

Q1.15.2 The applicant needs to be pushed on the cabling. The cabling breakdown over time and during the 40 years microplastics and other pollutants will be left in the soil. Under no circumstances should this material be left in the soil, it should be removed when the site is decommissioned. The only reason the applicant wants to leave it buried is costs

Q1.12.3 Impact on Tourism - the applicants RSK authority is dismissive on the impact on Tourism. 10,000 acres plus of solar panels and other Industrial hardware will destroy the Tourism in this area. People come for the lanscape and tranquility. Both of which will be blighted. There will be an impact on pubs, restaurants , campsites and B&B
