1. Introduction

1.1. Project Background

This Schedule of Negotiations and Powers Sought alongside the **Statement of Reasons [EN010158/APP/4.1]** demonstrates that the Applicant has complied with the Ministry of Housing, Communities and Local Government (MHCLG) Guidance of the Compulsory Purchase Process (MHCLG, January 2025), the 'CA Guidance'.

1.1.1. This document has been updated during the pre-examination stage following an error spotted whilst considering the Post-Acceptance Section 51 Advice to the Applicant and the Section 55 Checklist, as issued by the Planning Inspectorate on 23 October 2025. References to other application documents have not been updated from the original submission. Please refer to the Guide to the Application [EN010158/APP/1.2.2] for the list of current versions of documents.

1.1.2. The Applicant has been and continues to seek to acquire the relevant freehold interests, new rights and temporary use of land by private agreement, in order to ensure implementation of the Proposed Development. Whilst seeking compulsory acquisition powers, the Applicant will continue to negotiate and seek to reach voluntary agreement with affected persons wherever possible. This approach of seeking powers of compulsory acquisition in the application for Development Consent Order (DCO), in parallel with conducting negotiations to acquire land rights by agreement, accords with paragraph 2.8 of the CA Guidance.

1.1.3. Each of the tables below sets out the following for each prescribed interest (with slight differences, depending on the nature of the interest and the table it is included within):

- The Affected Person's contact name/organisation;
- Plot number(s), as listed in the Book of Reference **[EN010158/APP/4.3]**;
- Description of rights sought;
- Work Numbers, by reference to the Work Numbers in the **Draft DCO [EN010158/APP/4.3]** and **Works Plans [EN010158/APP/2.3]**
- Reason for acquisition or possession;
- Status of negotiations.

1.1.4. **Table 1** summarises the reason that acquisition of land/rights and temporary possession is required to accommodate the Proposed

Development and sets out the latest position in relation to the voluntary agreements sought. This aligns with the CA Guidance which states that there must be a clear idea how the land to be acquired is to be used.

- 1.1.5. **Table 2** lists plots within the Order land which comprise part of the highway network. While an explanation is provided on why the land is required to accommodate the Proposed Development, a summary of negotiations is not provided here as there are no voluntary rights being sought in relation to the highway other than engaging with the relevant highway's authority as part of the DCO process.
- 1.1.6. **Table 3** below sets out the position in relation to Statutory Undertakers who have been identified as having an interest or apparatus in the Order land and are therefore subject to compulsory acquisition as part of the Application. The table also identifies Statutory Undertakers with whom the Applicant is negotiating protective provisions in respect of the disapplication of legislation in the **Draft DCO [EN010158/APP/3.1]** (note, these bodies don't have land interests, so no plots are identified for them).
- 1.1.7. In accordance with statutory requirements, all plots subject to compulsory acquisition are included within Tables 1 – 3.
- 1.1.8. This Schedule of Negotiations and Powers Sought is one of a number of documents accompanying the DCO application. It should be read in conjunction with the following documents:
- **Land Plans [EN010158/APP/2.2];**
 - **Works Plans [EN010158/APP/2.3];**
 - **Draft DCO [EN010158/APP/3.1];**
 - **Book of Reference [EN010158/APP/4.3];**
 - **Statement of Reasons [EN010158/APP/4.1]**
- 1.1.9. It is envisaged that this Schedule of Negotiations and Powers Sought will be updated at regular intervals throughout Examination, the latest updates will be included in this document in red text at the relevant deadline.
