

Since the Prodedural Deadline, the Applicant has continued to make made constructive progress with regards to securing the land and rights required to construct, operate, maintain and decommission the Proposed Development voluntarily. The Applicant has agreed terms for 97% of the land included in the Bespoke Access Corridor and 56% of the land included in the Cable Route Corridor over which voluntary agreements are considered necessary. Further detail on the progress made and status of these negotiations is provided by the Applicant as red text in an updated Land and Rights Negotiation Tracker.

Please note that article and requirement numbering within the draft DCO has changed due to the addition of new articles.
