**SECTION 48 PLANNING ACT 2008 REGULATION 4 OF THE INFRASTRUCTURE PLANNING (APPLICATIONS: PRESCRIBED FORMS AND PROCEDURE)  
REGULATIONS 2009 REGULATION 13 OF THE INFRASTRUCTURE PLANNING (ENVIRONMENTAL IMPACT ASSESSMENT) REGULATIONS 2017  
NOTICE PUBLICISING A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT ORDER FOR FENWICK SOLAR FARM**

Notice is hereby given that Fenwick Solar Project Limited (company number 13705886) of Unit 5E, Park Farm, Chichester Road, Arundel, BN18 0AG (“the Applicant”) proposes to make an application (“the Application”) to the Secretary of State for Energy Security and Net Zero under Section 37 of the Planning Act 2008 (“the 2008 Act”) for a Development Consent Order (“the DCO Application”) to develop Fenwick Solar Farm (“the Scheme”). The Applicant is a Boom Power company.

**The Scheme**

The Scheme, located entirely within the City of Doncaster Council’s administrative area, will principally consist of the elements listed below.

- The construction, operation and maintenance, and decommissioning of a solar photovoltaic (PV) generating station, to generate electricity with a total capacity exceeding 50 megawatts (MW), making it a nationally significant infrastructure project, located within the “Solar PV Site” east of Fenwick, near the town of Askern, the villages of Moss and Sykehouse and the hamlet of Topham. The northern edge of the Solar PV Site borders the River Went.
- A Battery Energy Storage System (BESS) located on part of the Solar PV Site, allowing the storage, export and import of electricity to/from the national electricity transmission system.
- Supporting electrical infrastructure, including a new On-Site Substation and cables.
- Two options for connecting the Scheme to the National Electricity Transmission System (NETS). One option is an underground grid connection from the On-Site Substation located within the Solar PV Site to the National Grid Thorpe Marsh Substation. The preferred route of the Grid Connection Corridor travels south from the Solar PV Site to the Existing National Grid Thorpe Marsh Substation. There is also an option to connect the to the grid via underground cables from the On-Site Substation to an existing overhead power line that passes across the east of the Solar PV Site.
- Associated infrastructure, mitigation and enhancement measures, and other ancillary works, for example, fencing, security, temporary and permanent means of access, highway works, temporary works compounds and work sites.

The proposed DCO will, amongst other things, authorise:

- Construction, operation and maintenance, and decommissioning of a ground mounted solar PV electricity generating facility with a capacity exceeding 50MW;
  - Associated and/or ancillary works including the construction of a BESS; On-Site Substation and cabling to connect to the national electricity transmission network either at the Existing National Grid substation at Thorpe Marsh or via an existing overhead power line within the Solar PV Site; the creation of environmental mitigation and enhancement areas; access tracks; construction compounds; and welfare and storage facilities;
  - Alterations to streets, including the creation and modification of temporary and permanent accesses, the temporary removal of street furniture and any proposed diversion and/or temporary closure of public rights of way;
  - The permanent compulsory acquisition of land and/or an interest in or right over land and temporary use powers;
  - The overriding of easements and other rights over or affecting land as well as the creation of restrictions;
  - The application and/or disapplication of legislation including, amongst other things, legislation relating to compulsory purchase and landlord and tenant matters; and
  - Such ancillary, incidental and consequential provisions, licenses, property rights, permits and consents as are necessary and/or convenient for the purposes of the Scheme.
- The Scheme is an Environmental Impact Assessment (EIA) development for the purposes of the Infrastructure Planning (Environmental Impact Assessment) Regulations 2017. As a result, the Applicant is required to carry out an EIA and submit and publish an Environmental Statement (ES) as part of the Application containing a detailed description of the Scheme and information about its likely significant effects on the environment. Information currently available about the likely significant environmental effects of the Scheme is set out in the Preliminary Environmental Information Report (PEIR) and summarised in a Non-Technical Summary (PEIR NTS) that forms part of the consultation material.

**Statutory Consultation**

Consultation on the proposals will take place from **Thursday 18 April 2024 to 11.59pm on Friday 31 May 2024** (“the consultation period”).

The full suite of consultation materials which includes documents, plans, and maps which show the nature and location of the Scheme comprises: Consultation brochure; feedback form; plans of the proposed location of the Solar PV Site and Grid Connection Corridor; Non-statutory consultation report; Statement of Community Consultation (SoCC); PEIR; and PEIR NTS.

**Document deposit locations**

From **Thursday 18 April 2024 to at least 11.59pm on Friday 31 May 2024**, all consultation materials including documents, plans and maps showing the nature and location of the Scheme will be available for inspection free of charge on the Applicant’s website,

<https://www.boom-power.co.uk/fenwick/>. The consultation materials are within the **Statutory Consultation** section of the website during the consultation period.

At the document inspection locations, hard copies of consultation documents (with the exception of the PEIR) will be made available for inspection, free of charge. USBs containing digital copies of all consultation materials (including the PEIR) will also be made available at the document inspection venues for inspection at the libraries or removal free of charge for any consultee to read at their convenience.

The consultation documents may be inspected on computers at Askern Community Library, Snaith Library, Thorne Library and Edenthorpe Community Library on the project website listed above or utilising the USB sticks. Computers are not available to be used to inspect the consultation documents at The Baxter Arms or the Old George Inn.

Hard copy consultation materials, or copies of the consultation materials on USB sticks will be made available on request by contacting the Applicant via the details in the “Feedback” section of this notice. Requests will be considered on a case-by-case basis, and the complete set of consultation materials can be made available in hard copy format on request at a cost of £3,000.

Document inspection venue	Opening hours* (correct at the time of publication)
Askern Community Library Station Road Askern, Doncaster, DN6 0LA	Monday - 10.00am to 1.00pm Tuesday - 10.00am to 1.00pm Wednesday - 10.00am to 1.00pm Thursday - 10.00am to 1.00pm Friday - 10.00am to 1.00pm Saturday - 10.00am to 1.00pm Sunday - Closed
Snaith Library 27 Market Place, Snaith, Goole, DN14 9HE	Monday - Closed Tuesday – 2.00pm to 6.00pm Wednesday - Closed Thursday – 10.00am to 4.00pm Friday - Closed Saturday – 10.00am to 12.00pm Sunday – Closed
Thorne Library The Vermuyden Centre, Field Side, Thorne, Doncaster, DN8 4BQ	Monday – 8.40am to 1pm and 1.30pm to 5.00pm Tuesday - 8.40am to 1pm and 1.30pm to 5.00pm Wednesday – 8.40am to 1pm and 1.30pm to 5.00pm Thursday - 8.40am to 1pm and 1.30pm to 5.00pm Friday – 8.40am to 1pm and 1.30pm to 5.00pm Saturday - 8.40am to 1pm and 1.30pm to 5.00pm Sunday - 8.40am to 1pm and 1.30pm to 5.00pm
Edenthorpe Community Library Communal Hall, Bardon Road, Edenthorpe, Doncaster, DN3 2ND	Monday – 2.00pm to 5.00pm Tuesday - Closed Wednesday – 9.30am to 12.30pm Thursday - Closed Friday – 2.00pm to 5.00pm Saturday – 10.00am to 12.00pm Sunday – Closed
The Baxter Arms Fenwick, Fenwick Lane, Doncaster, DN6 0HA	Monday – 4.00pm to 11.00pm Tuesday - 4.00pm to 11.00pm Wednesday - 4.00pm to 11.00pm Thursday – 12.00pm to 11.00pm Friday - 12.00pm to 11.00pm Saturday - 12.00pm to 11.00pm Sunday - 12.00pm to 11.00pm
The Old George Inn Broad Lane, Sykehouse, DN14 9AU	Monday – 9.30am to Late (approx. 10.00pm) Tuesday - 9.30am to Late (approx. 10.00pm) Wednesday - 9.30am to Late (approx. 10.00pm) Thursday - 9.30am to Late (approx. 10.00pm) Friday - 9.30am to Late (approx. 10.00pm) Saturday - 9.30am to Late (approx. 10.00pm) Sunday - 9.30am to Late (approx. 10.00pm)

\*Opening times of these venues may be subject to change. Please

check with the venue before travelling.

The Applicant is holding **three in person consultation events** and **one online question and answer session** at the following dates, times and locations.

Date and time	Location
Friday 26 April 2024 2.00pm - 7.00pm	Alexander House (Askern Town Hall) High St, Askern, Doncaster DN6 0AB
Saturday 27 April 2024 10.00am - 3.00pm	Moss & Fenwick Village Hall Fenwick Common Ln, Doncaster DN6 0HG
Monday 29 April 2024 2.00pm - 7.00pm	Sykehouse Village Hall Off Broad Ln, Sykehouse, Goole DN14 9AS
Wednesday 8 May 2024 7.00pm - 8.00pm	Microsoft Teams – online question and answer session accessed via the Applicant’s website: <a href="https://www.boom-power.co.uk/fenwick">www.boom-power.co.uk/fenwick</a>

Hard copies of all consultation materials (including the SoCC) will be available for inspection at the in-person events listed above, and members of the project team will be available to discuss our proposals and answer any questions.

In the event of a booked venue becoming unavailable, or other unforeseen circumstances meaning the consultation events must be cancelled and/or rearranged, the Applicant will inform people as early as possible of the cancellation and, where possible, give details of a substitute event via the Scheme’s website, on social media and notify parish councils requesting that they provide this information to residents via existing channels.

**Feedback**

Any person may comment on the proposals or otherwise respond to this consultation. Responses must be received by **11.59pm on 31 May 2024**. Responses received after this time may not be considered.

All responses must be made in writing by:

- Completing the online feedback form located within the **Statutory Consultation** section on the Scheme website: <https://www.boom-power.co.uk/fenwick/>
- Attending a consultation event and completing a paper copy feedback form
- Obtaining a paper copy of the consultation feedback form at one of our document inspection venues or by requesting one using the contact details in this notice, which can be returned via **FREEPOST Fenwick Solar Farm**
- Alternatively, feedback in a letter or email format can be sent to us by:
  - Emailing: [Fenwick.Enquiries@boom-power.co.uk](mailto:Fenwick.Enquiries@boom-power.co.uk)
  - Writing to us: **FREEPOST Fenwick Solar Farm**

The Applicant will consider and have regard to all responses received as part of this consultation when developing the Application once the consultation has closed. Responses will form the basis of a consultation report that will be one of the factors taken into consideration by the Planning Inspectorate on behalf of the Secretary of State when deciding whether the DCO application can be accepted for examination. Therefore, in providing any comment, it should be borne in mind that the substance of it may be communicated to others as part of that consultation report.

Personal details will be held securely and only used for purposes in connection with the statutory consultation, the DCO process and further development of the Scheme. Outside of these purposes, the Applicant may be required to provide personal details if specifically requested as part of a Freedom of Information Act request or if the Planning Inspectorate requests original responses. Otherwise, personal details will not be disclosed to any third parties. For further details please see our Privacy Notice at: <https://www.boom-power.co.uk/privacy-policy/>. A hard copy of the privacy notice can be requested using the contact details below.

For further information about this notice, the consultation materials (including the documents, plans and maps), the consultation or the Scheme more generally, please contact the Applicant using one of these contact methods:

- Email: [Fenwick.Enquiries@boom-power.co.uk](mailto:Fenwick.Enquiries@boom-power.co.uk)
- Write: **FREEPOST Fenwick Solar Farm**
- Telephone: **01964 782219 between the hours of 9am and 5pm Monday to Friday**

Newspaper of the year

happen within days in retaliation for the bombing of an Iranian consulate building in Damascus.

US and allied officials fear that a strike is imminent and could come in the form of a direct missile launch from Iran, rather than an attack through a proxy such as Hezbollah in Lebanon. Israel has vowed to respond in kind to such a direct strike, raising the prospect of a regional war, which US officials now believe is more likely than at any point since the start of the recent Gaza conflict on 7 October.

Biden's pledge of support to Israel

at the White House - intended as a deterrent - came a few hours after Iran's supreme leader, Ayatollah Ali Khamenei, repeated a threat to strike back against Israel over the Damascus bombing that killed 12 people, including Gen Mohammad Reza Zahedi, a senior figure in Iran's Islamic Revolutionary Guards, and six other members.

"When they attacked our consulate area, it was like they attacked our territory," Khamenei said in remarks broadcast by Iranian state TV. "The evil regime must be punished, and it will be punished." Israel's foreign minister, Israel Katz, responded in a post on X, with a vow: "If Iran attacks from its territory, Israel will respond and attack in Iran."

Israel has not formally taken responsibility for the 1 April bombing, but Israeli and US officials have made clear it carried out the strike.

Israel and Iran have been trading blows in Lebanon and Syria for months, but Biden administration officials fear that the bombing on an Iranian diplomatic building, which Tehran considers its own territory,

has significantly raised the threat of the Gaza war widening.

Since the bombing, Tehran has sent Washington messages attributing ultimate blame for the attack on the US and warning the US to stay out of its confrontation with Israel.

Biden's pledge to Israel on the White House lawn, in a joint appearance with Japan's prime minister, Fumio Kishida, appeared to be a response to that warning, insisting the US would not stay on the sidelines. "We also want to address the Iranian threat"

Julian Borger Washington  
Bethan McKernan Jerusalem

Joe Biden vowed yesterday that the US commitment to defend Israel against Iran was "iron clad", as concerns rose in Washington that a "significant" Iranian strike could

Jessica Ennis wins gold at the 2012 Olympics. In the modern Games' 128-year history, winners have simply won a medal. But in Paris this year, track and field victory will be rewarded with \$50,000. **News Page 4** →

Health policy editor

Adult transgender clinics in England are facing a Hilary Cass-style inquiry into how they treat patients after whistleblowers raised concerns about the care they provide.

NHS England announced that it was setting up a review of how the seven specialist services operated and delivered care after past and present staff shared misgivings privately during the previous investigation.

As a first step, NHS England will send "external quality improvement experts" into each of the clinics to gather evidence about how they care for patients to help guide the inquiry's direction.

The announcement

**SECTION 48 PLANNING ACT 2008 REGULATION 4 OF THE INFRASTRUCTURE PLANNING (APPLICATIONS: PRESCRIBED FORMS AND PROCEDURE) REGULATIONS 2009 REGULATION 13 OF THE INFRASTRUCTURE PLANNING (ENVIRONMENTAL IMPACT ASSESSMENT) REGULATIONS 2017  
NOTICE PUBLISCHING A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT ORDER FOR FENWICK SOLAR FARM**

Notice is hereby given that Fenwick Solar Project Limited (company number 13705886) of Unit 5E, Park Farm, Chichester Road, Arundel, BN18 0AG ("the Applicant") proposes to make an application ("the Application") to the Secretary of State for Energy Security and Net Zero under Section 37 of the Planning Act 2008 ("the 2008 Act") for a Development Consent Order ("the DCO Application") to develop Fenwick Solar Farm ("the Scheme"). The Applicant is a Boom Power company.

**The Scheme**

The Scheme, located entirely within the City of Doncaster Council's administrative area, will principally consist of the elements listed below:

- The construction, operation and maintenance, and decommissioning of a solar photovoltaic (PV) generating station, to generate electricity with a total capacity exceeding 50 megawatts (MW), making it a nationally significant infrastructure project, located within the "Solar PV Site" east of Fenwick, near the town of Askern, the villages of Moss and Sykehouse and the hamlet of Topham. The northern edge of the Solar PV Site borders the River Went.
- A Battery Energy Storage System (BESS) located on part of the Solar PV Site, allowing the storage, export and import of electricity to/from the national electricity transmission system.
- Supporting electrical infrastructure, including a new On-Site Substation and cables.
- Two options for connecting the Scheme to the National Electricity Transmission System (NETS). One option is an underground grid connection from the On-Site Substation located within the Solar PV Site to the National Grid Thorpe Marsh Substation. The preferred route of the Grid Connection Corridor travels south from the Solar PV Site to the Existing National Grid Thorpe Marsh Substation. There is also an option to connect the to the grid via underground cables from the On-Site Substation to an existing overhead power line that passes across the east of the Solar PV Site.
- Associated infrastructure, mitigation and enhancement measures, and other ancillary works, for example, fencing, security, temporary and permanent means of access, highway works, temporary works compounds and work sites.

The proposed DCO will, amongst other things, authorise:

- Construction, operation and maintenance, and decommissioning of a ground mounted solar PV electricity generating facility with a capacity exceeding 50MW;
- Associated and/or ancillary works including the construction of a BESS; On-Site Substation and cabling to connect to the national electricity transmission network either at the Existing National Grid substation at Thorpe Marsh or via an existing overhead power line within the Solar PV Site; the creation of environmental mitigation and enhancement areas; access tracks; construction compounds; and welfare and storage facilities;
- Alterations to streets, including the creation and modification of temporary and permanent accesses, the temporary removal of street furniture and any proposed diversion and/or temporary closure of public rights of way;
- The permanent compulsory acquisition of land and/or an interest in or right over land and temporary use powers;
- The overriding of easements and other rights over or affecting land as well as the creation of restrictions;
- The application and/or discontinuation of legislation including, amongst other things, legislation relating to compulsory purchase and landlord and tenant matters; and
- Such ancillary, incidental and consequential provisions, licences, property rights, permits and consents as are necessary and/or convenient for the purposes of the Scheme.

The Scheme is an Environmental Impact Assessment (EIA) development for the purposes of the Infrastructure Planning (Environmental Impact Assessment) Regulations 2017. As a result, the Applicant is required to carry out an EIA and submit and publish an Environmental Statement (ES) as part of the Application containing a detailed description of the Scheme and information about its likely significant effects on the environment. Information currently available about the likely significant environmental effects of the Scheme is set out in the Preliminary Environmental Information Report (PEIR) and summarised in a Non-Technical Summary (PEIR NTS) that forms part of the consultation material.

**Statutory Consultation**

Consultation on the proposals will take place from **Thursday 18 April 2024 to 11.59pm on Friday 31 May 2024** ("the consultation period").

The full suite of consultation materials which includes documents, plans, and maps which show the nature and location of the Scheme comprises: Consultation brochure; feedback form; plans of the proposed location of the Solar PV Site and Grid Connection Corridor; Non-statutory consultation report; Statement of Community Consultation (SoCC); PEIR; and PEIR NTS.

**Document deposit locations**

From **Thursday 18 April 2024 to at least 11.59pm on Friday 31 May 2024**, all consultation materials including documents, plans and maps showing the nature and location of the Scheme will be available for inspection free of charge on the Applicant's website, <https://www.boom-power.co.uk/fenwick/>. The consultation materials are within the **Statutory Consultation** section of the website during the consultation period.

At the document inspection locations, hard copies of consultation documents (with the exception of the PEIR) will be made available for inspection, free of charge. USBs containing digital copies of all consultation materials (including the PEIR) will also be made available at the document inspection venues for inspection at the libraries or removal free of charge for any consultee to read at their convenience.

The consultation documents may be inspected on computers at Askern Community Library, Snaith Library, Thorne Library and Edenthorpe Community Library on the project website listed above or utilising the USB sticks. Computers are not available to be used to inspect the consultation documents at The Baxter Arms or the Old George Inn.

Hard copy consultation materials, or copies of the consultation materials on USB sticks will be made available on request by contacting the Applicant via the details in the "Feedback" section of this notice. Requests will be considered on a case-by-case basis, and the complete set of consultation materials can be made available in hard copy format on request at a cost of £3,000.

## Town and Country Planning

### Fenwick Solar Project Limited

#### SECTION 48 PLANNING ACT 2008

#### REGULATION 4 OF THE INFRASTRUCTURE PLANNING (APPLICATIONS: PRESCRIBED FORMS AND PROCEDURE) REGULATIONS 2009

#### REGULATION 13 OF THE INFRASTRUCTURE PLANNING (ENVIRONMENTAL IMPACT ASSESSMENT) REGULATIONS 2017

#### NOTICE PUBLICISING A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT ORDER FOR FENWICK SOLAR FARM

Notice is hereby given that Fenwick Solar Project Limited (company number 13705886) of Unit 5E, Park Farm, Chichester Road, Arundel, BN18 0AG ("the Applicant") proposes to make an application ("the Application") to the Secretary of State for Energy Security and Net Zero under Section 37 of the Planning Act 2008 ("the 2008 Act") for a Development Consent Order ("the DCO Application") to develop Fenwick Solar Farm ("the Scheme"). The Applicant is a Boom Power company.

#### The Scheme

The Scheme, located entirely within the City of Doncaster Council's administrative area, will principally consist of the elements listed below.

- The construction, operation and maintenance, and decommissioning of a solar photovoltaic (PV) generating station, to generate electricity with a total capacity exceeding 50 megawatts (MW), making it a nationally significant infrastructure project, located within the "Solar PV Site" east of Fenwick, near the town of Askern, the villages of Moss and Sykehouse and the hamlet of Topham. The northern edge of the Solar PV Site borders the River Went.
- A Battery Energy Storage System (BESS) located on part of the Solar PV Site, allowing the storage, export and import of electricity to/from the national electricity transmission system.
- Supporting electrical infrastructure, including a new On-Site Substation and cables.
- Two options for connecting the Scheme to the National Electricity Transmission System (NETS). One option is an underground grid connection from the On-Site Substation located within the Solar PV Site to the National Grid Thorpe Marsh Substation. The preferred route of the Grid Connection Corridor travels south from the Solar PV Site to the Existing National Grid Thorpe Marsh Substation. There is also an option to connect the to the grid via underground cables from the On-Site Substation to an existing overhead power line that passes across the east of the Solar PV Site.
- Associated infrastructure, mitigation and enhancement measures, and other ancillary works, for example, fencing, security, temporary and permanent means of access, highway works, temporary works compounds and work sites.

The proposed DCO will, amongst other things, authorise:

- Construction, operation and maintenance, and decommissioning of a ground mounted solar PV electricity generating facility with a capacity exceeding 50MW;
- Associated and/or ancillary works including the construction of a BESS; On-Site Substation and cabling to connect to the national electricity transmission network either at the Existing National Grid substation at Thorpe Marsh or via an existing overhead power line within the Solar PV Site; the creation of environmental mitigation and enhancement areas; access tracks; construction compounds; and welfare and storage facilities;
- Alterations to streets, including the creation and modification of temporary and permanent accesses, the temporary removal of street furniture and any proposed diversion and/or temporary closure of public rights of way;
- The permanent compulsory acquisition of land and/or an interest in or right over land and temporary use powers;
- The overriding of easements and other rights over or affecting land as well as the creation of restrictions;
- The application and/or disapplication of legislation including, amongst other things, legislation relating to compulsory purchase and landlord and tenant matters; and

• Such ancillary, incidental and consequential provisions, licenses, property rights, permits and consents as are necessary and/or convenient for the purposes of the Scheme.

The Scheme is an Environmental Impact Assessment (EIA) development for the purposes of the Infrastructure Planning (Environmental Impact Assessment) Regulations 2017. As a result, the Applicant is required to carry out an EIA and submit and publish an Environmental Statement (ES) as part of the Application containing a detailed description of the Scheme and information about its likely significant effects on the environment. Information currently available about the likely significant environmental effects of the Scheme is set out in the Preliminary Environmental Information Report (PEIR) and summarised in a Non-Technical Summary (PEIR NTS) that forms part of the consultation material.

### Statutory Consultation

Consultation on the proposals will take place from **Thursday 18 April 2024 to 11.59pm on Friday 31 May 2024** (“the consultation period”).

The full suite of consultation materials which includes documents, plans, and maps which show the nature and location of the Scheme comprises: Consultation brochure; feedback form; plans of the proposed location of the Solar PV Site and Grid Connection Corridor; Non-statutory consultation report; Statement of Community Consultation (SoCC); PEIR; and PEIR NTS.

### Document deposit locations

From **Thursday 18 April 2024 to at least 11.59pm on Friday 31 May 2024**, all consultation materials including documents, plans and maps showing the nature and location of the Scheme will be available for inspection free of charge on the Applicant’s website, <https://www.boom-power.co.uk/fenwick/>. The consultation materials are within the **Statutory Consultation** section of the website during the consultation period.

At the document inspection locations, hard copies of consultation documents (with the exception of the PEIR) will be made available for inspection, free of charge. USBs containing digital copies of all consultation materials (including the PEIR) will also be made available at the document inspection venues for inspection at the libraries or removal free of charge for any consultee to read at their convenience.

The consultation documents may be inspected on computers at Askern Community Library, Snaith Library, Thorne Library and Edenthorpe Community Library on the project website listed above or utilising the USB sticks. Computers are not available to be used to inspect the consultation documents at The Baxter Arms or the Old George Inn.

Hard copy consultation materials, or copies of the consultation materials on USB sticks will be made available on request by contacting the Applicant via the details in the “Feedback” section of this notice. Requests will be considered on a case-by-case basis, and the complete set of consultation materials can be made available in hard copy format on request at a cost of £3,000.

<b>Document inspection venue</b>	<b>Opening hours* (correct at the time of publication)</b>

	Wednesday - 9.30am to Late (approx. 10.00pm)
	Thursday - 9.30am to Late (approx. 10.00pm)
	Friday - 9.30am to Late (approx. 10.00pm)
	Saturday - 9.30am to Late (approx. 10.00pm)
	Sunday - 9.30am to Late (approx. 10.00pm)

\*Opening times of these venues may be subject to change. Please check with the venue before travelling.

The Applicant is holding **three in person consultation events and one online question and answer session** at the following dates, times and locations.

Date and Time	Location
Friday 26 April 2024 2.00pm - 7.00pm	Alexander House (Askern Town Hall) High St, Askern, Doncaster DN6 0AB
Saturday 27 April 2024 10.00am - 3.00pm	Moss & Fenwick Village Hall Fenwick Common Ln, Doncaster DN6 0HG
Monday 29 April 2024 2.00pm - 7.00pm	Sykehouse Village Hall Off Broad Ln, Sykehouse, Goole DN14 9AS
Wednesday 8 May 2024 7.00pm - 8.00pm	Microsoft Teams – online question and answer session accessed via the Applicant’s website: <b>www.boom-power.co.uk/fenwick</b>

Hard copies of all consultation materials (including the SoCC) will be available for inspection at the in-person events listed above, and members of the project team will be available to discuss our proposals and answer any questions.

In the event of a booked venue becoming unavailable, or other unforeseen circumstances meaning the consultation events must be cancelled and/or rearranged, the Applicant will inform people as early as possible of the cancellation and, where possible, give details of a substitute event via the Scheme's website, on social media and notify parish councils requesting that they provide this information to residents via existing channels.

#### **Feedback**

Any person may comment on the proposals or otherwise respond to this consultation. Responses must be received by **11.59pm on 31 May 2024**. Responses received after this time may not be considered.

All responses must be made in writing by:

- a. Completing the online feedback form located within the **Statutory Consultation** section on the Scheme website: <https://www.boom-power.co.uk/fenwick/>
- b. Attending a consultation event and completing a paper copy feedback form
- c. Obtaining a paper copy of the consultation feedback form at one of our document inspection venues or by requesting one using the contact details in this notice, which can be returned via **FREEPOST Fenwick Solar Farm**
- d. Alternatively, feedback in a letter or email format can be sent to us by:
  - i. Emailing: **Fenwick.Enquiries@boom-power.co.uk**
  - ii. Writing to us: **FREEPOST Fenwick Solar Farm**

The Applicant will consider and have regard to all responses received as part of this consultation when developing the Application once the consultation has closed. Responses will form the basis of a consultation report that will be one of the factors taken into consideration by the Planning Inspectorate on behalf of the Secretary of State when deciding whether the DCO application can be accepted for examination. Therefore, in providing any comment, it should be borne in mind that the substance of it may be communicated to others as part of that consultation report.

Personal details will be held securely and only used for purposes in connection with the statutory consultation, the DCO process and further development of the Scheme. Outside of these purposes, the Applicant may be required to provide personal details if specifically requested as part of a Freedom of Information Act request or if the Planning Inspectorate requests original responses. Otherwise, personal details will not be disclosed to any third parties. For further details please see our Privacy Notice at: <https://www.boom-power.co.uk/privacy-policy/>

. A hard copy of the privacy notice can be requested using the contact details below.

For further information about this notice, the consultation materials (including the documents, plans and maps), the consultation or the Scheme more generally, please contact the Applicant using one of these contact methods:

- Email: **Fenwick.Enquiries@boom-power.co.uk**
- Write: **FREEPOST Fenwick Solar Farm**
- Telephone: **01964 782219 between the hours of 9am and 5pm Monday to Friday**

**Fenwick Solar Project Limited**

## GENERAL NOTICES

**SECTION 48 PLANNING ACT 2008  
REGULATION 4 OF THE INFRASTRUCTURE PLANNING  
(APPLICATIONS: PRESCRIBED  
FORMS AND PROCEDURE) REGULATIONS 2009  
REGULATION 13 OF THE INFRASTRUCTURE PLANNING  
(ENVIRONMENTAL IMPACT ASSESSMENT) REGULATIONS  
2017  
NOTICE PUBLICISING A PROPOSED APPLICATION FOR A  
DEVELOPMENT CONSENT ORDER FOR FENWICK SOLAR  
FARM**

Notice is hereby given that Fenwick Solar Project Limited (company number 13705886) of Unit 5E, Park Farm, Chichester Road, Arundel, BN18 0AG ("the Applicant") proposes to make an application ("the Application") to the Secretary of State for Energy Security and Net Zero under Section 37 of the Planning Act 2008 ("the 2008 Act") for a Development Consent Order ("the DCO Application") to develop Fenwick Solar Farm ("the Scheme"). The Applicant is a Boom Power company.

### The Scheme

The Scheme, located entirely within the City of Doncaster Council's administrative area, will principally consist of the elements listed below.

The construction, operation and maintenance, and decommissioning of a solar photovoltaic (PV) generating station, to generate electricity with a total capacity exceeding 50 megawatts (MW), making it a nationally significant infrastructure project, located within the "Solar PV Site" east of Fenwick, near the town of Askern, the villages of Moss and Sykehouse and the hamlet of Topham. The northern edge of the Solar PV Site borders the River Went.

A Battery Energy Storage System (BESS) located on part of the Solar PV Site, allowing the storage, export and import of electricity to/from the national electricity transmission system.

Supporting electrical infrastructure, including a new On-Site Substation and cables.

Two options for connecting the Scheme to the National Electricity Transmission System (NETS). One option is an underground grid connection from the On-Site Substation located within the Solar PV Site to the National Grid Thorpe Marsh Substation. The preferred route of the Grid Connection Corridor travels south from the Solar PV Site to the Existing National Grid Thorpe Marsh Substation. There is also an option to connect the to the grid via underground cables from the On-Site Substation to an existing overhead power line that passes across the east of the Solar PV Site.

Associated infrastructure, mitigation and enhancement measures, and other ancillary works, for example, fencing, security, temporary and permanent means of access, highway works, temporary works compounds and work sites.

The proposed DCO will, amongst other things, authorise:

Construction, operation and maintenance, and decommissioning of a ground mounted solar PV electricity generating facility with a capacity exceeding 50MW;

Associated and/or ancillary works including the construction of a BESS; On-Site Substation and cabling to connect to the national electricity transmission network either at the Existing National Grid substation at Thorpe Marsh or via an existing overhead power line within the Solar PV Site; the creation of environmental mitigation and enhancement areas; access tracks; construction compounds; and welfare and storage facilities;

Alterations to streets, including the creation and modification of temporary and permanent accesses, the temporary removal of street furniture and any proposed diversion and/or temporary closure of public rights of way;

The permanent compulsory acquisition of land and/or an interest in or right over land and temporary use powers;

The overriding of easements and other rights over or affecting land as well as the creation of restrictions;

The application and/or disapplication of legislation including, amongst other things, legislation relating to compulsory purchase and landlord and tenant matters; and

Such ancillary, incidental and consequential provisions, licenses, property rights, permits and consents as are necessary and/or convenient for the purposes of the Scheme.

The Scheme is an Environmental Impact Assessment (EIA) development for the purposes of the Infrastructure Planning (Environmental Impact Assessment) Regulations 2017. As a result, the Applicant is required to carry out an EIA and submit and publish an Environmental Statement (ES) as part of the Application containing a detailed description of the Scheme and information about its likely significant effects on the environment. Information currently available about the likely significant environmental effects of the Scheme is set out in the Preliminary Environmental Information Report

(PEIR) and summarised in a Non-Technical Summary (PEIR NTS) that forms part of the consultation material.

### Statutory Consultation

Consultation on the proposals will take place from **Thursday 18 April 2024 to 11.59pm on Friday 31 May 2024** ("the consultation period").

The full suite of consultation materials which includes documents, plans, and maps which show the nature and location of the Scheme comprises: Consultation brochure; feedback form; plans of the proposed location of the Solar PV Site and Grid Connection Corridor; Non-statutory consultation report; Statement of Community Consultation (SoCC); PEIR; and PEIR NTS.

### Document deposit locations

From **Thursday 18 April 2024 to at least 11.59pm on Friday 31 May 2024**, all consultation materials including documents, plans and maps showing the nature and location of the Scheme will be available for inspection free of charge on the Applicant's website, <https://www.boom-power.co.uk/fenwick/>. The consultation materials are within the **Statutory Consultation** section of the website during the consultation period.

At the document inspection locations, hard copies of consultation documents (with the exception of the PEIR) will be made available for inspection, free of charge. USBs containing digital copies of all consultation materials (including the PEIR) will also be made available at the document inspection venues for inspection at the libraries or removal free of charge for any consultee to read at their convenience.

The consultation documents may be inspected on computers at Askern Community Library, Snaith Library, Thorne Library and Edenthorpe Community Library on the project website listed above or utilising the USB sticks. Computers are not available to be used to inspect the consultation documents at The Baxter Arms or the Old George Inn.

Hard copy consultation materials, or copies of the consultation materials on USB sticks will be made available on request by contacting the Applicant via the details in the "Feedback" section of this notice. Requests will be considered on a case-by-case basis, and the complete set of consultation materials can be made available in hard copy format on request at a cost of £3,000.

Document inspection venue	Opening hours* (correct at the time of publication)

Wednesday 8 May 2024 7.00pm - 8.00pm	Microsoft Teams - online question and answer session accessed via the Applicant's website: <a href="https://www.boom-power.co.uk/fenwick">www.boom-power.co.uk/fenwick</a>

Hard copies of all consultation materials (including the SoCC) will be available for inspection at the in-person events listed above, and members of the project team will be available to discuss our proposals and answer any questions.

In the event of a booked venue becoming unavailable, or other unforeseen circumstances meaning the consultation events must be cancelled and/or rearranged, the Applicant will inform people as early as possible of the cancellation and, where possible, give details of a substitute event via the Scheme's website, on social media and notify parish councils requesting that they provide this information to residents via existing channels.

### Feedback

Any person may comment on the proposals or otherwise respond to this consultation. Responses must be received by **11.59pm on 31 May 2024**. Responses received after this time may not be considered.

All responses must be made in writing by:

- Completing the online feedback form located within the **Statutory Consultation** section on the Scheme website: <https://www.boom-power.co.uk/fenwick/>
- Attending a consultation event and completing a paper copy feedback form
- Obtaining a paper copy of the consultation feedback form at one of our document inspection venues or by requesting one using the contact details in this notice, which can be returned via **FREEPOST Fenwick Solar Farm**
- Alternatively, feedback in a letter or email format can be sent to us by:
  - Emailing: [Fenwick.Enquiries@boom-power.co.uk](mailto:Fenwick.Enquiries@boom-power.co.uk)
  - Writing to us: **FREEPOST Fenwick Solar Farm**

The Applicant will consider and have regard to all responses received as part of this consultation when developing the Application once the consultation has closed. Responses will form the basis of a consultation report that will be one of the factors taken into consideration by the Planning Inspectorate on behalf of the Secretary of State when deciding whether the DCO application can be accepted for examination. Therefore, in providing any comment, it should be borne in mind that the substance of it may be communicated to others as part of that consultation report.

Personal details will be held securely and only used for purposes in connection with the statutory consultation, the DCO process and further development of the Scheme. Outside of these purposes, the Applicant may be required to provide personal details if specifically requested as part of a Freedom of Information Act request or if the Planning Inspectorate requests original responses. Otherwise, personal details will not be disclosed to any third parties. For further details please see our Privacy Notice at: <https://www.boom-power.co.uk/privacy-policy/>. A hard copy of the privacy notice can be requested using the contact details below.

For further information about this notice, the consultation materials (including the documents, plans and maps), the consultation or the Scheme more generally, please contact the Applicant using one of these contact methods:

- Email: [Fenwick.Enquiries@boom-power.co.uk](mailto:Fenwick.Enquiries@boom-power.co.uk)
- Write: **FREEPOST Fenwick Solar Farm**
- Telephone: **01964 782219 between the hours of 9am and 5pm Monday to Friday**

NOTICE PUBLICISING A PROPOSED APPLICATION FOR A  
DEVELOPMENT CONSENT ORDER FOR FENWICK SOLAR  
FARM**

Notice is hereby given that Fenwick Solar Project Limited (company number 13705886) of Unit 5E, Park Farm, Chichester Road, Arundel, BN18 0AG ("the Applicant") proposes to make an application ("the Application") to the Secretary of State for Energy Security and Net Zero under Section 37 of the Planning Act 2008 ("the 2008 Act") for a Development Consent Order ("the DCO Application") to develop Fenwick Solar Farm ("the Scheme"). The Applicant is a Boom Power company.

**The Scheme**

The Scheme, located entirely within the City of Doncaster Council's administrative area, will principally consist of the elements listed below. The construction, operation and maintenance, and decommissioning of a solar photovoltaic (PV) generating station, to generate electricity with a total capacity exceeding 50 megawatts (MW), making it a nationally significant infrastructure project, located within the "Solar PV Site" east of Fenwick, near the town of Askern, the villages of Moss and Sykehouse and the hamlet of Topham. The northern edge of the Solar PV Site borders the River Went. A Battery Energy Storage System (BESS) located on part of the Solar PV Site, allowing the storage, export and import of electricity to/from the national electricity transmission system.

Supporting electrical infrastructure, including a new On-Site Substation and cables.

Two options for connecting the Scheme to the National Electricity Transmission System (NETS). One option is an underground grid connection from the On-Site Substation located within the Solar PV Site to the National Grid Thorpe Marsh Substation. The preferred route of the Grid Connection Corridor travels south from the Solar PV Site to the Existing National Grid Thorpe Marsh Substation. There is also an option to connect the to the grid via underground cables from the On-Site Substation to an existing overhead power line that passes across the east of the Solar PV Site.

Associated infrastructure, mitigation and enhancement measures, and other ancillary works, for example, fencing, security, temporary and permanent means of access, highway works, temporary works compounds and work sites.

The proposed DCO will, amongst other things, authorise:

Construction, operation and maintenance, and decommissioning of a ground mounted solar PV electricity generating facility with a capacity exceeding 50MW;

Associated and/or ancillary works including the construction of a BESS; On-Site Substation and cabling to connect to the national electricity transmission network either at the Existing National Grid substation at Thorpe Marsh or via an existing overhead power line within the Solar PV Site; the creation of environmental mitigation and enhancement areas; access tracks; construction compounds; and welfare and storage facilities;

Alterations to streets, including the creation and modification of temporary and permanent accesses, the temporary removal of street furniture and any proposed diversion and/or temporary closure of public rights of way;

The permanent compulsory acquisition of land and/or an interest in or right over land and temporary use powers;

The overriding of easements and other rights over or affecting land as well as the creation of restrictions;

The application and/or disapplication of legislation including, amongst other things, legislation relating to compulsory purchase and landlord and tenant matters; and

Such ancillary, incidental and consequential provisions, licenses, property rights, permits and consents as are necessary and/or convenient for the purposes of the Scheme.

The Scheme is an Environmental Impact Assessment (EIA) development for the purposes of the Infrastructure Planning (Environmental Impact Assessment) Regulations 2017. As a result, the Applicant is required to carry out an EIA and submit and publish an Environmental Statement (ES) as part of the Application containing a detailed description of the Scheme and information about its likely significant effects on the environment. Information currently available about the likely significant environmental effects of the Scheme is set out in the Preliminary Environmental Information Report

(PEIR) and summarised in a Non-Technical Summary (PEIR NTS) that forms part of the consultation material.

**Statutory Consultation**

Consultation on the proposals will take place from **Thursday 18 April 2024 to 11.59pm on Friday 31 May 2024** ("the consultation period").

The full suite of consultation materials which includes documents, plans, and maps which show the nature and location of the Scheme comprises: Consultation brochure; feedback form; plans of the proposed location of the Solar PV Site and Grid Connection Corridor; Non-statutory consultation report; Statement of Community Consultation (SoCC); PEIR; and PEIR NTS.

**Document deposit locations**

From **Thursday 18 April 2024 to at least 11.59pm on Friday 31 May 2024**, all consultation materials including documents, plans and maps showing the nature and location of the Scheme will be available for inspection free of charge on the Applicant's website, <https://www.boom-power.co.uk/fenwick/>. The consultation materials are within the **Statutory Consultation** section of the website during the consultation period.

At the document inspection locations, hard copies of consultation documents (with the exception of the PEIR) will be made available for inspection, free of charge. USBs containing digital copies of all consultation materials (including the PEIR) will also be made available at the document inspection venues for inspection at the libraries or removal free of charge for any consultee to read at their convenience.

The consultation documents may be inspected on computers at Askern Community Library, Snaith Library, Thorne Library and Edenthorpe Community Library on the project website listed above or utilising the USB sticks. Computers are not available to be used to inspect the consultation documents at The Baxter Arms or the Old George Inn.

Hard copy consultation materials, or copies of the consultation materials on USB sticks will be made available on request by contacting the Applicant via the details in the "Feedback" section of this notice. Requests will be considered on a case-by-case basis, and the complete set of consultation materials can be made available in hard copy format on request at a cost of £3,000.

Document inspection venue	Opening hours* (correct at the time of publication)
	Saturday - 9.30am to Late (approx. 10.00pm) Sunday - 9.30am to Late (approx. 10.00pm)

\*Opening times of these venues may be subject to change. Please check with the venue before travelling.

The Applicant is holding **three in person consultation events and one online question and answer session** at the following dates, times and locations.

Date and Time	Location
Friday 26 April 2024 2.00pm - 7.00pm	Alexander House (Askern Town Hall) High St, Askern, Doncaster DN6 0AB
Saturday 27 April 2024 10.00am - 3.00pm	Moss & Fenwick Village Hall Fenwick Common Ln, Doncaster DN6 0HG
Monday 29 April 2024 2.00pm - 7.00pm	Sykehouse Village Hall Off Broad Ln, Sykehouse, Goole DN14 9AS
Wednesday 8 May 2024 7.00pm - 8.00pm	Microsoft Teams - online question and answer session accessed via the Applicant's website: <a href="http://www.boom-power.co.uk/fenwick">www.boom-power.co.uk/fenwick</a>

Hard copies of all consultation materials (including the SoCC) will be available for inspection at the in-person events listed above, and members of the project team will be available to discuss our proposals and answer any questions.

In the event of a booked venue becoming unavailable, or other unforeseen circumstances meaning the consultation events must be cancelled and/or rearranged, the Applicant will inform people as early as possible of the cancellation and, where possible, give details of a substitute event via the Scheme's website, on social media and notify parish councils requesting that they provide this information to residents via existing channels.

**Feedback**

Any person may comment on the proposals or otherwise respond to this consultation. Responses must be received by **11.59pm on 31 May 2024**. Responses received after this time may not be considered.

All responses must be made in writing by:

- a. Completing the online feedback form located within the **Statutory Consultation** section on the Scheme website: <https://www.boom-power.co.uk/fenwick/>
- b. Attending a consultation event and completing a paper copy feedback form c. Obtaining a paper copy of the consultation feedback form at one of our document inspection venues or by requesting one using the contact details in this notice, which can be returned via **FREEPOST Fenwick Solar Farm**
- d. Alternatively, feedback in a letter or email format can be sent to us by:
  - i. Emailing: [Fenwick.Enquiries@boom-power.co.uk](mailto:Fenwick.Enquiries@boom-power.co.uk)
  - ii. Writing to us: **FREEPOST Fenwick Solar Farm**

The Applicant will consider and have regard to all responses received as part of this consultation when developing the Application once the consultation has closed. Responses will form the basis of a consultation report that will be one of the factors taken into consideration by the Planning Inspectorate on behalf of the Secretary of State when deciding whether the DCO application can be accepted for examination. Therefore, in providing any comment, it should be borne in mind that the substance of it may be communicated to others as part of that consultation report.

Personal details will be held securely and only used for purposes in connection with the statutory consultation, the DCO process and further development of the Scheme. Outside of these purposes, the Applicant may be required to provide personal details if specifically requested as part of a Freedom of Information Act request or if the Planning Inspectorate requests original responses. Otherwise, personal details will not be disclosed to any third parties. For further details please see our Privacy Notice at: <https://www.boom-power.co.uk/privacy-policy/>. A hard copy of the privacy notice can be requested using the contact details below.

For further information about this notice, the consultation materials (including the documents, plans and maps), the consultation or the Scheme more generally, please contact the Applicant using one of these contact methods:

- Email: [Fenwick.Enquiries@boom-power.co.uk](mailto:Fenwick.Enquiries@boom-power.co.uk)
- Write: **FREEPOST Fenwick Solar Farm**
- Telephone: **01964 782219 between the hours of 9am and 5pm Monday to Friday**

**SECTION 48 PLANNING ACT 2008 REGULATION 4 OF THE INFRASTRUCTURE PLANNING (APPLICATIONS: PRESCRIBED FORMS AND PROCEDURE)  
REGULATIONS 2009 REGULATION 13 OF THE INFRASTRUCTURE PLANNING (ENVIRONMENTAL IMPACT ASSESSMENT) REGULATIONS 2017  
NOTICE PUBLICISING A PROPOSED APPLICATION FOR A DEVELOPMENT CONSENT ORDER FOR FENWICK SOLAR FARM**

Notice is hereby given that Fenwick Solar Project Limited (company number 13705886) of Unit 5E, Park Farm, Chichester Road, Arundel, BN18 0AG ("the Applicant") proposes to make an application ("the Application") to the Secretary of State for Energy Security and Net Zero under Section 37 of the Planning Act 2008 ("the 2008 Act") for a Development Consent Order ("the DCO Application") to develop Fenwick Solar Farm ("the Scheme"). The Applicant is a Boom Power company.

**The Scheme**

The Scheme, located entirely within the City of Doncaster Council's administrative area, will principally consist of the elements listed below.

- The construction, operation and maintenance, and decommissioning of a solar photovoltaic (PV) generating station, to generate electricity with a total capacity exceeding 50 megawatts (MW), making it a nationally significant infrastructure project, located within the "Solar PV Site" east of Fenwick, near the town of Askern, the villages of Moss and Sykehouse and the hamlet of Topham. The northern edge of the Solar PV Site borders the River Went.
- A Battery Energy Storage System (BESS) located on part of the Solar PV Site, allowing the storage, export and import of electricity to/from the national electricity transmission system.
- Supporting electrical infrastructure, including a new On-Site Substation and cables.
- Two options for connecting the Scheme to the National Electricity Transmission System (NETS). One option is an underground grid connection from the On-Site Substation located within the Solar PV Site to the National Grid Thorpe Marsh Substation. The preferred route of the Grid Connection Corridor travels south from the Solar PV Site to the Existing National Grid Thorpe Marsh Substation. There is also an option to connect the to the grid via underground cables from the On-Site Substation to an existing overhead power line that passes across the east of the Solar PV Site.
- Associated infrastructure, mitigation and enhancement measures, and other ancillary works, for example, fencing, security, temporary and permanent means of access, highway works, temporary works compounds and work sites.

The proposed DCO will, amongst other things, authorise:

- Construction, operation and maintenance, and decommissioning of a ground mounted solar PV electricity generating facility with a capacity exceeding 50MW;
  - Associated and/or ancillary works including the construction of a BESS; On-Site Substation and cabling to connect to the national electricity transmission network either at the Existing National Grid substation at Thorpe Marsh or via an existing overhead power line within the Solar PV Site; the creation of environmental mitigation and enhancement areas; access tracks; construction compounds; and welfare and storage facilities;
  - Alterations to streets, including the creation and modification of temporary and permanent accesses, the temporary removal of street furniture and any proposed diversion and/or temporary closure of public rights of way;
  - The permanent compulsory acquisition of land and/or an interest in or right over land and temporary use powers;
  - The overriding of easements and other rights over or affecting land as well as the creation of restrictions;
  - The application and/or disapplication of legislation including, amongst other things, legislation relating to compulsory purchase and landlord and tenant matters; and
  - Such ancillary, incidental and consequential provisions, licenses, property rights, permits and consents as are necessary and/or convenient for the purposes of the Scheme.
- The Scheme is an Environmental Impact Assessment (EIA) development for the purposes of the Infrastructure Planning (Environmental Impact Assessment) Regulations 2017. As a result, the Applicant is required to carry out an EIA and submit and publish an Environmental Statement (ES) as part of the Application containing a detailed description of the Scheme and information about its likely significant effects on the environment. Information currently available about the likely significant environmental effects of the Scheme is set out in the Preliminary Environmental Information Report (PEIR) and summarised in a Non-Technical Summary (PEIR NTS) that forms part of the consultation material.

**Statutory Consultation**

Consultation on the proposals will take place from **Thursday 18 April 2024 to 11.59pm on Friday 31 May 2024** ("the consultation period").

The full suite of consultation materials which includes documents, plans, and maps which show the nature and location of the Scheme comprises: Consultation brochure; feedback form; plans of the proposed location of the Solar PV Site and Grid Connection Corridor; Non-statutory consultation report; Statement of Community Consultation (SoCC); PEIR; and PEIR NTS.

**Document deposit locations**

From **Thursday 18 April 2024 to at least 11.59pm on Friday 31 May 2024**, all consultation materials including documents, plans and maps showing the nature and location of the Scheme will be available for inspection free of charge on the Applicant's website,

<https://www.boom-power.co.uk/fenwick/>. The consultation materials are within the **Statutory Consultation** section of the website during the consultation period.

At the document inspection locations, hard copies of consultation documents (with the exception of the PEIR) will be made available for inspection, free of charge. USBs containing digital copies of all consultation materials (including the PEIR) will also be made available at the document inspection venues for inspection at the libraries or removal free of charge for any consultee to read at their convenience.

The consultation documents may be inspected on computers at Askern Community Library, Snaith Library, Thorne Library and Edenthorpe Community Library on the project website listed above or utilising the USB sticks. Computers are not available to be used to inspect the consultation documents at The Baxter Arms or the Old George Inn.

Hard copy consultation materials, or copies of the consultation materials on USB sticks will be made available on request by contacting the Applicant via the details in the "Feedback" section of this notice. Requests will be considered on a case-by-case basis, and the complete set of

## GOOLE & HOWDEN HOPPER BUS SET TO LAUNCH IN MAY

by **EMILY COLLINS** @gooletimes.info

The long-awaited Goole and Howden Hopper shuttle bus service will officially launch next month.

Funded by the Goole Town Deal, the bus service was originally due to launch in November 2023, but after months of delays will finally begin operation on Tuesday, May 7.

The bus service will connect Goole Station with major employment sites located on the outskirts of town and with Howden Station, which offers regular trains services to York, Leeds and beyond, as well London.

Two buses, each of which will seat 19 people, have been hired to provide the new service and they'll be operated by local firm Sweynes Coaches.

The buses will stop at Goole Station, Tom Pudding Way, Glews Garage, Airmyrn, the War Memorial in Howden and Howden Station, operating between the hours of 6am and 11pm from Monday to Saturday to try to meet the transport needs of shift workers, as well as those who work typical office hours and people travelling into, and around, Goole for shopping and leisure.

A £1 flat rate ticket will be available to all users of the new service, regardless of how far they're traveling and the time of day, but a £5 weekly ticket offering unlimited use will also be available to make the service even better value for regular users.

The Goole and Howden Hopper shuttle bus service will officially launch next month, with buses travelling from Goole and Howden station and stopping at key locations along the route. (18-04-129 SU)

The new service is being funded by the Goole Town Deal programme as part of the £2.4 million Station Hub project, which aims to support Goole's growth and an anticipated increase in the number of visitors to the town centre by creating an enhanced transport hub and arrival/departure experience at Goole Station.

Councillor Anne Handley, Leader of East Riding of Yorkshire Council, said: "I'm delighted to see this fantastic new service launching as part of the Goole Town Deal

programme to improve connectivity around the town and link up with nearby transport hubs.

"Many local employers, a number of which are represented on the Goole Town Deal Board, believe that this new public transport provision will benefit the local workforce, including those who currently struggle to access employment opportunities due to a lack of transport or being unable to meet the cost of transport."

From **Thursday 18 April 2024 to at least 11.59pm on Friday 31 May 2024**, all consultation materials including documents, plans and maps showing the nature and location of the Scheme will be available for inspection free of charge on the Applicant's website,

<https://www.boom-power.co.uk/fenwick/>. The consultation materials are within the **Statutory Consultation** section of the website during the consultation period.

At the document inspection locations, hard copies of consultation documents (with the exception of the PEIR) will be made available for inspection, free of charge. USBs containing digital copies of all consultation materials (including the PEIR) will also be made available at the document inspection venues for inspection at the libraries or removal free of charge for any consultee to read at their convenience.

The consultation documents may be inspected on computers at Askern Community Library, Snaith Library, Thorne Library and Edenthorpe Community Library on the project website listed above or utilising the USB sticks. Computers are not available to be used to inspect the consultation documents at The Baxter Arms or the Old George Inn.

Hard copy consultation materials, or copies of the consultation materials on USB sticks will be made available on request by contacting the Applicant via the details in the "Feedback" section of this notice. Requests will be considered on a case-by-case basis, and the complete set of consultation materials can be made available in hard copy format on request at a cost of £3,000.

Document inspection venue	Opening hours* (correct at the time of publication)

\*Opening times of these venues may be subject to change. Please

check with the venue before travelling.

The Applicant is holding **three in person consultation events** and **one online question and answer session** at the following dates, times and locations.

Date and time	Location
Friday 26 April 2024 2.00pm - 7.00pm	Alexander House (Askern Town Hall) High St, Askern, Doncaster DN6 0AB
Saturday 27 April 2024 10.00am - 3.00pm	Moss & Fenwick Village Hall Fenwick Common Ln, Doncaster DN6 0HG
Monday 29 April 2024 2.00pm - 7.00pm	Sykehouse Village Hall Off Broad Ln, Sykehouse, Goole DN14 9AS
Wednesday 8 May 2024 7.00pm - 8.00pm	Microsoft Teams – online question and answer session accessed via the Applicant's website: <a href="https://www.boom-power.co.uk/fenwick">www.boom-power.co.uk/fenwick</a>

Hard copies of all consultation materials (including the SoCC) will be available for inspection at the in-person events listed above, and members of the project team will be available to discuss our proposals and answer any questions.

In the event of a booked venue becoming unavailable, or other unforeseen circumstances meaning the consultation events must be cancelled and/or rearranged, the Applicant will inform people as early as possible of the cancellation and, where possible, give details of a substitute event via the Scheme's website, on social media and notify parish councils requesting that they provide this information to residents via existing channels.

#### Feedback

Any person may comment on the proposals or otherwise respond to this consultation. Responses must be received by **11.59pm on 31 May 2024**. Responses received after this time may not be considered.

All responses must be made in writing by:

- Completing the online feedback form located within the **Statutory Consultation** section on the Scheme website: <https://www.boom-power.co.uk/fenwick/>
- Attending a consultation event and completing a paper copy feedback form
- Obtaining a paper copy of the consultation feedback form at one of our document inspection venues or by requesting one using the contact details in this notice, which can be returned via **FREEPOST Fenwick Solar Farm**
- Alternatively, feedback in a letter or email format can be sent to us by:
  - Emailing: [Fenwick.Enquiries@boom-power.co.uk](mailto:Fenwick.Enquiries@boom-power.co.uk)
  - Writing to us: **FREEPOST Fenwick Solar Farm**

The Applicant will consider and have regard to all responses received as part of this consultation when developing the Application once the consultation has closed. Responses will form the basis of a consultation report that will be one of the factors taken into consideration by the Planning Inspectorate on behalf of the Secretary of State when deciding whether the DCO application can be accepted for examination. Therefore, in providing any comment, it should be borne in mind that the substance of it may be communicated to others as part of that consultation report.

Personal details will be held securely and only used for purposes in connection with the statutory consultation, the DCO process and further development of the Scheme. Outside of these purposes, the Applicant may be required to provide personal details if specifically requested as part of a Freedom of Information Act request or if the Planning Inspectorate requests original responses. Otherwise, personal details will not be disclosed to any third parties. For further details please see our Privacy Notice at: <https://www.boom-power.co.uk/privacy-policy/>. A hard copy of the privacy notice can be requested using the contact details below.

For further information about this notice, the consultation materials (including the documents, plans and maps), the consultation or the Scheme more generally, please contact the Applicant using one of these contact methods:

- Email: [Fenwick.Enquiries@boom-power.co.uk](mailto:Fenwick.Enquiries@boom-power.co.uk)
- Write: **FREEPOST Fenwick Solar Farm**
- Telephone: **01964 782219 between the hours of 9am and 5pm Monday to Friday**

**Fenwick Solar Project Limited**

## PUBLIC NOTICES

### GENERAL NOTICES

#### Proposed Fenwick Solar Farm

#### Section 47 (6) Planning Act 2008

#### Notice Publicising a Statement of Community Consultation

Notice is hereby given that Fenwick Solar Project Limited (company number 13705886) of Unit 5E, Park Farm, Chichester Road, Arundel, BN18 0AG ("the Applicant") has produced a Statement of Community Consultation ("SoCC") in accordance with Section 47 of the Planning Act 2008. The SoCC has been prepared in respect of a proposed application to the Secretary of State for Energy Security and Net Zero under section 37 of the Planning Act 2008 ("the 2008 Act") for a Development Consent Order ("the DCO Application") to develop Fenwick Solar Farm ("the Scheme"). The Applicant is a Boom Power company.

#### The Scheme

The Scheme, located entirely within the City of Doncaster Council's administrative area, will principally consist of the elements listed below.

The construction, operation and maintenance, and decommissioning of a solar photovoltaic (PV) generating station, to generate electricity with a total capacity exceeding 50 megawatts (MW), making it a nationally significant infrastructure project, located within the "Solar PV Site" east of Fenwick, near the town of Askern, the villages of Moss, and Sykehouse and the hamlet of Topham. The northern edge of the Solar PV Site borders the River Went.

A Battery Energy Storage System (BESS) located on part of the Solar PV Site, allowing the storage, export and import of electricity to/from the national electricity transmission system.

Supporting electrical infrastructure, including a new On-Site Substation and cables.

Two options for connecting the Scheme to the National Electricity Transmission System (NETS). One option is an underground grid connection from the On-Site Substation located within the Solar PV Site to the Existing National Grid Thorpe Marsh Substation. The preferred route of the Grid Connection Corridor travels south from the Solar PV Site to the Existing National Grid Thorpe Marsh Substation. There is also an option to connect the Scheme to the grid via underground cables from the On-Site Substation to an existing overhead power line that passes across the east of the Solar PV Site.

Associated infrastructure, mitigation and enhancement measures, and other ancillary works, for example, fencing, security, temporary and permanent means of access, highway works, temporary works compounds and work sites.

Necessary rights and powers will be sought in the DCO Application to ensure delivery of the Scheme, including any necessary powers of compulsory acquisition of land and/or an interest in or right over land and temporary use powers and if required, powers to apply and/or disapply legislation relevant to the Scheme.

The Scheme is an Environmental Impact Assessment (EIA) development for the purposes of the Infrastructure Planning (Environmental Impact Assessment) Regulations 2017. As a result, the Applicant is required to carry out an EIA and submit and publish an Environmental Statement as part of the Application containing a detailed description of the Scheme and information about its likely significant effects on the environment. Information currently available about the likely significant environmental effects of the Scheme is set out in the Preliminary Environmental Information Report (PEIR) and summarised in a Non-Technical Summary (PEIR NTS) that forms part of the consultation material.

#### Statement of Community Consultation (SoCC)

Before submitting the DCO Application, the Applicant has a duty under Section 47 of the 2008 Act to produce a SoCC. The SoCC sets out how the Applicant will consult the local community about the Scheme and how to take part in that consultation.

The Applicant must also make the SoCC available for inspection by the public and publish this notice stating where and when the SoCC can be inspected. The Applicant must then carry out consultation in accordance with the SoCC.

Following the publication of this notice and the SoCC, the Applicant will undertake a statutory consultation and invite comments on the Scheme, which is currently anticipated to be held from **Thursday 18 April 2024** to

#### Friday 31 May 2024.

A copy of the SoCC, as well as consultation materials forming part of the statutory consultation, can be viewed at [www.boom-power.co.uk/fenwick](http://www.boom-power.co.uk/fenwick) until at least **11.59pm on Friday 31 May 2024**. To request an electronic or hard copy of the SoCC, please call **01964 782219** or email [Fenwick.Enquiries@boom-power.co.uk](mailto:Fenwick.Enquiries@boom-power.co.uk). Requests can also be made in writing to **FREEPOST Fenwick Solar Farm**

Hard copies of the SoCC as well as consultation materials forming part of the statutory consultation (with the exception of the PEIR) can also be inspected free of charge at the document inspection venues listed below during the consultation period. The consultation documents may be inspected on computers at Askern Community Library, Snaith Library, Thorne Library and Edenthorpe Community Library on the project website listed above or utilising the USB sticks. Computers are not available to be used to inspect the consultation documents at The Baxter Arms or the Old George Inn.

Document inspection venue	Opening hours* (correct at the time of publication)
Askern Community Library Station Road Askern, Doncaster, DN6 0LA	Monday - 10.00am to 1.00pm Tuesday - 10.00am to 1.00pm Wednesday - 10.00am to 1.00pm Thursday - 10.00am to 1.00pm Friday - 10.00am to 1.00pm Saturday - 10.00am to 1.00pm Sunday - Closed
Snaith Library 27 Market Place, Snaith, Goole, DN14 9HE	Monday - Closed Tuesday - 2.00pm to 6.00pm Wednesday - Closed Thursday - 10.00am to 4.00pm Friday - Closed Saturday - 10.00am to 12.00pm Sunday - Closed
Thorne Library The Vermuyden Centre, Field Side, Thorne, Doncaster, DN8 4BQ	Monday - 8.40am to 1pm and 1.30pm to 5.00pm Tuesday - 8.40am to 1pm and 1.30pm to 5.00pm Wednesday - 8.40am to 1pm and 1.30pm to 5.00pm Thursday - 8.40am to 1pm and 1.30pm to 5.00pm Friday - 8.40am to 1pm and 1.30pm to 5.00pm Saturday - 8.40am to 1pm and 1.30pm to 5.00pm Sunday - 8.40am to 1pm and 1.30pm to 5.00pm
Edenthorpe Community Library Comunal Hall, Bardon Road, Edenthorpe, Doncaster, DN3 2ND	Monday - 2.00pm to 5.00pm Tuesday - Closed Wednesday - 9.30am to 12.30pm Thursday - Closed Friday - 2.00pm to 5.00pm Saturday - 10.00am to 12.00pm Sunday - Closed
The Baxter Arms Fenwick Lane, Doncaster, DN6 0HA	Monday - 4.00pm to 11.00pm Tuesday - 4.00pm to 11.00pm Wednesday - 4.00pm to 11.00pm Thursday - 12.00pm to 11.00pm Friday - 12.00pm to 11.00pm Saturday - 12.00pm to 11.00pm Sunday - 12.00pm to 11.00pm
The Old George Inn Broad Lane, Sykehouse, DN14 9AU	Monday - 9.30am to Late (approx. 10.00pm) Tuesday - 9.30am to Late (approx. 10.00pm) Wednesday - 9.30am to Late (approx. 10.00pm) Thursday - 9.30am to Late (approx. 10.00pm) Friday - 9.30am to Late (approx. 10.00pm) Saturday - 9.30am to Late (approx. 10.00pm) Sunday - 9.30am to Late (approx. 10.00pm)

\*Opening times of these venues may be subject to change. Please check with the venue before attending.

A number of preloaded USBs containing the SoCC as well as consultation materials forming part of the statutory consultation (including the PEIR) will also be made available at these venues free of charge, with consultants able to take these USBs home.

#### Public information events

The Applicant is holding **three in person consultation events** and **one online question and answer session** at the following dates, times and locations:

Date and time	Location
Friday 26 April 2024 2.00-7.00pm	Alexander House (Askern Town Hall) High St, Askern, Doncaster DN6 0AB
Saturday 27 April 2024 10.00am- 3.00pm	Moss & Fenwick Village Hall Fenwick Common Ln, Doncaster DN6 0HG
Monday 29 April 2024 2.00pm-7.00pm	Sykehouse Village Hall Off Broad Ln, Sykehouse, Goole DN14 9AS
Wednesday 8 May 2024 7.00pm-8.00pm	Microsoft Teams – online question and answer session accessed via the Applicant's website: <a href="http://www.boom-power.co.uk/fenwick">www.boom-power.co.uk/fenwick</a>

Hard copies of all consultation materials (including the SoCC) will be available for inspection at the in-person events listed above, and members of the project team will be available to discuss our proposals and answer any questions.

Where any public consultation event is cancelled or rearranged for any reason, as much notice as practicable will be given. In the event of a booked venue becoming unavailable, or other unforeseen circumstances meaning the consultation events must be cancelled and/or rearranged, the Applicant will inform people as early as possible of the cancellation and, where possible, give details of a substitute event via the Scheme's website, on social media and notify parish councils requesting that they provide this information to residents via existing channels.

#### Feedback

Any person may comment on the proposals or otherwise respond to the consultation. Responses must be received by **11.59pm on 31 May 2024**. Responses received after this time may not be considered.

All responses must be made in writing by:

1.1.a. Completing the online feedback form located on the Scheme website: [www.boom-power.co.uk/fenwick](http://www.boom-power.co.uk/fenwick)

1.1.b. Attending a consultation event and completing a paper copy feedback form

1.1.c. Obtaining a paper copy of the feedback form at one of our document deposit locations or by requesting one using the contact details in this notice, which can be returned via FREEPOST Fenwick Solar Farm

1.1.d. Alternatively, feedback in a letter or email format can be sent to us by:

1.1.a.i. Emailing: [Fenwick.Enquiries@boom-power.co.uk](mailto:Fenwick.Enquiries@boom-power.co.uk) or

1.1.a.ii. Writing to us: FREEPOST Fenwick Solar Farm

The Applicant will consider and have regard to all responses received as part of this consultation when developing the Application once the consultation has closed. Responses will form the basis of a consultation report that will be one of the factors taken into consideration by the Planning Inspectorate on behalf of the Secretary of State when deciding whether the DCO application can be accepted for examination. Therefore, in providing any comment, it should be borne in mind that the substance of it may be communicated to others as part of that consultation report.

Personal details will be held securely and only used for purposes in connection with the statutory consultation, the DCO process and further development of the Scheme. Outside of these purposes, the Applicant may be required to provide personal details if specifically requested as part of a Freedom of Information Act request or if the Planning Inspectorate requests original responses. Otherwise, personal details will not be disclosed to any third parties. For further details please see our Privacy Notice at: [www.boom-power.co.uk/privacy-policy](http://www.boom-power.co.uk/privacy-policy). A hard copy of the privacy notice can be requested using the contact details below.

For further information or if you require other formats of the consultation documents including accessible formats, please contact the Applicant using the e-mail address, postal address or telephone number provided below:

- Email: [Fenwick.Enquiries@boom-power.co.uk](mailto:Fenwick.Enquiries@boom-power.co.uk)
- Post: **FREEPOST Fenwick Solar Farm**
- Telephone: **01964 782219**

## STARBUCKS AND KFC COMING TO GOOLE

### INSIDE

by **EMILY COLLINS** @gooletimes.info

Internationally renowned brands, KFC and Starbucks are coming to Goole's Glews Services. (04-04-139 SU)

**Internationally renowned brands, KFC and Starbucks, are coming to Goole.**

The fast food restaurant and coffee shop chains have been confirmed as the tenants which will occupy two new drive through units which are set to be developed at the former Glews Garage car dealership on Rawcliffe Road.

Planning permission was granted for the site back in June 2021, following the closure of the garage in 2019 after more than 40 years in business.

Despite speculation surrounding which brands would occupy the units, developer, Jos. Richardson & Son Ltd were unable to confirm until now, with managing director, Joseph Richardson saying he is delighted to share the news.

He said: "It is great news that after many years of effort and more than a few false starts KFC and Starbucks will finally be coming to Goole."

"These are internationally recognised brands which I'm sure will be very popular with customers. We completed on the legals last week and therefore I'm delighted to make this announcement."

Work at the site is set to begin in June and will be carried out by Daniel Charles Construction from Lincoln, with the estimated build time being 22 weeks at which point the buildings will be handed over to the tenants for fit out.

As yet there is no formal opening date.

The development on the Glews Garage site will also see the introduction of an eight bay ultra-fast electric vehicle charging hub offering charging speeds of up to 150 kWh/hour.

The fifth generation company which has been in operation since 1892 has also announced that it has successfully secured investment from two pots of grant funding from National Highways and the Secretary of State for Transport respectively.

## Proposed Fenwick Solar Farm Section 47 (6) Planning Act 2008 Notice Publicising a Statement of Community Consultation

Notice is hereby given that Fenwick Solar Project Limited (company number 13705886) of Unit 5E, Park Farm, Chichester Road, Arundel, BN18 0AG ("the Applicant") has produced a Statement of Community Consultation ("SoCC") in accordance with Section 47 of the Planning Act 2008. The SoCC has been prepared in respect of a proposed application to the Secretary of State for Energy Security and Net Zero under section 37 of the Planning Act 2008 ("the 2008 Act") for a Development Consent Order ("the DCO Application") to develop Fenwick Solar Farm ("the Scheme"). The Applicant is a Boom Power company.

### The Scheme

The Scheme, located entirely within the City of Doncaster Council's administrative area, will principally consist of the elements listed below.

- The construction, operation and maintenance, and decommissioning of a solar photovoltaic (PV) generating station, to generate electricity with a total capacity exceeding 50 megawatts (MW), making it a nationally significant infrastructure project, located within the "Solar PV Site" east of Fenwick, near the town of Askern, the villages of Moss, and Sykehouse and the hamlet of Topham. The northern edge of the Solar PV Site borders the River Went.
- A Battery Energy Storage System (BESS) located on part of the Solar PV Site, allowing the storage, export and import of electricity to/from the national electricity transmission system.
- Supporting electrical infrastructure, including a new On-Site Substation and cables.
- Two options for connecting the Scheme to the National Electricity Transmission System (NETS). One option is an underground grid connection from the On-Site Substation located within the Solar PV Site to the Existing National Grid Thorpe Marsh Substation. The preferred route of the Grid Connection Corridor travels south from the Solar PV Site to the Existing National Grid Thorpe Marsh Substation. There is also an option to connect the Scheme to the grid via underground cables from the On-Site Substation to an existing overhead power line that passes across the east of the Solar PV Site.
- Associated infrastructure, mitigation and enhancement measures, and other ancillary works, for example, fencing, security, temporary and permanent means of access, highway works, temporary works compounds and work sites.

Necessary rights and powers will be sought in the DCO Application to ensure delivery of the Scheme, including any necessary powers of compulsory acquisition of land and/or an interest in or right over land and temporary use powers and if required, powers to apply and/or disapply legislation relevant to the Scheme.

The Scheme is an Environmental Impact Assessment (EIA) development for the purposes of the Infrastructure Planning (Environmental Impact Assessment) Regulations 2017. As a result, the Applicant is required to carry out an EIA and submit and publish an Environmental Statement as part of the Application containing a detailed description of the Scheme and information about its likely significant effects on the environment. Information currently available about the likely significant environmental effects of the Scheme is set out in the Preliminary Environmental Information Report (PEIR) and summarised in a Non-Technical Summary (PEIR NTS) that forms part of the consultation material.

### Statement of Community Consultation (SoCC)

Before submitting the DCO Application, the Applicant has a duty under Section 47 of the 2008 Act to produce a SoCC. The SoCC sets out how the Applicant will consult the local community about the Scheme and how to take part in that consultation.

The Applicant must also make the SoCC available for inspection by the public and publish this notice stating where and when the SoCC can be inspected. The Applicant must then carry out consultation in accordance with the SoCC.

Following the publication of this notice and the SoCC, the Applicant will undertake a statutory consultation and invite comments on the Scheme, which is currently anticipated to be held from **Thursday 18 April 2024 to Friday 31 May 2024**.

A copy of the SoCC, as well as consultation materials forming part of the statutory consultation, can be viewed at [www.boom-power.co.uk/fenwick](http://www.boom-power.co.uk/fenwick) until at least **11.59pm on Friday 31 May 2024**. To request an electronic or hard copy of the SoCC, please call **01964 782219** or email

**Fenwick.Enquiries@boom-power.co.uk**. Requests can also be made in writing to **FREEPOST Fenwick Solar Farm**

Hard copies of the SoCC as well as consultation materials forming part of the statutory consultation (with the exception of the PEIR) can also be inspected free of charge at the document inspection venues listed below during the consultation period. The consultation documents may be inspected on computers at Askern Community Library, Snaith Library, Thorne Library and Edenthorpe Community Library on the project website listed above or utilising the USB sticks. Computers are not available to be used to inspect the consultation documents at The Baxter Arms or the Old George Inn.

A number of preloaded USBs containing the SoCC as well as consultation materials forming part of the statutory consultation (including the PEIR) will also be made available at these venues free of charge, with consultees able to take these USBs home.

### Public information events

The Applicant is holding three in person consultation events and one online question and answer session at the following dates, times and locations:

Date and time	Location
Friday 26 April 2024 2.00-7.00pm	Alexander House (Askern Town Hall), High St, Askern, Doncaster DN6 0AB
Saturday 27 April 2024 10.00am- 3.00pm	Moss & Fenwick Village Hall Fenwick Common Ln, Doncaster DN6 0HG
Monday 29 April 2024 2.00pm-7.00pm	Sykehouse Village Hall Off Broad Ln, Sykehouse, Goole DN14 9AS
Wednesday 8 May 2024 7.00pm-8.00pm	Microsoft Teams – online question and answer session accessed via the Applicant's website: <a href="http://www.boom-power.co.uk/fenwick">www.boom-power.co.uk/fenwick</a>

Hard copies of all consultation materials (including the SoCC) will be available for inspection at the in-person events listed above, and members of the project team will be available to discuss our proposals and answer any questions.

Where any public consultation event is cancelled or rearranged for any reason, as much notice as practicable will be given. In the event of a booked venue becoming unavailable, or other unforeseen circumstances meaning the consultation events must be cancelled and/or rearranged, the Applicant will inform people as early as possible of the cancellation and, where possible, give details of a substitute event via the Scheme's website, on social media and notify parish councils requesting that they provide this information to residents via existing channels.

### Feedback

Any person may comment on the proposals or otherwise respond to the consultation. Responses must be received by **11.59pm on 31 May 2024**. Responses received after this time may not be considered.

All responses must be made in writing by:

- a. Completing the online feedback form located on the Scheme website: [www.boom-power.co.uk/fenwick](http://www.boom-power.co.uk/fenwick)
- b. Attending a consultation event and completing a paper copy feedback form
- c. Obtaining a paper copy of the feedback form at one of our document deposit locations or by requesting one using the contact details in this notice, which can be returned via **FREEPOST Fenwick Solar Farm**
- d. Alternatively, feedback in a letter or email format can be sent to us by:
  - i. Emailing: **Fenwick.Enquiries@boom-power.co.uk** or
  - ii. Writing to us: **FREEPOST Fenwick Solar Farm**

The Applicant will consider and have regard to all responses received as part of this consultation when developing the Application once the consultation has closed. Responses will form the basis of a consultation report that will be one of the factors taken into consideration by the Planning Inspectorate on behalf of the Secretary of State when deciding whether the DCO application can be accepted for examination. Therefore, in providing any comment, it should be borne in mind that the substance of it may be communicated to others as part of that consultation report.

Personal details will be held securely and only used for purposes in connection with the statutory consultation, the DCO process and further development of the Scheme. Outside of these purposes, the Applicant may be required to provide personal details if specifically requested as part of a Freedom of Information Act request or if the Planning Inspectorate requests original responses. Otherwise, personal details will not be disclosed to any third parties. For further details please see our Privacy Notice at:

[www.boom-power.co.uk/privacy-policy](http://www.boom-power.co.uk/privacy-policy). A hard copy of the privacy notice can be requested using the contact details below.

For further information or if you require other formats of the consultation documents including accessible formats, please contact the Applicant using the e-mail address, postal address or telephone number provided below:

- Email: **Fenwick.Enquiries@boom-power.co.uk**
- Post: **FREEPOST Fenwick Solar Farm**
- Telephone: **01964 782219**

**Fenwick Solar Project Limited**

An aerial photograph of a vast solar farm at sunset. The rows of solar panels stretch across the landscape, creating a strong sense of perspective. The sky is a deep orange and red, with the sun low on the horizon, casting long shadows and highlighting the texture of the panels.
