Dear Inspector,

NSIP Reference Name / Code: EN010152

Natural England's comments in respect of the Fenwick Solar Farm Project (Deadline 5).

Natural England is a non-departmental public body. Our statutory purpose is to ensure that the natural environment is conserved, enhanced, and managed for the benefit of present and future generations, thereby contributing to sustainable development.

Natural England has reviewed the Applicant's Pink-Footed Goose Technical Note, prepared following our Response to the ExA's Second Written Questions at Deadline 4 [REP4-042]. We are satisfied with the assessment presented and agree that the conclusions of the No Significant Effects Report [REP2-038] remain unchanged, based on the information provided. Therefore, Natural England does not anticipate the need for a Report on Implications for European Sites (RIES) for this project.

For any further advice on this consultation please contact the case officer Nicholas White at [REDACTED]@naturalengland.org.uk and copy to consultations@naturalengland.org.uk.

Yours faithfully

[REDACTED]
