Request for further information Frodsham Solar Farm

Dear Sir/Madam

I refer to your correspondence received regarding the above project. Specifically point 13 regarding agreement on Protective Provisions.

Shell Chemicals operate 2 pipeline affected by the Frodsham Solar Farm, The North West Ethylene Pipeline (NWEF) and the Runcorn Stanlow Ethylene Pipeline (RSEP) the proposed Protective Provisions are currently under review for these pipelines.

I do not have a timescale for completion of this review.

Shell UK also have 2 out of service pipelines in this location, YP4682 Stanlow to Heysham and YP4685 Stanlow to Haydock, we will not be seeking any protective provisions for these pipelines.

Yours faithfully
Shell U.K. Limited
