Subject: Fenwick Solar Farm - SoCC for formal consultation under section 47(2) of the Planning Act 2008

Attachments: Fenwick Solar Farm SoCC for formal consultation.docx (6.35 MB), Fenwick Solar Farm SoCC changes from CDC informal review tracked.docx (6.35 MB), Fenwick Solar Farm informal SoCC review comment log.xlsx (23.43 KB)

Good afternoon 

Thank you for your comments following the informal consultation on the DRAFT Statement of Community Consultation (SoCC) for Fenwick Solar Farm, carried out between 15 January and 22 January.

On behalf of Fenwick Solar Project Limited please find attached an updated DRAFT SoCC for City of Doncaster Council's formal consultation as part of the statutory pre-application process under section 47(2) of the Planning Act 2008. We would be grateful if you could provide comments to us by close of business on **Wednesday 20 March 2024**.

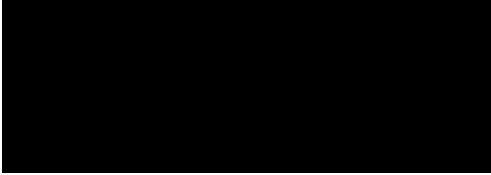

To aid your review, we have attached a clean version of the updated DRAFT SoCC, as well as one that shows track changes to the version previously shared (these tracks include some further text amends made by the Applicant). We have also provided your comments, and our response to these, in the attached document titled 'informal SoCC review comment log'.

Please note, it is currently anticipated that the dates for the statutory consultation will be 17 April to 31 May 2024. The dates and locations of the consultation events can be found in Table 3-2 of the DRAFT SoCC. The final dates of the statutory consultation will be confirmed in the statutory consultation materials, including the newspaper notice published pursuant to section 48 of the Planning Act 2008.

Consultation brochures, which will highlight the launch of consultation, will be sent to a consultation zone in the vicinity of the Scheme, as detailed in the DRAFT SoCC. A statutory notice will be placed In the Yorkshire Post (along with a national newspaper and the London Gazette) to publish notice of the consultation. A press release will also be provided to local and trade media outlets in advance of consultation.

Should you require assistance before 20 March, or have any questions in the meantime, please come back to me or any member of the AECOM team cc'd in my absence.

Kind regards

An aerial photograph of a vast solar farm at sunset. The rows of solar panels stretch into the distance, creating a strong sense of perspective. The sky is a deep orange and red, with the sun low on the horizon, casting long shadows and highlighting the texture of the panels.
