1. Introduction

- 1.1. This Book of Reference ("BoR") has been prepared on behalf of Fenwick Solar Project Limited (the "Applicant"). It forms part of the application (the "Application") for a Development Consent Order ("DCO"), that is being submitted to the Secretary of State for the Department of Energy Security and Net Zero ("Secretary of State"), under Section 37 of 'the Planning Act 2008' (the "PA 2008").
- 1.2. The Applicant is seeking development consent for the construction, operation and maintenance and decommissioning of the Fenwick Solar Project, including associated development **(together the "Scheme")**. The Scheme will be carried out within the Order land, which comprises approximately 509 hectares (ha) of land.
- 1.3. A DCO is required for the Scheme as it falls within the definition and thresholds for a Nationally Significant Infrastructure Project ("NSIP") under sections 14(1) and 15 of the PA 2008. This is because it consists of a generating station in England which does not generate electricity from wind and has a gross electrical output capacity exceeding 50MW.
- 1.4. The DCO, if made by the Secretary of State, would be known as the Fenwick Solar Project Order 2024 (the "Order").
- 1.5. This BoR has been prepared pursuant to Regulation 5(2)(d) of The Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009 ("the APFP Regulations"). It describes the Order land, and identifies the interests potentially affected by the Order following diligent inquiry by the Applicant. The Order land is the land described in the second column of Part 1 of this Book of Reference.
- 1.6. The land described in this BoR is required for the development to which the Order relates or is required to facilitate or is incidental to that development. The works comprising the authorised development are described in Schedule 1 to the Order (EN010152/APP/3.1) and shown on the Works Plans (EN010152/APP/2.2).
- 1.7. Each parcel of land is identified as a plot and a unique number has been ascribed to each plot. The plots are shown on the Land Plans (EN010152/APP/2.1) which accompany the Order and are listed in the relevant Parts of this BoR. Each plot has been labelled numerically in the BoR and has been assigned a number in accordance with the sheet numbers as presented in the Land Plans. The assigned number has been determined by the prominence of the plot extent shown within the map frame (i.e. 1/01, 2/05 etc.)

- 1.8. All plot area measurements in this BoR are approximate and are rounded to the nearest square metre.
- 1.9. This BoR is comprised of five Parts, in accordance with Regulation 7(1) of the APFP Regulations, as follows:
 - (a) Part 1 (Regulation 7(1)(a)) contains the names and addresses of each person within Categories 1 and 2 (as set out in Section 57 of the PA 2008) in respect of any land which it is proposed is subject to powers of compulsory acquisition of land, rights in, on, under or over land and/or temporary possession.

The description of each plot also includes the reference to the principal land use power(s) sought in the draft DCO in respect of that particular plot:

- In respect of plots shaded pink on the Land Plans, where the Applicant proposes freehold acquisition to be compulsorily acquired and in relation to which it is to extinguish easements, servitudes and other private rights, the plot description includes this wording: " All interests and rights in..."
- In respect of plots shaded blue on the Land Plans (see "Acquisition of Rights" below), where the Applicant proposes new rights to be compulsorily acquired and restrictive covenants to be imposed, and land in relation to which existing easements, servitudes and other private rights the exercise of which are inconsistent with the rights and restrictions acquired pursuant to the Order are to be extinguished, the plot description includes this wording: "Permanent acquisition of new rights over...";
- In respect of plots shaded green on the Land Plans, where the Applicant proposes temporary use of land and during any period of temporary possession the exercise of easements, servitudes and other private rights are to be suspended, the plot description includes this wording: "Temporary possession of..."

The three categories of wording described above cross-refer to articles in the draft DCO as follows:

 "Permanent acquisition of " – the compulsory acquisition of land pursuant to article 20 of the draft DCO.

- "Permanent acquisition of new rights over..." the creation and compulsory acquisition of new rights over land pursuant to article 22 of the draft DCO.
- "Temporary possession of..." the temporary possession and use of land for the purposes of constructing the authorised development pursuant to article 29, and for the purposes of maintaining the authorised development pursuant to article 30 of the draft DCO.

It should be noted that whilst the descriptions in this BoR refer to the principal land use powers sought in the DCO, the Applicant also seeks the power to temporarily possess all of the land within the Order limits and to suspend the exercise of existing easements, servitudes and other rights over the land during any period in which it is temporarily possessed.

Category 1 persons are defined as those who own, lease, or hold a tenancy in relation to or occupy the land (section 57(1) of the Act). 8/50

Category 2 persons are those who have an interest in the land or have the power to sell and convey or to release such land (section 57(2) of the PA 2008).

(b) **Part 2** (Regulation 7(1)(b)) contains the names and addresses of those persons within Category 3. Category 3 persons are defined in section 57(4) of the PA 2008 and are persons who, whilst not directly affected by the authorised development, may be entitled to claim compensation under Section 10 of the Land Compensation Act 1965, Part 1 of the Land Compensation Act 1973 or Section 152(3) of the 2008 Act, for loss resulting from the implementation of the Order, as a result of the Order having been implemented and use of the land once the Order has been implemented.

After carrying out diligent inquiries and having carefully assessed the likely significant environmental effects of the Scheme, it is not considered that any person would be entitled to make a claim under Part 1 of the Land Compensation Act 1973. Part 2 of the BoR therefore includes all relevant interests with the potential to make a claim under section 10 of the Compulsory Purchase Act 1965 or under section 152(3) of the PA 2008,

by reason of having the benefit of a right or restrictive covenant over land within the Order limits that may be affected by the compulsory acquisition and temporary use powers sought by the Applicant.

- (c) Part 3 (Regulation 7(1)(c)) contains the names and addresses of those entitled to enjoy easements or other private rights (including private rights of navigation over water) which it is proposed may be extinguished, suspended or interfered with in connection with the authorised development, pursuant to the Order.
- (d) **Part 4** (Regulation 7(1)(d)) identifies land which is proposed to be used for the purposes of the Order and in which there is a Crown interest. "Crown land" is defined in section 227 of the PA 2008 and includes interests belonging to Government departments among other Crown interests.

Having made diligent inquiries no land has been identified that would be required to be included in Part 4. Where it is stated in Part 4 of the BoR that "No land was identified which should be included in this part", this confirms that no Crown land is required.

- (e) **Part 5** (Regulation 7(1)(e)) identifies plots:-
 - the acquisition of which is subject to special parliamentary procedure;
 - which are special category land; or
 - which are replacement land.

Having made diligent inquiries no land has been identified that would be required to be included in Part 5. Where it is stated in Part 5 of the BoR that "No land was identified which should be included in this part", this confirms that no special category land, land subject to special parliamentary procedure, and no replacement land is required.

2. Acquisition of Rights

For plots where the Applicant seeks to acquire rights (including restrictive covenants), different "categories" of rights powers are sought. This is reflected in Schedule 9 to the draft DCO and has been noted in Part 1 of the BoR, by assigning numbers to the categories listed in Schedule 9, as noted below:

Category 1: "access rights" means rights over land to-

- (a) alter, improve, form, maintain, retain, use (with or without vehicles, plant and machinery), remove, reinstate means of access to the authorised development including visibility splays, bridges and road widening and to remove impediments (including vegetation) to such access;
- (b) remain, pass and repass on foot, with or without vehicles, plant and machinery (including rights to lay and use any temporary surface) for all purposes in connection with the authorised development;
- (c) install, use, support, protect, inspect, alter, remove, replace, refurbish, reconstruct, retain, renew, improve and maintain security fencing, gates, boundary treatment, public rights of way and any other ancillary apparatus and any other works as necessary;
- (d) install, execute, implement, retain, repair, improve, renew, remove, relocate and plant trees, woodlands, shrubs, hedgerows, seeding, landscaping and other ecological measures together with the right to maintain, inspect and replant such trees, shrubs, hedgerows, landscaping and other ecological measures the right to pass and repass on foot, with or without vehicles, plant and machinery for all purposes in connection with the implementation and maintenance of landscaping and ecological mitigation or enhancement works;
- (e) restrict and remove the erection of buildings or structures, restrict the altering of ground levels, restrict and remove the planting of trees or carrying out operations or actions (including but not limited to blasting and piling) which may obstruct, interrupt or interfere with the exercise of the rights or damage the authorised development;

(f) install, use, support, protect, inspect, alter, remove, replace, refurbish, reconstruct, retain, renew, improve and maintain sewers, drains, pipes, ducts, mains, conduits, services, flues and to drain into and manage waterflows in any drains, watercourses and culverts.

Category 2: "Cable rights" means rights over land to-

(a) install, use, support, protect, inspect, alter, remove, replace, refurbish, reconstruct, retain, renew, improve and maintain electrical underground cables, earthing cables, optical fibre cables, data cables, telecommunications cables and other services, works associated with such cables including bays, ducts, protection and safety measures and equipment, and other ancillary apparatus and structures (including but not limited to access chambers, manholes and marker posts) and any other works necessary together with the right to fell, trim or lop trees and bushes which may obstruct or interfere with the said cables, telecommunications and other ancillary apparatus;

(b) remain, pass and repass on foot, with or without vehicles, plant and machinery (including rights to lay and use any temporary surface or form a temporary compound) for all purposes in connection with the authorised development;

(c) continuous vertical and lateral support for the authorised development;

(d) install, use, support, protect, inspect, alter, remove, replace, refurbish, reconstruct, retain, renew, improve and maintain sewers, drains, pipes, ducts, mains, conduits, services, flues and to drain into and manage waterflows in any drains, watercourses and culverts;

(e) install, execute, implement, retain, repair, improve, renew, remove, relocate and plant trees, woodlands, shrubs, hedgerows, seeding, landscaping and other ecological measures together with the right to maintain, inspect and replant such trees, shrubs, hedgerows, landscaping and other ecological measures the right to pass and repass on foot, with or without vehicles, plant and machinery for all purposes in connection with the implementation and

maintenance of landscaping and ecological mitigation or enhancement works;

(f) install, use, support, protect, inspect, alter, remove, replace, refurbish, reconstruct, retain, renew, improve and maintain security fencing, gates, boundary treatment, public rights of way and any other ancillary apparatus and any other works as necessary;

(g) restrict and remove the erection of buildings or structures, restrict the altering of ground levels, restrict and remove vegetation and restrict the planting of trees or carrying out operations or actions (including but not limited to blasting and piling) which may obstruct, interrupt or interfere with the exercise of the rights or damage the authorised development.

Part 1 – Categories 1 & 2: Qualifying Persons under Regulations 7(1)(a) of the APFP Regulations 2009

| Plot | | Category 1 | | | Category 2 |
