1. Introduction

1.1 Purpose of this document

1.1.1 This Book of Reference relates to an application made by Fosse Green Energy Limited (the "Applicant") to the Secretary of State for Energy Security and Net Zero via the Planning Inspectorate under section 37 of the Planning Act 2008 (the "2008 Act") for a Development Consent Order ("DCO"). If made, the DCO would grant consent for the Applicant to undertake the Fosse Green Energy proposed development (the "Proposed Development").

1.1.2 This Book of Reference lists the plots of land over which the Applicant is seeking powers of compulsory acquisition and powers of temporary possession in the DCO for the purposes of the Proposed Development. For each plot it identifies whether the Applicant is seeking the power to acquire the freehold of that plot, the power to create and/or acquire Permanent rights (including restriction) and/or suspend or extinguish easements, servitudes and other private rights, or the power to take temporary possession.

1.1.3 This Book of Reference has been prepared and submitted in compliance with Regulation 5(2)(d) of the Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009 (the "2009 Regulations"), as amended, and in accordance with the Department for Communities and Local Government 'Planning Act 2008: Guidance related to procedures for compulsory acquisition' (September 2013).

1.1.4 As this Book of Reference is part of the application documents it should be read in conjunction with the **Land Plans [EN010154/APP/2.1]**, the **Statement of Reasons [EN010154/APP/4.1]** and the **draft DCO [EN010154/APP/3.1].**

1.1.5 This Book of Reference is divided into five parts as prescribed by Regulation 7(1) of the 2009 Regulations. Each of the five Parts are summarised in the next chapter, together with a brief commentary on how the requirements in the Regulations have been interpreted and applied to the collation of each Part of the Book of Reference.

2. Book of Reference description

2.1 Part 1 description

Regulation 7(1)(a) of the 2009 Regulations states;

Part 1 contains the names and addresses for service of each person within Categories 1 and 2 as set out in section 57 (categories for purposes of section 56(2)(d)) in respect of any land which it is proposed shall be subject to:

i. *powers of compulsory acquisition*

ii. *rights to use land, including the right to attach brackets or other equipment to buildings*

iii. *rights to carry out protective works to buildings*

2.1.2 Part 1 of this Book of Reference contains the names and addresses for service for every person who is known, after making diligent inquiry, to be an owner, lessee, tenant or occupier of the plot (known as Category 1 persons) or, is interested in or, has the power to sell, convey or release the land (known as Category 2 persons).

2.1.3 A person is within Category 1 if the Applicant after making diligent inquiry, knows that they are an owner, lessee, tenant (whatever the tenancy period), or occupier of the land to which the application for development consent relates; see section 57(1) and (7) of the 2008 Act.

2.1.4 A person is within Category 2 if the Applicant, after making diligent inquiry, knows that they are interested in the land or have the power to sell and convey or release the land. This includes mortgagees, cautioners and beneficiaries that may have an interest in the land to which the application for development consent relates; see section 57(1) and (7) of the 2008 Act.

2.1.5 Parties recorded in Part 3 of this Book of Reference have also been included in Part 1 and Part 2.

2.2 Part 2 description

2.2.1 Regulation 7(1)(b) of the 2009 Regulations states;

Part 2 contains the names and addresses for service of each person within Category 3 as set out in section 57.

2.2.2 Part 2 of this Book of Reference contains the names and addresses (if known by the Applicant) of each person within Category 3, as defined by Section 57 of the 2008 Act.

2.2.3 A person is within Category 3 if the Applicant, having made diligent inquiry, believes that, if the DCO were to be made and fully implemented, they would or might be entitled to make a 'relevant claim' as defined in section 57(6) of the 2008 Act. These include persons whose land is not directly affected under the DCO (their interest is outside the Order Limits) who the Applicant believes would or might be entitled to make a relevant claim. A relevant claim is a claim under section 10 of the Compulsory Acquisition Act 1965 (compensation where satisfaction is not made for the taking or injurious affection of land subject to compulsory purchase), a claim under part 1 of the Land Compensation Act 1973 (compensation for depreciation of land value by physical factors caused by the use of public works), or a claim under section 152(3) of the 2008 Act where land is injuriously affected by the carrying out of the authorised works.

2.2.4 It is considered that Category 3 therefore includes:

a. Certain Category 1 'Owners' (where they are a Category 2 interest elsewhere in the Order Limits);

b. All Category 1 'Lessees and Tenants';

c. Any Category 2 interests for land within the DCO boundary

2.2.5 Those interests listed under Part 1 have not been repeated in Part 2.

2.2.6 After conducting diligent inquiry and having carefully assessed the likely significant environmental assessment the Applicant has concluded that there are no potential Category 3 persons outside the Order Limits.

2.3 Part 3 description

2.3.1 Regulation 7(1)(c) of the 2009 Regulations states:

Part 3 contains the names of all those entitled to enjoy easements or other private rights over land (including private rights of navigation over water) which it is proposed shall be extinguished, suspended or interfered with

2.3.2 Part 3 of this Book of Reference contains the names of all those with easements or other private rights over land which it is proposed shall be extinguished, suspended or interfered with pursuant to the exercise of powers in the DCO.

2.3.3 Category 2 persons included within Part 1 of this Book of Reference have also been included within Part 3 where their rights may be affected. Examples include tenants of the land, or statutory undertakers with services in or under the land, and whose rights over the land are likely to be affected whether the land is required Permanently or temporarily.

2.3.4 Parties recorded in Part 3 of this Book of Reference have also been included in Part 1.

2.4 Part 4 description

2.4.1 Regulation 7(1)(d) of the 2009 Regulations states;

Part 4 specifies the owner of any Crown interest in the land which is proposed to be used for the purposes of the order for which application is being made

2.4.2 "Crown land" is defined in section 227 of the 2008 Act and includes interests belonging to Government departments among other Crown interests.

2.4.3 No Crown interests have been identified in the Order Limits and as such no Crown Land Plans have been prepared.

2.5 Part 5 description

Regulation 7(1)(e) of the 2009 Regulations states:

Part 5 specifies land –

i. the acquisition of which is subject to special parliamentary procedure

ii. which is special category land

iii. *which is replacement land and for each plot of such land within which it is intended that all or part of the prosed development and works shall be carried out, the area in square metres of that plot.*

2.5.2 Part 5 of this Book of Reference identifies no land that is subject to special parliamentary procedure and as such, no land is treated as special category land based on the criteria specified above.

3. Book of Reference Notes

3.1.1 Parts 1, 3, 4 and 5 of this Book of Reference provide the area in square metres of each plot of land included in the DCO application as part of the description of the land in respect of that plot. Areas have not been repeated in Part 2 of this Book of Reference.

3.1.2 The term 'approximately' is used before all plot area measurements as these measurements are given in square metres, and each measurement is rounded up to the nearest whole square metre.

3.1.3 Each plot of land shown in this Book of Reference has been given a unique reference. The first number relates to the Land Plan sheet on which the plot is located. The second differentiates between each plot sequentially on the sheet.

3.1.4 The description of each plot of land includes reference to the principal land use power(s) sought in the draft DCO in respect of that plot. **Table 3.1** below is provided to explain the relationship between this Book of Reference, the **draft Development Consent Order [EN010149/APP/3.1]**, and the **Land Plans [EN010154/APP/2.1]** and to clarify the powers sought in relation to compulsory acquisition and temporary possession.

3.1.5 For plots where the Applicant seeks to acquire rights (including restrictive covenants), different 'categories' of rights powers are sought. This is reflected in Schedule 9 to the **draft Development Consent Order [EN010149/APP/3.1]** and has been noted in relation to the relevant plots below, by assigning numbers to the categories listed in that Schedule as follows.

Category 1 "access rights" means rights over land to, for the purposes of the authorised development and in connection with the authorised development:

(a) alter, improve, form, maintain, retain, use (with or without vehicles, plant and machinery), remove, reinstate means of access to the authorised development including visibility splays, bridges, culverts and road widening or improvements and to remove and traverse impediments (including vegetation) to such access;

(b) form, remove, reinstate passing places in the highway;

(c) pass and repass on foot, with or without vehicles, plant and machinery (including rights to lay and use any temporary surface);

(d) install, use, support, protect, inspect, alter, remove, replace, refurbish, reconstruct, retain, renew, improve and maintain security fencing, gates, boundary treatment, public rights of way and any other ancillary apparatus and any other works as necessary in connection with the access rights; and

(e) restrict and remove the erection of buildings or structures, restrict the altering of ground levels, restrict and remove vegetation and restrict the planting of trees or carrying out operations or actions (including but not limited to blasting and piling) which may obstruct, interrupt or interfere with the exercise of the rights or damage the authorised development;

Category 2 "ancillary rights" means rights over land to, for the purposes of the authorised development and in connection with the authorised development, carry out such works as are required in connection with and in addition to Work Nos. 1 to 9 as specified in Schedule 1 to the draft DCO.

Category 3 "cable rights" means rights over land to, for the purposes of the authorised development and in connection with the authorised development:

(a) install, use, support, protect, inspect, alter, remove, replace, retain, renew, improve and maintain underground electrical cables, earthing cables, optical fibre cables, data cables, telecommunications cables and other apparatus, works associated with such cables including bays, ducts, protection and safety measures and equipment, and other ancillary apparatus and structures;

(b) remain, pass and repass on foot, with or without vehicles, plant and machinery (including rights to lay and use any temporary surface or form a temporary compound) for all purposes in connection with the authorised development;

(c) install, use, support, protect, inspect, alter, remove, replace, refurbish, reconstruct, retain, renew, improve and maintain sewers, drains, pipes, ducts, mains, conduits, services, flues and to drain into and manage waterflows in any drains, watercourses and culverts;

(d) install, use, support, protect, inspect, alter, remove, replace, refurbish, reconstruct, retain, renew, improve and maintain security fencing, gates,

boundary treatment, public rights of way and any other ancillary apparatus and any other works as necessary in connection with the cable rights; and

(e) restrict and remove the erection of buildings or structures, restrict the altering of ground levels, restrict and remove vegetation and restrict the planting of trees or carrying out operations or actions (including but not limited to blasting and piling) which may obstruct, interrupt or interfere with the exercise of the rights or damage the authorised development;

Category 4 "substation connection rights" means rights over land to, for the purposes of the authorised development and in connection with the authorised development:

(a) install, use, support, protect, inspect, alter, remove, replace, retain, renew, improve and maintain electrical cables, earthing cables, optical fibre cables, data cables, telecommunications cables and other services, works associated with such cables including bays, ducts, protection and safety measures and equipment, and other apparatus and structures and to connect such cables and services to the National Grid Navenby substation;

(b) install, use, support, protect, inspect, alter, remove, replace, refurbish, reconstruct, retain, renew, improve and maintain watercourses, sewers, drains, pipes, ducts, mains, conduits, services, flues and drainage apparatus and equipment and to drain into and manage waterflows in any drain, watercourse and culvert;

(c) remain, pass and repass on foot, with or without vehicles, plant and machinery (including rights to lay and use any temporary surface or form a temporary compound) for all purposes in connection with Work No. 5;

(d) restrict and remove the erection of buildings or structures, restrict the altering of ground levels, restrict and remove the planting of trees or carrying out operations or actions (including but not limited to blasting and piling) which may obstruct, interrupt or interfere with the exercise of the rights or damage the authorised development; and

(e) install, use, support, protect, inspect, alter, remove, replace, retain, renew, improve and maintain soft landscaping and biodiversity measures;

Category 5 "vegetation maintenance rights" means rights over land to, for the purposes of the authorised development and in connection with the authorised development—

(a) install, use, support, protect, inspect, alter, remove, replace, repair, retain, renew, relocate, improve and maintain vegetation including trees, woodlands, shrubs, hedgerows, seeding, landscaping and other ecological measures and restrict or prevent the removal of vegetation and other ecological measures

for the purposes of the authorised development and in connection with the authorised development; and

(b) remain, pass and repass on foot, with or without vehicles, plant and machinery for all purposes in connection with the implementation and maintenance of landscaping and ecological mitigation or enhancement works.

Table 3.1: Relationship with the Land Plan and DCO

Colour of the plot on Land Plan	Description of the plot in the Book of reference	Principal land use of power sought	Principal relevant DCO Article
Pink	"Permanent acquisition of…"	Compulsory acquisition of all interests and rights in land (including as required, subsoil, surface land or airspace)	Article 19
Blue	"Permanent acquisition of new rights over…"	Creation and compulsory acquisition of new rights (including where necessary, a right to impose restrictive covenants)	Article 22

3.2 How to use this Book of Reference

3.2.1 **Table 3.2** below provides a step-by-step guide to enable any person with an interest in the land to identify how the Applicant's proposals may affect the land in which they have an interest.

Table 3.2: How to use this Book of Reference

Step One
Look at the Land Plans (EN010154/APP/2.1) and find the area (plot(s)) of land in which you have an interest. Note that where a cut line intersects a plot, a separate plot is created for the continuation of land on the adjacent sheet(s).
Step Two
Note the colour and the number of the plot(s)
Using **Table 3.1** above, the colour of the plot(s) will tell you the power proposed to be applied to the plot required
Step Three
Use the plot(s) number to identify where the land is referred to in other DCO application documents:
This **Book of Reference [EN010154/APP/4.3]**– Which provides a brief description of each plot (including an approximate area measurement) and details of persons who own, lease or otherwise occupy or have an interest in the land
The **Statement of Reason [EN010154/APP/4.1]** –

Particularly Annex A, the Schedule of Negotiations and Powers Sought[1] which sets out the position in terms of the Applicant's negotiations to acquire interests in land or to take possession of land required for the Proposed Development by voluntary agreement.

The draft **Development Consent Order (DCO) [EN010154/APP/3.1]** –

Which contains the powers needed to carry out the Proposed Development, and includes the powers of compulsory acquisition to assemble the land required that are listed in **Table 3.1**.

[1]The Schedule of Negotiations and Powers Sought has been decoupled from the Statement of Reasons. It now comprises a standalone document, reference **[EN010154/EXAM/9.6]**.
