

In response to Q1.6.10, Anglian Water Services and Springwell Energy Farm Limited are engaged in discussions regarding Bespoke Protective Provisions. Other matters will be covered by a bilateral Statement of Common Ground which is also being progressed.

We would hope that agreement will be reached with regard to the Bespoke Protective Provisions in the near future. It is the intention to provide the ExA with an update on these elements at Deadline 2 (17th June 2025).
