Notes:
1. This Location and Land Area Plan should be read in conjunction with other plans and documents in the DCO application.
2. The Location and Land Area Plan has been included to identify the location of the Proposed Development in its wider geographical context and, as a consequence, uses a smaller scale than that prescribed in Regulations 5(3) of the APFP Regulations 2009 so that the wider geographical context can be represented on a single sheet plan.
3. The Location and Land Area Plan has been updated for submission on 10 September 2025 to show the amended Order Limits as a result of changes/corrections to the DCO Application (changes 3, 4, 5, 6, 8 and 9 set out in the Second Notification of Proposed Changes to the DCO Application (AS-015)).
