Dear Examining Authority,

Fosse Green Energy Development Consent Order – Deadline 6 Submissions

Planning Inspectorate Case Reference: EN010154

We write on behalf of Fosse Green Energy Limited (the Applicant) further to the publication of the Rule 6 Letter **[PD-008]** on 9 December 2025, the Rule 8 Letter **[PD-010]** on 14 January 2026 and the Revised Timetable **[PD-020]** on 8 April 2026 to provide the Applicant's written submissions for Deadline 6 of the Fosse Green Energy Development Consent Order (DCO) Examination (the Examination).

Submissions made at Deadline 6

Appendix 1 of this letter provides an overview of the documents submitted by the Applicant at this Deadline. Table 1 of Appendix 1 comprises the application documents for which updated versions are being submitted and provides brief reasoning as to why each document has been updated. Each of these updated documents has been submitted in both clean and tracked change versions to aid the Examining Authority (the ExA) in identifying the changes made.

Table 2 of Appendix 1 comprises the new documents being submitted to the Examination, including those identified by the ExA in the Rule 8 letter as submissions to be made by the Applicant. These documents form part of Volume 9 and are identified in the Guide to the Application **[REP5A-002]**, which sets out the current status of all documents.

Responses to Rule 17 Requests

The Applicant notes that the ExA has made four requests for further information under Rule 17 of the Infrastructure Planning (Examination Procedure) Rules 2010 (Rule 17 Requests), three of which are addressed to the Applicant.

In line with the Rule 17 Request dated 18 May 2026 **[PD-025]** regarding the omission of the annexes to the Framework Construction Traffic Management Plan (CTMP) submitted to the Examination at Deadline 5A (**[REP5A-023]** and **[REP5A-024]**), the Applicant resubmitted these documents to include the previously omitted annexes.

Planning Inspectorate Case Reference:
EN010154

The Applicant notes that the ExA has exercised its discretion to accept these two additional submissions and that these were published and added to the Examination Library on 19 May 2026 (**[AS-136]** and **[AS-137]**).

The third Rule 17 Request dated 18 May **[PD-027]** was addressed to the Applicant and Phillips 66 Limited (P66). The Applicant has continued to seek to engage with P66 through its agents, British Pipeline Agency (BPA). Progress has been made with regards to the protective provisions, and this is reflected in the final and signed Statement of Common Ground between the Applicant and P66 submitted to the Examination at this Deadline.

The Applicant will continue to seek to reach full agreement with P66 on the form of the protective provisions. The Applicant will provide an update to the ExA at Deadline 7 in this regard and is hopeful that it will be able to report the protective provisions are fully agreed. Agreed amendments to the protective provisions will be reflected in the final iteration of the draft DCO **[REP5A-006]** to be submitted to the Examination at Deadline 7.

The Applicant acknowledges the fourth Rule 17 Request **[PD-028]**, dated 19 May and its responses are set out in a standalone document submitted at this Deadline; the Applicant's Response to the Examining Authority's Request for Further Information Under Rule 17 **[EN010154/EXAM/9.33]**.

Phillips 66 Limited (P66) Protective Provisions: P66 Outline Specification

In line with the definition of "P66 Outline Specification" in paragraph 102 of Part 9 of Schedule 14 of the draft DCO **[REP5A-006]** the Applicant has submitted to the Examination at this Deadline a standalone document with its own unique reference **[EN010154/EXAM/9.34]** which includes Appendix C and Appendix D of the AC Interference Risk Assessment on the Finaline Pipeline **[REP5-027]**.

This standalone document comprises the written specification and indicative drawings for the crossing of the P66 pipeline and will be certified by the Secretary of State under Article 41 of the draft DCO **[REP5A-006]**. Accordingly, the P66 Outline Specification is to be identified in Schedule 12 (documents and plans to be certified) of the draft DCO **[REP5A-006]**. The document reference and associated details set out in that Schedule will be updated to reflect this submission in the final iteration of the draft DCO to be submitted to the Examination at Deadline 7 (9 June 2026).

Design Approach Document / Design Commitments

The Design Commitments have previously been submitted as Appendix A to the Design Approach Document **[APP-186]**. However, the Applicant has now extracted these from the Design Approach Document and submitted the Design Commitments to the Examination as a standalone document at this Deadline with its own unique reference **[EN010154/EXAM/9.35]**. This addresses item 3 (Certified Documents) of the Examining Authority's Request for Further Information Under Rule 17 **[PD-028]** and provides clarity with regard to the document identified in Schedule 12 (documents

and plans to be certified) which will be certified by the Secretary of State under Article 41 of the draft DCO [REP5A-006]. The document reference and associated details of the Design Commitments in that Schedule will be updated to reflect this in the final iteration of the draft DCO to be submitted to the Examination at Deadline 7 (9 June 2026).

Accordingly, an updated Design Approach Document has also been submitted at this Deadline, with Appendix A having been replaced by text noting that the Appendix is no longer used as of Deadline 6 as the Design Commitments have been extracted and submitted as a standalone document, and that any references in the Design Approach Document to Appendix A or the Design Commitments are to be taken to refer to the standalone Design Commitments.

National Highways Consultation Zone

The Applicant is in discussion with National Highways regarding the National Highways Consultation Zone, which forms Figure 7.15-2 of the Framework Landscape and Ecological Management Plan which is a secured plan via Requirement 8 of the draft DCO [REP5A-008]. The Applicant aims to agree the plan with National Highways in advance of the close of Examination and will submit an updated plan at Deadline 7.

Updated Draft Development Consent Order (DCO) and Associated Documents

It should be noted that, due to the limited time between Deadline 6 and Deadline 7, the Applicant has not submitted an updated draft DCO [REP5A-006], an updated Explanatory Memorandum to the draft DCO [REP5A-008], or an updated Schedule of Changes to the draft DCO [REP5A-030] at this Deadline. The Applicant will submit the final iterations of these three documents at Deadline 7 (9 June 2026).

Yours sincerely,

Womble Bond Dickinson (UK) LLP
