Dear Examining Authority,

Fosse Green Energy Development Consent Order – Deadline 4 Submissions

Planning Inspectorate Case Reference: EN010154

We write on behalf of Fosse Green Energy Limited (the Applicant) further to the publication of the Rule 6 Letter **[PD-008]** on 9 December 2025 and the Rule 8 Letter **[PD-010]** on 14 January 2026 to provide the Applicant's written submissions for Deadline 4 of the Fosse Green Energy Development Consent Order (DCO) Examination (the Examination).

Submissions made at Deadline 4

Appendix 1 of this letter provides an overview of the documents submitted by the Applicant at this Deadline. Table 1 of Appendix 1 comprises the application documents for which updated versions are being submitted and provides brief reasoning as to why each document has been updated. Each of these updated documents has been submitted in both clean and tracked change versions to aid the Examining Authority (the ExA) in identifying the changes made.

Table 2 of Appendix 1 comprises the new documents being submitted to the Examination, including those identified by the ExA in the Rule 8 letter as submissions to be made by the Applicant. These documents form part of Volume 8 and Volume 9 and are identified in the Guide to the Application **[REP3A-002]**, which sets out the current status of all documents.

NatPower UK Limited

The Applicant notes the ExA's letter of 30 March 2026 to NatPower UK Limited on behalf of Navenby Energy Limited and RE Squared Limited (NatPower) which requests that NatPower notify it of the land plot numbers within which NatPower has interests. Following a refresh of HM Land Registry data, the Applicant has added the interests held by RE Squared Limited to the Book of Reference. The Applicant awaits submission to the Examination of further details of the interests held by Navenby Energy Limited to enable further updates to be made to the Book of Reference.

Furthermore, the Applicant acknowledges the submission made by NatPower at Deadline 3 **[REP3-070]** and will provide a comprehensive response to this prior to Deadline 5. The Applicant considers that there is a technical solution which would allow the Proposed Development and NatPower's BESS project to co-exist within the Order Limits of the Proposed Development and, accordingly, is preparing evidence which demonstrates this.

Indicative Layouts

Figure 3-2A 'Indicative Fixed South Facing Layout' and 3-2B 'Indicative Single Axis Tracker Layout' have been updated and submitted as part of the Applicant's Deadline 4 submissions. The update includes additional permissive paths to facilitate the Stepping Out Routes referred to by North Kesteven District Council, enabling these to be walked during the operation of the Proposed Development. These permissive paths will be secured for the lifetime of the Proposed Development. The updates set out in Figure 3-2A and Figure 3-2B are as follows:

- a. A section of the Stepping Out Route to the south of Housham Wood will not be available, with alternative permissive paths provided that are located through grassland or arable fields rather than the existing farm track.
- b. A section of the Thorpe on the Hill Stepping Out Route will not be available, however there is alternative provision via a Public Right of Way.

The Applicant has also taken the opportunity to include within these Figures the changes previously presented in the Landscape Mitigation Plan (at Appendix A of the Framework Landscape and Ecological Management Plan) which formed part of the Change Request **[AS-123]** (the removal of solar in Field 46, the addition of new hedges near River Farm, and clipping of the Order Limits near Thurlby). The total length of the proposed permissive paths following this change is now 10.2km. The total length of the Stepping Out Routes within the Order Limits that are not currently PRow is 1.8km. The net difference is therefore 8.4km.

The conclusions of the Environmental Statement remain unchanged, and the Applicant's consideration of the planning balance also remains unchanged, given the provision of permissive paths is a benefit of the Proposed Development regardless of their length.

Yours sincerely,

Womble Bond Dickinson (UK) LLP
