Dear Sirs

## The Infrastructure Planning (Examination Procedure) Rules 2010 – rule 17

### Application by Fosse Green Energy Limited for an order granting development consent for the Fosse Green Energy

#### Request for further information

We are writing under rule 17 of the Infrastructure Planning (Examination Procedure) Rules 2010 further to the various submissions you have made at Deadline 6 and seek further information/clarification with respect to the following matters:

#### 1) Revisions to management plans consequent to the creation of a standalone Design Commitments document

- a) A consequence of the proposed design commitments being extracted from Appendix A of the Design Approach Document [[APP-186](#)] to create a new freestanding Design Commitments document [[REP6-033](#)] that any cross referencing in the framework management plans to the design commitments included in [[APP-186](#)] are now out of date. The framework management plans should therefore be reviewed and amended, as necessary, to cross refer to the Design Commitments document rather than Appendix A in [[APP-186](#)].
- b) Review the Design Commitments Document [[REP6-033](#)] for consistency with the updated Framework Landscape and Ecological Management Plan [[REP6-018](#)] and the Construction Environmental Management Plan [[REP6-008](#)].

Within the Design Commitments Document commitment EC18 makes specific reference to “Species Rich” grassland and commitment LI8 should be checked for consistency with the Framework Construction Environmental Management Plan regarding lighting outside working hours.

The requested drawings should be submitted no later than examination **Deadline 7** (9 June 2026).

Yours sincerely

*Grahame Gould*

**Grahame Gould**
