit scheme and the New Roads and Street Works Act 1991.

Provision	Change made to the draft DCO	Explanation for change
	~~(b)~~ the temporary closure, temporary alteration or temporary diversion of a street by the undertaker under article 1~~65~~ (temporary closure or restriction of streets and public rights of way ... (5) Sections 54 and 55 of the 1991 Act (or any equivalent or modified provision in the permit scheme) as applied by paragraph (4) have effect as if references in section 57 of that Act to emergency works included a reference to a closure, alteration or diversion (as the case may be) required in a case of emergency. ... (6) The following provisions of the 1991 Act (including any equivalent or modified provision in ~~any~~ the permit scheme) do not apply in relation to any works executed under the powers conferred by this Order—	
Article 14	(7) An application for consent under paragraph (4) is deemed advance notice under section 54 of the 1991 Act (or provisional advance	These amendments are necessary as a result of the inclusion of article 12 and are required to give proper effect to the CDC

Provision	Change made to the draft DCO	Explanation for change
	authorisation for the purposes of the permit scheme) where advance notice or provisional advance authorisation is required.	permit scheme. They also ensure that the Order provides a clear and coherent framework governing the interaction between the permit scheme and the New Roads and Street Works Act 1991.
Article 16(10)	(10) An application for consent under sub-paragraph (5)(b) must include a statement that the provisions of paragraph (9) apply to that application.	The Applicant added this provision at the request of City of Doncaster Council in their **Local Impact Report [REP1-063]**.
Article 17(3)	(3) An application for consent under sub-paragraph (1)(b) must include a statement that the provisions of paragraph (2) apply to that application.	The Applicant added this provision at the request of City of Doncaster Council in their **Local Impact Report [REP1-063]**.
Article 19(9)	(9) An application for consent under sub-paragraph (4)(b) must include a statement that the provisions of paragraph (8) apply to that application.	The Applicant added this provision at the request of City of Doncaster Council in their **Local Impact Report [REP1-063]**.
SCHEDULE 2 PART 1 REQUIREMENTS Paragraph 1	"phase" means a defined section or part of the authorised development, the extent of which is shown in a scheme submitted to and approved by the relevant planning authority under requirement 3 (phases of the authorised	This definition has been added at the request of the ExA in ExQ2 Q2.5.4.

Provision	Change made to the draft DCO	Explanation for change
	development and date of final commissioning) of this Schedule.	
SCHEDULE 2 PART 1 REQUIREMENTS Requirement 6(2) (in respect of detailed design approval)	(2) The details submitted must accord with— (a) the design approach document appendix A: parameters document; (b) the landscape and visual mitigation strategy;~~ and~~ (c) the LEMP ~~landscape and ecology management plan~~ for that phase ~~as approved under requirement 8.~~; and ~~(c)~~(d) the WSI for that phase. ... (4) For the purposes of paragraph (2)— (a) "LEMP" means a landscape and ecology management plan approved in accordance with requirement 8; and (b) "WSI" means the written scheme of investigation for the relevant phase approved in accordance with requirement 12,	The Applicant made this amendment in response to a request from City of Doncaster Council at paragraph 5.12 of their Deadline 3 submissions **[REP3-081]**.

Provision	Change made to the draft DCO	Explanation for change
	whether such approval is given prior to or concurrently with the approval of details pursuant to sub-paragraph (1).	
SCHEDULE 2 PART 1 REQUIREMENTS Requirement 8(5) (in respect of the landscape and ecology management plan)	(5) For the purposes of sub-paragraph (1), "commence" includes any permitted preliminary works involving pre-construction ecological mitigation and site clearance.	The Applicant added this provision following its review of each of the requirements in Schedule 2 to consider whether any further carve-outs from permitted preliminary works should be included, as requested by the ExA during Issue Specific Hearing 2 under Action 1 in **Written Summary of Oral Submissions made at Issue Specific Hearing 2 [REP3-047].**
SCHEDULE 2 PART 1 REQUIREMENTS Requirement 12(5) (in respect of the written scheme of investigation for archaeology)	(5) Unless otherwise agreed in writing by the relevant planning authority, for the purposes of sub-paragraph (1) "commence" includes any permitted preliminary works ~~which~~ involve~~e~~ing intrusive archaeological surveys (including trenching) and other investigations for the purpose of assessing ground conditions (including the making of boreholes).	Correction of a typographical error.

Provision	Change made to the draft DCO	Explanation for change
SCHEDULE 2 PART 1 REQUIREMENTS Requirement 14(4) (in respect of the construction environmental management plan)	(4) For the purposes of sub-paragraph (1), the term "commence" ~~does not~~ includes any permitted preliminary works involving remedial works in respect of contamination.	Amendments made to align drafting approach with requirements 8(5), 9(3) and 12(5).
SCHEDULE 2 PART 2 PROCEDURE FOR DISCHARGE OF REQUIREMENTS paragraph 4	Fees (1) Where an application is made to the relevant planning authority for written consent, agreement or approval in respect of a requirement, a fee is to apply ~~the fee prescribed under regulation 16(1)(b) of the Town and Country Planning (Fees for Applications, Deemed Applications, Requests and Site Visits) (England) Regulations 2012(a) (as may be amended or replaced from time to time) is to apply~~ and must be paid to the relevant planning authority for each application. (2) The fee payable for each application under sub-paragraph (1) is as follows— (a) a fee of £2,578 for the first application for the discharge of each of the requirements 6	Following discussions with City of Doncaster Council (**CDC**) regarding the **Draft DCO [Document Reference 3.1. Revision 7],** the Applicant has amended the fee structure for applications to discharge the Schedule 2 requirements to align with recent solar precedent including the One Earth Solar Farm Order 2026 and the Springwell Solar Farm Order 2026..

Provision	Change made to the draft DCO	Explanation for change
	(detailed design approval), 7 (battery safety management plan), 8 (landscape and ecology management plan), 10 (soil management), 11 (surface water and foul drainage), 12 (archaeology), 14 (construction environmental management plan), 15 (operational environmental management plan), 16 (construction traffic management plan) and 19 (decommissioning and restoration). (b) a fee of £588 for each subsequent application for the discharge of each of the requirements listed in sub-paragraph (a) and any application under requirement 6 (detailed design approval) in respect of the requirements listed in paragraph (a); and (c) a fee of £298 for any application for the discharge of— (i) any other requirements not listed in paragraph (a); (ii) any application under requirement 5 (approved details and amendments to them)	

Provision	Change made to the draft DCO	Explanation for change
	in respect of requirements not listed in paragraph (a); and (iii) any approval required by a document referred to by any requirement or a document approved pursuant to any requirement. ~~(2)~~(3) Any fee paid under this Schedule must be refunded to the undertaker within four weeks of-— (a) the application being rejected as invalidly made; or (b) the relevant planning authority failing to determine the application within the relevant period in paragraph 1(1) unless— (i) within that period the undertaker agrees, in writing, that the fee is to be retained by the relevant planning authority and credited in respect of a future application; or (ii) a longer period of time for determining the application has been agreed pursuant to paragraph 1(1)(c) of this Schedule.	

Provision	Change made to the draft DCO	Explanation for change
	~~(ii)~~(4)The fees specified in sub-paragraph (2) shall be adjusted on each anniversary of the date this Order comes into force by a percentage equal to the index value of the Consumer Price Index (I) most recently published prior to that anniversary, provided that in no event shall any annual adjustment exceed 5%.	
SCHEDULE 12 – DOCUMENTS AND PLANS TO BE CERTIFIED	Information in columns 3 (revision number) and 4 (date) have been updated for Deadline 4. Part 1 (Submission documents forming the environmental statement to be certified) and Part 2 (Examination documents forming part of the environmental statement to be certified) have been added.	Updates made to reflect the latest versions of documents and plans submitted into examination. Parts 1 and 2 added as requested by the ExA in ExQ2 Q2.5.3. The Applicant notes that Part 1 currently references the Environmental Statement in its entirety. As Part 2 identifies amendments to the Environmental Statement during the examination, the Applicant will update Part 1 at the final examination deadline to clarify which elements of the Environmental Statement remain unchanged.

	application of either party (after giving written notice to the other) by the Secretary of State.	
SCHEDULE 2 (REQUIREMENTS) PART 1 Requirement 8(3)(a) (Landscape and ecology management plan)	(3) The landscape and ecological management plan for the relevant phase must include details of— (a) the extent to which the relevant phase contributes to ensuring that the authorised development overall achieves a minimum of 20% biodiversity net gain in habitat units, 100% biodiversity net gain in hedgerow units and 10% biodiversity net gain in watercourse units ~~10% biodiversity net gain~~ during its operational lifetime using the statutory biodiversity metric published by the Department of Environment, Food and Rural Affairs on 12 February 2024 to calculate those percentages;	This update has been made in response to the ExA's request in DCO.7.3 of the ExA's commentary on the draft DCO and in response to Q3.2.2 as set out in the Written Responses to ExQ3 [**Document Reference 8.30 Revision 1**].
SCHEDULE 2 (REQUIREMENTS) PART 2 (PROCEDURE FOR DISCHARGE OF REQUIREMENTS)	(6) For deemed consent under sub-paragraph (3) to apply to any application for consent under sub-paragraph (1), the application must include a statement that the provisions of sub-paragraph (3) apply to that application.	This update has been made in response to the ExA's request in DCO.7.5 of the ExA's commentary on the draft DCO.

Provision	Change made to the draft DCO	Explanation for change
Paragraph 1, sub-paragraphs (6) and (7)	(7) If an application for consent under sub-paragraph (1) does not include the statement required under sub-paragraph (6), then the provisions of sub-paragraph (3) will not apply to that application.	
SCHEDULE 12 – DOCUMENTS AND PLANS TO BE CERTIFIED	Information in columns 3 (revision number) and 4 (date) have been updated.	Updates made to reflect the latest versions of documents and plans submitted into examination.
SCHEDULE 14 – PROTECTIVE PROVISIONS, PART 3	Various amendments to the protective provisions for the benefit of Drainage Authorities (Part 3).	These amendments have been made as a result of ongoing negotiations with Doncaster East Internal Drainage Board and Isle of Axholme & North Nottinghamshire Water Level Management Board on their protective provisions and represent updates that have been agreed between the parties.
SCHEDULE 14 – PROTECTIVE PROVISIONS PART 4 FOR THE PROTECTION OF THE CANAL & RIVER TRUST Paragraph 28(2)	"Code of Practice" means the Code of Practice for Works Affecting the Canal & River Trust (April 2025~~6~~) or any updates or amendments thereto;	Update made to reflect the latest version of the Code of Practice.

Provision	Change made to the draft DCO	Explanation for change
SCHEDULE 14 – PROTECTIVE PROVISIONS PART 10 FOR THE PROTECTION OF LOCAL HIGHWAY AUTHORITIES	Various amendments made to Part 10 of Schedule 14, so that the protective provisions apply to North Lincolnshire Council in addition to City of Doncaster Council.	Update made following ongoing discussions with North Lincolnshire Council and its request that the protective provisions for highway authorities be extended for its benefit.
SCHEDULE 14 – PROTECTIVE PROVISIONS	Cross-references updated throughout Schedule 14.	As a result of updates made within different parts of Schedule 14, cross-referencing has been updated.
Throughout	Cross-references updated throughout.	Amendments have resulted in the need for changes throughout to cross-referencing of articles.
Deadline 8 (6 October 2026) Changes made in Draft Development Consent Order [Document Reference 3.1 Revision 10]
