You don't often get email from [REDACTED]. [Learn why this is important](#)

REF - FE7D05E68

Dear Sir/Madam

I write as an Interested Party against the Fenwick Solar Power planning proposal .

I am the fourth generation of a Fenwick family living in the affected area. The detrimental impact will be massive on the village community because of the following:-

1. Road safety on an already heavily damaged, unsuitable road network for such a huge project.

I am a keen cyclist, walker and Professional Artist and access the rural lanes and Public Footpaths daily. I fear for my safety if heavy HGV transport lorries use our rural landscape to erect the solar panels.

The infrastructure to support such a huge project is not suitable for the area. Askern schools and its children will also be put at risk from the increased daily traffic plus the main railway line in Moss is regularly closed for repair offering only a back lane not suitable to pass 2 vehicles safely.

2. Public footpaths will no longer be accessed by the ancient route of Haggs Lane which dog walkers use daily. Some routes may be diverted losing the diversity of nature in these habitats.

3. The diverse nature and wildlife that inhabit the proposed site from red kite, buzzards, deer, newts, wildflower meadows and ancient woodlands between Fenwick and Sykehouse will be lost forever. Building work will prevent these species from ever returning especially ground nesting species.

4. The community ethos and farming history will be lost forever.

Generations of inhabitants have farmed the land for centuries and community relationships have already been damaged causing mental health issues and resentment in the area.

5. Local businesses and community groups who use the village hall will suffer from the chaos caused by the Solar build from noise pollution, inaccessibility to the area, traffic and loss of basic village life.

6. House prices will decrease dramatically during and after the proposed site thus seriously damaging peoples retirement plans for their future.

7. Solar panels will be obsolete in 10 years as new technology advances which will leave a devastated industrialised site with no future for agriculture or nature.

Yours Faithfully
Chris Marshall

Application by Fenwick Solar Project Limited for an Order Granting Development Consent for the Fenwick Solar Farm Project

Planning Act 2008 – Section 89 and The Infrastructure Planning (Examination Procedure) Rules 2010 – Rule 8 and 9

**Interested Party Reference number:
FE7D05E68**

(You must quote your Interested Party Reference number in all correspondence with the Planning Inspectorate).

Dear Sir/Madam

.Please find below a link to a letter from the Examining Authority (ExA) or that has been published on the National Infrastructure Planning website.

The letter provides the Examination Timetable for the above application (the 'Rule 8' letter), details of the publication of the Examining Authority's Written Questions and other important information about the Examination.

<https://nsip-documents.planninginspectorate.gov.uk/published-documents/EN010152-000352-E01%20-%20Rule%208%20letter%20-%20August%202024.pdf>

You can also view the letter under the Documents tab on the project webpage of the National Infrastructure Planning website:
