Dear Examining Authority,

Fosse Green Energy Development Consent Order – Deadline 7 Submissions

Planning Inspectorate Case Reference: EN010154

We write on behalf of Fosse Green Energy Limited (the Applicant) further to the publication of the Rule 6 Letter **[PD-008]** on 9 December 2025, the Rule 8 Letter **[PD-010]** on 14 January 2026 and the Revised Timetable **[PD-020]** on 8 April 2026 to provide the Applicant's written submissions for Deadline 7 of the Fosse Green Energy Development Consent Order (DCO) Examination (the Examination).

Submissions made at Deadline 7

Appendix 1 of this letter provides an overview of the documents submitted by the Applicant at this Deadline. Table 1 of Appendix 1 comprises the application documents for which updated versions are being submitted and provides brief reasoning as to why each document has been updated. Each of these updated documents has been submitted in both clean and tracked change versions to aid the Examining Authority (the ExA) in identifying the changes made.

Table 2 of Appendix 1 comprises the new documents being submitted to the Examination, including those identified by the ExA in the Rule 8 letter as submissions to be made by the Applicant. These documents form part of Volume 9 and are identified in the Guide to the Application **[REP6-002]**, which sets out the current status of all documents.

Responses to Rule 17 Request

The Applicant notes that the ExA has, since Deadline 6, made four requests for further information under Rule 17 of the Infrastructure Planning (Examination Procedure) Rules 2010 (Rule 17 Requests), one of which is addressed to the Applicant.

In line with the Rule 17 Request dated 5 June 2026 **[PD-032]** regarding amendments required in respect of the framework management plans as a result of the creation of a standalone Design Commitments document **[REP6-033]** (Rule 17 Request, Item 1a), the Applicant has reviewed and updated the relevant framework management plans;

namely the Framework Operational Environmental Management Plan, Framework Battery Safety Management Plan, and the Framework Surface Water Drainage Strategy.

With regards to Item 1b of the Rule 17 Request dated 5 June 2026 **[PD-032]** in relation to the Design Commitments document, a revised iteration of the Design Commitments has been submitted at this Deadline in order to correct instances of inconsistency between the Design Commitments and management plans where necessary.

Schedule of Progress in Securing Other Consents

The Applicant has not submitted a further iteration of the Schedule of Progress in Securing Other Consents **[REP3-040]** at this Deadline as no updates are required. Therefore, the previous iteration submitted at Deadline 3 should be taken as the final Schedule of Progress in Securing Other Consents.

Updates to Chapter 12: Socio-Economics and Land Use

In light of comments from Lincolnshire County Council **[AS-138]** and North Kesteven District Council **[AS-139]** the Applicant has added contextual information regarding the justification of the scoping out of food security to Chapter 12: Socio-Economics and Land Use of the ES **[AS-016]**. This draws on information previously submitted to the Examination such as the Applicant's Response to Local Impact Reports **[REP2-031]** to provide clarity on the reasons why this topic has been scoped out due to there being no likelihood of significant effects arising as a result of the Proposed Development.

Identification of Additional Affected Parties

As set out in the Schedule of Negotiations and Powers Sought **[REP6-024]** submitted at this Deadline, following a refresh of HM Land Registry data, the Applicant identified an additional party with a potential interest in land within the Order Limits; Noventum Power Solar 4 Limited. The relevant title number is partially within Plot 16/17. However, the Applicant is awaiting receipt of the title plan and therefore, at the time of writing, is unclear as to the extent of Noventum Power Solar 4 Limited's interest in the relevant title, and therefore whether this does in fact fall within Plot 16/17. Additionally, a party which already has interests within the Order Limits, Benjamin Howard Wray has acquired the freehold title of an additional land interest.

The Applicant has today (9 June 2026), written to these parties to inform them of how to engage with the DCO process, and register as an Interested Party, if they have not already (and in respect of Noventum Power Solar 4 Limited, only if it has a legal interest within the Order Limits). Therefore, the Applicant hereby informs the ExA that the aforementioned parties may be able to make a request to the ExA under section 102A of the Planning Act 2008. The Applicant notes that this Deadline is the final Examination deadline and that the ExA intends to close the Examination on 15 June 2026 and has informed the parties accordingly.

Additional Submission – Accepted at the Discretion of the Examining Authority

The Applicant acknowledges the additional submission made by Andrew Keeling which was accepted by the ExA and published on 09 June 2026 **[AS-140]**. The submission focuses on the assessment of visitor economy impact, and notes in the Introduction (Section 1 of the submission) the Applicant's Response to Deadline 3 and 3A Submissions **[REP4-018]** in response to Mr Keeling's post-hearing submissions, including written summaries of oral submissions and any responses to any hearing action points **[REP3-018]**. The Applicant maintains its position regarding the assessment of visitor economy, as set out in the Applicant's previous responses, such as within the Applicant's Response to Deadline 5 Submissions **[REP5A-038]** (ref. p59-63) and the Applicant's Response to the Examining Authority's Third Written Questions **[REP5A-037]** (ref. PE.3.07), and refers Mr Keeling to these previous submissions.

Draft Development Consent Order Email Validation

The Applicant has submitted the draft DCO for validation and will provide e-mail confirmation of successful validation of the draft DCO and the associated validation report before the close of the Examination.

Yours sincerely,

Womble Bond Dickinson (UK) LLP
