Table 1- Permitted Preliminary Works Mitigation 1

1.0 PERMITTED PRELIMINARY WORKS

1.1 Working Hours

- 1.1.1 Permitted Preliminary Works (PPW) will generally be limited to 08:00 to 18:00hrs Monday to Friday and 08:00 to 13:00hrs Saturday, with no PPWs on Sundays or Bank Holidays. Workers will typically arrive in the hour prior to start of PPWs and leave in the hour after work ceases. Workers will therefore arrive at the Site between 07:00 and 08:00 and depart between 18:00 and 19:00 during weekdays.
- 1.1.2 There may be occasional instances where operations are required outside the above times. In such instances it may be necessary to agree a modification to the working hours with CWaCC.
- 1.1.3 CWaCC shall only permit works outside the hours stated in paragraph 1.1.1 which do not cause noise that is audible at the boundary of the Order limits and do not give rise to any materially new or materially more adverse environmental effects compared to those identified in the environmental statement.
- 1.1.4 The only exception to the above is where emergency works are required, where such works occur CWaCC must be notified of those works within ~~72~~24 hours of their commencement.

1.2 Construction Environmental Management Plan (CEMP)

- 1.2.1 In accordance with Requirement 12 of the draft DCO a CEMP been submitted to and approved by the relevant planning authority prior to undertaking any of the following permitted preliminary works:

- i) above ground site preparation for temporary facilities for the use of contractors;
- ii) site clearance (comprising vegetation removal, demolition of existing structures or buildings and removal of plant and machinery);
- iii) receipt and erection of construction plant and equipment to be utilised for Work No. 6C; and
- iv) remedial work in respect of any contamination or other adverse ground conditions where this relates to Work No. 6C.

Table 1- Permitted Preliminary Works Mitigation

Topic	Environmental surveys, geotechnical surveys, intrusive archaeological surveys	Receipt and erection of construction plant and equipment	Above ground site preparation for temporary facilities for the use of contractors	Remedial work in respect of any contamination or other adverse ground conditions	Diversion and laying of apparatus	Provision of temporary means of enclosure and site security for construction	The temporary display of site notices or advertisements	Work No. 8	Site clearance (comprising vegetation removal, demolition of existing structures or buildings and removal of plant and machinery).
Landscape and Visual Amenity	Avoid removal of any vegetation other than that essential to undertake the investigation works.	N/A	Avoid removal of any vegetation other than that essential to undertake the investigation works.	N/A	Avoid removal of any vegetation other than that essential to undertake the investigation works.	Avoid removal of any vegetation other than that essential to undertake the investigation works.	NA	NA	Approval pursuant to DCO Requirement – Landscape and Ecological Management Plan.

Topic	Environmental surveys, geotechnical surveys, intrusive archaeological surveys	Receipt and erection of construction plant and equipment	Above ground site preparation for temporary facilities for the use of contractors	Remedial work in respect of any contamination or other adverse ground conditions	Diversion and laying of apparatus	Provision of temporary means of enclosure and site security for construction	The temporary display of site notices or advertisements	Work No. 8	Site clearance (comprising vegetation removal, demolition of existing structures or buildings and removal of plant and machinery).
