1 Introduction

1.1 Purpose of this Document

1.1.1 This document has been prepared to record updates to the following Application Documents submitted as part of the Development Consent Order (DCO) Application for Peartree Hill Solar Farm ('the Proposed Development') in February 2025:

- **Environmental Statement (ES) Volume 1 and Volume 2 (Chapters 0 to 15) [APP-036] to [APP-051];**
- **ES Volume 3 (Figures) [APP-052] to [APP-093]; and**
- **ES Volume 4 (Non-Technical Summary, Commitments Register and Appendices) [APP-094] to [APP-144].**

1.1.2 It is intended that this document remains a live document throughout the Examination and would be used to track updates and amendments to the ES. Further amendments or points of clarification which arise through Issue Specific Hearings, Written Representations, Written Questions or other relevant elements of the Examination process, would also be incorporated into this document accordingly.

1.1.3 This document will be updated and re-submitted for each of the Examination Deadlines, where necessary.

1.2 Document Structure

1.2.1 **Section 2** of this document details the updates to **ES Volumes 1 and 2 [APP-036] to [APP-051]** since the DCO Application submission and sets out amendments within **Table 2-1 to Table 2-8**.

1.2.2 **Section 3** of this document details the updates to the various figures that accompany the **ES Volume 3 [APP-052] to [APP-093]** since the DCO Application submission within **Table 3-1 to Table 3-8**.

1.2.3 **Section 4** of this document details the updates to the various appendices that accompany the ES Volume 4, including the **Non-Technical Summary and Commitments Register [APP-094] to [APP-144]** since the DCO Application submission, and sets out amendments within **Table 4-1 to Table 4-8**.

- 1.2.4 A summary of the documents within the ES which have been updated and reported on in this ES Addendum is provided in **Section 5** within **Table 5-1**.

1.3 Document Contents

- 1.3.1 Within the tables identified above, each row describes an amendment or update to the ES. The tables include the relevant document reference, reason for the amendment and the amendment required. Unless otherwise stated, the relevant rows within the ES Addendum tables form the record of the updates to that document.
- 1.3.2 Within the tables identified above, text shown in red font with a strikethrough indicates text which is now removed from the relevant section of the ES. Text shown in green font indicates text which is new or updated at that submission deadline. References to “Deadline 5” in Sections 2 - 5 of this ES Addendum are to Deadline 5 of the Examining Authority (ExA)’s Rule 8 letter date 29 July 2025 **[PD-009]**.

2 Environmental Statement Volume 1 and Volume 2 Updates

2.1 Change Request 1 and Response to Section 51 Advice - submission July 2025

- 2.1.1 **Table 2-1** outlines amendments to ES Volume 1 and 2 documents that have been identified since submission of the DCO Application in response to the ExA's Section 51 advice **[PD-003]** and/or the two minor corrections to the DCO Application (change/correction 1 and 2) **[AS-004]** and are submitted to the ExA at Procedural Deadline A (8 July 2025).
- 2.1.2 To the extent that a document forming part of ES Volume 1 and 2 is not included in the table below, this is because there is no change to that document as a result of the July 2025 Change Request and Response to Section 51 Advice.

Table 2-1 ES Volume 1 and 2 updates - Change Request 1 and Response to Section 51 Advice July 2025

Document reference	Reason for amendment	ES Amendment July 2025
ES Volume 2, Chapter 11: Landscape and Visual [APP-047]	As a result of points raised by the ExA following an unaccompanied site inspection (USI) on 17-18 June (ExA document reference EN010157-000217-PHSF - USI1 Note), Table 11-3 requires amendment as	Table 11-13, viewpoint number 25 is amended to: "PRoW Wawne Footpath no.11/GDrove Lane."

Document reference	Reason for amendment	ES Amendment July 2025
	'Drove Lane' is incorrectly referred to as 'Grove Lane'.	
ES Volume 2, Chapter 11: Landscape and Visual [APP-047]	A 'typo' was identified in Paragraph 11.5.33 where Viewpoint 29 is incorrectly referred to as Viewpoint 28.	Text in Paragraph 11.5.33 is amended to: "Viewpoint 28 29 in ES Volume 4, Appendix 11.6: Viewpoints and Visualisations [EN010157/APP/6.4] is located on the trail 5km north-west of Field E1 (in Land Area E)."

2.2 Deadline 1

- 2.2.1 **Table 2-2** outlines amendments to ES Volume 1 and 2 documents that have been identified as a result of responses to the Relevant Representations **[RR-001 – RR-051]**, the ExA's First Written Questions **[PD-008]**, and/or other engagement with relevant stakeholders and are submitted to the ExA at Deadline 1 (27 August 2025).
- 2.2.2 To the extent that a document forming part of ES Volume 1 and 2 is not included in the table below, this is because there is no change to that document required for Deadline 1.

Table 2-2 ES Volume 1 and 2 updates – Response to Relevant Representations and the ExA's First Written Questions

Document reference	Reason for amendment	ES Amendment August 2025
ES Volume 2, Chapter 6: Air Quality [APP-042]	Response to the ExA's First Written Questions [PD-008] (1.5.2 and 1.5.4). Updates required to paragraph 6.4.7 to clarify the study areas for human receptors and designated sites. Updates required to clarify what the different study areas shown on ES Volume 3, Figure 6.1 [APP-063] represent.	Text in paragraph 6.4.7 is amended to: "Based on the Institute of Air Quality Management Guidance on the Assessment of Dust from Demolition and Construction v2.2 [Ref. 6-18], the study area for the construction and decommissioning phase assessments for sensitive human receptors for demolition, earthworks and general construction activities is up to 250m from the Order Limits; 20m, 50m, 100m and 250m study areas have been considered in the assessment as per the Institute of Air Quality Management Guidance on the

Document reference	Reason for amendment	ES Amendment August 2025
		Assessment of Dust from Demolition and Construction v2.2 [Ref. 6-18]. For trackout activities, which is defined as the transport of dust and dirt from the construction/demolition sites onto public road network, the study area is up to 50m from the edge of the roads likely to be affected by trackout; 20m and 50m study areas have been considered in the assessment. The study area for designated sites for demolition, earthworks and general construction and trackout activities is up to 50m from the Order Limits; 20m and 50m study areas have been considered in the assessment. The study area for designated sites for trackout activities is up to 50m from the edge of the roads likely to be affected by trackout; 20m and 50m study areas have been considered in the assessment.”
ES Volume 2, Chapter 6: Air Quality [APP-042]	Response to the ExA’s First Written Questions [PD-008] (1.5.6). Updates required to Table 6-11 to clarify that the annual mean air quality standard for PM_{2.5} considered in the air quality assessment is 20µg/m³.	Table 6-11 is amended to show “20” in the ‘Air Quality Standards’ row under the ‘Annual average PM_{2.5} (µg/m³)’ column.

Document reference	Reason for amendment	ES Amendment August 2025
ES Volume 2, Chapter 6: Air Quality [APP-042]	Response to the ExA's First Written Questions [PD-008] (1.5.1). Updates required to paragraph 6.7.2 to clarify the study area for designated sites regarding dust and particulate matter emissions, i.e. whether it is 200m or 50m.	Text in paragraph 6.7.2 is amended to: "Four LWSs and one ancient semi-natural woodland have been identified within the Order Limits or within 200m 50m of the Order Limits." Text in paragraph 6.5.4 is amended to: "The following designated sites (habitats) have been identified within the Order Limits or within 200m 50m of the Order Limits."
ES Volume 2, Chapter 6: Air Quality [APP-042]	Response to the ExA's First Written Questions [PD-008] (1.5.7). Updates required to paragraph 6.7.2 to confirm the human receptors that have been identified within 250m of the Order Limits.	Text in paragraph 6.7.2 is amended to: "Human receptors have been identified within 250m of the Order Limits, comprising the villages of Long Riston, and Woodmansey, Routh, Arnold, Weel and public rights of way (PRoWs)."
ES Volume 2, Chapter 7: Biodiversity [APP-043]	Response to Natural England's relevant representations [RR-012] (NE7 and NE8a) to consider the Humber Estuary Site of Special Scientific Interest (SSSI) within the assessment and to amend details of pre-construction water vole and otter surveys in line with appropriate guidance Updated to cross-reference or incorporate changes from and ensure consistency with	ES Chapter 7 is amended in response to Natural England's representations and to align with other updated documents. Resubmitted on 27 August 2025 as: ES Volume 2, Chapter 7: Biodiversity – Rev 2 (clean) ES Volume 2, Chapter 7: Biodiversity – Rev 2 (tracked)

Document reference	Reason for amendment	ES Amendment August 2025
	the following new or updated documents: Grid Connection Cable Route Bird Survey Report, the Habitats Regulations Assessment – Information to Inform Appropriate Assessment, and the Outline Landscape and Ecological Management Plan.	
ES Volume 2, Chapter 9: Cultural Heritage [APP-045]	Updated following correspondence with Historic England to include a commitment that Field E6 would require further archaeological investigation prior to the excavation of scrapes due to its proximity to Meaux Duck Decoy Scheduled Monument. Updated in response to the ExA's First Written Questions [PD-008] (1.8.1) to include an assessment of potential compaction impacts to buried archaeological remains during the construction phase of the Proposed Development. Updated in response to the ExA's First Written Questions [PD-008] (1.8.2) to scope setting effects on the Site of Meaux Cistercian Abbey during operation into the assessment, taking account of winter visualisations.	ES Chapter 9 is amended following engagement with Historic England and in response to the ExA's First Written Questions [PD-008]. Resubmitted on 27 August 2025 as: ES Volume 2, Chapter 9: Cultural Heritage – Rev 2 (clean) ES Volume 2, Chapter 9: Cultural Heritage – Rev 2 (tracked)

Document reference	Reason for amendment	ES Amendment August 2025
	Updated in response to the ExA's First Written Questions [PD-008] (1.8.5) to provide clarity in Table 9-1 regarding the proposal for archaeological monitoring during groundworks for the installation of access track and a temporary compound in Fields F9, F10 and F11 to align with the Archaeological Management Strategy [APP-162].	
ES Volume 2, Chapter 10: Land Soil and Groundwater [APP-046]	Response to the Environment Agency's relevant representations [RR-005] (EA09 and EA22). Updates required to paragraphs 10.5.13 and 10.5.14 to clarify details of unlicensed private water supplies within the study area in response to EA09. In responding to EA09, and also EA22, it was noted that there were errors in the locations and distance from the Order Limits stated for some abstractions in ES Chapter 10 [APP-046]. Updates required to state the correct details.	Addition of new paragraph 10.5.13, which states: "With respect to groundwater abstractions, the data is separated into licensed locations (i.e. those locations that are licensed by the Environment Agency) and unlicensed locations. Unlicensed water abstraction data was provided by East Riding of Yorkshire Council." Text in original paragraphs 10.5.13 and 10.5.14 (now combined into new paragraph 10.5.14) amended to: "There are two no licensed groundwater abstractions within the Order Limits, both of which are used for spray irrigation. There are 1428 1428 locations where active

Document reference	Reason for amendment	ES Amendment August 2025
		licensed groundwater abstractions licenses are recorded that are off-site and within 500m of the Order Limits. These are primarilySeven of these are used for general agriculturalfarming and domestic use and seven are used for spray irrigation, with several for domestic use, one for commercial use and one which is a public water supply licensed to Yorkshire Water (located at Dunswell, 202m to the south-east of the Order Limits).” Addition of new paragraph 10.5.15, which states: “There are no unlicensed groundwater abstractions within the Order Limits. There are three unlicensed groundwater abstractions that are recorded to be present off-site and within 500m of the Order Limits. One of these is for commercial use (23m from the Order Limits) and two are for domestic use (10m and 35m from the Order Limits).” As a result of the addition of paragraph 10.5.15, subsequent paragraphs have been automatically renumbered.

Document reference	Reason for amendment	ES Amendment August 2025
ES Volume 2, Chapter 13: Population [APP-049]	Response to the ExA's First Written Questions [PD-008] (1.13.1). It was raised that 'Skidby Footpath No. 17' did not appear to be mentioned in ES Chapter 13: Population [APP-049]. The Applicant acknowledges that while it is mentioned as 'SKIDF17' in paragraph 13.7.1, it is not mentioned in the baseline section.	Addition of bullet point in paragraph 13.5.24, which states: "Skidby Footpath No.17 (SKIDF17) runs in a north south alignment located partially within the Order Limits of the grid connection cable route."
ES Volume 2, Chapter 13: Population [APP-049]	Response to the ExA's First Written Questions [PD-008] (1.12.9) and public relevant representations. Updates required to paragraph 13.5.27 to identify 'Riston Plants' as one of the businesses located within 500m of the Order Limits. The Applicant noted that this receptor needed to be carried through to Table 13-9 and Table 13-11 for completeness.	Addition of new bullet point in paragraph 13.5.27, which states: "Riston Plants, a plant nursery and purpose-built shop located on Carr Lane (Long Riston) located adjacent to Land Area B and operates 9am to 5pm, Monday to Saturday and 11am to 4pm on Sundays." Addition of 'Riston Plants' row in Table 13-9, which states: "There may be some adverse impacts to customers accessing this business as a result of the temporary increase in traffic numbers and heavy goods vehicles in the area. However, based on experience of similar developments in the UK, any such impacts would be temporary and short

Document reference	Reason for amendment	ES Amendment August 2025
		term for the duration of the construction works taking place in this location. It is not expected there will be any other impacts to this business.” Addition of ‘Riston Plants’ row in Table 13-11, which states: “The potential operational effects of the Proposed Development primarily relate to changes in the visual environment as a result of the installation of infrastructure including solar arrays. This alteration to the existing views would be medium to long term. Given the nature of this business, it is not expected that such a change to the visual environment will lead to any significant effects to this business.”
ES Volume 2, Chapter 14: Transport and Access [APP-050]	Response to the ExA’s First Written Questions [PD-008] (1.13.1). Updates required to paragraph 14.5.6 to reference the correct table to clarify where PRoW are assessed in ES Chapter 14: Transport and Access [APP-050].	Text in paragraph 14.5.6 amended to: “A section of National Cycle Network Route 1 is within the Order Limits along Park Lane. Park Lane is proposed to provide vehicular access for a section of the grid connection cable route works. This route also is included within East Riding of Yorkshire Council’s PRoW network as public footpath Skidby

Document reference	Reason for amendment	ES Amendment August 2025
		Footpath No. 17, which is outlined in Table 14-12 14-18 below.”
ES Volume 2, Chapter 14: Transport and Access [APP-050]	Response to the ExA’s First Written Questions [PD-008] (1.13.12). Updates required to Table 14-6 so that the months of construction phases 3 to 5 align with the equivalent in Table 6.3 in ES Volume 4, Appendix 14.1: Transport Assessment [APP-138]. The Applicant also noted an error in the months stated for phase 6 in Table 14-6 and paragraph 14.4.24, which required amendment.	Rows in ‘Construction phase’ column of Table 14-6 amended to: “Phase 3 (Land Area C & D and grid connection cable route works - months 9-1312)” “Phase 4 (Land Area D & E and grid connection cable route works - months 14-1713-16)” “Phase 5 (Land Area E & F and grid connection cable route works - months 18-2117-20)” “Phase 6 (Land Area F and grid connection cable route works - months 2221-24)” Final bullet point in paragraph 14.4.24 amended to: “Phase 6: Land Area F and complete grid connection cable route works (months 22 21 to 24)”

Document reference	Reason for amendment	ES Amendment August 2025
ES Volume 2, Chapter 15: Cumulative Effects [APP-051]	Response to the ExA's First Written Questions [PD-008] (1.14.2 part a)). Updates required to confirm the updated status of Carr Solar Farm.	'Status' for ID 14 in Table 15-3 amended to: "Application refused" Approved"
ES Volume 2, Chapter 15: Cumulative Effects [APP-051]	Response to the ExA's First Written Questions [PD-008] (1.14.5). Updates required to terminology, i.e. amending 'intra cumulative effects' to 'intra-project combined effects' throughout ES Chapter 15 [APP-051].	Terminology amended as follows throughout the document: "intra cumulative" intra-project combined effects"
ES Volume 2, Chapter 15: Cumulative Effects [APP-051]	Response to the ExA's First Written Questions [PD-008] (1.14.7). Updates required to screen out Riston footpaths No.1 and No.2 from the assessment of intra-project combined effects to reflect ES Chapter 13: Population [APP-049], i.e. that no temporary diversions, closures or restrictions are anticipated to be required for these footpaths.	Table 15-4 amended to indicate that no residual effects are expected in relation to Population for 'PRoW Riston footpath no.2 and Leven footpath no.5' and 'PRoW Riston footpath no.1' and therefore these receptors are not taken forward to Stage 2 of the assessment for intra-project combined effects during construction and decommissioning. Table 15-6 amended to remove the assessments of 'PRoW Riston footpath no.2 (including Leven footpath no.5)' and 'PRoW Riston footpath no.1'.
ES Volume 2, Chapter 15: Cumulative Effects [APP-051]	Response to the ExA's First Written Questions [PD-008] (1.14.7).	Wording amended as follows throughout the document: "temporary diversions closures or restrictions to PRoW"

Document reference	Reason for amendment	ES Amendment August 2025
	Updates required to reflect that no temporary diversions to PRow proposed in relation to the Proposed Development.	

2.3 Deadline 2

- 2.3.1 **Table 2-3** outlines amendments to ES Volume 1 and 2 documents that have been identified in response to East Riding of Yorkshire Council's **Local Impact Report [REP1-086]**, the Written Representations and Responses to the Examining Authority's first written questions **[REP1-087]** to **[REP1-105]**, and/or other engagement with relevant stakeholders and are submitted to the ExA at Deadline 2 (10 September 2025).
- 2.3.2 To the extent that a document forming part of ES Volume 1 and 2 is not included in the table below, this is because there is no change to that document required for Deadline 2.

Table 2-3 ES Volume 1 and 2 updates - Response to East Riding of Yorkshire Council's Local Impact Report, Written Representations and Responses to the ExA's First Written Questions.

Document reference	Reason for amendment	ES Amendment September 2025
ES Volume 2, Chapter 9: Cultural Heritage [REP1-021 and REP1-022]	To provide more clarity on the conclusions of the assessment and support responses to Local Impact Report [REP1-086] comments 7.262-7.265, 7.270 – 7.273 and 7.274-7.277.	Text in paragraph 9.9.8: “As the potential physical impacts of the Proposed Development will not change the archaeological or palaeoenvironmental interest of these assets, the magnitude of impact to the assets' significance arising from changes to their

Document reference	Reason for amendment	ES Amendment September 2025
		physical remains would be no change during the construction phase of the Proposed Development.” Text in paragraph 9.9.9: “As the potential physical impacts of the Proposed Development will not change the archaeological, architectural or aesthetic interest of these assets, the magnitude of impact to the assets’ significance arising from changes to their physical remains would be no change during the construction phase of the Proposed Development.” Paragraph 9.9.12: “As theThe aspect of the settings of the Site of Meaux Cistercian Abbey (Scheduled Monument NHLE 1007843), Meaux Duck Decoy, 420m South East of Meaux Decoy Farm (Scheduled Monument NHLE 1015305) and

Document reference	Reason for amendment	ES Amendment September 2025
		NHLE 1008039 (Medieval Moated Tile Kiln 250m North East of North Grange Farm) which contribute to their significance are their notional settings. Although there may be some temporary changes to the experiential settings of the assets during the construction phase, their notional settings will be unaffected. Furthermore, the existing hedgerows which enhance the assets' experiential settings will not be altered. Therefore, the historic interest of the assets which derives from their settings will not be changed by the Proposed Development, and so this aspect of the assets' significance will not be harmed. and the existing hedgerows which enhance their experiential settings will not be changed by the Proposed Development, their historic interest will not change, and so this aspect of the assets' significance will not be harmed.

Document reference	Reason for amendment	ES Amendment September 2025
		Text in paragraph 9.9.15: “The potential settings impacts of the construction phase of the Proposed Development will not change the historic interest of these assets. This results in the magnitude of impact to the assets’ significance arising from changes to their settings during the construction phase As the setting of the assets is notional and the hedgerows which enhance their experiential settings will not be altered, the settings of the assets will not be affected during the construction phase of the Proposed Development. This results in the magnitude of impact to the assets’ settings during the construction phase being categorised as no change.” Text in paragraph 9.9.16: “The magnitude of impact to the assets’ significance arising from”

Document reference	Reason for amendment	ES Amendment September 2025
		changes to their assets' settings during the construction phase is therefore assessed as minor." Text in paragraph 9.9.22: "As the potential physical impacts of the construction phase of the Proposed Development will not change the archaeological or historic interest of these assets due to the additional measures of preservation in situ or preservation through recording and the additional mitigation measures presented in the Outline Construction Environmental Management Plan (Outline CEMP) [EN010157/APP/7.2] and the Outline Soil Management Plan [EN010157/APP/7.8], the magnitude of impact to the assets' significance arising from changes to their physical remains would be no change during the

Document reference	Reason for amendment	ES Amendment September 2025
		construction phase of the Proposed Development.” Text in paragraph 9.9.25: “As the potential settings impacts of the construction phase of the Proposed Development will not change the historic interest of these assets, the magnitude of impact to the assets’ significance arising from changes to their settings would be no change during the construction phase of the Proposed Development.” Text in paragraph 9.9.33: “As the potential physical impacts of the operation (including maintenance) phase of the Proposed Development will not change the archaeological, architectural or aesthetic interest of these assets, the magnitude of impact to the assets’ significance arising from changes to their physical remains would be no

Document reference	Reason for amendment	ES Amendment September 2025
		change during the operation (including maintenance) phase of the Proposed Development. Consequently, the significance of effect would be no effect, which is considered to be not significant.” Paragraph 9.9.37 (split into new paragraphs 9.9.37 and 9.9.38): “ES Volume 4, Appendix 9.4: Detailed Settings Impact Assessment [EN010157/APP/6.4] confirms that Field F14 is the only part of the Order Limits which lies within that part of the setting of the asset which contributes to the asset’s significance which will be changed by the Proposed Development. Visual changes would impact this certainthis elements of Wawne Grange’s (Grade II Listed Building NHLE 1346995) settings only (refer to ES Volume 4, Appendix 9.4: Detailed Settings Impact

Document reference	Reason for amendment	ES Amendment September 2025
		Assessment [EN010157/APP/6.4] for a detailed discussion of this). ES Volume 4, Appendix 9.4: Detailed Settings Impact Assessment [EN010157/APP/6.4] confirms that Field D18 is the only part of the Order Limits which lies within that part of the setting of the asset which contributes to the asset's significance. Grassland species only will be planted within Field D18, which in terms of height, density and nature are comparable to the agricultural species currently within Field D18 (refer to ES Volume 3, Figure 3.4: Indicative Environmental Masterplan [EN010157/APP/6.3]). Therefore, the generally rural nature of the setting of Meaux Abbey Farm (Grade II Listed Building NHLE 1103426) would be retained and views between the asset and Field

Document reference	Reason for amendment	ES Amendment September 2025
		D18 would not be obstructed. Thus, the aesthetic and historic interest of the asset that derives from its setting will not be changed, and so this aspect of the asset's significance will not be harmed." Text in paragraph 9.9.39 (now paragraph 9.9.40): "The magnitude of impact to the asset's significance arising from changes to its setting during the operation (including maintenance) phase is therefore assessed as no change." Text in paragraph 9.9.40 (now paragraph 9.9.41): "The magnitude of impact to the assets' significance arising from changes to their settings during the operation (including maintenance) phase is therefore assessed as minor."

Document reference	Reason for amendment	ES Amendment September 2025
		Text in paragraph 9.9.49 (now paragraph 9.9.50): “As the potential physical impacts of the operation (including maintenance) phase of the Proposed Development will not change the archaeological interest of these assets, the magnitude of impact to the assets’ significance arising from changes to their physical remains would be no change during the operation (including maintenance) phase of the Proposed Development.” Text in paragraph 9.9.52 (now paragraph 9.9.53): “As the potential settings impacts of the operation (including maintenance) phase of the Proposed Development will not change the historic interest of these assets, the magnitude of impact to the assets’ significance arising from changes to their settings would be no change”

Document reference	Reason for amendment	ES Amendment September 2025
		during the operation (including maintenance) phase of the Proposed Development.” Text in paragraph 9.9.57 (now 9.9.58): “As the potential physical impacts of the decommissioning phase of the Proposed Development will not change the archaeological interest of these assets, the magnitude of impact to the assets’ significance arising from changes to their physical remains would be no change during the decommissioning phase of the Proposed Development.” Text in paragraph 9.9.60 (now paragraph 9.9.61): “As the potential settings impacts of the Proposed Development will not change the historic interest of these assets, the magnitude of impact to the assets’ significance arising from changes to their

Document reference	Reason for amendment	ES Amendment September 2025
		settings would be no change during the decommissioning phase of the Proposed Development."
ES Volume 2, Chapter 10: Land, Soil and Groundwater [APP-046]	Soil assessments updated in response to Appendix 1 ('Land and Soils Consultant') of the Local Impact Report [REP1-086]	Updates to soil assessment. Resubmitted on 10 September 2025 as: ES Volume 2, Chapter 10: Land, Soil and Groundwater – Rev 2 (tracked) ES Volume 2, Chapter 10: Land, Soil and Groundwater – Rev 2 (clean)
ES Volume 2, Chapter 11: Landscape and Visual [APP-047]	Amendments required to refer to the Illustrative Cross-Section Visualisations [EN010157/APP/8.13] that have been produced and submitted at Deadline 2 in response to Local Impact Report [REP1-086] comment 7.56. Amendments required to include an indication in the summary table as to which viewpoint/s represent each item in response to Local Impact Report [REP1-086] comment 7.57.	New paragraph 11.1.4 added as follows: "This chapter is supported by the following post-submission documents: • Illustrative Cross-Section Visualisations [EN010157/APP/8.13] Text in Table 11-1 amended (at page 9) as follows to set out where

Document reference	Reason for amendment	ES Amendment September 2025
		East Riding of Yorkshire Council Landscape Consultants' request for 'section drawings' has been addressed: "ES Volume 3, Figure 3.1: Operational Layout Plan [EN010157/APP/6.3]" ES Volume 3, Figure 3.4: Indicative Environmental Masterplan [EN010157/APP/6.3] Design Approach Document [EN010157/APP/5.7] Illustrative Cross-Section Visualisations [EN010157/APP/8.13]" New paragraph 11.6.4 added as follows: "Illustrative cross-sections have been prepared presenting the screening benefits of hedgerows at year 1 and year 10 for Meaux Lane (Fields D10 and D11) and

Document reference	Reason for amendment	ES Amendment September 2025
		Monk Dike/ Long Riston footpath no. 2 (Fields B1 and B4). The cross sections are presented in Illustrative Cross-Section Visualisations [EN010157/APP/8.13].” New paragraph 11.9.304 added as follows: “An illustrative cross-section of the Proposed Development has been prepared from Field B1 to Field B4 across Monk Dike/ Long Riston footpath no. 2 and is presented in Illustrative Cross-Section Visualisations [EN010157/APP/8.13].” New paragraph 11.9.422 added as follows: “An illustrative cross-section of the Proposed Development has been prepared from Field D10 to Field D11 across Meaux Lane and is presented in Illustrative Cross-

Document reference	Reason for amendment	ES Amendment September 2025
		Section Visualisations [EN010157/APP/8.13]” Table 11-13 (Viewpoint analysis summary) amended to include a column indicating which receptors different viewpoints represent (table not copied here).
ES Volume 2, Chapter 14: Transport and Access [APP-050]	Collision analysis updated to include 2023 data in response to Local Impact Report [REP1-086] comment 7.75 stating that the personal injury collision assessment is slightly outdated.	Updates to collision analysis. Resubmitted on 10 September 2025 as: ES Volume 2, Chapter 14: Transport and Access – Rev 3 (clean) ES Volume 2, Chapter 14: Transport and Access – Rev 3 (tracked)
ES Volume 2, Chapter 15: Cumulative Effects [APP-051]	It was acknowledged that applications are anticipated for Molescroft Solar Farm (which lies to the north-east of Beverley approximately 2.5km from the Order Limits) and Drove Lane Solar Farm (which lies to the south-east of Beverley, 0km from the Order Limits) and that these projects should be	Molescroft Solar Farm and Drove Lane Solar Farm added as new rows (IDs 22 and 23 respectively) to the following tables (tables not copied here):

Document reference	Reason for amendment	ES Amendment September 2025
	included in the assessment in Chapter 15 [APP-051] as existing and/or approved developments.	- Table 15-3: Short list of other existing and/or approved development. - Table 15-8: Inter-project cumulative effects assessment (construction and decommissioning phases). - Table 15-9: Inter-project cumulative effects assessment during the operation (including maintenance) phase. Resubmitted on 10 September 2025 as: ES Volume 2, Chapter 15: Cumulative Effects – Rev 2 (clean) ES Volume 2, Chapter 15: Cumulative Effects – Rev 2 (tracked)

2.4 Change Request 2

- 2.4.1 **Table 2-4** outlines amendments to ES Volume 1 and 2 documents that have been identified in response to the seven changes to the DCO Application (changes 3 to 9, about which the ExA was notified on 6 August 2025) **[AS-015]** and are submitted to the ExA on 10 September 2025. Certain changes are accompanied by revised versions of the ES Volume 1 and 2 documents. Other changes are reflected in this addendum alone.
- 2.4.2 To the extent that a document forming part of ES Volume 1 and 2 is not included in the table below, this is because there is no change to that document required as a result of the changes to the DCO Application.

Table 2-4 ES Volume 1 and 2 updates - Changes in response to the seven changes to the DCO Application (changes 3 to 9, about which the ExA was notified on 6 August 2025)

Document reference	Reason for amendment	ES Amendment September 2025
ES Volume 1, Chapter 2: Location of the Proposed Development [APP-038]	All changes (excluding Change 7): the area within the updated Order Limits is now approximately 893ha. Change 9: Amendments required to text in relation to veteran trees as the removal of the access track from Meaux Lane to Field D5 means veteran tree T381 is no longer within or adjacent to the Order Limits.	Paragraph 2.1.2: “The Proposed Development comprises an area of approximately 8934 hectares (ha) of land (‘the Site’).” Paragraph 2.5.6: “There are three two veteran trees within or adjacent to the Order Limits.”
ES Volume 1, Chapter 3: Proposed Development Description [APP-039]	Change 3 and Change 9 Updated description of access points added. Updates to the text in relation to veteran trees.	ES Chapter 3 is amended in response to Change 3 and Change 9.

Document reference	Reason for amendment	ES Amendment September 2025
		Resubmitted on 10 September 2025 as: ES Volume 1, Chapter 3: Proposed Development Description – Rev 2 (clean) ES Volume 1, Chapter 3: Proposed Development Description – Rev 2 (tracked)
ES Volume 2, Chapter 7: Biodiversity [REP1-019 and REP1-020]	All changes (excluding Change 7): the area within the updated Order Limits is now approximately 893ha. Change 9: Amendments required to text in relation to veteran trees as the removal of the access track from Meaux Lane to Field D5 means veteran tree T381 is no longer within or adjacent to the Order Limits. While making the above changes, it was noticed that some rows in Table 7-4 referred to the incorrect figures, which requires amendments.	Text in Table 7-1 amended to state the area within the updated Order Limits as “approximately 894³ hectares in total”. Text in Table 7-1 updated as follows in response to Change 9: “The Applicant can confirm that there are 3² No. veteran trees within^{adjacent} to the Order Limits.” Text in Table 7-3 updated as follows in response to Change 9: “There are three^{two} veteran and/or ancient trees within^{adjacent} to the Order Limits,

Document reference	Reason for amendment	ES Amendment September 2025
		specifically along^{at} the access route for Land Areas B D^{and C} (referenced as T428 ^{and} T395,T381)." Text in the 'National Habitat Networks', 'Habitats' and 'Trees' rows of Table 7-4 amended as follows: "Surveys have been undertaken within the Order Limits, as displayed within ES Volume 3, Figure 7.2b^a: Biodiversity Study Areas [EN010157/APP/6.3]."
ES Volume 2, Chapter 9: Cultural Heritage [REP1-021 and REP1-022]	Change 9: Inclusion of one additional Grade II Listed Building in baseline data section.	Text in paragraph 9.5.3 amended as follows: "Within the 5km study area, there are no known World Heritage Sites or Registered Battlefields, 35 Scheduled Monuments, two Grade II Registered Parks and Gardens, 14 Grade I Listed Buildings, 51 Grade II* Listed Buildings, 574³ Grade II Listed Buildings and 26 Conservation Areas."

Document reference	Reason for amendment	ES Amendment September 2025
ES Volume 2, Chapter 10: Land, Soil and Groundwater [APP-046]	Changes 3 and 9: Updates required to Agricultural Land Classification grade percentages for the Site as a result of Changes 3 and 9.	ES Chapter 10 is amended in response to Changes 3 and 9. Resubmitted on 10 September 2025 as: ES Volume 2, Chapter 10: Land, Soil and Groundwater – Rev 3 (tracked) ES Volume 2, Chapter 10: Land, Soil and Groundwater – Rev 3 (clean)
ES Volume 2, Chapter 11: Landscape and Visual [APP-047]	Change 9: Amendments required to consider impacts on users of NCN Route 164 and the A1035.	Text in paragraph 11.9.90 amended to: “The exceptions include is an approximate 1.4km section of the route, shared with the A1035, for eastbound users as they exit Routh within the slightly undulating landscape in this location.” New paragraph 11.9.91 added as follows: “In addition, eastbound users may receive localised views of tree

Document reference	Reason for amendment	ES Amendment September 2025
		removal where this may be required for construction access south off the A1035 for a maximum of 100 m, approximately 1.6 km east of Tickton. The works would be along a private access route to farm properties and views will be limited by existing vegetation along the A1035" Final sentence of paragraph 11.9.90 moved to become paragraph 11.9.92 and amended to: "However, it in both cases it is noted that this section of the route is extremely busy with vehicles travelling at speed, including numerous heavy good vehicles, and as such cyclist's attention is likely to be on the road during this stretch of the NCN Route no.164." Text in paragraph 11.9.91 (now paragraph 11.9.93) amended to:

Document reference	Reason for amendment	ES Amendment September 2025
		“During construction there would be a limited (maximum 1.4km 5km for eastbound users only) stretch of NCN Route no.164 with an overall large/medium scale of change in views.” Paragraph 11.9.157 split into paragraphs 11.9.159 and 11.9.160 and amended as follows: “Generally, all construction works, excluding construction traffic actually using the A1035, would be entirely screened from road users. The exceptions is include an approximate 1.4km section of the road for eastbound users as they exit Routh. The construction works in Field B1 (in Land Area B) would be visible and would be a notable change in the landscape for a localised section of the road. In addition, views of tree removal works along a farm access off the A1035 may be possible. This would be predominantly for

Document reference	Reason for amendment	ES Amendment September 2025
		eastbound users and for a distance of approximately 100m.” “However, it is noted in both cases that this section of the A1035 is extremely busy with vehicles travelling at speed, including numerous heavy good vehicles, and as such driver’s attention is likely to be on the road.” PText in paragraph 11.9.29289 (now 11.9.292) amended to: “The exception is an includes an approximate 1.4km section of the route, shared with the A1035, for eastbound users as they exit Routh, where the landform slightly undulates, and the low-level hedgerow opens to provide views across the adjacent fields to the south.” New paragraph 11.9.293 added as follows:

Document reference	Reason for amendment	ES Amendment September 2025
		“In addition, eastbound users may receive localised views along an approximately 100m section that are more open, following tree removal works relating to farm access off the A1035 approximately 1.6 km east of Tickton. The works would be along a private access route to farm properties and views will be limited by existing vegetation along the A1035.” Final sentence of paragraph 11.9.289 moved to become paragraph 11.9.294 and amended as follows: “However, in both cases, it is noted that this section of the route is extremely busy with vehicles travelling at speed, including numerous heavy good vehicles, and as such cyclist’s attention is likely to be focussed on the road during this stretch of the NCN Route no.164.”

Document reference	Reason for amendment	ES Amendment September 2025
		Text in paragraph 11.9.290 (now paragraph 11.9.295) amended to: “The sensitivity of this receptor group has been assessed to be high/medium. In year 1 of operation there would be a limited (maximum 1.4km 5km overall for eastbound users only) stretch of NCN Route no.164 with a large/medium scale of change in views.” New paragraph 11.9.298 added as follows: “By year 10 of operation, mitigation planting along the former construction farm access off the A1035 would be more established, and the effect on views would be negligible adverse and not significant.” Text in paragraph 11.9.388 (now paragraph 11.9.395) amended to:

Document reference	Reason for amendment	ES Amendment September 2025
		"The exceptions include is an approximate 1.4km section of the road, for eastbound users as they exit Routh. In this section road users would see new solar PV development in Field B1 (in Land Area B), and it would be a notable change in the landscape for a localised section of the road. New paragraph 11.9.396 added as follows: "In addition, eastbound users may receive localised views along an approximately 100m section that are more open, following tree removal works relating to farm access off the A1035, approximately 1.6 km east of Tickton. The works would be along a private access route to farm properties and views will be limited by existing vegetation along the A1035."

Document reference	Reason for amendment	ES Amendment September 2025
		Final sentence of paragraph 11.9.388 moved to become paragraph 11.9.397 and amended as follows: “However, in both cases it is noted that this section of the A1035 is extremely busy with vehicles travelling at speed, including numerous heavy good vehicles, and as such driver’s attention is likely to be focussed on the road.” Paragraph 11.9.389 (now paragraph 11.9.398) amended to: “The sensitivity of this receptor group has been assessed to be low. In year 1 of operation there would be a localised stretch of the A1035 (predominantly for eastbound users only) with an overall large/medium scale of change in views. This would be experienced over a medium term duration and would result in a moderate/slight magnitude of effect.”

Document reference	Reason for amendment	ES Amendment September 2025
		Paragraph 11.9.390 (now paragraph 11.9.399) amended to: “Therefore, in year 1 of operation, there would be a minor adverse effect on views for road users from a localised stretches of the A1035, which is considered to be not significant.” New paragraph 11.9.401 added as follows: “By year 10 of operation, mitigation planting along the former construction farm access off the A1035 would be more established, and the effect on views would be negligible adverse and not significant.”
ES Volume 2, Chapter 12: Noise and Vibration [APP-048]	Change 9: Update to construction traffic assessment to cover new farm access off the A1035 and commentary regarding the localised, short-term impact from the works to facilitate this route (hedgerow clearance for visibility splays etc.)	ES Chapter 12 updated in response to Change 9. Resubmitted on 10 September 2025 as: ES Volume 2, Chapter 12: Noise and Vibration – Rev 2 (clean)

Document reference	Reason for amendment	ES Amendment September 2025
		ES Volume 2, Chapter 12: Noise and Vibration – Rev 2 (tracked)
ES Volume 2, Chapter 13: Population [APP-049]	Change 7: Amendments required to reflect the fact that footpath RISTF01 may require temporary closure as a result of Change 7. Change 8: Amendments required to the stated length of footpath WOODF04 to match the Outline Rights of Way and Access Management Plan as a result of Change 8.	Bullet point added as follows in paragraph 13.7.1 as a result of Change 7: “RISTF01 (public footpath) – approximately 200m will be temporarily closed at any one time.” Paragraphs 13.9.1 and 13.9.2 amended as follows as a result of Change 7: “TwoThree public footpaths (RISTF01, RISTF02 and WAWNF01) run through the Order Limits and that may be crossed by construction vehicle tracks. However, no temporary diversions, closures or restrictions will be required for these threetwo footpaths. 143 public footpaths and bridleways (BEVEF23, SKIDB07,

Document reference	Reason for amendment	ES Amendment September 2025
		SKIDF10, SKIDF11, SKIDF12, SKIDF17, TICKB05, TICKF09, TICKF12, WOODF04, WOODF09, WOODF12, WOODF18, RISTF01) run through the Order Limits cable grid-connection route and that may be crossed by construction vehicle routes. There are no suitable routes for temporary diversions and therefore any temporary closures or restrictions will be required for a short duration to enable construction works but aim to remain open with control measures in place as much as is safely possible.” Bullet point amended as follows in paragraph 13.7.1 as a result of Change 8: “WOODF04 (public footpath) - approximately 408680m”.
ES Volume 2, Chapter 14: Transport and Access [APP-050]	Updates to assessments based on Changes 3 and 9.	ES Chapter 14 updated in response to Changes 3 and 9.

Document reference	Reason for amendment	ES Amendment September 2025
	Updates to text throughout the document to reflect the changes, which are summarised as follows: • Making reference to the new access junction on the A165 White Cross Road (Change 3) • Scoping the new farm access off the A0135 (Change 9) into the assessment during the operational (including maintenance) phase. • Updating text on Large Loads and construction vehicle movements as a result of Change 9.	Resubmitted on 10 September 2025 as: ES Volume 2, Chapter 14: Transport and Access – Rev 3 (clean) ES Volume 2, Chapter 14: Transport and Access – Rev 3 (tracked)
ES Volume 2, Chapter 15: Cumulative Effects [APP-051]	Change 9: Field House Farm identified as a receptor to be included in “Table 15-4: Screening of the interaction between common sensitive receptors and potential residual effect: construction and decommissioning phases” for Noise and Vibration.	Field House Farm added to Table 15-4 as a receptor for Noise and Vibration. No intra-project cumulative effects identified and therefore receptor not taken forward to stage 2. Resubmitted on 10 September 2025 as:

Document reference	Reason for amendment	ES Amendment September 2025
		ES Volume 2, Chapter 15: Cumulative Effects – Rev 3 (clean) ES Volume 2, Chapter 15: Cumulative Effects – Rev 3 (tracked)

2.5 Deadline 3

- 2.5.1 **Table 2-5** outlines amendments to ES Volume 1 and 2 documents that have been identified in response to Deadline 2 submissions, Written Representations submitted at Deadline 2 **[REP2-153 – REP-157]**, and/or the ExA's Second Written Questions **[PD-014]** and are submitted to the ExA on 6 October 2025. Certain changes are accompanied by revised versions of the ES Volume 1 and 2 documents. Other changes are reflected in this addendum alone.
- 2.5.2 To the extent that a document forming part of ES Volume 1 and 2 is not included in the table below, this is because there is no change to that document required as a result of the changes to the DCO Application.

Table 2-5 ES Volume 1 and 2 updates - Changes in response to Deadline 2 submissions, written representations submitted at Deadline 2 and the ExA's Second Written Questions

Document reference	Reason for amendment	ES Amendment October 2025
ES Volume 2, Chapter 14: Transport and Access [REP2-081]	Amendment required in response the ExA's Second Written Questions (2.13.8) as to whether Link No. 7 in paragraph 3 of Table 14-26 should refer to the 'private farm track' rather than 'Carr Lane'.	Text for Link No. 7 in Table 14-26 has been amended as follows: "The absolute increases of daily total vehicles and HGVs on Carr Lane the private farm track are not anticipated to be substantial enough to impact on non-motorised user amenity."

2.6 Deadline 4

- 2.6.1 **Table 2-6** outlines amendments to ES Volume 1 and 2 documents that have been identified in response to Deadline 3 submissions, examination hearing action points, and other submissions, and are submitted to the ExA on 31 October 2025. Certain changes are accompanied by revised versions of the ES Volume 1 and 2 documents. Other changes are reflected in this addendum alone.
- 2.6.2 To the extent that a document forming part of ES Volume 1 and 2 is not included in the table below, this is because there is no change to that document required for Deadline 4.

Table 2-6 ES Volume 1 and 2 updates - Changes in response to Deadline 3 submissions, examination hearing action points, and other submissions

Document reference	Reason for amendment	ES Amendment October 2025
ES Volume 1, Chapter 3: Proposed Development Description [REP2-075]	It was noticed that paragraphs 3.6.23 and 3.6.24 incorrectly stated 17 temporary construction compounds (seven main compounds and ten 'satellite' compounds) instead of 19 (seven main compounds and 12 'satellite' compounds).	Paragraphs 3.6.23 and 3.6.24 are updated to state the correct number of temporary construction compounds. Resubmitted on 31 October 2025 as: ES Volume 1, Chapter 3: Proposed Development Description (clean) Revision 3 ES Volume 1, Chapter 3: Proposed Development Description (tracked) Revision 3
ES Volume 2, Chapter 9: Cultural Heritage [REP1-021]	Amendments required in response to action 7 of the Action Points from Issue Specific Hearing 2 (ISH2) [EV6-009] to clarify proposals for hedgerow planting between the site of Meaux Cistercian Abbey scheduled monument and the proposed solar array, The Applicant acknowledges that ES Volume 3, Figure 3.4: Indicative Environmental Masterplan [REP2-091] shows new hedgerow	Chapter 9 is amended to reflect the fact that the proposed new hedgerow at the northern boundary of Land Area F is only in Field E6, and not in Fields F1, F4 and F5. The relevant row in Table 9-7 is amended as follows.

Document reference	Reason for amendment	ES Amendment October 2025
	is proposed in Field F6 only, whereas Table 9-7 of ES Volume 2, Chapter 9: Cultural Heritage [REP1-021] incorrectly states that the new hedgerow will be established along the northern edge of Land Area F in Fields F1, F4, F5 and F6. This does not affect the conclusions of the assessment, as explained in more detail in the Summary of Applicant's Oral Submissions at the Issue Specific Hearing 2 (ISH2) [EN010157/APP/8.21], which is submitted at Deadline 4.	'Embedded mitigation measure relevant to cultural heritage' column is amended to: "A new hedgerow will be established in the northern part of Fields F1, F4, F5 and F6, creating additional screening between Meaux Abbey Scheduled Monument and the Proposed Development." 'Function' column is amended to: "This measure will contribute to protecting the current setting of the heritage asset." 'Securing mechanism column' is amended to: "Outline Landscape and Ecological management Plan [EN010157/APP/7.5]" Paragraph 9.9.36 is amended to: "The embedded mitigation presented in Table 9.7 includes the establishment of an offset from solar PV development of 100m to the south of Site of Meaux Cistercian Abbey

Document reference	Reason for amendment	ES Amendment October 2025
		(Scheduled Monument NHLE 1007843) and hedgerow creation in the northern part of Fields F4–F6 (ES Volume 3, Figure 3.4: Indicative Environmental Masterplan [EN010157/APP/6.3]). It is considered that the existing hedgerows would create a sufficient screening effect in the winter as well as in the summer. Nonetheless, the inclusion of The existing hedgerows in combination with the two the embedded mitigation measures 100m offset would ensure that impacts to the asset's setting were avoided during the winter as well as summer months, because the flat landscape surrounding the asset (including Land Area F) causes distance (such as the embedded mitigation of the 100m offset) to compound the screening effects of existing hedgerows create a screening effect in the winter which is comparable to that

Document reference	Reason for amendment	ES Amendment October 2025
		noted during the summer, and thus sufficient to avoid impacts to the asset's setting during the winter as well as summer months."
ES Volume 2, Chapter 11: Landscape and Visual [APP-047]	Amendments required following discussions with East Riding of Yorkshire Council's landscape consultants resulting from item 5 from Issue Specific Hearing 2 (ISH2) [EV6-002]. It was agreed that further hedgerow planting would be added along the eastern boundary of Field E1 and western boundary of Field E2 (see item ERYC34 in the Draft Statement of Common Ground with East Riding of Yorkshire Council [EN010157/APP/9.2 Revision 4]). In making amendments to Table 11-10, it was noticed that the entry in relation to Field E17 was inaccurate and required updating as it reflected an outdated layout. It was also noticed that 'Woodhouse' should be added as a receptor to the entry in relation to Fields D15 and D16 as it had been omitted in error.	Table 11-10 is amended as follows. <u>New row added on Fields E1 and E2.</u> 'Embedded mitigation measure relevant to landscape and visual amenity' column: "New hedgerow planting along the eastern boundary of Field E1 and western boundary of Field E2 (in Land Area E)." 'Function' column: "To soften views and provide screening of views from the proposed permissive path between Fields E1 and E2 (in Land Area E); and to soften views for residents of Meaux Decoy Farm and Woodhouse as they approach their properties."

Document reference	Reason for amendment	ES Amendment October 2025
		Securing mechanism column: “Outline LEMP [EN010157/APP/7.5]” <u>Row on Field E17 amended.</u> ‘Embedded mitigation measure relevant to landscape and visual amenity’ column amended to: “New section of hedgerow planting to join existing hedgerow along north of Fields E15 and E17, northwest of solar PV modules (and east of access track) in Field E17 (in Land Area E).” ‘Function’ column amended to: “To soften views and provide screening from the The Homestead, Weel and the River Hull (including embankment footpaths) access track to the north of these fields.

Document reference	Reason for amendment	ES Amendment October 2025
		Link with existing mature trees and provide green infrastructure enhancements.” <u>Row on Fields D15 and D1 amended.</u> ‘Function’ column amended to: “To soften views and provide screening of views from Meaux Decoy Farm, Woodhouse and the proposed permissive footpath along the edges of these fields. To soften the visual impact of the proposed Project Substation West.”
ES Volume 2, Chapter 13: Population [APP-049]	Amendments required as a result of agenda item 2 from Issue Specific Hearing 1 (ISH1) [EV4-001] , to clarify that Riston Footpath No.2 (RISTF02) and Wawne Footpath No.1 (WAWNF01) would require temporary closure or restriction during the construction of the Proposed Development.	Paragraph 13.9.1 removed and paragraph 13.9.2 updated in relation to the assessment of RISTF02 and WAWNF01. Resubmitted on 31 October 2025 as: ES Volume 2, Chapter 13: Population (clean) Revision 2 ES Volume 2, Chapter 13: Population (tracked) Revision 2

Document reference	Reason for amendment	ES Amendment October 2025
ES Volume 2, Chapter 14: Transport and Access [REP2-081]	Amendments required in response to agenda item 8 of Issue Specific Hearing 2 [EV6-002] regarding clarification of maintenance access to Fields E15 to E17, including for any replacement infrastructure, and potential for effects. Clarification was also requested regarding the number of HGV movements required for construction along the cable route.	Table 14-3 updated to scope out HGV movements along Carr Lane (Weel) during all phased of the Proposed Development. Updates made throughout the chapter to clarify the correct number of HGV movements for the grid connection cable route (10 vehicles and therefore 20 vehicle movements per day). Resubmitted on 31 October 2025 as: ES Volume 2, Chapter 14: Transport and Access (clean) Revision 4 ES Volume 2, Chapter 14: Transport and Access (tracked) Revision 4
ES Volume 2, Chapter 15: Cumulative Effects [REP2-083]	Amendments required as a result of a request from the Compulsory Acquisition Hearing 1 (CAH1) [EV5-004] to clarify discrepancies for entry 10 of Table 15-8 which suggests a potential overlap in construction programmes for the Proposed Development and Field	Table 15-8 is updated as follows. ‘Transport and Access’ column of entry 10 in Table 15-8 is amended as follows to reflect potential overlap in construction

Document reference	Reason for amendment	ES Amendment October 2025
	House Solar Farm in the Landscape and Visual column but no such overlap in the Transport and Access column. Amendments required to entry 12 in Table 15-8 to update the number of HGV movements for the Proposed Development for construction of the grid connection cable route, which was noticed while resolving action 1 from the Action Points from Issue Specific Hearing 2 (ISH2) [EV6-009]. It was also noticed that amendments were required to entry 14 in Table 15-8 to consider the private farm track off the A1035 as a result of Change 9 (see the Second notification of proposed changes to the DCO Application [AS-015]) which had not previously been considered.	programmes for the two developments: “Based on the Construction Traffic Management Plan and Design Stage CEMP, it is not expected that the other existing and/or approved development’s construction phase would overlap with the Proposed Development construction phase.” The development is predicted to generate a maximum of 20 daily HGV movements on the A165 and A1035, and 40 HGV movements on the private farm track off the A1035. The other existing and/or approved development’s daily HGV movements is considered to be negligible. Therefore, it is not expected there would be a significant effect on construction transport and access as a result of the other existing and/or approved development and the Proposed Development. Therefore, it is not expected there would be a significant effect on construction

Document reference	Reason for amendment	ES Amendment October 2025
		transport and access as a result of the other existing and/or approved development and the Proposed Development.” Text in ‘Transport and Access’ column of entry 12 in Table 15-8 is amended to: “The Proposed Development is only anticipated to generate 240 daily HGV and 240 daily LGV movements on Long Lane and A1174 Hull Road.” Text in ‘Transport and Access’ column of entry 14 in Table 15-8 is amended to: “The development is predicted to generate a maximum of 15 daily HGV movements on the A165 and A1035, and 30 HGV movements on the private farm track off the A1035. The Transport and Access Chapter does not anticipate any significant effects on the A165, or A1035 or the private farm track off the A1035. The other existing and/or approved development’s

Document reference	Reason for amendment	ES Amendment October 2025
		15 —daily HGV movements is considered to be negligible. Therefore, it is not expected there would be a significant effect on construction transport and access as a result of the other existing and/or approved development and the Proposed Development.”

2.7 Change Request 3

- 2.7.1 **Table 2-7** outlines amendments to ES Volume 1 and 2 documents that have been identified in response to the four changes to the DCO Application (changes 10 to 13, about which the ExA was notified on 23 September 2025 **[AS-017]**) and are submitted to the ExA on 31 October 2025. Certain changes are accompanied by revised versions of the ES Volume 1 and 2 documents. Other changes are reflected in this addendum alone.
- 2.7.2 To the extent that a document forming part of ES Volume 1 and 2 is not included in the table below, this is because there is no change to that document required as a result of the changes to the DCO Application.

Table 2-7 ES Volume 1 and 2 updates - Changes in response to the four changes to the DCO Application (changes 10 to 13, about which the ExA was notified on 23 September 2025)

Document reference	Reason for amendment	ES Amendment October 2025
ES Volume 1, Chapter 3: Proposed Development Description [EN010157/APP/6.1 Revision 3]	Changes 10-12: Amendments required to reflect the changes to permissive path routes. Change 13: Amendments required to reflect the inclusion of mitigation area fencing to separate paths from mitigation areas where necessary.	Description of permissive paths updated in paragraph 3.5.64 and add new paragraph 3.5.65. Description of mitigation area fencing added as new paragraph 3.5.48 and in Table 3-5. Resubmitted on 31 October 2025 as: ES Volume 1, Chapter 3: Proposed Development Description (clean) Revision 4 ES Volume 1, Chapter 3: Proposed Development Description (tracked) Revision 4
ES Volume 2, Chapter 7: Biodiversity [REP1-019]	Changes 10-13: Amendments required to update the hectarage of mitigation and enhancement areas to reflect the changes to permissive path routes, the inclusion of mitigation area fencing, and Field C8 and the northern part of Field B8 no longer being under consideration as community access	Updates made to hectarage of mitigation and enhancement areas in ES Chapter 7. Resubmitted on 31 October 2025 as:

Document reference	Reason for amendment	ES Amendment October 2025
	land, while Field F17 remains under consideration as community access land but is considered as ecological enhancement (rather than mitigation) land.	ES Volume 2, Chapter 7: Biodiversity (clean) Revision 3 ES Volume 2, Chapter 7: Biodiversity (tracked) Revision 3
ES Volume 2, Chapter 11: Landscape and Visual [APP-047]	Change 12: Amendments required to reflect the change to proposed hedgerow planting as a result of the proposed amendment to the permissive path route through Fields D16/D17.	The row relating to Field D17 in Table 11-10 is updated as follows. 'Embedded mitigation measure relevant to landscape and visual amenity' column amended to: " New hedgerow planting with occasional trees along the western boundary and infill hedge planting to the southern boundary of Field D17 (in Land Area D)." 'Function' column amended to: "To soften views and provide screening of views from the proposed permissive footpath along the western and southern boundary of this field."
ES Volume 2, Chapter 13: Population [EN010157/APP/6.4 Revision 2]	Changes 10-13: Amendments required to reflect the changes to permissive path routes and the inclusion of mitigation area fencing.	Description of permissive paths and total length of permissive path

Document reference	Reason for amendment	ES Amendment October 2025
		network updated in paragraphs 13.7.28, 13.9.23 and 13.10.1. Resubmitted on 31 October 2025 as: ES Volume 2, Chapter 13: Population (clean) Revision 3 ES Volume 2, Chapter 13: Population (tracked) Revision 3

2.8 Deadline 5

- 2.8.1 **Table 2-8** outlines amendments to ES Volume 2 documents that have been identified in response to Deadline 4 submissions **[REP4-079 to REP4-087]**, the Examining Authority's Third Written Questions **[PD-019]**, and other submissions and are submitted to the ExA on 28 November 2025.
- 2.8.2 To the extent that a document forming part of ES Volume 2 is not included in the table below, this is because there is no change to that document required for Deadline 5.

Table 2-8 ES Volume 2 updates - Changes in response to Deadline 4 submissions, the Examining Authority's Third Written Questions, and other submissions

Document reference	Reason for amendment	ES Amendment November 2025
ES Volume 2, Chapter 11: Landscape and Visual [APP-047]	Amendments required to reflect the inclusion of additional new hedgerow planting between permissive path and the solar PV modules at the southern extent of Field D17 following discussions with East Riding of Yorkshire Council's landscape consultants.	The row relating to Field D17 in Table 11-10 is updated to reflect the proposed new hedgerow planting. Resubmitted on 28 November 2025 as: ES Volume 2, Chapter 11: Landscape and Visual (clean) Revision 2 ES Volume 2, Chapter 11: Landscape and Visual (tracked) Revision 2
ES Volume 2, Chapter 14: Transport and Access [APP-047]	Amendments required following receipt of the Examining Authority's Written Questions 3 (ExQ3) [PD-019]	Updates made to clarify Strategic Road Network inclusion in the study area. Resubmitted on 28 November 2025 as: ES Volume 2, Chapter 14: Transport and Access (clean) Revision 5

Document reference	Reason for amendment	ES Amendment November 2025
		ES Volume 2, Chapter 14: Transport and Access (tracked) Revision 5
ES Volume 2, Chapter 15: Cumulative Effects [APP-047]	Amendments required following receipt of the Examining Authority's Written Questions 3 (ExQ3) [PD-019]	Updates made to reinstate the assessment of footpath RISTF02 and clarification on how footpath WAWNF01 is referred to within the chapter. Resubmitted on 28 November 2025 as: ES Volume 2, Chapter 15: Cumulative Effects (clean) Revision 4 ES Volume 2, Chapter 15: Cumulative Effects (tracked) Revision 4

3 Environmental Statement Volume 3 Updates

3.1 Change Request 1 and Response to Section 51 Advice - submission July 2025

- 3.1.1 **Table 3-1** outlines amendments to ES Volume 3 figures that have been identified since submission of the DCO application in response to the ExA's Section 51 advice **[PD-003]** and/or two minor corrections to the DCO Application (change/correction 1 and 2) **[AS-004]** and are submitted to the ExA at Procedural Deadline A (8 July 2025).
- 3.1.2 To the extent that a document forming part of ES Volume 3 is not included in the table below, this is because there is no change to that document as a result of the July 2025 Change Request and Response to Section 51 Advice.

Table 3-1 - ES Figures updates - Change Request 1 and Response to s51 Advice July 2025

Document reference	Reason for amendment	ES Amendment July 2025
ES Volume 3, Figure 1.1: Order Limits and Administrative Boundaries [APP-052]	Figure 1.1 requires amendment to reflect the removal of plots 10-4, 10-5 and 10-6 as part of change/correction 2.	Due to the minor nature of the amendments resulting from change/correction 1 and 2, the Applicant will submit updated versions of these Figures at Deadline 5.
ES Volume 3, Figure 1.2: Land Areas and Cable Routes Plan with Field Numbering System [APP-053]	Figure 1.2 requires amendment to reflect the removal of a section of solar array from Land Area B as part of change/correction 1.	

Document reference	Reason for amendment	ES Amendment July 2025
	Figure 1.2 also requires amendment to reflect the removal of plots 10-4, 10-5 and 10-6 as part of change/correction 2.	
ES Volume 3, Figure 2.1: Environmental Features Plan [APP-054]	Figure 2.1 requires amendment to reflect the removal of plots 10-4, 10-5 and 10-6 as part of change/correction 2.	
ES Volume 3, Figure 3.1: Indicative Operational Layout Plan [APP-055]	Figure 3.1 requires amendment to reflect the removal of a section of solar array from Land Area B as part of change/correction 1. Figure 3.1 also requires amendment to reflect the removal of plots 10-4, 10-5 and 10-6 as part of change/correction 2.	
ES Volume 3, Figure 3.2: Heights Parameters Zonal Plan [APP-056]	Figure 3.2 requires amendment to reflect the removal of a section of solar array from Land Area B as part of change/correction 1. Figure 3.2 also requires amendment to reflect the removal of plots 10-4, 10-5 and 10-6 as part of change/correction 2.	
ES Volume 3, Figure 3.3: Indicative HDD Crossing Points [APP-057]	Figure 3.3 requires amendment to reflect the removal of plots 10-4, 10-5 and 10-6 as part of change/correction 2.	
ES Volume 3, Figure 3.4: Indicative Environmental Masterplan [APP-058]	Figure 3.4 requires amendment to reflect the removal of a section of solar array from Land Area B as part of change/correction 1.	

Document reference	Reason for amendment	ES Amendment July 2025
	Figure 3.4 also requires amendment to reflect the removal of plots 10-4, 10-5 and 10-6 as part of change/correction 2.	
ES Volume 3, Figure 3.5: Indicative Construction Layout Plan [APP-059]	Figure 3.5 requires amendment to reflect the removal of plots 10-4, 10-5 and 10-6 as part of change/correction 2.	
ES Volume 3, Figure 3.6: Indicative Culvert Crossing Points [APP-060]	Figure 3.6 requires amendment to reflect the removal of plots 10-4, 10-5 and 10-6 as part of change/correction 2.	
ES Volume 3, Figure 6.1: Demolition (During Decommissioning Phase)/ Earthworks/ Construction Activities Study Areas [APP-063]	Figure 6.1 requires amendment to reflect the removal of plots 10-4, 10-5 and 10-6 as part of change/correction 2.	
ES Volume 3, Figure 6.2: Trackout Activities Study Areas [APP-064]	Figure 6.2 requires amendment to reflect the removal of plots 10-4, 10-5 and 10-6 as part of change/correction 2.	
ES Volume 3, Figure 7.1: Designated Sites and Ecological Mitigation and Enhancement Areas [APP-065]	Figure 7.1 requires amendment to reflect the removal of plots 10-4, 10-5 and 10-6 as part of change/correction 2.	
ES Volume 3, Figure 7.2: Biodiversity Study Areas [APP-066]	Figure 7.2 requires amendment to reflect the removal of plots 10-4, 10-5 and 10-6 as part of change/correction 2.	
ES Volume 3, Figure 9.1: Cultural Heritage Study Areas [APP-067]	Figure 9.1 requires amendment to reflect the removal of plots 10-4, 10-5 and 10-6 as part of change/correction 2.	

Document reference	Reason for amendment	ES Amendment July 2025
ES Volume 3, Figure 9.2: Assessed Designated Heritage Assets [APP-068]	Figure 9.2 requires amendment to reflect the removal of plots 10-4, 10-5 and 10-6 as part of change/correction 2.	
ES Volume 3, Figure 9.3: Assessed Non-Designated Heritage Assets [APP-069]	Figure 9.3 requires amendment to reflect the removal of plots 10-4, 10-5 and 10-6 as part of change/correction 2.	
ES Volume 3, Figure 10.1: Study Areas and Key Features for Land, Soil and Groundwater [APP-070]	Figure 10.1 requires amendment to reflect the removal of plots 10-4, 10-5 and 10-6 as part of change/correction 2.	
ES Volume 3, Figure 10.2: ALC Blocks overlaid Land Areas [APP-071]	Figure 10.2 requires amendment to reflect the removal of plots 10-4, 10-5 and 10-6 as part of change/correction 2.	
ES Volume 3, Figure 11.1: Landscape Study Area, Context, Designations and Access [APP-072]	Figure 11.1 requires amendment to reflect the removal of plots 10-4, 10-5 and 10-6 as part of change/correction 2. Figure 11.1 also requires amendment to reflect the removal of a section of solar array from Land Area B as part of change/correction 1.	
ES Volume 3, Figure 11.2: Solar PV Modules ZTV [APP-073]	Figure 11.2 requires amendment to reflect the removal of a section of solar array from Land Area B as part of change/correction 1. Figure 11.2 also requires amendment to reflect the removal of plots 10-4, 10-5 and 10-6 as part of change/correction 2.

ES Volume 3, Figure 15.1: Other Existing and/or Approved Development [APP-093]	Figure 15.1 requires amendment to reflect the removal of plots 10-4, 10-5 and 10-6 as part of change/correction 2.	

3.2 Deadline 1

- 3.2.1 **Table 3-2** outlines amendments to ES Volume 3 figures that have been identified as a result of responses to the Relevant Representations **[RR-001 – RR-051]**, the ExA's First Written Questions **[PD-008]**, and/or other engagement with relevant stakeholders and are submitted to the ExA at Deadline 1 (27 August 2025).
- 3.2.2 To the extent that a document forming part of ES Volume 3 is not included in the table below, this is because there is no change to that document required for Deadline 1.

Table 3-2 ES Volume 3 updates – Response to Relevant Representations and the ExA's First Written Questions

Document reference	Reason for amendment	ES Amendment August 2025
ES Volume 3, Figure 2.1: Environmental Features Plan [APP-054]	Response to the ExA's First Written Questions [PD-008] (1.3.9).	Figure 2.1 is amended to show the extents of Local Wildlife Sites (LWS) within or adjacent to the Order Limits. Resubmitted on 27 August 2025 as: ES Volume 3, Figure 2.1: Environmental Features Plan – Rev 2
ES Volume 3, Figure 3.4: Indicative Environmental Masterplan [APP-058]	Response to the ExA's First Written Questions [PD-008] (1.13.3).	Figure 3.4 is amended so that internal access tracks shown on plan (currently grey) match the key (currently brown). Due to the minor nature of the amendments resulting from Written Question 1.13.3, the Applicant will submit an updated version of Figure 3.4 at Deadline 5.
ES Volume 3, Figure 7.1: Designated Sites and Ecological	Response to the ExA's First Written	Figure 7.1 is amended to show the extents of Local Wildlife Sites (LWS) within or adjacent to the Order Limits. It is also amended to address discrepancies in the hectareage stated

Document reference	Reason for amendment	ES Amendment August 2025
Mitigation and Enhancement Areas [APP-065]	Questions [PD-008] (1.3.9). Points raised during engagement with Natural England regarding discrepancies in the hectarage of ecological mitigation and enhancement areas.	for ecological mitigation and enhancement areas in ES Figure 7.1 [APP-065] compared with the Outline LEMP [PDA-018]. Resubmitted on 27 August 2025 as: ES Volume 3, Figure 7.1: Designated Sites and Ecological Mitigation and Enhancement Areas – Rev 2
ES Volume 3, Figure 14.2: Transport Routing and the Existing Highway Network [APP-090]	Response to the ExA's First Written Questions [PD-008] (1.13.6).	Figure 14.2 is amended to show connections between proposed Heavy Goods Vehicle (HGV) routes and with the wider road network, including the Strategic Road Network, more clearly. Resubmitted on 27 August 2025 as: ES Volume 3, Figure 14.2: Transport Routing and the Existing Highway Network – Rev 2

3.3 Deadline 2

- 3.3.1 **Table 3-3** outlines amendments to ES Volume 3 documents that have been identified in response to East Riding of Yorkshire Council's **Local Impact Report [REP1-086]**, the Written Representations and Responses to the Examining Authority's first written questions **[REP1-087]** to **[REP1-105]**, and/or other engagement with relevant stakeholders and are submitted to the ExA at Deadline 2 (10 September 2025).
- 3.3.2 To the extent that a document forming part of ES Volume 3 is not included in the table below, this is because there is no change to that document required for Deadline 2.

Table 3-3 ES Volume 3 updates - Response to East Riding of Yorkshire Council's Local Impact Report, Written Representations and Responses to the ExA's First Written Questions.

Document reference	Reason for amendment	ES Amendment September 2025
ES Volume 3, Figure 15.1: Other Existing and or Approved Development [APP-093]	Addition of Molescroft Solar Farm and Drove Lane Solar Farm to the list of other existing and/or approved developments as requested by East Riding of Yorkshire Council and Weel Solar Action Group respectively.	Figure amended to include Molescroft Solar Farm (ID 22) and Drove Lane Solar Farm (ID 23). Resubmitted at Deadline 2 as: ES Volume 3, Figure 15.1: Other Existing and or Approved Development – Rev 2

3.4 Change Request 2

- 3.4.1 **Table 3-4** outlines amendments to ES Volume 3 documents that have been identified in response to the seven changes to the DCO Application (changes 3 to 9, about which the ExA was notified on 6 August 2025) **[AS-015]** and are submitted to the ExA on 10 September 2025. Certain changes are accompanied by revised versions of the ES Volume 1 and 2 documents. Other changes are reflected in this addendum alone.
- 3.4.2 To the extent that a document forming part of ES Volume 3 is not included in the table below, this is because there is no change to that document required as a result of the changes to the DCO Application.

Table 3-4 ES Volume 3 updates - Changes in response to the seven changes to the DCO Application (changes 3 to 9, about which the ExA was notified on 6 August 2025)

Document reference	Reason for amendment	ES Amendment September 2025
ES Volume 3, Figure 1.1: Order Limits and Administrative Boundaries [APP-052]	All changes to the DCO Application (excluding change 7) have meant that an update to the Order Limits is required.	Figure 1.1 is amended to show the proposed Order Limits following the change application in respect of changes 3, 4, 5, 6, 8 and 9. Resubmitted on 10 September 2025 as: ES Volume 3, Figure 1.1: Order Limits and Administrative Boundaries – Rev 2
ES Volume 3, Figure 1.2: Land Areas and Cable Routes Plan with Field Numbering System [APP-053]	All changes to the DCO Application (excluding change 7) have meant that an update to the Order Limits is required.	Figure 1.2 is amended to show the proposed Order Limits following the change application in respect of changes 3, 4, 5, 6, 8 and 9.

Document reference	Reason for amendment	ES Amendment September 2025
		Resubmitted on 10 September 2025 as: ES Volume 3, Figure 1.2: Land Areas and Cable Routes Plan with Field Numbering System – Rev 2
ES Volume 3, Figure 2.1: Environmental Features Plan [REP1-019 and REP1-020]	All changes to the DCO Application (excluding change 7) have meant that an update to the Order Limits is required. For change 9, sheet 2a has been added.	Figure 2.1 is amended to show the proposed Order Limits following the change application in respect of changes 3, 4, 5, 6, 8 and 9. Resubmitted on 10 September 2025 as: ES Volume 3, Figure 2.1: Environmental Features Plan – Rev 3
ES Volume 3, Figure 3.1: Indicative Operational Layout Plan [APP-055]	All changes to the DCO Application (excluding change 7) have meant that an update to the Order Limits is required. Change 7: Amendments required to show the updated layout.	Figure 3.1 is amended to show the proposed Order Limits following the change application in respect of changes 3, 4, 5, 6, 8 and 9. New layout shown for Change 7. Resubmitted on 10 September 2025 as: ES Volume 3, Figure 3.1: Indicative Operational Layout Plan – Rev 2
ES Volume 3, Figure 3.2: Heights Parameters Zonal Plan [APP-056]	All changes to the DCO Application (excluding change 7) have meant that an update to the Order Limits is required.	Figure 3.2 is amended to show the proposed Order Limits following the change application in respect of changes 3, 4, 5, 6, 8 and 9. Resubmitted on 10 September 2025 as:

Document reference	Reason for amendment	ES Amendment September 2025
		ES Volume 3, Figure 3.2: Heights Parameters Zonal Plan – Rev 2
ES Volume 3, Figure 3.3: Indicative HDD Crossing Points [APP-057]	All changes to the DCO Application (excluding change 7) have meant that an update to the Order Limits is required.	Figure 3.3 is amended to show the proposed Order Limits following the change application in respect of changes 3, 4, 5, 6, 8 and 9. Resubmitted on 10 September 2025 as: ES Volume 3, Figure 3.3: Indicative HDD Crossing Points – Rev 2
ES Volume 3, Figure 3.4: Indicative Environmental Masterplan [APP-058]	All changes to the DCO Application (excluding change 7) have meant that an update to the Order Limits is required. For change 7, a new layout, comprising an access track/crossing has been provided. For change 9, sheet 2a has been added.	Figure 3.4 is amended to show the proposed Order Limits following the change application in respect of changes 3, 4, 5, 6, 8 and 9. The layout is amended for change 7. Sheet 2a is added for change 9. Resubmitted on 10 September 2025 as: ES Volume 3, Figure 3.4: Indicative Environmental Masterplan – Rev 2
ES Volume 3, Figure 3.5: Indicative Construction Layout Plan [APP-059]	All changes to the DCO Application (excluding change 7) have meant that an update to the Order Limits is required.	Figure 3.5 is amended to show the proposed Order Limits following the change application in respect of changes 3, 4, 5, 6, 8 and 9.

Document reference	Reason for amendment	ES Amendment September 2025
	For change 3 and change 9 construction access points have been updated.	Construction access points are amended for change 3 and change 9. Resubmitted on 10 September 2025 as: ES Volume 3, Figure 3.5: Indicative Construction Layout Plan – Rev 2
ES Volume 3, Figure 3.6: Indicative Culvert Crossing Points [APP-060]	All changes to the DCO Application (excluding change 7) have meant that an update to the Order Limits is required. For change 7 the culvert crossing point location have been amended. For change 9, two new culvert crossing points have been added.	Figure 3.6 is amended to show the proposed Order Limits following the change application in respect of changes 3, 4, 5, 6, 8 and 9. Culvert crossing points are amended for change 7. Two new culvert crossing points added for change 9. Resubmitted on 10 September 2025 as: ES Volume 3, Figure 3.6: Indicative Culvert Crossing Points – Rev 2
ES Volume 3, Figure 6.1: Demolition during decommissioning phase and Earthworks and Construction Activities Study Areas [APP-063]	All changes to the DCO Application (excluding change 7) have meant that an update to the Order Limits is required.	Figure 6.1 is amended to show the proposed Order Limits following the change application in respect of changes 3, 4, 5, 6, 8 and 9. Resubmitted on 10 September 2025 as:

Document reference	Reason for amendment	ES Amendment September 2025
		ES Volume 3, Figure 6.1: Demolition during decommissioning phase and Earthworks and Construction Activities Study Areas – Rev 2
ES Volume 3, Figure 6.2: Trackout Activities Study Areas [APP-064]	All changes to the DCO Application (excluding change 7) have meant that an update to the Order Limits is required. For change 3 and change 9 construction access points have been updated.	Figure 6.2 is amended to show the proposed Order Limits following the change application in respect of changes 3, 4, 5, 6, 8 and 9. Construction access points are amended for change 3 and change 9. Resubmitted on 10 September 2025 as: ES Volume 3, Figure 6.2: Trackout Activities Study Areas – Rev 2
ES Volume 3, Figure 7.1: Designated sites and ecological mitigation and enhancement areas [REP1-025]	All changes to the DCO Application (excluding change 7) have meant that an update to the Order Limits is required.	Figure 7.1 is amended to show the proposed Order Limits following the change application in respect of changes 3, 4, 5, 6, 8 and 9. Resubmitted on 10 September 2025 as: ES Volume 3, Figure 7.1: Designated sites and ecological mitigation and enhancement areas – Rev 3
ES Volume 3, Figure 7.2: Biodiversity Study Areas [APP-066]	All changes to the DCO Application (excluding change 7) have meant that	Figure 7.2 is amended to show the proposed Order Limits following the

Document reference	Reason for amendment	ES Amendment September 2025
	an update to the Order Limits is required.	change application in respect of changes 3, 4, 5, 6, 8 and 9. Resubmitted on 10 September 2025 as: ES Volume 3, Figure 7.2: Biodiversity Study Areas – Rev 2
ES Volume 3, Figure 9.1: Cultural Heritage Study Areas [APP-067]	All changes to the DCO Application (excluding change 7) have meant that an update to the Order Limits is required.	Figure 9.1 is amended to show the proposed Order Limits following the change application in respect of changes 3, 4, 5, 6, 8 and 9. Resubmitted on 10 September 2025 as: ES Volume 3, Figure 9.1: Cultural Heritage Study Areas – Rev 2
ES Volume 3, Figure 9.2: Assessed Designated Heritage Assets [APP-068]	All changes to the DCO Application (excluding change 7) have meant that an update to the Order Limits is required. It was noticed that heritage asset NHLE 1008039 had been included in error in the submitted version of the figure and this asset has therefore been removed.	Figure 9.2 is amended to show the proposed Order Limits following the change application in respect of changes 3, 4, 5, 6, 8 and 9. Asset NHLE 1008039 removed. Resubmitted on 10 September 2025 as: ES Volume 3, Figure 9.2: Assessed Designated Heritage Assets – Rev 2
ES Volume 3, Figure 9.3: Assessed Non-Designated Heritage Assets [APP-069]	All changes to the DCO Application (excluding change 7) have meant that	Figure 9.3 is amended to show the proposed Order Limits following the

mitigated night-time first floor [APP-087]	an update to the Order Limits is required.	change application in respect of changes 3, 4, 5, 6, 8 and 9. Resubmitted on 10 September 2025 as: ES Volume 3, Figure 12.8: Operational Noise Contour – mitigated night-time first floor – Rev 2
ES Volume 3, Figure 13.1: Study Area for Population [APP-088]	All changes to the DCO Application (excluding change 7) have meant that an update to the Order Limits is required.	Figure 13.1 is amended to show the proposed Order Limits following the change application in respect of changes 3, 4, 5, 6, 8 and 9. Resubmitted on 10 September 2025 as: ES Volume 3, Figure 13.1: Study Area for Population – Rev 2
ES Volume 3, Figure 14.1: Study Area for Transport and Access [APP-089]	All changes to the DCO Application (excluding change 7) have meant that an update to the Order Limits is required. For change 9, the new farm access off the A1035 link has been added.	Figure 14.1 is amended to show the proposed Order Limits following the change application in respect of changes 3, 4, 5, 6, 8 and 9. Addition of farm access off the A1035 link for change 9. Resubmitted on 10 September 2025 as: ES Volume 3, Figure 14.1: Study Area for Transport and Access – Rev 2

Document reference	Reason for amendment	ES Amendment September 2025
ES Volume 3, Figure 14.2: Transport Routing and the Existing Highway Network [REP1-023]	All changes to the DCO Application (excluding change 7) have meant that an update to the Order Limits is required. For change 3 and change 9 construction routes have been updated. For change 9, the new farm access off the A1035 route has been added as LGV and HGV	Figure 14.2 is amended to show the proposed Order Limits following the change application in respect of changes 3, 4, 5, 6, 8 and 9. Construction routes added for change 3 and change 9. Farm access off the A1035 HGV and LGV routes added for change 9. Resubmitted on 10 September 2025 as: ES Volume 3, Figure 14.2: Transport Routing and the Existing Highway Network – Rev 3
ES Volume 3, Figure 14.3: Public Rights of Way and Long Distance Paths Within and Adjacent to the Proposed Development [APP-091]	All changes to the DCO Application (excluding change 7) have meant that an update to the Order Limits is required. It was noticed that the colour of 'Long distance path' in the key did not match that of 'Wilberforce Way' on the figure, which required amendment.	Figure 14.3 is amended to show the proposed Order Limits following the change application in respect of changes 3, 4, 5, 6, 8 and 9. It is also amended to align the colour of Wilberforce Way with the 'Long distance path' item in the key. Resubmitted on 10 September 2025 as: ES Volume 3, Figure 14.3: Public Rights of Way and Long Distance Paths Within and Adjacent to the Proposed Development – Rev 2

Document reference	Reason for amendment	ES Amendment September 2025
ES Volume 3, Figure 14.4: Link Sensitivity [APP-092]	All changes to the DCO Application (excluding change 7) have meant that an update to the Order Limits is required. For change 9, the farm access of the A1035 has been added (low sensitivity).	Figure 14.4 is amended to show the proposed Order Limits following the change application in respect of changes 3, 4, 5, 6, 8 and 9. Farm access off the A1035 added for change 9. Resubmitted on 10 September 2025 as: ES Volume 3, Figure 14.4: Link Sensitivity – Rev 2
ES Volume 3, Figure 15.1: Other Existing and or Approved Development [APP-093]	All changes to the DCO Application (excluding change 7) have meant that an update to the Order Limits is required.	Figure 15.1 is amended to show the proposed Order Limits following the change application in respect of changes 3, 4, 5, 6, 8 and 9. Resubmitted on 10 September 2025 as: ES Volume 3, Figure 15.1: Other Existing and or Approved Development – Rev 3

3.5 Deadline 3

- 3.5.1 **Table 3-5** outlines amendments to ES Volume 3 figures that have been identified in response to Deadline 2 submissions, Written Representations submitted at Deadline 2 **[REP2-153 – REP-157]**, and/or the ExA's Second Written Questions **[PD-014]** and are submitted to the ExA on 6 October 2025. Certain changes are accompanied by revised versions of the ES Volume 1 and 2 documents. Other changes are reflected in this addendum alone.
- 3.5.2 To the extent that a document forming part of ES Volume 3 is not included in the table below, this is because there is no change to that document required for Deadline 3.

Table 3-5 ES Volume 3 updates - Changes in response to Deadline 2 submissions, written representations submitted at Deadline 2 and the ExA's Second Written Questions

Document reference	Reason for amendment	ES Amendment October 2025
ES Volume 3, Figure 1.2: Land Areas and Cable Routes Plan with Field Numbering System [REP2-086]	It was noticed that Figure 1.2 [REP2-086] did not show the most up to date 'Solar PV Development' layer in that it did not reflect the pulling back of solar panels from the southern extent of Field B4 (for details see change/correction 1 in the s51 advice response and certificates of compliance Covering Letter [AS-004]).	Figure 1.2 is amended to show the correct 'Solar PV Development' layer. Due to the minor nature of the amendment, the Applicant will submit an updated version of Figure 1.2 at Deadline 5.
ES Volume 3, Figure 3.1: Indicative Operational Layout Plan [REP2-088]	Amendments required in response to the ExA's Second Written Questions (2.10.7) requesting clarification on whether spares containers and switchgears should be shown on the Indicative Operational Layout Plan [REP2-088].	Figure 3.1 is amended to include the location of spares containers and switchgears. Resubmitted on 6 October 2025 as:

Document reference	Reason for amendment	ES Amendment October 2025
		ES Volume 3, Figure 3.1: Indicative Operational Layout Plan Revision 3
ES Volume 3, Figure 3.5: Indicative Construction Layout Plan [REP2-092]	Amendments required in response to the ExA's Second Written Questions (2.13.5, part a)) requesting clarification on how Fields E15, E16 and E17 would be accessed for construction purposes.	Figure 3.5 is amended to show the proposed internal access track between Fields E9-E12 and Fields E15-E17. Resubmitted on 6 October 2025 as: ES Volume 3, Figure 3.5: Indicative Construction Layout Plan Revision 3

3.6 Deadline 4

- 3.6.1 **Table 3-6** outlines amendments to ES Volume 3 figures that have been identified in response to Deadline 3 submissions, examination hearing action points, and other submissions, and are submitted to the ExA on 31 October 2025. Certain changes are accompanied by revised versions of the ES Volume 1 and 2 documents. Other changes are reflected in this addendum alone.
- 3.6.2 To the extent that a document forming part of ES Volume 3 is not included in the table below, this is because there is no change to that document required for Deadline 4.

Table 3-6 ES Volume 3 updates - Changes in response to Deadline 3 submissions, examination hearing action points, and other submissions

Document reference	Reason for amendment	ES Amendment October 2025
ES Volume 3, Figure 3.4: Indicative Environmental Masterplan [REP2-091]	Amendments required to align with the Tree Preservation Order and Hedgerow Plans [EN010157/APP/2.8 Revision 4] and ES Volume 4, Appendix 7.11: Arboricultural Impact Assessment [EN010157/APP/6.4 Revision 3]. Amendments required following discussions with East Riding of Yorkshire Council's landscape consultants resulting from item 5 from Issue Specific Hearing 2 (ISH2) [EV6-002]. It was agreed that further hedgerow planting would be added along the eastern boundary of Field E1 and western boundary of Field E2 (see item ERYC34 in the Draft Statement of Common Ground with East Riding of Yorkshire Council [EN010157/APP/9.2 Revision 4]). In making these amendments, it was noticed that the hedgerow planting shown at the northern extent of Fields E15/E17 was inaccurate and required updating as it reflected an outdated layout.	Figure 3.4 is amended to align with updates in the documents mentioned (as set out in Table 4.6 of this document), to show hedgerow planting along the eastern boundary of Field E1 and western boundary of Field E2 and to update the existing/ proposed hedgerow shown at the northern extent of Fields E15/E17. Resubmitted on 31 October 2025 as: ES Volume 3, Figure 3.4: Indicative Environmental Masterplan Revision 3

3.7 Change Request 3

- 3.7.1 **Table 3-7** outlines amendments to ES Volume 3 figures that have been identified in response to the four changes to the DCO Application (changes 10 to 13, about which the ExA was notified on 23 September 2025 **[AS-017]**) and are submitted to the ExA on 31 October 2025. Certain changes are accompanied by revised versions of the ES Volume 1 and 2 documents. Other changes are reflected in this addendum alone.
- 3.7.2 To the extent that a document forming part of ES Volume 3 is not included in the table below, this is because there is no change to that document required as a result of the changes to the DCO Application.

Table 3-7 ES Volume 3 updates - Changes in response to the four changes to the DCO Application (changes 10 to 13, about which the ExA was notified on 23 September 2025 **[AS-017])**

Document reference	Reason for amendment	ES Amendment October 2025
ES Volume 3, Figure 3.1: Indicative Operational Layout Plan [REP2-088]	Changes 10-13: Amendments required to reflect the changes to permissive path routes.	Figure 3.1 is amended to show the updated permissive path routes. Resubmitted on 31 October 2025 as: ES Volume 3, Figure 3.1: Indicative Operational Layout Plan Revision 4
ES Volume 3, Figure 3.2: Height Parameters Zonal Plan [REP2-089]	Change 13: Amendments required to show proposed mitigation area fencing.	Figure 3.2 is amended to show proposed mitigation area fencing. Resubmitted on 31 October 2025 as:

Document reference	Reason for amendment	ES Amendment October 2025
		ES Volume 3, Figure 3.2: Height Parameters Zonal Plan Revision 3
ES Volume 3, Figure 3.4: Indicative Environmental Masterplan [EN010157/APP/6.3 Revision 3]	Changes 10-13: Amendments required to reflect the changes to permissive path routes and the inclusion of mitigation area fencing. Amendments required as a result of consultation with East Riding of Yorkshire Council's landscape consultants to show Field C8 and the northern part of Field B8 as no longer under consideration as community access land, while Field F17 remains under consideration as community access land but is considered as ecological enhancement (rather than mitigation) land.	Figure 3.4 is amended to show the updated permissive path routes and mitigation area fencing and to update which areas are shown as under consideration as community access land. Resubmitted on 31 October 2025 as: ES Volume 3, Figure 3.4: Indicative Environmental Masterplan Revision 4
ES Volume 3, Figure 7.1: Designated sites and ecological mitigation and enhancement areas [REP2-096]	Changes 10-13: Amendments required to reflect the changes to permissive path routes and the inclusion of mitigation area fencing. Amendments required as a result of consultation with East Riding of Yorkshire Council's landscape consultants to show Field 17 as ecological enhancement rather than mitigation, given that it is under consideration as community access land.	Figure 7.1 is amended to reflect the updated hectarage of ecological mitigation and enhancement areas. Resubmitted on 31 October 2025 as: ES Volume 3, Figure 7.1: Designated Sites and Ecological Mitigation and Enhancement Areas Revision 4

3.8 Deadline 5

- 3.8.1 **Table 3-8** outlines amendments to ES Volume 3 figures that have been identified in response to Deadline 4 submissions **[REP4-079 to REP4-087]**, the Examining Authority's Third Written Questions **[PD-019]**, and other submissions and are submitted to the ExA on 28 November 2025.
- 3.8.2 To the extent that a document forming part of ES Volume 3 is not included in the table below, this is because there is no change to that document required for Deadline 5.

Table 3-8 ES Volume 3 updates - Changes in response to Deadline 4 submissions, the Examining Authority's Third Written Questions, and other submissions

Document reference	Reason for amendment	ES Amendment November 2025
ES Volume 3, Figure 3.1: Indicative Operational Layout Plan [REP4-067]	It was noticed that an amendment was required to the fencing in Field F17 to run along the northern boundary of the area under consideration as community access land.	Figure 3.1 is amended to show the area under consideration as community access land. Resubmitted on 28 November 2025 as: ES Volume 3, Figure 3.1: Indicative Operational Layout Plan Revision 5
ES Volume 3, Figure 3.2: Height Parameters Zonal Plan [REP4-068]	It was noticed that an amendment was required to the fencing in Field F17 to run along the northern boundary of the area under consideration as community access land.	Figure 3.2 is amended to show the correct fencing alignment in Field F17. Resubmitted on 28 November 2025 as:

Document reference	Reason for amendment	ES Amendment November 2025
		ES Volume 3, Figure 3.2: Height Parameters Zonal Plan Revision 4
ES Volume 3, Figure 3.4: Indicative Environmental Masterplan [REP4-069]	Amendments required as a result of consultation with East Riding of Yorkshire Council's landscape consultants. Following engagement, it was agreed that additional hedgerow planting would be included between the permissive path and solar PV modules in the southern extent of Field D17.	Figure 3.4 is amended to include the new section of proposed hedgerow planting. Resubmitted on 28 November 2025 as: ES Volume 3, Figure 3.4: Indicative Environmental Masterplan Revision 5

4 Environmental Statement Volume 4 Updates

4.1 Change Request 1 and Response to Section 51 Advice- submission July 2025

- 4.1.1 **Table 4-1** outlines amendments to ES Volume 4 documents that have been identified since submission of the DCO application in response to the ExA's Section 51 advice **[PD-003]** and/or two minor corrections to the DCO Application (change/correction 1 and 2) **[AS-004]** and are submitted to the ExA at Procedural Deadline A (8 July 2025).
- 4.1.2 To the extent that a document forming part of ES Volume 3 is not included in the table below, this is because there is no change to that document as a result of the July 2025 Change Request and Response to Section 51 Advice.

Table 4-1 - ES Appendices updates - Change Request 1 and Response to s51 Advice July 2025

Document reference	Reason for amendment	ES Amendment July 2025
ES Volume 4, Non-Technical Summary (NTS) [APP-094]	The NTS requires amendments to Figures 1, 2 and 3 to reflect the removal of plots 10-4, 10-5 and 10-6 as part of change/correction 2. The NTS also requires amendments to Figure 3 within the document to reflect the removal of a section of solar array from Land Area B as part of change/correction 1.	Due to the minor nature of the amendments resulting from change/correction 1 and 2, the Applicant will submit updated versions of Figures 1, 2 and 3 in ES Volume 4, Non-Technical Summary [APP-094] at Deadline 5.

Document reference	Reason for amendment	ES Amendment July 2025
ES Volume 4, Appendix 5.6: Flood Risk Assessment [APP-102]	<u>Response to s51 Advice</u> Appendix 5.6 requires amendments to the text to address new flood and coastal erosion risk data published by the Environment Agency as requested by the ExA on the 21 March 2025 as part of the s51 Advice. Appendix C In making the changes to the FRA in response to the s51 advice, the Applicant has become aware that Appendix C: Modelling Report to the FRA was missing a number of its appendices (with the exception of Appendix F: Modelling addendum of Appendix C).	In response to the Planning Inspectorate's section 51 advice (dated 21 March), Appendix 5.6 has been updated and is submitted in its revised form. The following amendments have been made to the document: • Paragraph 1.1.9 amended and a new paragraph 1.1.10 added. • 'Report Updates' section added at Section 2.1 and Paragraph 2.1.1 added to outline the nature of the updates. • Three additional rows added to Table 2-1 to capture stakeholder engagement which has occurred since the DCO Application was submitted. • Paragraph 3.2.5 added to provide additional information on below ground land drains.

Document reference	Reason for amendment	ES Amendment July 2025
		• Paragraph 4.2.5 amended to add further detail on design of solar panels. • Paragraphs 5.4.2 and 5.4.3 added to reflect changes to the flood modelling. • Additional text added at Paragraph 5.5.3 to explain the impact on the Reduction in Risk of Flooding from Rivers and Sea due to Defences (RRDD) dataset following the publication of the updated Flood Zones. • Additional paragraphs added at Paragraph 5.11.5 to 5.11.11 to provide further detail on Land Area B5 in response to updated flood modelling. • Section 5.12 amended to reflect updated dataset. • Paragraph 6.1.9 has been added to reflect updated dataset.

Document reference	Reason for amendment	ES Amendment July 2025
		- Section 8 updated to reflect changes to FRA and correct typo in Paragraph 8.1.2. - Additional drawings added to Appendix B (20-206-60-315-01 1 in 20 year and 1 in 50 year Flood Outlines (Sheet 1 of 2)) and 20-206-60-316-01 1 in 20 year and 1 in 50 year Flood Outlines (Sheet 2 of 2)). Figures The following figures have been amended as a result of the s51 amendments: Figure 5-1; Figure 5-16 The following new figures have been added as a result of the s51 amendments: - Figures 5-7; - Figure 5-8;

Document reference	Reason for amendment	ES Amendment July 2025
		- Figure 5-17; - Figure 5-18; - Figure 5-19; - Figure 5-20; and - Figure 5-21. The following figures have been re-numbered as a result of the addition of the new figures associated with the s51 amendments: - Figure 5-7 (now Figure 5-9); - Figure 5-8 (now Figure 5-10); - Figure 5-9 (now Figure 5-11); - Figure 5-10 (now Figure 5-12); - Figure 5-11 (now Figure 5-13) - Figure 5-12 (now Figure 5-14); - Figure 5-14 (now Figure 5-16); and - Figure 5-15 (now Figure 5-22). Appendix C

Document reference	Reason for amendment	ES Amendment July 2025
		The Applicant has updated the FRA to include the following Appendices to Appendix C: • Appendix A Proposed Operational Phase Layout Plan • Appendix B Model Overview and Topography Drawings • Appendix C Design Event Output and Maximum Credible Scenario Drawings • Appendix D Breach Output Drawings • Appendix E Sensitivity Tests Output Drawings
	<u>Change/correction 1 and 2</u> Appendix 5.6 requires amendments to Figures 4-1 and 5-7, as well as drawings included in Appendix B to the FRA to reflect the removal of a section of solar array from Land Area B as part of change/correction 1. The Appendix B drawings which require updating as a result of change/correction 1 include:	As a result of change/correction 1 and 2, a number of the figures within the FRA have been amended and these changes listed below. The following figures and appendices have been amended: • Figures 4-1;

Document reference	Reason for amendment	ES Amendment July 2025
	20-206-60-004-04 Design Event Flood Depths Sheet 1 of 2; 20-206-60-250-02 Combined Breach Maximum Depths Sheet 1 of 2; 20-206-60-302-01 – Breach Locations and Land Area Names; and 20-206-60-306-02 RoFSW 1 in 1,000 yr Depths (1 of 2). Appendix 5.6 also requires amendments to Figures 5-9, 5-10, 5-12, 5-14 and Appendix A and drawings within Appendix B to reflect the removal of plots 10-4, 10-5 and 10-6 as a result of change/correction 2. The Appendix B drawings which require updating as a result of change/correction 2 include: 20-206-60-300-02 - Site Topography; 20-206-60-301-01 Recorded Flood Outlines; 20-206-60-004-04 Design Event Flood Depths Sheet 1 of 2;	- Figure 5-7 (now Figure 5-9); - Figure 5-9 (now Figure 5-11); - Figure 5-10 (now Figure 5-12); - Figure 5-12 (now Figure 5-14); - Figure 5-14 (now Figure 5-16); - Appendix A; and - Appendix B. Resubmitted in July 2025 as: ES Volume 4, Appendix 5.6: Flood Risk Assessment – parts 1 to 4 – Rev 2 (clean) [PDA-021, PDA-023, PDA-025 and PDA-027] ES Volume 4, Appendix 5.6: Flood Risk Assessment – parts 1 to 4 – Rev 2 (tracked) [PDA-022, PDA-024, PDA-026 and PDA-028]

Document reference	Reason for amendment	ES Amendment July 2025
	20-206-60-004005-04 Design Event Flood Depths Sheet 2 of 2; 20-206-60-302-01– Breach Locations and Land Area Names; 20-206-60-250-02 Combined Breach Maximum Depths Sheet 1 of 2; 20-206-60-250251-02 Combined Breach Maximum Depths Sheet 2 of 2; 20-206-60-260-01 Maximum Credible Scenario Level Change 1 of 2; and 20-206-60-261-012 Maximum Credible Scenario Level Change 2 of 2.	
ES Volume 4, Appendix 7.7: Water Vole and Otter Habitat Suitability Report [APP-111]	Appendix 7.7 requires amendments to Figures 1 and 2 to reflect the removal of plots 10-4, 10-5 and 10-6 as part of change/correction 2.	Due to the minor nature of the amendments resulting from change/correction 2, the Applicant will submit updated versions of Figures 1 and 2 of Appendix 7.7 at Deadline 5.
ES Volume 4, Appendix 7.8: Aquatic Walkover Report [APP-112]	Appendix 7.8 requires amendments to Figure 1 to reflect the removal of plots 10-4, 10-5 and 10-6 as part of change/correction 2.	Due to the minor nature of the amendments resulting from change/correction 2, the Applicant will submit an updated version of Figure 1 of Appendix 7.8 at Deadline 5.

Document reference	Reason for amendment	ES Amendment July 2025
ES Volume 4, Appendix 7.10: Biodiversity Net Gain Assessment [APP-114]	Appendix 7.10 requires amendments to Figures 1, 2 and 3 to reflect the removal of plots 10-4, 10-5 and 10-6 as part of change/correction 2.	Due to the minor nature of the amendments resulting from change/correction 2, the Applicant will submit updated versions of Figures 1, 2 and 3 of Appendix 7.10 at Deadline 5.
ES Volume 4, Appendix 7.11: Arboricultural Impact Assessment [APP-115]	Appendix 7.11 requires amendments to Appendices B and C to reflect the removal of plots 10-4, 10-5 and 10-6 as part of change/correction 2. Appendix 7.11 also requires amendments to Appendix C to reflect the removal of a section of solar array from Land Area B as part of change/correction 1.	Due to the minor nature of the amendments resulting from change/correction 2, the Applicant will submit updated versions of Appendices B and C of Appendix 7.11 at Deadline 5.
ES Volume 4, Appendix 11.4: Viewpoint Analysis [APP-131]	As a result of points raised by the ExA following an unaccompanied site inspection (USI) on 17-18 June (ExA document reference EN010157-000217-PHSF - USI1 Note), amendments are required to Table A11.4-1 and page 43 as 'Drove Lane' is incorrectly referred to as 'Grove Lane'.	Table A11.4-1, viewpoint number 25 is amended to: "PRoW Wawne Footpath no.11/ G Drove Lane." Text on Page 43 is amended to replace references to " Grove Lane " with " Grove Lane ".
ES Volume 4, Appendix 11.6: Viewpoints and Visualisations Part 1 [AS-001 and AS-002]	As raised by the ExA following an unaccompanied site inspection (USI) on 17-18 June (ExA document reference EN010157-000217-PHSF - USI1 Note):	Due to the minor nature of the amendments, the Applicant will submit updated versions of

Document reference	Reason for amendment	ES Amendment July 2025
	- Visualisation 25a requires amendment as 'Drove Lane' is incorrectly labelled as 'Grove Lane'. - Visualisation 24b requires amendment as the label for Swine Footpath no.7 is on the incorrect side of the dyke.	Visualisations 25a and 24b at Deadline 5.
ES Volume 4, Appendix 14.1: Transport Assessment [APP-138]	Appendix 14.1 requires amendments to Appendices B, C and D to reflect the removal of plots 10-4, 10-5 and 10-6 as part of change/correction 2. Appendix 14.1 also requires amendments to Appendix B to reflect the removal of a section of solar array from Land Area B as part of change/correction 1.	Due to the minor nature of the amendments resulting from change/correction 1 and 2, the Applicant will submit updated versions of Appendices B, C and D at Deadline 5.
ES Volume 4, Appendix 15.2: Cumulative Landscape and Visual Impact Assessment [APP-144]	Appendix 15.2 requires amendments to Appendix A – ZTV Figures to reflect the removal of plots 10-4, 10-5 and 10-6 as part of change/correction 2. Appendix 15.2 also requires amendments to Appendix A – ZTV Figures to reflect the removal of a section of solar array from Land Area B as part of change/correction 1.	Due to the minor nature of the amendments resulting from change/correction 1 and 2, the Applicant will submit updated versions of Appendix A – ZTV Figures at Deadline 5.

4.2 Deadline 1

- 4.2.1 **Table 4-2** outlines amendments to ES Volume 4 documents that have been identified as a result of responses to the Relevant Representations **[RR-001 – RR-051]**, the ExA's First Written Questions **[PD-008]**, and/or other engagement with relevant stakeholders and are submitted to the ExA at Deadline 1 (27 August 2025).
- 4.2.2 To the extent that a document forming part of ES Volume 4 is not included in the table below, this is because there is no change to that document required for Deadline 1.

Table 4-2 ES Volume 4 updates – Response to Relevant Representations and the ExA's First Written Questions

Document reference	Reason for amendment	ES Amendment August 2025
ES Volume 4, Appendix 5.5: Water Framework Directive Screening and Scoping Report [APP-101]	Response to relevant representations from Beverley and North Holderness Internal Drainage Board [RR-004] and the Environment Agency [RR-005] (EA04, EA06, EA07, EA10, EA20 and EA24).	ES Appendix 5.5 is amended to include additional assessment of battery fire effluent risks; to refine or clarify the Applicant's approach in relation to land drains and watercourse crossings; to provide further details on cable crossings and dewatering; and to provide further information regarding surfacing of access tracks and update the surface water drainage strategy reflecting discussions with Beverley and North Holderness Internal Drainage Board. Where new paragraphs have been added, subsequent paragraphs are automatically renumbered. Resubmitted on 27 August 2025 as:

Document reference	Reason for amendment	ES Amendment August 2025
		ES Volume 4, Appendix 5.5: Water Framework Directive Screening and Scoping Report – Rev 2 (clean) ES Volume 4, Appendix 5.5: Water Framework Directive Screening and Scoping Report – Rev 2 (tracked)
ES Volume 4, Appendix 5.6: Flood Risk Assessment [PDA-021 to PDA-028]	Response to relevant representations from Beverley and North Holderness Internal Drainage Board [RR-004] and the Environment Agency [RR-005] (EA04, EA06, EA07 EA10, EA11, EA12, EA13, EA14, EA15, EA16 and EA17).	ES Appendix 5.6 is amended to update the assessment of the lifetime of the scheme and duration of decommissioning; to refine the assessment of watercourse crossings; and to update the surface water drainage strategy reflecting discussions with Beverley and North Holderness Internal Drainage Board. In addition, the following have been added: • Figure 7-6 and 7-7; and • Drawings 20-206-60-500-02 and 20-206-60-501-02 to Appendix B. These show the amended drainage strategy for the two substation compounds. Resubmitted on 27 August 2025 as: ES Volume 4, Appendix 5.6: Flood Risk Assessment – Rev 3 (clean)

Document reference	Reason for amendment	ES Amendment August 2025
		ES Volume 4, Appendix 5.6: Flood Risk Assessment – Rev 3 (tracked)
ES Volume 4, Appendix 6.1: Air Quality Assessment [APP-103]	Response to the ExA's First Written Questions [PD-008] (1.5.4). Updates to paragraph 6.7 required to clarify study areas shown on ES Figure 6.1 [APP-063].	Text in paragraph 6.7 is amended to: "Table 6.2 presents the determined sensitivity of the area. Construction activities are relevant up to 250m from the Order Limits (i.e. 20m, 50m, 100m and 250m study areas have been considered in the assessment) whereas trackout activities are only considered relevant up to 50m from the edge of the road (i.e. 20m and 50m study areas have been considered in the assessment), as per the Institute of Air Quality Management Guidance on the Assessment of Dust from Demolition and Construction v2.2 [Ref. 18]."
ES Volume 4, Appendix 6.1: Air Quality Assessment [APP-103]	Response to the ExA's First Written Questions [PD-008] (1.5.7). Updates to paragraph 6.8 required to confirm the human receptors that have been identified within 250m of the Order Limits.	Text in paragraph 6.8 is amended to: "Human receptors have been identified within 250m of the Order Limits, comprising: • The villages of Long Riston; and • The villages of Woodmansey; • The village of Routh; • The village of Arnold; • The village of Weel; and • Public rights of ways (PRoWs)."

Document reference	Reason for amendment	ES Amendment August 2025
ES Volume 4, Appendix 6.1: Air Quality Assessment [APP-103]	Response to the ExA's First Written Questions [PD-008] (1.5.1). Updates required to paragraph 6.9 to clarify the study area for designated sites regarding dust and particulate matter emissions, i.e. whether it is 200m or 50m.	Text in paragraph 6.9 is amended to: "The following designated sites (habitats) have been identified within 200m 50m of the Order Limits."
ES Volume 4, Appendix 7.10: Biodiversity Net Gain Assessment [APP-114]	An error was identified in paragraph 2.5.4 which stated that the maximum trench width for cabling in Figham Pastures LWS is 1.6m. Updates required to align with the Design Parameters Document [APP-150] , which states that the maximum width of the 132kV cable trench will be 1.5m.	Text in Section 2.5.4 is amended to: "Details on turf translocation are included within the Outline LEMP [EN010157/APP/7.5] and the Outline Soil Management Plan [EN010157/APP/7.8] , to ensure that the impact is minimal, with the trench width kept to a minimum maximum of (1.56m). "
ES Volume 4, Appendix 7.11: Arboricultural Impact Assessment [APP-115]	Response to the ExA's First Written Questions [PD-008] (1.10.14). Clarification required to confirm the number/quantity of tree removal proposed in relation to tree group G233. The Applicant confirms that G233 comprises approximately 90 trees, of which a 190m ² is proposed for potential removal (as stated in Table 2). No updates therefore required to the values stated in the table, but updates to column headings required to provide clarification.	The headings for the third and fourth columns in Table 2 are amended as follows to provide clarification: " Removal Qquantity -m ² for groups/m length for hedges." "Species/ quantities for whole group."

Document reference	Reason for amendment	ES Amendment August 2025
ES Volume 4, Appendix 9.4: Detailed Settings Impact Assessment [APP-123]	Response to the ExA's First Written Questions [PD-008] (1.8.2).	Setting effects on the Site of Meaux Cistercian Abbey during operation scoped into the assessment, taking account of winter visualisations. Resubmitted on 27 August 2025 as: ES Volume 4, Appendix 9.4: Detailed Settings Impact Assessment – Rev 2 (clean) ES Volume 4, Appendix 9.4: Detailed Settings Impact Assessment – Rev 2 (tracked)
ES Volume 4, Appendix 10.1: Preliminary Risk Assessment - Part 1 [APP-124]	Response to the Environment Agency's relevant representations [RR-005] (EA09 and EA22). Updates required to text in Table 11, Table 12, Table 16, text in bullet points after Table 16, Section 6.1.2 and 7.1.1 to clarify details of unlicensed private water supplies within the study area in response to EA09.	Text in the 'Licensed groundwater abstractions' row in Table 11 is amended to: "There are two no licensed groundwater abstractions within the Order Limits, both of which are used for spray irrigation (see full list provided in Appendix C). There are 28 14 locations where active licensed groundwater abstractions licenses are recorded that are off-site and within 500m of the Order Limits. Seven of these are primarily used for general agricultural farming and domestic use and seven are used for spray irrigation, with several for domestic use, one for commercial use and one which is a public water supply licensed to Yorkshire

Document reference	Reason for amendment	ES Amendment August 2025
		Water (located at Dunswell, 202m to the south-east of the Order Limits). New 'Unlicensed groundwater abstractions' row added to Table 11, which states: "There are no unlicensed groundwater abstractions within the Order Limits. There are three unlicensed groundwater abstractions that are recorded to be present off-site and within 500m of the Order Limits. One of these is for commercial use (23m from the Order Limits) and two are for domestic use (10m and 35m from the Order Limits)." Text in the 'Licensed surface water abstractions' row in Table 12 amended to: "There is one active licensed surface water abstraction within the Order Limits, used for dust suppression. There are 12 two active licensed surface water abstractionlicenses located within 500m of the Order Limits. The closest of these is at Hall Farm, for spray irrigation (24m from the boundary), and the other are is 254m from the Order Limits boundary, for hydraulic testing, dust suppression,

Document reference	Reason for amendment	ES Amendment August 2025
		aquaculture and spray irrigation. Two of these licenses relate to tidal surface water. New 'Unlicensed surface water abstractions' row added to Table 12, which states: "There are no unlicensed surface water abstractions located within the Order Limits or within 500m of the Order Limits boundary." Text in 'Potential receptor' column of Table 16 amended in three instances to: "Groundwater within Flamborough Chalk bedrock deposits: principal aquifer and source protection zones (Zones 2 and 3) and licensed and unlicensed groundwater abstraction points." Text in bullet points in section 6.1.2 amended to: • "licensed or unlicensed groundwater abstraction points within the chalk bedrock (none located within the Order Limits, 17 located within 500m of the Order Limits boundary) [lateral migration of dissolved phase contamination]."

Document reference	Reason for amendment	ES Amendment August 2025
		- surface water courses (numerous drains and ditches on and close to all Land Areas) and associated surface water abstraction points (one located within the Order Limits and two located within 500m of the Order Limits boundary) [lateral migration of dissolved phase contamination, Site run-off, drainage].” Text within the ‘Potential receptor column of Table 16 is amended in three instances to: “Groundwater within Flamborough Chalk bedrock deposits: principal aquifer and source protection zones (Zones 2 and 3) and licensed and unlicensed groundwater abstraction points” Text within bullet points after Table 16 amended to: “moderate to low risk in relation to groundwater in principal aquifer/SPZs/licensed or unlicensed groundwater abstraction points being affected by contamination from

Document reference	Reason for amendment	ES Amendment August 2025
		agricultural land use: via leaching, percolation to the aquifer, lateral migration, run-off/drainage • moderate to low risk in relation to groundwater in principal aquifer/SPZs/licensed or unlicensed groundwater abstraction points being affected by contamination from made ground: via leaching, percolation to the aquifer, lateral migration, run-off/drainage • moderate to low risk in relation to groundwater in principal aquifer/SPZs/licensed or unlicensed groundwater abstraction points being affected by contamination from storage of fuel, oil or chemicals: via leaching, percolation to the aquifer, lateral migration, run-off/drainage” • “moderate to low risk in relation to groundwater in principal aquifer/SPZs/licensed or unlicensed groundwater abstraction points being affected by contamination from historical landfill sites: via leaching, percolation to

Document reference	Reason for amendment	ES Amendment August 2025
		the aquifer, lateral migration, run-off/drainage.” Text within bullet point in Section 7.1.1 amended to: “risks to groundwater in the principal aquifer/SPZ/licensed or unlicensed groundwater abstraction points.”
ES Volume 4, Appendix 14.1: Transport Assessment [APP-138]	Response to the ExA’s First Written Questions [PD-008] (1.13.12). Updates required in Table 6.3 to confirm the total vehicle numbers for construction phase 4. The Applicant also noted an error in the months stated for construction phase 6, which required amendments in Table 6-3 and paragraph 5.9.	Vehicle numbers in the ‘Phase 4’ section of Table 6.3 are amended as follows: for light vehicles, daily arrivals and departures each amended to “131129”; for total vehicles daily arrivals and departures each amended to “182180”. The final heading within Table 6-3 is amended to: “Phase 6: Land Area F and complete grid connection works (Months 2221 to 24)” Text in bullet point in paragraph 5.9 is amended to: “Phase 6: Land Area F and complete grid connection cable route works (months 2221 to 24).”

Document reference	Reason for amendment	ES Amendment August 2025
ES Volume 4, Appendix 15.2: Cumulative Landscape and Visual Impact Assessment [APP-144]	Response to the ExA's First Written Questions [PD-008] (1.10.28 c)). Updates required to include a missing receptor ('Tickton PRow located between Tickton and Weel') in summary paragraph 3.8.4. When correcting the paragraph, the Applicant noted that three receptors had been included in paragraph 3.8.4 incorrectly. Updates required to move these receptors to a new paragraph.	A new paragraph 3.8.3 is added, which states: "For some receptors it is acknowledged that the addition of the five schemes considered in this cumulative assessment, in addition to the Proposed Development, would increase the geographic area where effects would be felt. However, they would not create significant cumulative effects beyond those already identified as being created by the Proposed Development alone. Those receptors to which this applies are: • Meaux Lane/Meaux Road; ○ Cumulative effects identified, but overall not greater than those identified for the Proposed Development alone. • PRow Riston footpath no.2; ○ Cumulative effects identified, but overall not greater than those identified for the Proposed Development alone. • PRow Riston footpath no.1;

Document reference	Reason for amendment	ES Amendment August 2025
		○ Cumulative effects identified, but overall not greater than those identified for the Proposed Development alone.” Text in bullet point in original paragraph 3.8.3 (now 3.8.4) is amended to: ● “LCA 19D: Central Holderness Open Farmland; ○ Whilst there are cumulative effects over a wider geographic area, the overall effects are not greater than theseYear 1 significant cumulative effects have been identified, largely created by for the Proposed Development alone.” Text in original paragraph 3.8.3 (now 3.8.5) is amended to: “Those receptors which would experience significant cumulative visual effects are: ● PRow Tickton bridleway no.5;

Document reference	Reason for amendment	ES Amendment August 2025
		○ Year 1 and year 10 cumulative significant effects are greater than for those identified for the Proposed Development alone, impacted by Kenley House, Field House and Carr Farm Solar Farms, in addition to the Proposed Development. ● Wawne PRow located between Weel and Wawne; ○ Year 1 and year 10 cumulative significant effects have been identified, primarily caused by Kenley House Solar Farm development in its own right. ● Meaux Lane/Meaux Road ○ Significant cumulative effects identified, but overall not greater than those identified for the Proposed Development alone. ● PRow Riston footpath no.2; ○ Significant cumulative effects identified, but overall not greater than

Document reference	Reason for amendment	ES Amendment August 2025
		those identified for the Proposed Development alone. • PRoW Riston footpath no.1; ○ Significant cumulative effects identified, but overall not greater than those identified for the Proposed Development alone. • Swine PRoW located to the east of Wawne and the south-east of Land Areas C and F; ○ Year 1 and year 10 cumulative significant effects have been identified, primarily caused by Turf Carr Solar Farm development in its own right. • Tickton PRoW located between Tickton and Weel; ○ Year 1 cumulative significant effects have been identified, primarily caused by Field House Solar Farm and Carr Farm Solar Farm developments in their own right. • Kidhill Lane;

Document reference	Reason for amendment	ES Amendment August 2025
		○ Year 1 and year 10 cumulative significant effects have been identified (not significant from the Proposed Development alone), due to combination with Turf Carr Solar Farm. • Springdale Farm (residential property). ○ Year 1 and year 10 cumulative significant effects have been identified (not significant from the Proposed Development alone), due to the combination with Kenley House Solar Farm.”
ES Volume 4, Appendix 15.2: Cumulative Landscape and Visual Impact Assessment [APP-144]	Response to the ExA’s First Written Questions [PD-008] (1.10.28 (e)). Updates required to present relevant significant cumulative effects in ES Appendix 15.2 [APP-144] in table format.	Table A15.1-1 Identifying Significant Cumulative Landscape and Visual Effects During Operation is added to present relevant significant cumulative effects (table not copied here). Introductory text is added as paragraph 3.8.7, which states: “Table A15.1-1 Identified Significant Cumulative Landscape and Visual Effects During Operation provides a summary of the above points and details receptors which would experience significant cumulative effects with respect to one or more of the five

Document reference	Reason for amendment	ES Amendment August 2025
		additional schemes considered in this appendix. The table only references those receptors where a significant cumulative effect has been demonstrated.”
ES Volume 4 Commitments Register [APP-095]	Updates required to reflect changes made to other documents as a result of the various Relevant Representations [RR-001 – RR-051] and the ExA’s First Written Questions [PD-008] .	Commitments 200 and 201 have been removed since the assets they relate to lie outside of the Order Limits, meaning implementation of the mitigation measures is not within the control of the Applicant and therefore not considered to be feasible. It should be noted that the mitigation measures set out in these commitments were not considered in the assessment in the submitted ES Volume 2, Chapter 9: Cultural Heritage [APP-049] and therefore the conclusions of the assessment are not affected by their removal. Commitments 303 and 415 have been removed as they were duplicates of commitment 417 (previously 421). Commitment 152 has also been removed because it is replaced by two new commitments on the same topic, 653 and 654. As a result of commitments being removed, subsequent commitments were automatically renumbered.

Document reference	Reason for amendment	ES Amendment August 2025
		The following existing commitments have been amended: 107, 112, 123, 171 (previously 172), 183 (previously 184), 197 (previously 198), 237 (previously 240), 238 (previously 241), 239 (previously 242), 242 (previously 245), 265 (previously 268), 282 (previously 285), 284 (previously 287), 512 (previously 517), 540 (previously 544), 543 (previously 547), 551 (previously 555), 552 (previously 556), 554 (previously 558). New commitments that have been added start from commitment 615. Commitment 407 has also been added.

4.3 Deadline 2

- 4.3.1 **Table 4-3** outlines amendments to ES Volume 4 documents that have been identified in response to East Riding of Yorkshire Council's **Local Impact Report [REP1-086]**, the Written Representations and Responses to the Examining Authority's first written questions **[REP1-087]** to **[REP1-105]**, and/or other engagement with relevant stakeholders and are submitted to the ExA at Deadline 2 (10 September 2025).
- 4.3.2 To the extent that a document forming part of ES Volume 4 is not included in the table below, this is because there is no change to that document required for Deadline 2.

Table 4-3 ES Volume 4 updates – Response to East Riding of Yorkshire Council's Local Impact Report, Written Representations and Responses to the ExA's First Written Questions

Document reference	Reason for amendment	ES Amendment September 2025
ES Volume 4, Appendix 7.10: BNG Assessment [APP-114]	Habitat figures showing baseline and post development to be updated to include show polygon and linear feature ID's in response to Local Impact Report [REP1-086] comment 7.163. Amendments also required in relation to comments 7.166 (various), comment 7.169 (to provide clarification in relation to arable margins), comment 7.172 (to take a more precautionary approach to post-development condition of hedgerows on the grid connection cable route), comment 7.174 and 7.177 (to take a more conservative approach with regards to the post-development condition of	Updates to Appendix 7.10 in response to the Local Impact Report. Resubmitted on 10 September 2025 as: ES Volume 4, Appendix 7.10: Biodiversity Net Gain Assessment – Rev 2 (clean) ES Volume 4, Appendix 7.10: Biodiversity Net Gain Assessment – Rev 2 (tracked)

Document reference	Reason for amendment	ES Amendment September 2025
	ditches), and comment 7.176 (to take a more precautionary approach with regard to watercourse encroachment).	
ES Volume 4, Appendix 14.1: Transport Assessment [APP-138]	Update text on collisions to include 2023 data in response to East Riding of Yorkshire Council's Local Impact Report [REP1-086] comment 7.78 stating that the personal injury collision assessment is slightly outdated. Retitle Table 6.3 to reflect more than just staff trips in response to East Riding of Yorkshire Council's Local Impact Report [REP1-086] comment 7.93.	Updates to Appendix 14.1. Resubmitted on 10 September 2025 as: ES Volume 4, Appendix 14.1: Transport Assessment – Rev 2 (clean) ES Volume 4, Appendix 14.1: Transport Assessment – Rev 2 (tracked)
ES Volume 4 Appendix 14.4: STATS19 Personal Injury Collision Report [APP-141]	Updates required in response to East Riding of Yorkshire Council's Local Impact Report [REP1-086] comments 7.75 and 7.78 stating that the personal injury collision assessment is slightly outdated.	Updates to Appendix 14.4. Resubmitted on 10 September 2025 as: ES Volume 4 Appendix 14.4: STATS19 Personal Injury Collision Report – Rev 2 (clean) ES Volume 4 Appendix 14.4: STATS19 Personal Injury Collision Report – Rev 2 (tracked)

Document reference	Reason for amendment	ES Amendment September 2025
ES Volume 4, Appendix 15.1: Long List of Other Existing and or Approved Development [APP-143]	Addition of Molescroft Solar Farm and Drove Lane Solar Farm.	Molescroft Solar Farm added as ID 89; Drove Lane Solar Farm added as ID 90 (table not copied here).
ES Volume 4 Commitments Register [REP1-028 and REP1-029]	Updates required in response to East Riding of Yorkshire Council's Local Impact Report [REP1-086] , and the Written Representations and Responses to the Examining Authority's first written questions from third parties [REP1-087] to [REP1-105] .	Updates to commitments 117, and 118. New commitments added from 671 up to and including 675.

4.4 Change Request 2

- 4.4.1 **Table 4-4** outlines amendments to ES Volume 4 documents that have been identified in response to the seven changes to the DCO Application (changes 3 to 9, about which the ExA was notified on 6 August 2025) **[AS-015]** and are submitted to the ExA on 10 September 2025. Certain changes are accompanied by revised versions of the ES Volume 1 and 2 documents. Other changes are reflected in this addendum alone.
- 4.4.2 To the extent that a document forming part of ES Volume 4 is not included in the table below, this is because there is no change to that document required as a result of the changes to the DCO Application.

Table 4-4 ES Volume 4 updates - Changes in response to the seven changes to the DCO Application (changes 3 to 9, about which the ExA was notified on 6 August 2025)

Document reference	Reason for amendment	ES Amendment September 2025
ES Volume 4, Appendix 7.7: Water Vole and Otter Habitat Suitability Report [APP-111]	Change 9: Updates required to reflect the inclusion of two new watercourse crossing points within the Order Limits as a result of Change 9. All changes to the DCO Application (excluding change 7) have meant that an update to the area of the Site is required and to the Order Limits in embedded figures.	Text in paragraph 3.1.3 amended to: “Since the surveys were undertaken, the design of the Proposed Development has progressed, resulting in a number of culvert crossing points being removed from the Proposed Development, as well as onethree additional proposed culvert crossing points being brought in, which had not been included in the surveys. Two of these

Document reference	Reason for amendment	ES Amendment September 2025
		additional culvert crossing points (numbers 21 and 22) are the result of change 9 to the DCO Application, as set out in the Second Notification of Proposed Changes to the DCO Application [AS-015]” Table 1 amended to include the two culvert crossings (numbers 21 and 22) as new rows (table not copied here). Text in paragraph 1.3.1 amended to: “The Site encompasses an area of approximately 893⁴ hectares” Figures 1 and 2 updated to include the updated Order Limits and to show that crossings in relation to Change 9 have not been surveyed.
ES Volume 4, Appendix 7.8: Aquatic Walkover Report [APP-112]	Change 9: Updates required to reflect the inclusion of two new watercourse crossing	Text in paragraph 1.3.1 amended to:

Document reference	Reason for amendment	ES Amendment September 2025
	points within the Order Limits as a result of Change 9.	"The Site encompasses an area of approximately 893⁴ hectares" Paragraph 2.4.3 amended as follows: "Since surveys have been completed^d, the proposed crossing point^r and HDD locations have changed, however the baseline characterisation of the Site, based on the survey locations undertaken, is still valid. Any new crossing points not yet assessed will be subject to preconstruction surveys." Figure 1 updated to include the updated Order Limits and to show that crossings in relation to Change 9 have not been surveyed.
ES Volume 4, Appendix 7.11: Arboricultural Impact Assessment [APP-115]	The proposed Order Limits and layout as a result of the seven changes to the DCO Application (changes 3 to 9), means that the arboriculture data has been updated.	Updates to include potential impacts on tree/ hedgerows at the locations of the changes. Updates to text in relation to veteran trees.

Document reference	Reason for amendment	ES Amendment September 2025
	Text updated in relation to impacts on veteran trees.	Resubmitted on 10 September as: ES Volume 4, Appendix 7.11: Arboricultural Impact Assessment - Rev 2 (clean) ES Volume 4, Appendix 7.11: Arboricultural Impact Assessment - Rev 2 (tracked)
ES Volume 4, Appendix 12.1: Full list of sensitive receptors [APP-134]	The proposed Order Limits as a result of the seven changes to the DCO Application (changes 3 to 9) introduced additional receptors to consider.	Inclusion of new sensitive receptors. Resubmitted on 10 September 2025 as: ES Volume 4, Appendix 12.1: Full list of sensitive receptors – Rev 2 (clean) ES Volume 4, Appendix 12.1: Full list of sensitive receptors – Rev 2 (tracked)
ES Volume 4, Appendix 12.3: Construction noise assessment details [APP-136]	The proposed Order Limits and layout as a result of the seven changes to the DCO Application (changes 3 to 9) introduced additional receptors to consider during the construction phase.	Updates to noise levels for each receptor as a result of Order Limits and layout change. Resubmitted on 10 September as:

Document reference	Reason for amendment	ES Amendment September 2025
		ES Volume 4, Appendix 12.3: Construction noise assessment details – Rev 2 (clean) ES Volume 4, Appendix 12.3: Construction noise assessment details – rev 2 (tracked)
ES Volume 4, Appendix 14.1: Transport Assessment [APP-138]	The proposed Order Limits and layout as a result of the seven changes to the DCO Application (changes 3 to 9) required changes to text to reflect this and updates to junction modelling. Amendments required to account for Carr House Farm Solar Farm.	Changes to Order Limits and layout. Resubmitted on 10 September as: ES Volume 4, Appendix 14.1: Transport Assessment – Rev 3 (clean) ES Volume 4, Appendix 14.1: Transport Assessment – Rev 3 (tracked)
ES Volume 4 Appendix 14.2: Traffic Flow Diagrams [APP-139]	Amendments required to reflect the revised construction traffic routing as a result of Change 9.	Updated to account for Change 9. Resubmitted on 10 September 2025 as:

Document reference	Reason for amendment	ES Amendment September 2025
		ES Volume 4 Appendix 14.2: Traffic Flow Diagrams – Rev 2 (clean) ES Volume 4 Appendix 14.2: Traffic Flow Diagrams – Rev 2 (tracked)
ES Volume 4 Appendix 14.3: Junction Modelling Output Files [APP-140]	The proposed Order Limits and layout as a result of Change 9 required changes to reflect this.	Updated to account for Change 9. Resubmitted on 10 September 2025 as: ES Volume 4 Appendix 14.3: Junction Modelling Output Files – Rev 2 (clean) ES Volume 4 Appendix 14.3: Junction Modelling Output Files – Rev 2 (tracked)
ES Volume 4, Appendix 14.5: Swept Path Analysis [APP-142]	The proposed Order Limits and layout as a result of the seven changes to the DCO Application (changes 3 to 9) meant that changes to the document needed to be made.	Changes to Order Limits and layout. Resubmitted on 10 September as: ES Volume 4, Appendix 14.5: Swept Path Analysis – Rev 2 (clean)

Document reference	Reason for amendment	ES Amendment September 2025
		ES Volume 4, Appendix 14.5: Swept Path Analysis – Rev 2 (tracked)
ES Volume 4, Commitments Register [REP1-028 and REP1-029]	Updates required in following the change application in respect of changes 3, 4, 5, 6, 8 and 9.	Updates to commitments: 116, 149, 476, 488, 512, 523. New commitments 676 and 677 added.

4.5 Deadline 3

- 4.5.1 **Table 4-5** outlines amendments to ES Volume 4 documents that have been identified in response to Deadline 2 submissions, Written Representations submitted at Deadline 2 **[REP2-153 – REP-157]**, and/or the ExA's Second Written Questions **[PD-014]** and are submitted to the ExA on 6 October 2025. Certain changes are accompanied by revised versions of the ES Volume 1 and 2 documents. Other changes are reflected in this addendum alone.
- 4.5.2 To the extent that a document forming part of ES Volume 4 is not included in the table below, this is because there is no change to that document required for Deadline 3.

Table 4-5 ES Volume 4 updates - Changes in response to Deadline 2 submissions, written representations submitted at Deadline 2 and the ExA's Second Written Questions

Document reference	Reason for amendment	ES Amendment October 2025
ES Volume 4, Appendix 11.5: Residential Visual Amenity Assessment [APP-132]	Amendments are required to ES Addendum 11.5 as a result of the ExA's Second Written Questions (2.10.2), which requests clarification on the distance of Carr House Farm from the nearest solar PV modules stated in the first row of Table A11.5-2, which did not reflect the pulling back of solar PV modules at the bottom of Field B4 (for details see change/correction 1 in the s51 advice response and certificates of compliance Covering Letter [AS-004]).	Text in the first row of Table A11.5-2 in Appendix 14.1 is amended as follows: " 190 217m north-east to solar PV development in Field B4"
ES Volume 4, Appendix 14.1: Transport Assessment [REP2-133]	Amendments are required to ES Figure 3.5 as a result of the ExA's Second Written Questions (see Table 3-5 of this document for details). ES Figure 3.5 is included within Appendix B of ES Appendix 14.1, which therefore requires amendments.	Appendix B of Appendix 14.1 is updated to include the latest version of ES Figure 3.5.
ES Volume 4, Appendix 15.2: Detailed Cumulative Landscape and Visual Impact Assessment [APP-144]	As set out in the response to comments on Relevant Representations and additional submissions, response to Written Representations and response to Examining Authority Written Questions 1 responses [REP2-038] , the Applicant committed to updating Appendix 15.2 to consider	Updated to consider Molescroft Solar Farm (pre-application) and Drove Lane Solar Farm (25/02275/STPLF). Resubmitted on 6 October 2025 as:

Document reference	Reason for amendment	ES Amendment October 2025
	Molescroft Solar Farm and Drove Lane Solar Farm, with the updated document submitted at Deadline 3.	ES Volume 4, Appendix 15.2: Detailed Cumulative Landscape and Visual Impact Assessment (clean) Revision 2 ES Volume 4, Appendix 15.2: Detailed Cumulative Landscape and Visual Impact Assessment (tracked) Revision 2
ES Volume 4, Commitments Register [REP2-125]	Updates required in response to Deadline 2 submissions, Written Representations submitted at Deadline 2 [REP2-153 – REP-157] , and/or the ExA's Second Written Questions [PD-014] .	Commitment 625 has been removed following recommendations from Natural England for scrapes to not be lined. As a result of this removal, subsequent commitments were automatically renumbered. The following commitments have been amended: 112, 149, 237, 620 to 624, 625 (previously 626) to 633 (previously 634), 635 (previously 636), 638 (previously 639), 640 (previously 641), 648 (previously 649) and 661 (previously 662).

Document reference	Reason for amendment	ES Amendment October 2025
		New commitments 677 to 679 added. Resubmitted on 6 October 2025 as: ES Volume 4, Commitments Register (clean) Revision 5 ES Volume 4, Commitments Register (tracked) Revision 5

4.6 Deadline 4

- 4.6.1 **Table 4-6** outlines amendments to ES Volume 4 documents that have been identified in response to Deadline 3 submissions, examination hearing action points, and other submissions and are submitted to the ExA on 31 October 2025. Certain changes are accompanied by revised versions of the ES Volume 1 and 2 documents. Other changes are reflected in this addendum alone.
- 4.6.2 To the extent that a document forming part of ES Volume 4 is not included in the table below, this is because there is no change to that document required for Deadline 4.

Table 4-6 ES Volume 4 updates - Changes in response to Deadline 3 submissions, examination hearing action points, and other submissions

Document reference	Reason for amendment	ES Amendment October 2025
ES Volume 4, Appendix 7.11: Arboricultural Impact Assessment [REP2-127]	Amendments required in response to question 2.2.20 in the Examining Authority's Written Questions 2 (ExQ2) [PD-014] to clarify how the hedgerow numbering within Table 2 of the Arboricultural Impact Assessment [REP2-127] correlates with the hedgerow numbering in Schedule 13 of the Draft DCO (and associated Tree Preservation Order and Hedgerow Plan [PDA-007]). In making this change, it was identified that further minor amendments were required to align the documents and provide consistency.	Appendix F 'Hedgerow reference table – correspondence with the Tree Preservation Order and Hedgerow Plans is added to Appendix 7.11 to clarify how hedgerow numbering correlates across the two documents. Table 2, and consequently Section 4.1 and paragraph 4.3.2, updated for consistency across the plans. Resubmitted on 31 October 2025 as: ES Volume 4, Appendix 7.11: Arboricultural Impact Assessment (clean) Revision 3 ES Volume 4, Appendix 7.11: Arboricultural Impact Assessment (tracked) Revision 3
ES Volume 4, Appendix 14.1 : Transport Assessment	As part of agenda item 8 of Issue Specific Hearing 2 [EV6-002], clarification was	Table 6.1 and Table 6.3 in Appendix 14.1 are updated to

Document reference	Reason for amendment	ES Amendment October 2025
	requested regarding the number of HGV movements required for construction along the cable route.	clarify the correct number of HGV movements for the grid connection cable route (10 vehicles and therefore 20 vehicle movements per day). Resubmitted on 31 October 2025 as: ES Volume 4, Appendix 14.1: Transport Assessment (clean) Revision 4 ES Volume 4, Appendix 14.1: Transport Assessment (tracked) Revision 4
ES Volume 4, Commitments Register [REP3-022]	Updates required in response to Deadline 3 submissions, examination hearing action points, and other submissions.	Commitment 112 has been amended. New commitments 680, 681 and 682 added. Resubmitted on 31 October 2025 as: ES Volume 4, Commitments Register (clean) Revision 6

Document reference	Reason for amendment	ES Amendment October 2025
		ES Volume 4, Commitments Register (tracked) Revision 6

4.7 Change Request 3

- 4.7.1 **Table 4-7** outlines amendments to ES Volume 4 documents that have been identified in response to the four changes to the DCO Application (changes 10 to 13, about which the ExA was notified on 23 September 2025 **[AS-017]**) and are submitted to the ExA on 31 October 2025. Certain changes are accompanied by revised versions of the ES Volume 1 and 2 documents. Other changes are reflected in this addendum alone.
- 4.7.2 To the extent that a document forming part of ES Volume 4 is not included in the table below, this is because there is no change to that document required as a result of the changes to the DCO Application.

Table 4-7 ES Volume 4 updates - Changes in response to the four changes to the DCO Application (changes 10 to 13, about which the ExA was notified on 23 September 2025)

Document reference	Reason for amendment	ES Amendment October 2025
ES Volume 4, Commitments Register [EN010157/APP/6.4 Revision 6]	Updates required in response to Changes 10-13.	New commitments 683, 684 and 685 added. Resubmitted on 31 October 2025 as: ES Volume 4, Commitments Register (clean) Revision 7

Document reference	Reason for amendment	ES Amendment October 2025
		ES Volume 4, Commitments Register (tracked) Revision 7

4.8 Deadline 5

- 4.8.1 **Table 4-8** outlines amendments to ES Volume 4 documents that have been identified in response to Deadline 4 submissions **[REP4-079 to REP4-087]**, the Examining Authority's Third Written Questions **[PD-019]**, and other submissions and are submitted to the ExA on 28 November 2025.
- 4.8.2 To the extent that a document forming part of ES Volume 4 is not included in the table below, this is because there is no change to that document required for Deadline 5.

Table 4-8 ES Volume 4 updates - Changes in response to Deadline 4 submissions, the Examining Authority's Third Written Questions, and other submissions

Document reference	Reason for amendment	ES Amendment November 2025
ES Volume 4, Appendix 5.6: Flood Risk Assessment [REP1-032 to REP1-049]	- Updates to all figures and drawings to reflect the latest Order Limits. - Discusses the extension of the Order Limits to include the access from the A1035 to the north concluding that there is no significant risk of flooding to it and it has no material bearing on the conclusions of the FRA.	Resubmitted on 28 November 2025 as: ES Volume 4, Appendix (clean) Revision 4 ES Volume 4, Appendix (tracked) Revision 4

Document reference	Reason for amendment	ES Amendment November 2025
	- Provides tabulated mitigation levels in metres above Ordnance Datum for each land area. - Clarification that the proposed access tracks would be formed of permeable materials in accordance with the IDB's requirements. - Confirmation that the proposals will have no impact on existing raised defences. - Amendment to reflect that the IDB have agreed that hybrid packs can drain to gravel beds. - Clarification regarding modelling work undertaken to assess the impact of watercourse crossings.	
ES Volume 4, Appendix 7.7: Water Vole and Otter Habitat Suitability Report [APP-111]	It was noticed that further amendments to those set out in Table 4-4 of this document were required in order to reflect new or removed survey points as a result of design changes.	Resubmitted on 28 November 2025 as: ES Volume 4, Appendix 7.7: Water Vole and Otter Habitat Suitability Report (clean) Revision 2 ES Volume 4, Appendix 7.7: Water Vole and Otter Habitat Suitability Report (tracked) Revision 2

Document reference	Reason for amendment	ES Amendment November 2025
ES Volume 4, Appendix 7.8: Aquatic Walkover Report [APP-112]	It was noticed that further amendments to those set out in Table 4-4 of this document were required in order to reflect new or removed survey points as a result of design changes.	Resubmitted on 28 November 2025 as: ES Volume 4, Appendix 7.8: Aquatic Walkover Report (clean) Revision 2 ES Volume 4, Appendix 7.8: Aquatic Walkover Report (tracked) Revision 2
ES Volume 4, Commitments Register [REP4-0871]	Updates required to align with amendments to other documents and in response to Deadline 4 submissions [REP4-079 to REP4-087] , the Examining Authority's Third Written Questions [PD-019] , and other submissions.	Commitments 202 and 203 have been removed as the assets they relate to lie outside of the Order Limits, meaning implementation of the mitigation measures is not within the control of the Applicant and therefore not considered to be feasible (i.e. for the same reasons as commitments 200 and 201 were removed, as set out in Table 4-2). It should be noted that the mitigation measures set out in these commitments were not considered in the assessment in the submitted ES Volume 2, Chapter 9: Cultural Heritage [APP-049] and therefore the conclusions of the assessment

Document reference	Reason for amendment	ES Amendment November 2025
		are not affected by their removal. As a result of commitments being removed, subsequent commitments were automatically renumbered. Commitment 680 (previously 682) has been amended. Resubmitted on 28 November 2025 as: ES Volume 4, Commitments Register (clean) Revision 8 ES Volume 4, Commitments Register (tracked) Revision 8
ES Volume 4, Non-Technical Summary of the Environmental Statement [APP-094]	Updates required to ensure the Non-Technical Summary is aligned with amendments to ES Volume 1 and 2 documents, and to ensure figures within the Non-Technical Summary reflect the up-to-date Order Limits and Proposed Development layout.	Resubmitted on 28 November 2025 as: ES Volume 4, Non-Technical Summary of the Environmental Statement (clean) Revision 2 ES Volume 4, Non-Technical Summary of the Environmental Statement (tracked) Revision 2

5 Summary of documents updated

5.1.1 **Table 5-1** provides a collated summary of the updates to DCO Application documents that are reported in this ES Addendum. **Table 5-1** identifies the DCO Application documents that have been updated and when, with a cross reference to where the relevant detail of the update can be found and references to new published versions, where relevant. Documents are listed in order of the Application Document numbering as identified in the Peartree Hill Solar Farm Examination Library.
