# 1. Introduction

- 1.1.1 This **Guide to the Application [EN010154/APP/1.3]** accompanies an application submitted by Fosse Green Energy Limited (the 'Applicant') to the Secretary of State for Energy Security and Net Zero (the 'Secretary of State') for development consent to construct, operate and maintain and decommission an energy generation station on land approximately 9km south and south west of Lincoln.
- 1.1.2 The Development Consent Order (DCO) application has been submitted to the Secretary of State under s37 of the Planning Act 2008 (the PA 2008) for the Fosse Green Energy project (the Proposed Development). The Proposed Development is classified as a Nationally Significant Infrastructure Project (NSIP) under s14(1)(a), s15(1) and s15(2) of the PA 2008, as it is an onshore generating station in England with a capacity exceeding 50 megawatts (MW).
- 1.1.3 This Guide to the Application has been prepared in accordance with Regulation 5(2)(q) of the Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009 (the APFP Regulations) to support the application. The following section explains the purpose of this document in the context of the DCO application.

## 2. Purpose of this Guide to the Application

- 2.1.1 This **Guide to the Application [EN010154/APP/1.3]** provides an overview of the documents that have been prepared in order to satisfy the APFP Regulations, the Infrastructure Planning (Environmental Impact Assessment) Regulations 2017 and s37 of the PA 2008.
- 2.1.2 Regulation 5(2) of the APFP Regulations sets out the documents that must accompany all DCO applications. This includes Regulation 5(2)(q) which requires the submission of 'any other documents considered necessary to support the application' as well as Regulation 5(2)(o) which requires 'any other plans, drawings and sections necessary to describe the proposals for which development consent is sought'. Regulation 6 of the APFP Regulations sets out the specific documentation required in support of DCO applications for particular types of development, including the construction of a generating station. This document provides a full list of documents prepared to meet the requirements of Regulation 5 and 6 of the APFP Regulations.
- 2.1.3 This Guide to the Application is a live document that will be updated as part of the Applicant's submission for each Examination deadline, where requested by the Examining Authority ("ExA") both to capture the latest versions of updated documents and to record new documents submitted as part of the Examination.
