Dear Sirs,

I am writing to object very strongly to this plan for a BESS to be constructed in such close proximity to our villages and schools. I am greatly concerned about the safety of such a development in the case of fires, pollution etc.,. Please consider the public who have to live in these villages - this is definitely not what anyone would want to have forced on them on their doorstep.

Please do not turn our lovely countryside into an industrial waste land and consider the implications once this mad development is no long in use - who will clean up the mess.

The only people who are going to benefit from this is the developers and certainly not the local population.

Yours sincerely

Brenda & Tony Watts
