Statutory Undertaker Negotiations Tracker

December 2025

PINS Ref: EN010153

Document Ref: EN010153/DR/8.24

**Planning Act 2008; and Infrastructure Planning (Applications:
Prescribed Forms and Procedure) Regulations Regulation 5(2)(q)**

Revision P01

SU Name	SU Undertaking	Type of interest	Powers sought	Plots affected	Category of Rights (as relevant)1	Works Number/s	Purposes for which Land is Required	Relevant Representation submitted?	Section 127 engaged?	Section 138 engaged?	DCO Protective Provisions Schedule Number	Side Agreement Proposed	Status of Negotiations (including in relation to s.127/138)	
Cheshire West and Chester Council	Drainage authority; and Local highways authority	Category 1 - Adopted Highway/ Public Rights of Way	CAL	3-11, 3-23	-	1	Required for the construction, maintenance and replacement, use and decommissioning of solar modules, mounting structures, inverters, transformers, switchgear and associated electrical and communication cables.	Yes - RR-037	No - section 17 of RR-037 sets out the Council's position in respect of "landownership matters" and has "not identified any local authority land interests that may be affected by the applicant's proposed acquisition powers. There may be some land interest in relation to works on/adjacent to adopted highway land which may require further discussion with the highway authority. No objection has been raised in principle".	Yes	Schedule 25 - Protective Provisions for the Protection of Drainage Authorities (as lead local flood authority) Schedule 26 - Protective Provisions for the Protection of Highway Authorities (as local highway authority)	No	Comments from Council awaited on Protective Provisions but indicated that they are minor and capable of quick resolution.	
						5	Required for the laying down, maintenance and replacement and use of underground 33kv voltage electrical cables.							
						6A	Required to create, enhance existing and maintain green infrastructure including access tracks.							
						8	Required for the improvement, maintenance, repair and use of existing streets, private tracks and access roads.							
				3-12		1	Required for the construction, maintenance and replacement, use and decommissioning of solar modules, mounting structures, inverters, transformers, switchgear and associated electrical and communication cables.							
						4B	Required for the installation, laying down, maintenance and replacement and use of underground 132kv electrical cables and communication cables.							
						5	Required for the laying down, maintenance and replacement and use of underground 33kv voltage electrical cables.							
						6A	Required to create, enhance existing and maintain green infrastructure including access tracks.							
						6C	Required to create Non-Breeding Bird Mitigation Area.							
						8	Required for the improvement, maintenance, repair and use of existing streets, private tracks and access roads.							
				3-16, 3-36		1	Required for the construction, maintenance and replacement, use and decommissioning of solar modules, mounting structures, inverters, transformers, switchgear and associated electrical and communication cables.							
						5	Required for the laying down, maintenance and replacement and use of underground 33kv voltage electrical cables.							
						6A	Required to create, enhance existing and maintain green infrastructure including access tracks.							
				3-29		4A	Required for the installation, laying down, maintenance and replacement and use of above ground and underground 132kv electrical cables and communication cables and pylons.							
						5	Required for the laying down, maintenance and replacement and use of underground 33kv voltage electrical cables.							
						6A	Required to create, enhance existing and maintain green infrastructure including access tracks.							
						8	Required for the improvement, maintenance, repair and use of existing streets, private tracks and access roads.							
				5-1		1	Required for the construction, maintenance and replacement, use and decommissioning of solar modules, mounting structures, inverters, transformers, switchgear and associated electrical and communication cables.							
						4A	Required for the installation, laying down, maintenance and replacement and use of above ground and underground 132kv electrical cables and communication cables and pylons.							
						5	Required for the laying down, maintenance and replacement and use of underground 33kv voltage electrical cables.							
						6A	Required to create, enhance existing and maintain green infrastructure including access tracks.							
						7	Required for the construction, maintenance, use and decommissioning of temporary construction and decommissioning laydown areas and compounds.							
				5-13, 5-7		-	6A							Required to create, enhance existing and maintain green infrastructure including access tracks.
				5-5		-	1							Required for the construction, maintenance and replacement, use and decommissioning of solar modules, mounting structures, inverters, transformers, switchgear and associated electrical and communication cables.
							4A							Required for the installation, laying down, maintenance and replacement and use of above ground and underground 132kv electrical cables and communication cables and pylons.
							5							Required for the laying down, maintenance and replacement and use of underground 33kv voltage electrical cables.
							6A							Required to create, enhance existing and maintain green infrastructure including access tracks.
							7							Required for the construction, maintenance, use and decommissioning of temporary construction and decommissioning laydown areas and compounds.
							8							Required for the improvement, maintenance, repair and use of existing streets, private tracks and access roads.
				5-9		-	8							Required for the improvement, maintenance, repair and use of existing streets, private tracks and access roads.
		Category 1 - Adopted Highway /Public Rights of Way	CAR	1-3, 4-17, 4-19, 4-20, 4-21, 4-22, 4-23, 5-10, 5-11, 5-12, 5-23, 5-8a, 5-8b	6, 7	-								
				1-4, 1-5, 2-7, 4-11, 4-12, 4-14, 4-9	4	8	Required for the improvement, maintenance, repair and use of existing streets, private tracks and access roads.							
				2-20, 2-23, 2-25, 2-3, 2-8, 2-9, 3-3	1, 4	4B	Required for the installation, laying down, maintenance and replacement and use of underground 132kv electrical cables and communication cables.							
						8	Required for the improvement, maintenance, repair and use of existing streets, private tracks and access roads.							
				2-26	1, 4	4B	Required for the installation, laying down, maintenance and replacement and use of underground 132kv electrical cables and communication cables.							
				3-10	1, 5	4B	Required for the installation, laying down, maintenance and replacement and use of underground 132kv electrical cables and communication cables.							
						6A	Required to create, enhance existing and maintain green infrastructure including access tracks.							
						8	Required for the improvement, maintenance, repair and use of existing streets, private tracks and access roads.							
				3-15, 3-18, 3-22, 3-38	5	5	Required for the laying down, maintenance and replacement and use of underground 33kv voltage electrical cables.							
						6A	Required to create, enhance existing and maintain green infrastructure including access tracks.							
						8	Required for the improvement, maintenance, repair and use of existing streets, private tracks and access roads.							
				3-35, 5-6	5	5	Required for the laying down, maintenance and replacement and use of underground 33kv voltage electrical cables.							
						6A	Required to create, enhance existing and maintain green infrastructure including access tracks.							
				3-41, 3-44	5	4A	Required for the installation, laying down, maintenance and replacement and use of above ground and underground 132kv electrical cables and communication cables and pylons.							
						5	Required for the laying down, maintenance and replacement and use of underground 33kv voltage electrical cables.							
						6A	Required to create, enhance existing and maintain green infrastructure including access tracks.							
						8	Required for the improvement, maintenance, repair and use of existing streets, private tracks and access roads.							
				4-1, 4-3, 4-6, 4-8		1, 4, 5	6A							Required to create, enhance existing and maintain green infrastructure including access tracks.
							8							Required for the improvement, maintenance, repair and use of existing streets, private tracks and access roads.

SU Name	SU Undertaking	Type of interest	Powers sought	Plots affected	Category of Rights (as relevant) ¹	Works Number/s	Purposes for which Land is Required	Relevant Representation submitted?	Section 127 engaged?	Section 138 engaged?	DCO Protective Provisions Schedule Number	Side Agreement Proposed	Status of Negotiations (including in relation to s.127/138)
Environment Agency	Drainage authority	Category 2 - Rights Category 1 - Occupier	CAL CAL	5-17	2, 3	4A 6A 7	Required for the installation, laying down, maintenance and replacement and use of above ground and underground 132kv electrical cables and communication cables and pylons. Required to create, enhance existing and maintain green infrastructure including access tracks. Required for the construction, maintenance, use and decommissioning of temporary construction and decommissioning laydown areas and compounds.	Yes - RR-024	No - the points raised by the EA in RR-024 relate to concerns about environmental issues and assessment and not a land objection about issues related to the compulsory acquisition of land or rights over land.	Yes	Schedule 23 - Protective Provisions for the Protection of The Environment Agency	No	No substantive negotiations yet commenced on the Protective Provisions as EA currently not agreeing to disapplication of relevant consents. This matter is being further discussed between the Parties.
				5-2	5	4A 5 6A	Required for the installation, laying down, maintenance and replacement and use of above ground and underground 132kv electrical cables and communication cables and pylons. Required for the laying down, maintenance and replacement and use of underground 33kv voltage electrical cables. Required to create, enhance existing and maintain green infrastructure including access tracks.						
				5-13	-	6A	Required to create, enhance existing and maintain green infrastructure including access tracks.						
				3-36	-	1	Required for the construction, maintenance and replacement, use and decommissioning of solar modules, mounting structures, inverters, transformers, switchgear and associated electrical and communication cables.						
						5 6A	Required for the laying down, maintenance and replacement and use of underground 33kv voltage electrical cables. Required to create, enhance existing and maintain green infrastructure including access tracks.						
				3-37	-	5 6A	Required for the laying down, maintenance and replacement and use of underground 33kv voltage electrical cables. Required to create, enhance existing and maintain green infrastructure including access tracks.						
				4-10, 4-16	-	-							
				4-2	-	6A 6B	Required to create, enhance existing and maintain green infrastructure including access tracks. Required to create skylark habitat.						
				4-4, 4-5, 5-13	-	6A	Required to create, enhance existing and maintain green infrastructure including access tracks.						
				5-1	-	1	Required for the construction, maintenance and replacement, use and decommissioning of solar modules, mounting structures, inverters, transformers, switchgear and associated electrical and communication cables.						
						4A	Required for the installation, laying down, maintenance and replacement and use of above ground and underground 132kv electrical cables and communication cables and pylons.						
						5	Required for the laying down, maintenance and replacement and use of underground 33kv voltage electrical cables.						
						6A	Required to create, enhance existing and maintain green infrastructure including access tracks.						
						7	Required for the construction, maintenance, use and decommissioning of temporary construction and decommissioning laydown areas and compounds.						
				5-9	-	8	Required for the improvement, maintenance, repair and use of existing streets, private tracks and access roads.						
				1-4, 2-7, 5-8a	4, 6	8	Required for the improvement, maintenance, repair and use of existing streets, private tracks and access roads.						
				4-8	5	6A 8	Required to create, enhance existing and maintain green infrastructure including access tracks. Required for the improvement, maintenance, repair and use of existing streets, private tracks and access roads.						
National Highways Limited	Strategic highways company	Category 1 - Freeholder	CAL CAR	5-9		8	Required for the improvement, maintenance, repair and use of existing streets, private tracks and access roads.	Yes - RR-031	Yes	Yes	Schedule 27 - Protective Provisions for the Protection of National Highways Limited	No	Substantial discussions have taken place with National Highways, with substantive changes to the DCO made at Procedural Deadline B. Any further changes will be dependent on discussions in relation to Weaver Lane and Brooks Furlong bridges.
				5-8b, 4-14	6	8	Required for the improvement, maintenance, repair and use of existing streets, private tracks and access roads.						
				4-17, 4-19, 4-20, 4-21, 4-22, 5-8a, 5-10, 5-11	7	-							
Cadent Gas Limited	Gas undertaker	Category 1 - Occupier Category 2 - Rights	CAR	5-20	6	-		Yes - RR-020	Yes	Yes	Schedule 15 - Protective Provisions for the Protection of Cadent Gas Limited	TBC	Positive discussions held with Cadent and changes were made at Procedural Deadline B to reflect them. Only a couple of commercial issues remain and the method of resolution is still to be agreed. Cadent is to provide a response on these points in the New Year.
National Grid Electricity Transmission PLC	Electricity transmission	Category 1 - Freeholder, Freeholder Occupier, Occupier Category 2 - Rights	CAL	3-9	-	6C 4B	Required to create Non-Breeding Bird Mitigation Area. Required for the installation, laying down, maintenance and replacement and use of underground 132kv electrical cables and communication cables.	Yes - RR-021	Yes	Yes	Schedule 21 - Protective Provisions National Grid Electricity Transmission PLC as Electricity Undertaker	No	Comments received from NGET and responded on 01/12/25. Further comments awaited. The Applicant considers that none of the points raised by NGET are insurmountable, and agreement should be able to be reached prior to the end of Examination.
				4-2	-	6A 6B	Required to create, enhance existing and maintain green infrastructure including access tracks. Required to create skylark habitat.						
				4-4, 4-5, 3-45, 3-46, 3-47, 4-15, 4-18	-	6A	Required to create, enhance existing and maintain green infrastructure including access tracks.						
				5-1, 5-5	-	1	Required for the construction, maintenance and replacement, use and decommissioning of solar modules, mounting structures, inverters, transformers, switchgear and associated electrical and communication cables.						
						4A	Required for the installation, laying down, maintenance and replacement and use of above ground and underground 132kv electrical cables and communication cables and pylons.						
						5	Required for the laying down, maintenance and replacement and use of underground 33kv voltage electrical cables.						
						6A	Required to create, enhance existing and maintain green infrastructure including access tracks.						
						7	Required for the construction, maintenance, use and decommissioning of temporary construction and decommissioning laydown areas and compounds.						
						8	Required for the improvement, maintenance, repair and use of existing streets, private tracks and access roads						
				3-12	-	1	Required for the construction, maintenance and replacement, use and decommissioning of solar modules, mounting structures, inverters, transformers, switchgear and associated electrical and communication cables.						
						4B	Required for the installation, laying down, maintenance and replacement and use of underground 132kv electrical cables and communication cables.						
						5	Required for the laying down, maintenance and replacement and use of underground 33kv voltage electrical cables.						
						6A	Required to create, enhance existing and maintain green infrastructure including access tracks.						
						6C	Required to create Non-Breeding Bird Mitigation Area.						
						8	Required for the improvement, maintenance, repair and use of existing streets, private tracks and access roads.						
				3-14	-	6C	Required to create Non-Breeding Bird Mitigation Area.						

SU Name	SU Undertaking	Type of interest	Powers sought	Plots affected	Category of Rights (as relevant) ¹	Works Number/s	Purposes for which Land is Required	Relevant Representation submitted?	Section 127 engaged?	Section 138 engaged?	DCO Protective Provisions Schedule Number	Side Agreement Proposed	Status of Negotiations (including in relation to s.127/138)	
				3-21	-	1	Required for the construction, maintenance and replacement, use and decommissioning of solar modules, mounting structures, inverters, transformers, switchgear and associated electrical and communication cables.							
				2A	Required for the construction, maintenance and replacement, use and decommissioning of a battery energy storage compound.									
				2B	Required for the construction, maintenance and replacement, use and decommissioning of a battery energy storage compound.									
				3A	Required for the construction, maintenance and replacement, use and decommissioning of onsite substation, associated buildings and associated infrastructure.									
				3B	Required for the construction, maintenance and replacement, use and decommissioning of onsite substation, associated buildings and associated infrastructure.									
				4A	Required for the installation, laying down, maintenance and replacement and use of above ground and underground 132kv electrical cables and communication cables and pylons.									
				4B	Required for the installation, laying down, maintenance and replacement and use of underground 132kv electrical cables and communication cables.									
				5	Required for the laying down, maintenance and replacement and use of underground 33kv voltage electrical cables.									
				6A	Required to create, enhance existing and maintain green infrastructure including access tracks.									
				7	Required for the construction, maintenance, use and decommissioning of temporary construction and decommissioning laydown areas and compounds.									
				8	Required for the improvement, maintenance, repair and use of existing streets, private tracks and access roads.									
				3-24, 3-39	-	5	Required for the laying down, maintenance and replacement and use of underground 33kv voltage electrical cables.							
				6A	Required to create, enhance existing and maintain green infrastructure including access tracks.									
				8	Required for the improvement, maintenance, repair and use of existing streets, private tracks and access roads.									
				3-26	-	6A	Required to create, enhance existing and maintain green infrastructure including access tracks.							
				8	Required for the improvement, maintenance, repair and use of existing streets, private tracks and access roads.									
				4B	Required for the installation, laying down, maintenance and replacement and use of underground 132kv electrical cables and communication cables.									
				3-27, 3-33, 3-34,	-	6A	Required to create, enhance existing and maintain green infrastructure including access tracks.							
				34,	5	Required for the laying down, maintenance and replacement and use of underground 33kv voltage electrical cables.								
				3-28	-	4B	Required for the installation, laying down, maintenance and replacement and use of underground 132kv electrical cables and communication cables.							
				6A	Required to create, enhance existing and maintain green infrastructure including access tracks.									
				8	Required for the improvement, maintenance, repair and use of existing streets, private tracks and access roads.									
				3-29	-	4B	Required for the installation, laying down, maintenance and replacement and use of underground 132kv electrical cables and communication cables.							
				6A	Required to create, enhance existing and maintain green infrastructure including access tracks.									
				8	Required for the improvement, maintenance, repair and use of existing streets, private tracks and access roads.									
				5	Required for the laying down, maintenance and replacement and use of underground 33kv voltage electrical cables.									
				3-32, 3-36	-	6A	Required to create, enhance existing and maintain green infrastructure including access tracks.							
				5	Required for the laying down, maintenance and replacement and use of underground 33kv voltage electrical cables.									
				1	Required for the construction, maintenance and replacement, use and decommissioning of solar modules, mounting structures, inverters, transformers, switchgear and associated electrical and communication cables.									
				3-40	-	5	Required for the laying down, maintenance and replacement and use of underground 33kv voltage electrical cables.							
				6A	Required to create, enhance existing and maintain green infrastructure including access tracks.									
				4-13	-	8	Required for the improvement, maintenance, repair and use of existing streets, private tracks and access roads.							
				6A	Required to create, enhance existing and maintain green infrastructure including access tracks.									
				4-7, 4-10	-	-								
				CAR	3-3	1, 4	8							Required for the improvement, maintenance, repair and use of existing streets, private tracks and access roads.
							4B							Required for the installation, laying down, maintenance and replacement and use of underground 132kv electrical cables and communication cables.
					4-1, 4-3, 4-6, 4-8, 4-11, 4-12	1, 4, 5	8							Required for the improvement, maintenance, repair and use of existing streets, private tracks and access roads.
							6A							Required to create, enhance existing and maintain green infrastructure including access tracks.
					5-2	5	4A							Required for the installation, laying down, maintenance and replacement and use of above ground and underground 132kv electrical cables and communication cables and pylons.
							5							Required for the laying down, maintenance and replacement and use of underground 33kv voltage electrical cables.
							6A							Required to create, enhance existing and maintain green infrastructure including access tracks.
							8							Required for the improvement, maintenance, repair and use of existing streets, private tracks and access roads.
					3-10	1, 5	8							Required for the improvement, maintenance, repair and use of existing streets, private tracks and access roads.
							4B							Required for the installation, laying down, maintenance and replacement and use of underground 132kv electrical cables and communication cables.
							6A							Required to create, enhance existing and maintain green infrastructure including access tracks.
					3-35, 3-38	5	8							Required for the improvement, maintenance, repair and use of existing streets, private tracks and access roads.
							6A							Required to create, enhance existing and maintain green infrastructure including access tracks.
							5							Required for the laying down, maintenance and replacement and use of underground 33kv voltage electrical cables.
					3-41, 3-44	5	4A							Required for the installation, laying down, maintenance and replacement and use of above ground and underground 132kv electrical cables and communication cables and pylons.
							5							Required for the laying down, maintenance and replacement and use of underground 33kv voltage electrical cables.
							6A							Required to create, enhance existing and maintain green infrastructure including access tracks.
							8							Required for the improvement, maintenance, repair and use of existing streets, private tracks and access roads.
					5-15, 5-16	2	4A							Required for the installation, laying down, maintenance and replacement and use of above ground and underground 132kv electrical cables and communication cables and pylons.

SU Name	SU Undertaking	Type of interest	Powers sought	Plots affected	Category of Rights (as relevant) ¹	Works Number/s	Purposes for which Land is Required	Relevant Representation submitted?	Section 127 engaged?	Section 138 engaged?	DCO Protective Provisions Schedule Number	Side Agreement Proposed	Status of Negotiations (including in relation to s.127/138)
				5-17	2, 3	4A	Required for the installation, laying down, maintenance and replacement and use of above ground and underground 132kv electrical cables and communication cables and pylons.						
						6A	Required to create, enhance existing and maintain green infrastructure including access tracks.						
						7	Required for the construction, maintenance, use and decommissioning of temporary construction and decommissioning laydown areas and compounds.						
				5-18	2, 3	4A	Required for the installation, laying down, maintenance and replacement and use of above ground and underground 132kv electrical cables and communication cables and pylons.						
						6A	Required to create, enhance existing and maintain green infrastructure including access tracks.						
				5-19, 5-20, 5-23	6	-							
Canal and River Trust	-	Removed from BoR/Land Plans	-	-	-	-	-	Yes - RR-010	Yes	Yes	-	No	CRT interests were removed from the Book of Reference at Procedural Deadline B, and requested change to the DCO has been made at Deadline 1 to ensure access to Marsh Lock is maintained at all times. Remaining points are technical points only.
United Utilities Water Limited	Water undertaker	Category 1 - Freeholder, Occupier	CAL	5-1	-	1	Required for the construction, maintenance and replacement, use and decommissioning of solar modules, mounting structures, inverters, transformers, switchgear and associated electrical and communication cables.	Yes - RR-006	Yes	Yes	Schedule 22 - Protective Provisions for the Protection of United Utilities Water Limited	No	In August 2025 the Applicant received UU's 'preferred' form of Protective Provisions. In response the Applicant noted that there was only one paragraph of difference between that 'preferred' form and the Protective Provisions in the Applicant's DCO and explained why it was needed. The Applicant is awaiting confirmation from UU as to whether or not it accepts the Applicant's position.
						5	Required for the laying down, maintenance and replacement and use of underground 33kv voltage electrical cables.						
						6A	Required to create, enhance existing and maintain green infrastructure including access tracks.						
						7	Required for the construction, maintenance, use and decommissioning of temporary construction and decommissioning laydown areas and compounds.						
						4A	Required for the installation, laying down, maintenance and replacement and use of above ground and underground 132kv electrical cables and communication cables and pylons.						
				2-18	-	6C	Required to create Non-Breeding Bird Mitigation Area.						
				2-19	-	4B	Required for the installation, laying down, maintenance and replacement and use of underground 132kv electrical cables and communication cables.						
						6C	Required to create Non-Breeding Bird Mitigation Area.						
						8	Required for the improvement, maintenance, repair and use of existing streets, private tracks and access roads.						
				3-11	-	1	Required for the construction, maintenance and replacement, use and decommissioning of solar modules, mounting structures, inverters, transformers, switchgear and associated electrical and communication cables.						
						5	Required for the laying down, maintenance and replacement and use of underground 33kv voltage electrical cables.						
						6A	Required to create, enhance existing and maintain green infrastructure including access tracks.						
						8	Required for the improvement, maintenance, repair and use of existing streets, private tracks and access roads.						
				3-17	-	1	Required for the construction, maintenance and replacement, use and decommissioning of solar modules, mounting structures, inverters, transformers, switchgear and associated electrical and communication cables.						
						5	Required for the laying down, maintenance and replacement and use of underground 33kv voltage electrical cables.						
						6A	Required to create, enhance existing and maintain green infrastructure including access tracks.						
						7	Required for the construction, maintenance, use and decommissioning of temporary construction and decommissioning laydown areas and compounds.						
						8	Required for the improvement, maintenance, repair and use of existing streets, private tracks and access roads.

				5-13	-	6A	Required to create, enhance existing and maintain green infrastructure including access tracks.						
				5-3		4A 5 6A	Required for the installation, laying down, maintenance and replacement and use of above ground and underground 132kv electrical cables and communication cables and pylons. Required for the laying down, maintenance and replacement and use of underground 33kv voltage electrical cables. Required to create, enhance existing and maintain green infrastructure including access tracks.						
Shell U.K. Limited	Oil pipeline operator	Category 1 - Occupier Category 2 - Rights, Restriction	CAL	3-1	-	4B 6C 8	Required for the installation, laying down, maintenance and replacement and use of underground 132kv electrical cables and communication cables. Required to create Non-Breeding Bird Mitigation Area. Required for the improvement, maintenance, repair and use of existing streets, private tracks and access roads.	No	No	Yes	Schedule 19 - Protective Provisions for the Protection of Shell U.K. Limited		No comments have been received from Shell in respect of the Protective Provisions in the DCO
				3-11	-	1 5 6A 8	Required for the construction, maintenance and replacement, use and decommissioning of solar modules, mounting structures, inverters, transformers, switchgear and associated electrical and communication cables. Required for the laying down, maintenance and replacement and use of underground 33kv voltage electrical cables. Required to create, enhance existing and maintain green infrastructure including access tracks. Required for the improvement, maintenance, repair and use of existing streets, private tracks and access roads.

				3-17	-	1	Required for the construction, maintenance and replacement, use and decommissioning of solar modules, mounting structures, inverters, transformers, switchgear and associated electrical and communication cables.						
						5	Required for the laying down, maintenance and replacement and use of underground 33kv voltage electrical cables.						
						6A	Required to create, enhance existing and maintain green infrastructure including access tracks.						
						7	Required for the construction, maintenance, use and decommissioning of temporary construction and decommissioning laydown areas and compounds.						
						8	Required for the improvement, maintenance, repair and use of existing streets, private tracks and access roads						
				3-32, 3-48, 3-49, 5-14	-	5	Required for the laying down, maintenance and replacement and use of underground 33kv voltage electrical cables.						
				3-36		6A	Required to create, enhance existing and maintain green infrastructure including access tracks.						
						1	Required for the construction, maintenance and replacement, use and decommissioning of solar modules, mounting structures, inverters, transformers, switchgear and associated electrical and communication cables.						
						5	Required for the laying down, maintenance and replacement and use of underground 33kv voltage electrical cables.						
						6A	Required to create, enhance existing and maintain green infrastructure including access tracks.						
						6C	Required to create Non-Breeding Bird Mitigation Area.						
						6A	Required to create, enhance existing and maintain green infrastructure including access tracks.						
				5-13	-	6A	Required to create, enhance existing and maintain green infrastructure including access tracks.						
				4-2	-	6A	Required to create, enhance existing and maintain green infrastructure including access tracks.						
				5-3		6B	Required to create skylark habitat.						
						4A	Required for the installation, laying down, maintenance and replacement and use of above ground and underground 132kv electrical cables and communication cables and pylons.						
						5	Required for the laying down, maintenance and replacement and use of underground 33kv voltage electrical cables.						
				5-5		6A	Required to create, enhance existing and maintain green infrastructure including access tracks.						
						4A	Required for the construction, maintenance and replacement, use and decommissioning of solar modules, mounting structures, inverters, transformers, switchgear and associated electrical and communication cables.						
						5	Required for the installation, laying down, maintenance and replacement and use of above ground and underground 132kv electrical cables and communication cables and pylons.						
						6A	Required for the laying down, maintenance and replacement and use of underground 33kv voltage electrical cables.						
						7	Required to create, enhance existing and maintain green infrastructure including access tracks.						
				5-1, 3-43		8	Required for the construction, maintenance, use and decommissioning of temporary construction and decommissioning laydown areas and compounds.						
						8	Required for the improvement, maintenance, repair and use of existing streets, private tracks and access roads						
						1	Required for the construction, maintenance and replacement, use and decommissioning of solar modules, mounting structures, inverters, transformers, switchgear and associated electrical and communication cables.						
						4A	Required for the installation, laying down, maintenance and replacement and use of above ground and underground 132kv electrical cables and communication cables and pylons.						
						5	Required for the laying down, maintenance and replacement and use of underground 33kv voltage electrical cables.						
				CAR		6A	Required to create, enhance existing and maintain green infrastructure including access tracks.						
						7	Required for the construction, maintenance, use and decommissioning of temporary construction and decommissioning laydown areas and compounds.						
						1-2, 5-19, 5-20, 5-23	-						
						4A	Required for the installation, laying down, maintenance and replacement and use of above ground and underground 132kv electrical cables and communication cables and pylons.						
						6A	Required to create, enhance existing and maintain green infrastructure including access tracks.						
						5	Required for the laying down, maintenance and replacement and use of underground 33kv voltage electrical cables.						
						6A	Required to create, enhance existing and maintain green infrastructure including access tracks.						
						8	Required for the improvement, maintenance, repair and use of existing streets, private tracks and access roads.						
						4A	Required for the installation, laying down, maintenance and replacement and use of above ground and underground 132kv electrical cables and communication cables and pylons.						
						6A	Required to create, enhance existing and maintain green infrastructure including access tracks.						
						7	Required for the construction, maintenance, use and decommissioning of temporary construction and decommissioning laydown areas and compounds.						
						4A	Required for the installation, laying down, maintenance and replacement and use of above ground and underground 132kv electrical cables and communication cables and pylons.						
						5	Required for the laying down, maintenance and replacement and use of underground 33kv voltage electrical cables.						
						6A	Required to create, enhance existing and maintain green infrastructure including access tracks.						
						6A	Required to create, enhance existing and maintain green infrastructure including access tracks.						
						6C	Required to create Non-Breeding Bird Mitigation Area.						
						8	Required for the improvement, maintenance, repair and use of existing streets, private tracks and access roads.						
				3-2, 3-7	5	1-4	Required for the improvement, maintenance, repair and use of existing streets, private tracks and access roads.
