# 1. Introduction

## 1.1. Purpose of this Document

1.1.1. This document has been updated during the pre-examination stage in response to the **Post-Acceptance Section 51 Advice to the Applicant** and the **Section 55 Checklist**, as issued by the Planning Inspectorate on 23 October 2025. References to other application documents have not been updated from the original submission. Please refer to the **Guide to the Application [EN010158/APP/1.2.2]** (this document) for the list of current versions of documents.

~~4.1.1.~~1.1.2. On behalf of Rosefield Energyfarm Limited (the 'Applicant'), this document provides a guide for the Development Consent Order (DCO) (the 'DCO Application') for Rosefield Solar Farm made to the Secretary of State for Energy Security and Net Zero ('Secretary of State') pursuant to the Planning Act 2008 (the 'PA 2008').

~~4.1.2.~~1.1.3. The Proposed Development comprises the construction, operation (including maintenance), and decommissioning of solar photovoltaic ('PV') development and energy storage, together with associated infrastructure and an underground cable connection to the National Grid East Claydon Substation.

~~4.1.3.~~1.1.4. The Proposed Development would include a generating station with a total exporting capacity exceeding 50 megawatts ('MW').

~~4.1.4.~~1.1.5. The Proposed Development meets the criteria to be classified as a Nationally Significant Infrastructure Project ('NSIP') pursuant to Sections 14(1)(a) and 15(1) and (2) of the PA 2008, as an onshore generating station in England with a capacity exceeding 50MW.

~~4.1.5.~~1.1.6. A detailed technical description of the Proposed Development is included within the **Environmental Statement ('ES') Volume 1, Chapter 3: Proposed Development Description [EN010158/APP/6.1]**.

~~4.1.6.~~1.1.7. This Guide aims to help the Examining Authority (ExA) and Interested Parties understand the DCO Application through signposting to the documents that make up the DCO Application. This Guide provides an overview of the documents that have been submitted in order to satisfy the Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009 (as amended) (the 'APFP Regulations'), the Infrastructure Planning (Environmental Impact Assessment) Regulations 2017 (the 'EIA Regulations 2017') and Section 37 of the PA 2008.

~~4.1.7.~~1.1.8. Regulation 5 of the APFP Regulations sets out the documents that all DCO applications must include. The APFP Regulations also provide at Regulation 5(2)(q) for the submission of "*any other documents considered*

*necessary to support the application” as well as at Regulation 5(2)(o) for “any other plans, drawings and sections necessary to describe the proposals...”.*

**4.1.8:1.1.9.** Regulation 6 of the APFP Regulations sets out the specific documentation required in support of draft DCO applications for particular types of development, including generating stations and grid connections.

**4.1.9:1.1.10.** The Proposed Development is an Environmental Impact Assessment (EIA) development and therefore the DCO Application is accompanied by an **ES [EN010158/APP/6.1 - 6.4]** in accordance with the EIA Regulations 2017 and requirements contained therein apply.

## 1.2. The Applicant

- 1.2.1. The Applicant is Rosefield Energyfarm Limited, a joint venture between EDF Renewables UK and Ireland and Padero Solar Ltd (trading as PS Renewables).
- 1.2.2. EDF Renewables UK and Ireland, part of the EDF Group, is one of the world's largest low carbon electricity companies. EDF Renewables UK and Ireland has an operating portfolio of 50 renewable energy sites including battery, onshore and offshore wind and solar (together totalling more than 2 GW) and an expanding renewables portfolio with almost 14 GW of solar and wind projects in planning and development. All this is providing much needed affordable and low carbon electricity. EDF Renewables UK and Ireland's investment and innovation is reducing costs for customers and bringing significant benefits for communities. EDF Renewables UK and Ireland invests in projects and the communities where they operate for the long term, remaining involved in projects over their lifetime from development, construction and operation, all the way through to decommissioning.
- 1.2.3. PS Renewables is one of the largest renewable energy development and construction companies within the United Kingdom with over 7 gigawatts (GW) of NSIPs in development today. PS Renewables are proud of their proven track-record of developing, designing, building, and maintaining our energy projects here in the UK. PS Renewables' projects are owned and backed by some of the world's largest funders and energy utilities who also have aspirations for more clean renewable energy.

## 1.3. Structure of this document

- 1.3.1. The structure of this Guide to the Application is as follows:
- **Section 2** provides an overview of the Proposed Development;
  - **Section 3** issues an overview of the documents that form part of the DCO Application. It specifically discusses the numbering conventions used and the Control Documents;
  - **Section 4** sets out the requirements of part one for a DCO Application, including the application form, Section 55 checklist etc.;

- **Section 5** discusses the key plans, drawings and sections provided for the DCO Application;
- **Section 6** explains the draft Development Consent Order, and the proposed articles associated with this;
- **Section 7** summarises the compulsory acquisition information submitted alongside the DCO Application;
- **Section 8** briefly explains the key reports and statements for the DCO Application, including the Consultation Report and associated appendices, the Planning Statement and the Design Approach Document;
- **Section 9** sets out the approach taken for the ES and references the relevant Figures and Appendices submitted alongside the ES Chapters;
- **Section 10** sets out the other documents that have been submitted alongside the DCO Application, required by Regulation 6 of the APFP Regulations and considered by the Applicant to be required to support the DCO Application in accordance with Regulation 5(2)(q) of the APFP Regulations; and
- **Appendix 1** includes a document schedule of all documents submitted with the DCO Application.

## 2. The Proposed Development

### 2.1. Proposed Development Description

- 2.1.1. The Proposed Development comprises the construction, operation (including maintenance), and decommissioning of PV development and energy storage, together with associated infrastructure and an underground cable connection to the National Grid East Claydon Substation.
- 2.1.2. The Proposed Development would include a generating station with a total exporting capacity exceeding 50MW. **ES Volume 1, Chapter 3: Proposed Development Description [EN010158/APP/6.1]** contains a full description of the Proposed Development.
- 2.1.3. One of the main objectives of the Proposed Development is to contribute to meeting the UK's urgent need for low carbon energy generation. The **Statement of Need [EN010158/APP/5.6]** provides further details.

### 2.2. The Order Limits

- 2.2.1. The Order Limits are shown on the **Location, Order Limits and Grid Coordinate Plans [EN010158/APP/2.1]**, **Land Plans [EN010158/APP/2.2]** and **Works Plans [EN010158/APP/2.3]** which accompany this DCO Application.
- 2.2.2. The Proposed Development comprises approximately 675.05 hectares (ha) located entirely within the administrative boundary of Buckinghamshire Council as shown in **ES Volume 3, Figure 1.1: Location Plan [EN010158/APP/6.3]**.

### 3. Overview of Application Documents

- 3.1.1. The documents submitted as part of the DCO Application have been grouped into the below parts, as noted within **Table 3.1**, to accord with the Planning Inspectorate's (PINS) 'Nationally Significant Infrastructure projects: Advice on the Preparation and Submission of Application Documents' published in August 2024 and updated in July 2025.

**Table 3.1: Guide to the Parts of the DCO Application**

Document Part	Context
<b>Part 1 – Application Forms</b>	Contains the completed Application Form, the Application Cover Letter, this Guide, the Electronic Application Index, and the Section 55 Checklist completed by the Applicant demonstrating the DCO Application can be accepted pursuant to Section 55 of the PA 2008. This also contains Copies of Newspaper Notices and a copy of the Pre-Application Programme Document.
<b>Part 2 – Plans, Drawings and Sections</b>	Contains relevant plans for the Proposed Development, as required by the APFP Regulations and other plans provided to support the DCO Application.
<b>Part 3 – Draft Development Consent Order (DCO)</b>	Contains the draft Statutory Instrument containing the legal powers the Applicant is seeking, alongside with the Explanatory Memorandum.
<b>Part 4 – Compulsory Acquisition Information</b>	Provides evidence for why legal powers of compulsory acquisition are sought, as well as information on how the Proposed Development is to be funded and details of the land interests that are required for the Proposed Development.
<b>Part 5 – Reports and Statements</b>	<p>Contains reports and statements pertaining to the Proposed Development including the Consultation Report and its supporting appendices, the Planning Statement and the Design Approach Document.</p> <p>This also contains the Other Consents and Licences document explaining the provisions of the Draft DCO and how other required consents will be obtained.</p> <p>This also contains two draft Statements of Common Ground.</p>
<b>Part 6 – Environmental Statement</b>	Provides environmental information and an assessment of the likely significant effects of the Proposed Development, as well as a description of proposed mitigation measures.
<b>Part 7 – Additional prescribed information for</b>	Contains additional documents pertaining to the Proposed Development, required by Regulation 6 of the APFP Regulations and considered by the Applicant to be required to support the

Document Part	Context
<b>specific types of projects (Other Documents)</b>	DCO Application in accordance with Regulation 5(2)(q) of the APFP Regulations.

3.1.2. The remainder of this Guide (**Sections 4 to 10**) provides a summary of the purpose of the documents and plans included within each part described in **Table 3.1** above.

3.1.3. In addition, **Appendix 1** of this Guide provides a document schedule, which is a live document that will be updated during subsequent stages of the examination should additional documents be required or updates be made to documents.

3.1.4. A copy of all of the DCO Application submission documents will be available on the PINS' project page following acceptance from the Secretary of State.

## 3.2. Document Numbering

3.2.1. Documents are numbered in sequence within the respective parts (as outlined in **Appendix 1** of this Guide), with the part number being the first digit of a document number. This is followed, where relevant, by the document number, the Chapter and/or Appendix and/or Figure number. For example, EN010158/APP/4.1 is broken down as follows:

- 'EN010158' is the PINs project reference.
- 'APP' denotes that the document forms part of the DCO Application Documents (APP).
- '4.1' where the first part of the document number denotes it is in Volume 4 of the document suites (in this case the Compulsory Acquisition Information). The second digit denotes that it is the first of the compulsory acquisition documents.

## 3.3. Control Documents

3.3.1. The DCO Application contains a number of Control Documents which establish the parameters, consenting envelope and secure the mitigation for the Proposed Development. These are proposed to be secured by the Development Consent Order and are as follows:

- **Land Plans [EN010158/APP/2.2];**
- **Works Plans [EN010158/APP/2.3];**
- **Streets, Rights of Way and Access Plans [EN010158/APP/2.4];**
- **Traffic Regulations Plans [EN010158/APP/2.5];**
- **Design Commitments [EN010158/APP/5.9];**

- **Outline Construction Environmental Management Plan (Outline CEMP) [EN010158/APP/7.2];**
- **Outline Operational Environmental Management Plan (Outline OEMP) [EN010158/APP/7.3];**
- **Outline Decommissioning Environmental Management Plan (Outline DEMP) [EN010158/APP/7.4];**
- **Outline Construction Traffic Management Plan (Outline CTMP) [EN010158/APP/7.5];**
- **Outline Landscape and Ecological Management Plan (Outline LEMP) [EN010158/APP/7.6];**
- **Outline Soil Management Plan (Outline SMP) [EN010158/APP/7.7];**
- **Outline Rights of Way and Access Strategy (Outline RoWAS) [EN010158/APP/7.8];**
- **Outline Battery Safety Management Plan (Outline BSMP) [EN010158/APP/7.9];**
- **Draft Archaeological Management Strategy [EN010158/APP/7.10];**
- **Outline Drainage Strategy [EN010158/APP/7.11]; and**
- **Outline Employment, Skills and Supply Chain Plan [EN010158/APP/7.14].**

3.3.2. The above list forms part of the list of Certified Documents set out at **Schedule 13** of the **Draft DCO [EN010158/APP/3.1]**.

### 3.4. Management Plans

3.4.1. The outline Management Plans included within Part 7 'Additional Prescribed Information and Other Documents' for specific types of projects provide the framework and overarching principles for mitigation during both the construction, operation (including maintenance), and decommissioning phases of the Proposed Development.

3.4.2. The **Draft DCO [EN010158/APP/3.1]** includes Requirements that secure further detailed Management Plans where necessary. These detailed Management Plans are required to be submitted to and approved by an identified statutory body. **Table 3.2** below sets out to which phases of the Proposed Development each outline Management Plan applies.

Table 3.2 – Outline Management Plans and Applicable Project Phases

Document	Construction	Operation (including maintenance)	Decommissioning
Outline CEMP [EN010158/APP/7.2]	X		
Outline OEMP [EN010158/APP/7.3]		X	
Outline DEMP [EN010158/APP/7.4]			X
Outline CTMP [EN010158/APP/7.5]	X		
Outline LEMP [EN010158/APP/7.6]	X	X	X
Outline SMP [EN010158/APP/7.7]	X	X	X
Outline RoWAS [EN010158/APP/7.8]	X	X	X
Outline BSMP [EN010158/APP/7.9]	X	X	X
Draft Archaeological Management Strategy [EN010158/APP/7.10]	X		
Outline Drainage Strategy [EN010158/APP/7.11]	X	X	X
Outline Employment, Skills and Supply Chain Plan [EN010158/APP/7.14]	X	X	X

## 4. Part 1 – Application Forms

- 4.1.1. The **Application Cover Letter [EN010158/APP/1.1]** provides a brief description of the Proposed Development, its location, and a general introduction to the DCO Application.
- 4.1.2. The purpose of this **Guide to the Application [EN010158/APP/1.2]** is set out to above in **Section 1.1** of this document.
- 4.1.3. The **Application Form [EN010158/APP/1.3]** is the standard application form required by Section 37(3)(b) of the PA 2008 to be submitted with the DCO Application. It provides a high-level summary of the Proposed Development and the documents that have been submitted for the Applicant's DCO Application.
- 4.1.4. A **Section 55 Checklist [EN010158/APP/1.4]** is included to demonstrate how the DCO Application fulfils the conditions for acceptance by the Secretary of State under Section 55 of the PA 2008.
- 4.1.5. The **Electronic Application Index [EN010158/APP/1.5]** is the ordered list of all documents and information submitted with the DCO Application. It provides a plain English description of the information contained in each document, electronic file names, reference numbers for each document, and the relevant regulation reference.
- 4.1.6. The **Pre-Application Programme Document [EN010158/APP/1.6]** sets out the timetable and activities undertaken during the pre-application phase of the Proposed Development.
- 4.1.7. The **Copies of Newspaper Notices [EN010158/APP/1.7]** includes the newspaper notices, including text and any other information, that were included in newspapers to publicise the Proposed Development, such as for consultation events.

## 5. Part 2 – Plans, Drawings and Sections

- 5.1.1. In addition to the **Location, Order Limits and Grid Coordinate Plans [EN010158/APP/2.1]**, five additional plans are submitted as part of the DCO Application. In accordance with Regulation 5(4) of the APFP Regulations, where there are three or more separate drawing sheets, a key plan is provided to enable the reader to understand the relationship between the different sheets.
- 5.1.2. The **Land Plans [EN010158/APP/2.2]** illustrate the land required for, or affected by, the Proposed Development. This includes (a) land over which it is proposed to exercise powers of compulsory acquisition or any right to use land (b) land in which it is proposed to extinguish easements, servitudes, and other private rights and (c) land over which temporary possession is sought. These plans correspond to the **Book of Reference [EN010158/APP/4.3]**.
- 5.1.3. The **Works Plans [EN010158/APP/2.3]** demonstrate the relationship between the proposed location of the Proposed Development and the limits of deviation within which the development and works may be carried out. The areas on the Works Plans are numbered, and these correspond to the numbered works set out in **Schedule 1** of the **Draft DCO [EN010158/APP/3.1]** which are proposed to be authorised by the DCO.
- 5.1.4. The **Streets, Rights of Way and Access Plans [EN010158/APP/2.4]** illustrate any new or altered means of access, permanent and temporary alteration of streets, street works, diversion and creation of public rights of way and temporary management of public rights of way.
- 5.1.5. The **Traffic Regulations Plans [EN010158/APP/2.5]** show details of temporary speed changes and temporary traffic signals required for the Proposed Development.
- 5.1.6. **Illustrative Layout Plans and Sections [EN010158/APP/2.6]** are provided to demonstrate the anticipated design and layout of the Proposed Development.
- 5.1.7. Other plans/drawings illustrating the Proposed Development are provided within the **ES [EN010158/APP/6.1 - 6.4]**.

## 6. Part 3 – Draft Development Consent Order (DCO)

6.1.1. The **Draft DCO [EN010158/APP/3.1]** is the draft statutory instrument which contains the legal powers that the Applicant is seeking to enable it to construct, operate (including maintain), and decommission the Proposed Development, should consent to be granted. It sets out the parameters for what development would be permitted. It is comprised of 49 Articles and 16 Schedules. The Schedules are outlined below:

- **Schedule 1 (Authorised development)** – lists the works that would be authorised by the grant of development consent, which are shown on the **Works Plans [EN010158/APP/2.3]** and to which the Schedule refers;
- **Schedule 2 (Requirements)** – sets out the conditions that the Applicant would be required to accord with when implementing the development authorised by the DCO;
- **Schedule 3 (Legislation to be disapplied)** – lists the historic legislation that the Applicant is seeking to disapply for the purposes of the Proposed Development;
- **Schedule 4 (Streets subject to street works)** – sets out the streets that would be subject to street works in connection with the development that would be authorised by the DCO;
- **Schedule 5 (Alteration of streets)** – sets out the streets that would be subject to alterations in connection with the development that would be authorised by the DCO;
- **Schedule 6 (Streets and public rights of way)** – is split into two parts, comprising the following:
  - Part 1: Public Rights of Way to be permanently stopped up and diverted; and,
  - Part 2: Temporary Management of Public Rights of Way.
- **Schedule 7 (Access to works)** – contains details of the permanent accesses that would be created as a result of the Proposed Development;
- **Schedule 8 (Traffic regulation measures)** – sets out areas where traffic regulation measures are proposed and is split into two parts, comprising the following:
  - Part 1 – Temporary Speed Limits; and
  - Part 2 – Temporary Traffic Signals.
- **Schedule 9 (Land in which only new rights etc. may be acquired)** – sets out the land over which the Applicant is seeking to acquire new land rights only rather than acquiring the entire freehold interest in that land. This Schedule should be read in conjunction with the **Land Plans [EN010158/APP/2.2]**;

- **Schedule 10 (Modification of compensation and compulsory purchase enactments for the creation of new rights and imposition of new restrictive covenants)** – amends relevant compulsory purchase legislation to ensure that it can apply to the DCO (particularly in connection with land and rights compulsorily acquired under the DCO);
- **Schedule 11 (Land of which temporary possession may be taken)** – sets out the land of which only temporary possession may be taken, pursuant to Articles 31 (Temporary use of land for constructing the authorised development).
- **Schedule 12 (Hedgerows to be removed)** – sets out details of hedgerows to be removed in two parts, comprising:
  - Part 1 – Removal of hedgerows; and
  - Part 2 – Removal of important hedgerows.
- **Schedule 13 (Documents and plans to be certified)** – contains a list of documents that would be ‘certified’ if the DCO is made by the Secretary of State.
- **Schedule 14 (Arbitration rules)** – sets out the arbitration process for how any differences under any provision of the DCO will be resolved.
- **Schedule 15 (Protective provisions)** – sets out protective provisions for the benefit of statutory undertakers whose equipment may be affected by the development that would be authorised by the DCO. This is set out in four parts currently, comprising:
  - Part 1 – For the protection of electricity, gas, water and sewerage undertakers;
  - Part 2 – For the protection of operators of electronic communications code networks;
  - Part 3 – For the protection of drainage authorities; and
  - Part 4 – For the protection of Buckingham and River Ouzel Internal Drainage Board.
- **Schedule 16 (Procedure for discharge of requirements)** – provides a bespoke procedure for dealing with an application made to the relevant authority (as defined in the Schedule) for any consent, agreement or approval required or contemplated by the provisions of the DCO. It sets out time periods within which decisions must be made and provides for deemed approval of the applications in certain circumstances. It also makes provision for appeals to be made in the event of a refusal of an application or if the relevant authority requires further information to be provided in relation to that application.

6.1.2. The **Explanatory Memorandum [EN010158/APP/3.2]** to the **Draft DCO [EN010158/APP/3.1]** explains the purpose and effect of each provision in the draft DCO including why it is considered necessary. It also identifies examples of precedents from other DCOs where applicable.

- 6.1.3. The Applicant requires a range of consents and agreements to construct and operate the Proposed Development. As explained in the **Explanatory Memorandum [EN010158/APP/3.2]** to the **Draft DCO [EN010158/APP/3.1]**, some of these are included in the Order. However, there are other consents from different regulatory organisations that will be required separately from the Order (see the **Schedule of Other Consents and Licences [EN010158/APP/5.5]**).

## 7. Part 4 – Compulsory Acquisition Information

- 7.1.1. Part 4 provides the evidence to justify the legal powers sought for compulsory acquisition as well as information on how the Proposed Development is to be funded. The **Statement of Reasons [EN010158/APP/4.1]** explains that there is a compelling case in the public interest which would justify the Applicant's exercise of powers of compulsory acquisition in order to acquire land and rights permanently and to use land temporarily to enable it to construct, operate (including maintain) and decommission the Proposed Development. The **Schedule of Negotiations and Powers Sought [EN010158/APP/4.4]** should be read alongside the Statement of Reasons, which sets out the status of negotiations with landowners and the powers sought over the Order land.
- 7.1.2. The **Funding Statement [EN010158/APP/4.2]** details how the Proposed Development, including any compulsory purchase acquisition, would be funded.
- 7.1.3. The **Book of Reference [EN010158/APP/4.3]** identifies all the parties who own or occupy land and/or have an interest in or right over the land affected by the Proposed Development and/or who may be entitled to make a 'relevant claim' as defined in Section 57 of the PA 2008. It is structured in five parts in accordance with the regulatory requirements:
- Part 1: Categories 1 & 2: Owners, Lessees and/or Tenants, Occupiers, Other Interest, Power to Convey or Release Land;
  - Part 2: Category 3: Section 10 of the Compulsory Purchase Act 1965 and/or Part 1 Land Compensation Act 1973;
  - Part 3: Easements or other private rights proposed to be interfered with, suspended or extinguished;
  - Part 4: Crown Land: defined in section 227 of the 2008 Act and includes interests belonging to Government departments among other Crown interests; and
  - Part 5: Land the Acquisition of which Is Subject to Special Parliamentary Procedure, Is Special Category Land or Is Replacement Land.

## 8. Part 5 – Reports and Statements

- 8.1.1. Part 5 includes the **Consultation Report [EN010158/APP/5.1]** and the **Consultation Report Appendices [EN010158/APP/5.2]**. The Consultation Report explains how the Applicant has complied with the consultation requirements set out in the PA 2008; the APFP Regulations and the EIA Regulations 2017.
- 8.1.2. The Consultation Report also accords with the guidance set out in the Department for Levelling Up, Housing and Communities (now the Ministry of Housing, Communities and Local Government), 'Planning Act 2008: Pre-application Stage for Nationally Significant Infrastructure Projects' (April 2024) and the Planning Inspectorate's 'Nationally Significant Infrastructure Projects: Advice on the Consultation Report' (March 2025).
- 8.1.3. The **Consultation Report [EN010158/APP/5.1]** is structured as follows:
- Chapter 1 – Introduction;
  - Chapter 2 – Phase one consultation 2023;
  - Chapter 3 – Stakeholder and community engagement;
  - Chapter 4 – Approach to statutory consultation and development of the SoCC;
  - Chapter 5 – Phase two consultation 2024;
  - Chapter 6 – Responses to phase two consultation;
  - Chapter 7 – Additional targeted consultations; and
  - Chapter 8 – Conclusion.
- 8.1.4. The **Consultation Report Appendices [EN010158/APP/5.2]** are included within the Report as follows:
- Appendix A-1 to A-4;
  - Appendix B-1 to B-2;
  - Appendix C-1 to C-4;
  - Appendix D-1 to D-4;
  - Appendix E-1;
  - Appendix F-1;
  - Appendix G-1 to G-3;
  - Appendix H-1;
  - Appendix I-1;
  - Appendix J-1 and J-2;
  - Appendix K-1 to K-4;

- Appendix L-1 and L-2; and
- Appendix M-1 and M-2.

- 8.1.5. The **HRA No Significant Effects Report (NSER) [EN010158/APP/5.3]** identifies any internationally designed nature conservation sites within the potential zone of influence of the Proposed Development and determines whether any potential impact pathways between the Proposed Development and any of these internationally designated sites exist.
- 8.1.6. The **Statutory Nuisance Statement [EN010158/APP/5.4]** identifies the matters set out in Section 79 of the Environmental Protection Act 1990 in respect of statutory nuisances and considers whether the Proposed Development would engage one or more of those matters, as required by Regulation 5(2)(f) of the APFP Regulations. Where any matters may be potentially engaged, this statement sets out its proposals for mitigating or limiting them.
- 8.1.7. The purpose of the **Schedule of Other Consents and Licences [EN010158/APP/5.5]** is to provide information on the additional consents and licences that are or may be required outside of the **Draft DCO [EN010158/APP/3.1]** to construct and operate the Proposed Development.
- 8.1.8. The **Statement of Need [EN010158/APP/5.6]** explains the need for the Proposed Development and extends the case made in the National Policy Statements relevant to energy infrastructure for low carbon energy generation which is of critical national priority. It draws upon established and emerging primary analysis and opinion by respected third parties, to support the case that the Proposed Development is required to ensure that the UK remains on track to meet its legally binding carbon emissions reduction targets while enhancing national security of supply, and at a cost which, in relation to other electricity generation infrastructure developments, provides value for money for end-use consumers.
- 8.1.9. The **Planning Statement [EN010158/APP/5.7]** details the Proposed Development's compliance with the relevant planning policy framework at national and local levels and other matters which the Applicant considers are important and relevant to the Secretary of State's decision. As part of the Planning Statement, there are five appendices including a: Site Selection Report; Mineral Safeguarding Assessment; Planning History; Policy Compliance Assessment Tables and Sequential and Exception Tests.
- 8.1.10. The **Design Approach Document [EN010158/APP/5.8]** provides information regarding the context of the Proposed Development's location and context, the design approach and evolution, the green infrastructure strategy, and the detailed design process.
- 8.1.11. The **Design Commitments [EN010158/APP/5.9]** document provides information of the detailed design and project parameters for the Proposed Development. Commitments and parameters are required to secure elements of the design that are not covered within the Control Documents listed above. The

commitments and parameters will be secured via a requirement of the **Draft DCO [EN010158/APP/3.1]**.

- 8.1.12. The **Potential Main Issues for Examination [EN010158/APP/5.10]** document provides the Examining Authority with a summary of the main residual issues with key stakeholders remaining at the time of the DCO Application's submission.
- 8.1.13. Two Statements of Common Ground (SoCG) **[EN010158/APP/5.11 – 5.13]** have been submitted together with this DCO Application as agreed drafts between the Applicant and Buckinghamshire and Milton Keynes Fire Authority and UKHSA. These draft SoCGs will be revised with the relevant party through examination whilst Statements of Common Ground with additional parties are anticipated to be entered into examination.

## 9. Part 6 – Environmental Statement

- 9.1.1. The Applicant has conducted an EIA for the Proposed Development to consider what significant effects the Proposed Development is likely to have on the surrounding environment.
- 9.1.2. Part 6 reports the findings of the EIA within **ES Volumes 1 and 2**, and its supporting Figures within **Volume 3 [EN010158/APP/6.3]** and Appendices within **Volume 4 [EN010158/APP/6.4]**. A **Non Technical Summary** of the ES has also been submitted as a stand-alone document within Volume 4 **[EN010158/APP/6.4]**.
- 9.1.3. **Volumes 1 and 2 of the ES [EN010158/APP/6.1 & 6.2]** are formed of the following chapters:

### Volume 1

- Chapter 00: Glossary;
- Chapter 1: Background and Context;
- Chapter 2: Location of the Proposed Development;
- Chapter 3: Proposed Development Description;
- Chapter 4: Reasonable Alternatives Considered; and
- Chapter 5: Approach to the EIA.

### Volume 2

- Chapter 6: Air Quality;
- Chapter 7: Biodiversity;
- Chapter 8: Climate;
- Chapter 9: Cultural Heritage;
- Chapter 10: Landscape and Visual;
- Chapter 11: Land and Groundwater;
- Chapter 12: Soil;
- Chapter 13: Noise and Vibration;
- Chapter 14: Population;
- Chapter 15: Transport and Access;
- Chapter 16: Water; and
- Chapter 17: Cumulative Effects.

- 9.1.4. **Volume 3 of the ES [EN010158/APP/6.3]** includes the relevant Figures which support the findings discussed within the ES. All relevant Figures for each topic

specific chapter have been grouped for the submission. However, the exhaustive list of figures is as follows:

<b>Figures of the Environmental Statement</b>	<b>Grouped for Submission</b>
Figure 1.1: Location Plan	Background and Context Figures
Figure 1.2: Order Limits	
Figure 2.1: Environmental Considerations	Location of the Proposed Development Figures
Figure 2.2: Existing Public Rights of Way	
Figure 2.3: Topography Plan	
Figure 2.4: Field Numbering System

- 9.1.5. **ES Volume 4 [EN010158/APP/6.4]** includes the relevant Appendices which support the findings discussed within the ES. The Appendices have been grouped together and are set out below. The exhaustive list of Appendices is as follows:

Appendices of the Environmental Statement	Grouped for Submission
Appendix 1.1: Statement of Competence	n/a
Appendix 5.1: EIA Scoping Report	n/a
Appendix 5.2: EIA Scoping Opinion	n/a
Appendix 5.3: EIA Scoping Opinion Response Matrix	Scoping Opinion Response Matrix Appendices
Appendix 5.3a: EIA Scoping Opinion Response Matrix PINS	
Appendix 5.3b: EIA Scoping Opinion Response Matrix Statutory Consultees	
Appendix 5.4: Glint and Glare Assessment	n/a
Appendix 5.5: Health and Wellbeing Summary Statement	n/a
Appendix 5.6: EMF Assessment (Electromagnetic Field Assessment)	n/a
Appendix 5.7: Indicative Construction, Operation and Decommissioning Waste	n/a
Appendix 6.1: Air Quality Assessment	n/a
Appendix 7.1: Preliminary Ecological Appraisal (2022) (Confidential)	n/a
Appendix 7.2: Bat Preliminary Roost Assessment Report (2022)	n/a
Appendix 7.3: Wintering Bird Survey Report (2022)	n/a
Appendix 7.4: Breeding Bird Survey Report (2022) (Confidential)	n/a
Appendix 7.5: Great Crested Newt Habitat Suitability Index and Environmental DNA Report (2023)	n/a
Appendix 7.6: Badger Survey Report (2022) (Confidential)	n/a
Appendix 7.7: Preliminary Ecological Appraisal (2025)	n/a
Appendix 7.8: Otter and Water Vole Survey Report (2023) (Confidential)	n/a
Appendix 7.9: Preliminary Aquatic Survey Report (2023)	n/a
Appendix 7.10: Bat Activity Survey Report (2024)	n/a
Appendix 7.11: Wintering Bird Survey Report (2024)	n/a
Appendix 7.12: Breeding Bird Survey Report (2024) (Confidential)	n/a
Appendix 7.13 - Arboricultural Impact Assessment	n/a
Appendix 7.14: Bat Preliminary Roost Assessment Report (2025)	n/a
Appendix 7.15: Badger Survey Report (2025) (Confidential)	n/a
Appendix 7.16: Paired Static Detector Survey Report (2025)	n/a
Appendix 7.17: Biodiversity Net Gain Assessment	n/a
Appendix 8.1: Climate data sources and assumptions	n/a
Appendix 8.2: Climate Change Resilience Assessment	n/a

Appendices of the Environmental Statement	Grouped for Submission
Appendix 9.1: Archaeological Desk-Based Assessment and Setting Assessment	n/a
Appendix 9.2: Geophysical Survey Report	n/a
Appendix 9.3: Archaeological Trial Trenching Report	n/a
Appendix 9.4: Aerial Investigation and Mapping Report	n/a
Appendix 10.1 - Rosefield LVIA Methodology and Assessment Criteria	n/a
Appendix 10.2 - Rosefield Extracts from Published LCA	n/a
Appendix 10.3 - Rosefield Landscape Sensitivity Appraisal	n/a
Appendix 10.4 - Rosefield Viewpoint Analysis	n/a
Appendix 10.5 - Residential Visual Amenity Assessment	n/a
Appendix 10.6 - LVIA Visualisations	n/a
Appendix 11.1: Preliminary Risk Assessment (Part 1)	n/a
Appendix 11.1: Preliminary Risk Assessment (Part 2) – Annex A – Environmental database report	n/a
Appendix 11.1: Preliminary Risk Assessment (Part 3) – Annex A – Environmental database report	n/a
Appendix 11.1: Preliminary Risk Assessment (Part 4) – Annex A – Environmental database report	n/a
Appendix 11.1: Preliminary Risk Assessment (Part 5) – Annex A – Environmental database report	n/a
Appendix 11.2 - UXO Risk Assessment	n/a
Appendix 11.3 - Ground Investigation Report	n/a
Appendix 12.1 - Agricultural Land Classification Report	n/a
Appendix 13.1 - Baseline Noise Survey	n/a
Appendix 13.2 - Construction Noise Plant Tables and Results	n/a
Appendix 13.3 - Operational Phase Assessment Details	n/a
Appendix 14.1 – List of commercial operations/businesses within the community study area	n/a
Appendix 15.1 - Transport Assessment	n/a
Appendix 16.1 - Flood Risk Assessment	n/a
Appendix 16.2 - WFD Waterbodies Stage 1 Screening Assessment	n/a
Appendix 17.1 - Long List of Other Approved and or Existing Developments	n/a
Appendix 17.2 – Landscape and Visual Inter-project Cumulative Effect Assessment	n/a
Appendix 17.3 – Cumulative Visualisations	n/a

- 9.1.6. **Volume 4** of the **ES [EN010158/APP/6.4]** includes both the **Non Technical Summary** and the **Commitments Register [EN010158/APP/6.4]** which has been provided to record the committed measures to date which are proposed to be secured and implemented to ensure that good design objectives are met.
- 9.1.7. **ES Volume 4, Appendix 7.17: Biodiversity Net Gain Assessment [EN010158/APP/6.4]** presents the Biodiversity Net Gain Assessment which details the predicted biodiversity net gain that could be delivered by the Proposed Development.
- 9.1.8. **ES Volume 4, Appendix 15.1: Transport Assessment [EN010158/APP/6.4]** provides the Transport Assessment of the Proposed Development.

## 10. Part 7 – Other Documents

- 10.1.1. Part 7 provides other documents which the Applicant has submitted to adhere to the APFP Regulations and/or which are considered by the Applicant to be necessary to support the DCO Application.
- 10.1.2. The **Grid Connection Statement [EN010158/APP/7.1]** has been submitted in accordance with Regulation 6(1)(a)(i) of the APFP Regulations. It outlines the details for connecting the solar PV arrays to the National Grid and the responsibilities for the construction of the Grid Connection Cable Corridor.
- 10.1.3. The **Outline CEMP [EN010158/APP/7.2]** sets out the measures that will be included in a detailed Construction Environmental Management Plan to control potential environmental and amenity impacts of construction. In addition, the Management Plan provides a framework for construction environmental controls. Finally, appended to this Management Plan is the **Outline Site Waste Management Plan, Cabling and Grid Connection Method Statement** and the **HDD Fluid Breakout Plan**.
- 10.1.4. The **Outline OEMP [EN010158/APP/7.3]** sets out the measures that will be included in a detailed Operational Environmental Management Plan to control potential environmental and amenity impacts of the operation of the Proposed Development. In addition, the Management Plan provides a framework for operational environmental controls.
- 10.1.5. The **Outline DEMP [EN010158/APP/7.4]** sets out the measures that will be included in a detailed Decommissioning Environmental Management Plan to control potential environmental and amenity impacts of decommissioning. In addition, the Management Plan provides a framework for decommissioning environmental controls.
- 10.1.6. The **Outline CTMP [EN010158/APP/7.5]** sets out the measures that will be provided in a detailed Construction Traffic Management Plan for the traffic generated during the Proposed Development's construction phase. An **Outline Travel Plan** is embedded into this document.
- 10.1.7. The **Outline LEMP [EN010158/APP/7.6]** provides a framework for delivering the Green and Blue Infrastructure elements of the Proposed Development for the pre-construction and operational phase of the development including the successful establishment and future management of the proposed landscape and ecological works for the duration of its operation. Appended to this Management Plan are the **Green and Blue Infrastructure Parameters, Landscape and Ecological Mitigation and Enhancements** and **Vegetation Removal Parameters**.
- 10.1.8. The **Outline SMP [EN010158/APP/7.7]** sets out the principal construction, operation (including maintenance) and decommissioning activities that will be included in a detailed Soil Management Plan and the measures that will be followed during these stages. This will be a live document, and where

necessary, modifications can be made as construction and decommissioning phases are carried out.

- 10.1.9. The **Outline RoWAS [EN010158/APP/7.8]** sets out the measures that will be included in a detailed Rights of Way and Access Strategy required during the construction and operation phases of the Proposed Development to adequately protect Public Rights of Way.
- 10.1.10. The **Outline BSMP [EN010158/APP/7.9]** sets out the risks associated with BESS fires and sets out the commitments/measures proposed to minimise the impact of such an incident during construction, operation (including maintenance) and decommissioning of the Proposed Development.
- 10.1.11. The **Draft Archaeological Management Strategy [EN010158/APP/7.10]** sets out the outline scope of a proposed programme of further trial trenching evaluation for the Proposed Development to inform the detailed design and which will be secured as a DCO Requirement.
- 10.1.12. The **Outline Drainage Strategy [EN010158/APP/7.11]** sets out the outline scope of a detailed drainage strategy and provides recommendations on how surface water runoff from the Proposed Development will be managed.
- 10.1.13. The **Equality Impact Assessment [EN010158/APP/7.12]** considers the potential equality impacts related to the DCO Application for the construction, operation (including maintenance) and decommissioning phases of the Proposed Development.
- 10.1.14. The **BESS Plume Assessment Summary [EN010158/APP/7.13]** provides an assessment of the potential credible worst case air quality impacts of a fire incident at the proposed BESS Compound.
- 10.1.15. The **Outline Employment, Skills and Supply Chain Plan [EN010158/APP/7.14]** outlines how the Applicant would promote the delivery of economic benefits generated by the Proposed Development to the people and businesses across Buckinghamshire.
